## **NEWS RELEASE TSX-V: QNC**

**Quantum Numbers Corp. announces that following the notice of allowance received in August 2018, from the United States Patent and Trademark Office (USPTO) the Patent was finally issued.**

**Furthermore, late in December 2018, Russia granted us our first patent in full.**

**Montreal, Canada. January 3 2019 - Quantum Numbers Corp. (the "Corporation" or "QNC") (TSX VENTURE:QNC) is pleased to announce it has recently received a notice of allowance from the United States Patent and Trademark Office ("USPTO") concerning the patent application entitled "Method and System for Generating a Random Bit Sample" ("the new patent") filed earlier last year. As announced at the beginning of last year, this new patent coupled with QNC's quantum random number generator ("QRNG") will monitor numbers generated to ensure that only random numbers are selected from our QRNG.**

**This patent covers the dynamic calibration aspects of that patent pending which had initially been presented.**

**Mr. Phaneuf CEO said "We are really satisfied with the scope of this patent covers the dynamic calibration aspects which is a broad spectrum of the mobile applications we targeted. This second patent, is another important milestone for us, our future clients and partners. We have applied for a continuation application in which we pursue the claims of all the other aspect of the patent pending with an aim to maximize our intellectual property assets in the United States. In addition, the fact that Russia granted all our claims on our first patent, is a good kick start for the new year."**

**About Quantum Numbers Corp.**

**QNC is an innovative developer of cryptographic solutions based on Quantum Random Number Generator. The Corporation's mission is to address the growing demand for affordable hardware security for connected devices. Visit our website at [www.quantumnumberscorp.com](http://www.quantumnumberscorp.com).**
