1. Nature of operations and going concern

Quantum eMotion Corp. (the "Company") was incorporated under the *Business Corporations Act* of Ontario on July 19, 2007.

The head office, principal address and records office of the Company are located at 2300 Alfred Nobel, bureau 209, Montreal, Qc, H4S 2A4. The Company is a developer of a new generation of cryptographic solutions pursuant to the acquisition of licenses.

The business of technology involves a high degree of risk and there can be no assurance that projects under research and development will proceed through to achieve commercialization. Risks related to the value of the Company's intangible assets, completing proof of concept studies, protecting intangible assets rights, the ability of the Company to raise additional financing, and risks inherent to new technologies, such as risk of obsolescence, slow adoption and competing technological advances. Changes in future conditions could require material impairment of assets.

These Condensed financial statements have been prepared in accordance with IFRS Accounting Standards ("IFRS") on a going concern basis, which contemplates that the Company will be able to realize its assets and discharge its liabilities in the normal course of business. For the three-month period ended March 31, 2024, the Company incurred a net loss of \$492,193 (2023 - \$504,492) and had negative cash flows from operations of \$464,390 (2023 - \$588,404). In addition, the Company had accumulated deficit of \$13,651,878 as at March 31, 2024.

Management expects that the working capital of \$1,395,034 (current assets in excess of current liabilities) available to the Company as at March 31, 2024 may not provide the Company with adequate funding to meet its short-term obligations for the next 12 months and to meet the timelines of its research and development programs and pay its overhead and administrative costs. The Company does not expect to generate revenue from product sales unless and until it successfully completes development of its cryptographic solutions, which may take a number of years and is subject to significant uncertainty. The Company expects to incur significant development and commercialization expenses related to product sales, marketing and distribution. As a result, the Company will need additional financing in the future to support its continuing operations. Until such time that it can generate significant revenue from product sales, if ever, the Company expects to finance its operations through a combination of public or private equity or debt financings or other sources. The Company currently has no committed sources of financing available. While the Company has been successful in securing financing in the past, raising additional funds is dependent on a number of factors outside the Company's control, and as such there is no assurance that it will be able to do so in the future. The ability of the Company to meet its commitments and discharge its liabilities as they become due and become profitable is dependent on the completion of the development of its technology and its commercial production, and on its ability to raise additional funding to finance these activities. The conditions mentioned above indicate the existence of a material uncertainty that may cast a significant doubt as to the Company's ability to continue as a going concern.

These Condensed financial statements do not reflect the adjustments to the carrying values of assets and liabilities that would be necessary if the Company were unable to realize its assets or discharge its obligations in anything other than the ordinary course of operations.

2. Basis of preparation

These condensed financial statements have been prepared by management in accordance with IAS 34 Interim Financial Reporting and using the same accounting policies and methods of computation as those used in preparing the audited annual consolidated financial statements for the year ended December 31, 2023. The unaudited condensed financial statements should be read in conjunction with the Company's audited annual financial statements and accompanying notes for the year ended December 31, 2023, which have been prepared in accordance with IFRS as issued by the IASB.

The Board of Directors approved and authorized for issue these condensed financial statements on May 29, 2024.

- (1) On August 3, 2016, the Company entered into an intellectual assignment agreement (“IP agreement”) with Société de commercialisation des produits de la recherche appliquée SOCPRA Sciences et Génie S.E.C. (“SOCPRA”) and its investors. Until the expiry of the last patent rights, which is expected in May 2035, the Company will pay to SOCPRA a royalty of 5% calculated on the net sales price of products sold by the Company. The Company may have an option to buy back the royalties in the future at terms and conditions to be agreed upon by both parties.
- (2) On February 4, 2023, the Company entered into a commercial and technical agreement with a third party. As part of the agreement, the third party will award a contract to the Company for the development of the Sentry-Q technology. Moreover, the Company will receive royalties on all sales completed by the third party in which the Company’s technology will be used.

Rights on royalties are not amortized as they have an indefinite life and are subject to an annual impairment test.

On December 31, 2023, the Company performed its annual impairment test for its rights on royalties intangible asset through the assessment of the recoverable amount of the asset.

The recoverable amount of the asset was determined based on the higher of its value-in-use and fair value less costs of disposal. The value-in-use, which was determined to be of an approximately equal amount with the fair value less costs of disposal, was determined using discounted cash flow model, taking into consideration management’s best estimates of future royalty revenues and discount rates.

The Company determined that the recoverable amount of the rights on royalties’ intangible asset using a discount rate of 50% was approximately nil and therefore recognized an impairment charge of \$350,000. The recoverable amount reflects the Company’s inability to demonstrate, in the foreseeable future, that the asset will generate future royalty revenues, primarily due to the third party’s delays in securing contracts. The uncertainties surrounding the deployment and initial sales of its product, in a context of a market which is not readily responsive and of financial difficulties increase the risks of the third-party generating future sales.

6. Share capital

(a) Authorized

The Company is authorized to issue an unlimited number of:

- voting Class A preferred shares
- voting Class B preferred shares
- voting Class C preferred shares
- voting Class D preferred shares
- special shares (non-voting)
- common shares (voting)

without nominal or par value.

Class A preferred shares are ranked senior to Class B preferred shares, Class B preferred shares are ranked senior to Class C preferred shares, Class C preferred shares are ranked senior to Class D preferred shares, Class D preferred shares are ranked senior to special shares, and special shares are ranked senior to common shares in priority of receiving dividends declared by the Company.

Holders of special shares and common shares shall be entitled to receive pro-rata for the remaining property of the Company after distribution to the holders of Class A, Class B, Class C and Class D preferred shares, on a pro-rata basis.

Dividends for Class A, Class B, Class C and Class D preferred shares are preferential and non-cumulative and are declared in accordance with their respective priority. Dividend rate per share for Class B, Class C and Class D preferred shares is 7% per annum. Dividends are declared at the discretion of the Company's Board of Directors.

During the three-month period ended March 31, 2024, the Company issued 14,998,000 Class A shares as part of a non-brokered private placement (see note 6 (b)). No Class A, Class B, Class C or Class D preferred shares and special shares were issued by the Company as at December 31, 2023.

(b) *Issued and outstanding*

On March 20, 2024, the Company completed a non-brokered private placement, issuing a total of 14,998,000 units at a price of \$0.05 per unit for gross proceeds of \$730,000 (\$19,900 to be issued in April 2024). Each unit is comprised of one common share and one warrant of the Company. Each warrant entitles its holder to acquire one common share of the Company at a price of \$0.15 for a period of 12 months following the closing of the private placement. The securities issued in the private placement are subject to a four month and one day hold period expiring on July 22, 2024.

Unit issuance costs of \$1,000 was recorded and paid in the first quarter of 2024.

Common shares and warrants were valued based on their relative fair values. The fair value of the common shares was determined by the closing price on the date of the transaction. The fair value of the warrants was determined using the Black-Scholes pricing model and based on the following assumptions:

	2024
Share price	\$0.11
Expected volatility	129.01%
Risk-free interest rate	4.14%
Expected average life	1.00
Exercise price	\$0.15

The underlying expected volatility was determined by reference to historical data of the Company. Black-Scholes pricing model requires the input of highly subjective assumptions including the expected price volatility. Changes in these assumptions can materially affect the fair value estimate.

(c) *Stock options*

The Company's share options are as follows for the reporting periods presented:

	March 31, 2024		December 31, 2023	
	Number of options	Weighted average exercise price	Number of options	Weighted average exercise price
		\$		\$
