INTRODUCTION

The following discussion of performance and financial condition should be read in conjunction with the condensed interim financial statements of Jessy Ventures Corp. (the "Company") for the period ended July 31, 2020. The Company's financial statements are prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") and interpretations of the International Financial Reporting Interpretations Committee ("IFRIC"). The Company's reporting currency is Canadian dollars unless otherwise stated. This Management's Discussion and Analysis ("MD&A") is dated September 30, 2020.

DESCRIPTION OF BUSINESS

Jessy Ventures Corp. (the "Company") was incorporated under the Business Corporations Act (British Columbia) on November 21, 2018. The Company was formed for the primary purpose of completing an Initial Public Offering ("IPO") on the TSX Venture Exchange ("Exchange") as a Capital Pool Corporation ("CPC") as defined in Policy 2.4 of the Exchange. The principal business of the Company will be the identification and evaluation of assets or businesses with a view to completing a Qualifying Transaction ("QT"). The Company has not commenced operations and has no assets other than cash. The Company's continuing operations as intended are dependent upon its ability to identify, evaluate and negotiate an acquisition, or business, or an interest therein within 24 months of listing on the Exchange. Such an acquisition will be subject to the approval of the regulatory authorities concerned and in the case of a non-arms' length transaction, of the majority of the minority shareholders.

On October 8, 2019, the Company completed its IPO on the Exchange raising gross proceeds of \$200,000 through the issuance of 2,000,000 common shares at \$0.10 per common share. The Company's common shares were approved for listing on the Exchange and commenced trading effective October 10, 2019 under the symbol "SARG.P".

There is no assurance that the Company will identify a Qualifying Transaction within the time limitations permissible under the policies of the Exchange, at which time the Exchange may suspend or delist the Company's shares from trading.

The registered and head office of the Company is located at 605 – 815 Hornby Street, Vancouver, BC, V6Z 2E6.

These financial statements have been prepared on the going concern basis, which assumes that the Company will be able to realize its assets and discharge its liabilities in the normal course of business. Should the Company be unable to continue as a going concern, it may be unable to realize the carrying value of its assets and to meet its liabilities as they become due. As at July 31, 2020, the Company has not generated any revenues from operations and has an accumulated deficit of \$126,139. The Company expects to incur further losses in the development of its business, all of which casts significant doubt about the Company's ability to continue as a going concern. The continued operations of the Company are dependent on its ability to generate future cash flows or obtain additional financing. Management is of the opinion that sufficient working capital will be obtained from external financing to meet the Company's liabilities and commitments as they become due, although there is a risk that additional financing will not be available on a timely basis or on terms acceptable to the Company. These financial statements do not reflect any adjustments to the carrying values of assets and liabilities, the reported expenses, and the balance sheet classifications used that may be necessary if the Company is unable to continue as a going concern.

RESULTS OF OPERATIONS

For the three months ended July 31, 2020

Net loss and comprehensive loss for the three months ended July 31, 2020 was \$3,793 compared to \$35,355 net loss for the comparable period. The decrease in overall net loss is due to prior year filing fees in support of the Initial Public Offering in addition to increased professional fees. The Initial Public Offering is a non-recurring event, and lower operating costs were expected in the current period.

Management's Discussion and Analysis of Financial Results

For the period ended July 31, 2020

LOSS PER SHARE

In accordance with the Company's accounting policy, weighted average number of shares outstanding excludes shares held in escrow. The Company's shares outstanding as at July 31, 2020, includes 2,000,000 shares held in escrow and which, pursuant to Policy 2.4 of the Exchange, are contingently cancellable pending the completion of a Qualifying Transaction. As a result, these shares have been excluded from the calculations of basic and diluted loss per share.

OFF BALANCE SHEET TRANSACTIONS

The Company does not have any off-balance sheet arrangements as at July 31, 2020 or as of the date of this report.

CRITICAL JUDGMENTS AND ESTIMATES

The preparation of the Financial Statements in accordance with IFRS requires the Company to make estimates and assumptions concerning the future. The Company's management reviews these estimates and underlying assumptions on an ongoing basis, based on experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. Revisions to estimates are adjusted for prospectively in the period in which the estimates are revised. Estimates and assumptions where there is significant risk of material adjustments to assets and liabilities in future accounting periods include the fair value measurements for financial instruments and the recoverability and measurement of deferred tax assets.

Significant Judgments

The preparation of the Financial Statements in accordance with IFRS requires the Company to make judgments, apart from those involving estimates, in applying accounting policies. The most significant judgments applying to the Company's financial statements include the assessment of the Company's ability to continue as a going concern and whether there are events or conditions that may give rise to significant uncertainty.

FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

Capital Management

The Company's objective when managing capital is to maintain its ability to continue as a going concern in order to provide returns for shareholders and benefits for other stakeholders.

The Company includes share capital in the definition of capital.

The Company's primary objective with respect to its capital management is to ensure that it has sufficient cash resources to fund the identification and evaluation of potential acquisitions. To secure the additional capital necessary to pursue these plans, the Company may attempt to raise additional funds through the issuance of equity or by securing strategic partners.

Cash Restrictions

The proceeds raised from the issuance of common shares may only be used to identify and evaluate assets or businesses for future investment, with the exception that not more than the lesser of 30% of the gross proceeds from the issuance of shares or \$210,000 may be used to cover prescribed costs of issuing the common shares or administrative and general expenses of the Company. These restrictions apply until completion of a Qualifying Transaction by the Company as defined under the Exchange Policy 2.4.

For the period ended July 31, 2020

FINANCIAL INSTRUMENTS

The Company's financial instruments, consisting of cash, and accounts payable and accrued liabilities, approximate fair values due to the relatively short-term maturities of the instruments. It is management's opinion that the Company is not exposed to significant interest, currency or credit risks arising from these financial instruments.

As at July 31, 2020, the Company had accounts payable and accrued liabilities of \$7,853 (Note 6) (April 30, 2020 - \$9,136) due within 12 months and had cash of \$166,732 (April 30, 2020 - \$171,808) to meet its current obligations. As a result, the Company has minimal liquidity risk.

Credit Risk

Credit risk is the risk of loss associated with the counterparty's inability to fulfill its payment obligations. The Company believes it has no significant credit risk.

Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulties in meeting obligations when they become due. The Company ensures that there is sufficient capital in order to meet short-term operating requirements, after taking into account the Company's holdings of cash. The Company's cash is held in corporate bank accounts available on demand. Liquidity risk has been assessed as being high.

RISKS & UNCERTAINTIES

The Company currently has no source of recurring income, has not commenced commercial operations, has no significant assets other than cash, has no history of earnings and does not intend to pay dividends. In addition, there can be no assurance that the Company will be able to obtain additional financing in the future on terms acceptable to the Company or at all. The Company's success depends to a certain degree upon key members of the management. It is expected that these individuals will be a significant factor in our growth and success. The loss of the service of members of the management team or certain key employees could have a material adverse effect on the Company.
