

SKRR Exploration Announces Assays Pending

Vancouver, British Columbia--(Newsfile Corp. - December 16, 2020) - SKRR Exploration Inc. (TSXV: **SKRR**) (OTC Pink: **SKKRF**) (FSE: **B04Q**) ("**SKRR**" or the "**Company**") announces that the assays from the previously completed 18 hole, 2,986m drill program on the Olson property (the "**Property**") are still pending. The delay in assays is not unique to SKRR; assay laboratories around the world are struggling to keep up with the volume of drilling that has occurred and the realities of COVID-19 are adding further delays to all mining companies.

Sherman Dahl, CEO of SKRR, commented:

"We are very pleased with the completed Olson drill program and will provide drill results upon receipt and analysis of the assays. Saskatchewan, and in particular, the Trans Hudson Corridor, is gaining momentum with various other promising assets and companies in this region, including, SSR Mining, Alamos Gold, Taiga Gold., MAS Gold. We look forward to continuing our success and progress on our projects in 2021. I have purchased additional shares in the open market and will continue to support this company, the shareholders, and our stakeholders."

About SKRR Exploration Inc.:

SKRR is a Canadian-based precious metal explorer with properties in Saskatchewan - one of the world's highest ranked mining jurisdictions. The primary exploration focus is on the Trans-Hudson Corridor in Saskatchewan in search of world class precious metal deposits. The Trans-Hudson Orogen - although extremely well known in geological terms has been significantly under-explored in Saskatchewan. SKRR is committed to all stakeholders including shareholders, all its partners and the environment in which it operates.

Forward-Looking Information

This news release contains "forward-looking information or statements" within the meaning of applicable securities laws, which may include, without limitation, statements that address the plans for 2021, receipt of assays, other statements relating to the technical, financial and business prospects of the Company, its projects and other matters. All statements in this news release, other than statements of historical facts, that address events or developments that the Company expects to occur, are forward-looking statements. Although the Company believes the expectations expressed in such forward-looking statements are based on reasonable assumptions, such statements are not guarantees of future performance and actual results may differ materially from those in the forward-looking statements. Such statements and information are based on numerous assumptions regarding present and future business

strategies and the environment in which the Company will operate in the future, including the price of metals, the ability to achieve its goals, that general business and economic conditions will not change in a material adverse manner, that financing will be available if and when needed and on reasonable terms. Such forward-looking information reflects the Company's views with respect to future events and is subject to risks, uncertainties and assumptions, including those filed under the Company's profile on SEDAR at www.sedar.com. Factors that could cause actual results to differ materially from those in forward looking statements include, but are not limited to, continued availability of capital and financing and general economic, market or business conditions, adverse weather conditions, decrease in the price of gold and other metals, equipment failures, failure to maintain or obtain all necessary government permits, approvals and authorizations, the impact of Covid-19 or other viruses and diseases on the Company's ability to operate, failure to maintain community acceptance (including First Nations), increase in costs, litigation, and failure of counterparties to perform their contractual obligations. The Company does not undertake to update forward-looking statements or forward-looking information, except as required by law.
