**1. NATURE AND CONTINUANCE OF OPERATIONS**

Cariboo Rose Resources Ltd. (the “Company”) is incorporated in the Province of British Columbia. Its principal business activities are the acquisition and exploration of gold, copper and other precious and base metal properties in Canada. The Company is in the process of actively exploring its mineral properties and has not yet determined whether these properties contain ore reserves that are economically recoverable. The Company is considered to be in the exploration stage and does not have operating cash flows.

The Company’s shares are listed for trading on the TSX-Venture Exchange (the “Exchange”) under the symbol CRB. Its registered office is located at 110-325 Howe Street, Vancouver, British Columbia V6C 1Z7.

These financial statements have been prepared on the basis of accounting principles applicable to a going concern which assumes that the Company will be able to realize its assets and discharge its liabilities in the normal course of operations. The ability of the Company to fund its potential future operations and commitments is dependent upon the ability of the Company to obtain additional financing. There is a risk that additional financing will not be available on a timely basis or on terms acceptable to the Company. These financial statements do not reflect the adjustments or reclassifications that would be necessary if the Company were unable to continue operations. Such adjustments and reclassifications could be material.

**2. BASIS OF PREPARATION**

**Statement of Compliance**

These condensed interim financial statements have been prepared in accordance with International Accounting Standard 34 - Interim Financial Reporting of International Financial Reporting Standards as issued by the International Accounting Standards Board (“IFRS”). The condensed interim financial statements should be read in conjunction with the Company’s annual financial statements for the year ended February 28, 2023, which have been prepared in accordance with IFRS.

These financial statements were approved for issue by the Company’s board of directors on October 30, 2023

**Accounting estimates and judgments**

The preparation of these financial statements required management to make estimates, judgments and assumptions that affect the reported amounts and other disclosures in these financial statements. The estimates and assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

The estimates, judgments and assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only that period or in the period of the revision and future periods if the revision affects both the current and future periods.

Critical accounting estimates are estimates, judgments and assumptions made by management that may result in material adjustments to the carrying amount of assets and liabilities within the next financial year. Critical estimates used in the preparation of these financial statements include, among others, the recoverability of accounts receivable, determination of realizable amounts of deferred tax assets and liabilities, impairment of the carrying value of non-financial assets, estimation of provisions, measurement of the fair value of tax benefits sold and measurement of equity instruments and share-based compensation.

Critical accounting judgments are accounting policies that have been identified as being complex or involving subjective judgments or assessments. Critical accounting judgments include the expected economic lives of and the estimated future operating results and net cash flows from equipment, the classification of financial instruments, and the recognition of deferred tax assets and liabilities.

#### 3. INVESTMENTS

The Company has the following investment in equity instruments measured at FVOCI:

	August 31, 2023			February 28, 2023		
	Number of Shares	Cost	Fair Value	Number of Shares	Cost	Fair Value
Vizsla Copper Corp.	174,729	\$ 84,478	\$ 41,776	174,729	\$ 84,478	\$ 39,314
Basin Uranium	25,000	10,000	4,500	25,000	10,000	10,000
CMP Mining	100,000	6,000	4,000	100,000	6,000	12,000
		\$ 100,478	\$ 50,276		\$ 100,478	\$ 61,314

The Company has irrevocably designated this investment in equity instruments as measured at FVOCI rather than FVTPL as it is not held for trading and the FVOCI classification is considered more appropriate for these strategic investments. The fair value of this equity investment is based on quoted market prices at the reporting dates which is a Level 1 fair value measurement.

### 6. SHARE CAPITAL

#### Authorized

- Unlimited common shares without par value
- Unlimited preferred shares without par value

#### Share Purchase Options

The Company issues options to directors, officers, and employees of the Company, and persons who provide ongoing services to the Company, under an incentive stock option plan. Share option terms issued under this stock option plan are at the discretion of the Board of Directors and generally include contractual lives of five years and exercise prices based on the fair market value of the common shares at the grant date. Options will normally vest entirely on the date of grant for directors, officers and employees and at the rate of 25% on the date of the grant and 25% every three months thereafter for consultants.

A summary of changes in common share purchase options for the six months ended August 31, 2023 and 2022 is:

	Six months ended August 31, 2023		Six months ended August 31, 2022

**8. DILUTED INCOME OR LOSS PER SHARE**

The Company's diluted loss per share is equal to its basic loss per share. Outstanding share purchase options and warrants could potentially dilute basic loss per share in the future but were not included in the calculation of diluted loss per share because they are antidilutive for the six months ended August 31, 2023.

**9. RELATED PARTY DISCLOSURES**

Related party transactions are recorded at the exchange amount as agreed to by the parties.

In the normal course of business, the Company will enter into transactions with a related company, Eastfield Resources Ltd. ("Eastfield"), for the use of equipment, services and rental of office space. The Company is related to Eastfield through common key management personnel. During the six months ended August 31, 2023, amounts payable for rent, salaries, telephone, office, consulting, convention and travel costs to Eastfield amounted to \$75,5819 (six months ended August 31, 2022 - \$57,541). At August 31, 2023, payable to related parties included \$4,073 (February 28, 2023 - \$13,625) payable to Eastfield.

During the six months ended August 31, 2023, geological services totaling \$46,896 (six months ended August 31, 2022 - \$51,568) were provided to the Company by Mincord Exploration Consultants Ltd. ("Mincord"), a geological service company owned by two directors of the Company. Mincord's relationship with the Company is non-exclusive and without retainer, and Mincord is used on a project-by-project basis. Services provided include the hiring of field and professional personnel, rental of vehicular, camp and technical equipment, and transportation and mobilization costs. The amounts for geological and exploration services also include payments for services on properties managed by the Company on behalf of joint venturers. At August 31, 2023, payable to related parties included \$5,995 (February 28, 2023 - \$5,355) payable to Mincord.

During the year ended February 29, 2012, the Company transferred reclamation bonds totaling \$12,000, which had been released by the Ministry of Energy, Mines and Petroleum Resources, to Eastfield. This amount remains a receivable from Eastfield at August 31, 2023.

**10. RISK MANAGEMENT AND FINANCIAL INSTRUMENTS**

The Company's financial instruments are exposed to certain risks, which include credit, liquidity, and market risk. The risks related to financial instruments are managed by the senior management of the Company under policies and directions approved by the Board of Directors.

**Liquidity Risk**

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. Accounts payable and accrued liabilities and payable to related parties are due within the current operating period. The Company's lease obligations are due as set out in Note 5. The Company manages liquidity risk through the management of its capital structure (Note 11) and financial leverage.

**Credit Risk**

Credit risk is the risk of an unexpected loss if a customer or third party to a financial instrument fails to meet its contractual obligations. The Company's cash is held at large Canadian financial institutions. The Company's receivables consist mostly of Goods and Services Tax due from the federal government of Canada and mineral exploration project deposits and tax credit receivable from the Government of British Columbia. As such, the Company considers this risk to be minimal and has not recognized an expected credit loss allowance in these financial instruments. As at August 31, 2023 and 2022 none of the Company's financial instruments subject to credit risk were past due or impaired.

The Company has determined that the expected credit losses on its accounts receivable and project deposits are not significant and accordingly has not recognized an allowance for expected credit losses as at August 31, 2023 and 2022.

#### **Market Risk**

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. The Company's market risk is comprised of two types of risk: interest rate risk, and equity price risk.

(i) Interest Rate Risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates.

The Company is exposed to interest rate risk when holding fixed rate short term deposits of varying maturities. The risk that the Company will realize a loss as a result of a decline in the fair value of the cash equivalents investments is limited because these investments are generally highly liquid securities with short-term maturities. As at August 31, 2023 and 2022, the Company considers its exposure to interest rate risk to be minimal.

(ii) Equity Price Risk

Equity risk is the uncertainty associated with the valuation of assets arising from changes in equity markets. The Company is exposed to this risk through its investment in equity instruments. All of the Company's listed equity investments (Note 4) are common shares of companies listed on the Toronto Stock Exchange and the Toronto Stock Exchange's Venture Exchange and are monitored by management with decisions on sale taken at the board level.

### **11. MANAGEMENT OF CAPITAL**

The Company's objectives when managing capital are to safeguard the Company's ability to continue as a going concern in order to pursue the exploration and development of its mineral property interests, and to maintain a flexible capital structure which optimizes the costs of capital at an acceptable risk. The Company considers its capital for this purpose to be its shareholders' equity.

The Company manages the capital structure and makes adjustments to it in light of changes in economic conditions and the risk characteristics of the underlying assets. To maintain or adjust the capital structure, the Company may issue new shares or debt, acquire or dispose of assets or adjust the amount of cash and investments.

In order to facilitate the management of its capital requirements, the Company prepares annual expenditure budgets that are updated as necessary depending on various factors, including successful capital deployment and general industry conditions. The annual and updated budgets are approved by the Board of Directors.

In order to maximize ongoing development efforts, the Company does not pay out dividends.

The Company's investment policy is to invest its surplus cash in highly liquid short-term interest-bearing investments with maturities 90 days or less from the original date of acquisition, selected with regards to the expected timing of expenditures from continuing operations.

The Company currently has sufficient capital resources to meet its administrative overhead expenses through its current operating period and it is confident it can raise additional funds to undertake all of its planned business activities. Actual funding requirements may vary from those planned due to a number of factors. Management believes it will be able to raise capital as required in the long term, but recognizes that there will be risks involved that may be beyond their control.
