

NOVRA ANNOUNCES THIRD QUARTER 2018 FINANCIAL RESULTS

Winnipeg, MB – (CNW – November 29, 2018): Novra Technologies Inc. (“Novra”) (TSX-V: NVI) today announced its consolidated financial results for the third quarter and nine months ended September 30, 2018. All amounts are in Canadian dollars unless otherwise noted.

The results below represent the first nine months of operations that include Wegener Communications (“Wegener”), after acquiring a 51.6% controlling interest in Wegener at the end of 2017. The significant variances in our financial highlights from those in 2017 continued to be primarily driven by the inclusion of Wegener’s operating results and the lumpy nature of our products revenue.

Revenue in this quarter more than doubled from Q2 to \$3.6 million. This brought total revenue in the first nine months to within 7% of the 2017 value, after running at 36% under 2017 for the first 6 months of this year. Strong Q3 revenues drove a profitable quarter, with positive net income of \$467 thousand for the three month period.

If Wegener’s operating results and the amortization of intangible assets related to the acquisition are excluded, our nine month results for Novra and IDC would be positive, continuing the profitable trend from 2017. In Q3, Wegener’s operating results were positive and it is anticipated that they will contribute positively to the consolidated bottom line in the fourth quarter.

With strong bookings, which are currently approximately \$2.0 million, and \$2.7 million in deferred revenue as of September 30, we expect revenue to continue to improve through the end of the year.

Harris Liontas, President and CEO stated “As expected, this quarter marked a significant improvement in results over the first two quarters of the year. Our integration and cost-reduction efforts continued to bring expenses in line with our income. With our strong backlog, significant deferred revenue and continued focus on cost controls, we are well positioned for a profitable Q4 and a strong start to 2019. At the same time, our investments in the development of innovative new products and services are positioning us to not only remain relevant in our current markets, but to allow us to expand into new developing market segments.”
