Mr. Heath continued, "The transition of our two royalties on Pan American Silver's mines moving from development to production will add further diversification of our cash flow in 2020 and continues to advance what we believe to be one of the most exciting development portfolios of royalties."

Pan American Silver Corp. ("**Pan American**") disclosed in their Q3 MD&A on November 6, 2019 that it hauled stockpiled ore from COSE to its Manantial Espejo plant at the end of Q3 2019 with a total milled to-date of 410 tonnes at 42.6 g/t gold and 1,688 g/t silver. Waste development resumed at COSE at the end of Q3 2019, while recommencing mining activities in the ore zones is pending a review of the ground control management procedures and the results of a geotechnical drilling program, which is anticipated to be completed in Q4 2019. Ore is being stockpiled on surface prior to transporting to the Manantial Espejo plant for processing.
