PROSPER GOLD CORP.

Notes to Consolidated Financial Statements

For the nine months ended July 31, 2025 and 2024

(Expressed in Canadian Dollars)

(Unaudited)

1. Nature of operations and going concern

Prosper Gold Corp. ("Prosper" or the "Company") was incorporated under the *Business Corporations Act* (Ontario) on October 11, 2007, continued into British Columbia under the *Business Corporations Act* (British Columbia) and changed its name from Lander Energy Corporation on April 26, 2012. The registered office of the Company is located at Suite 1570 – 200 Burrard Street, Vancouver, British Columbia, V6C 3L6. Effective September 3, 2013, the Company's common shares were listed on the TSX Venture Exchange (the "Exchange"), trading under the symbol "PGX". Effective March 18, 2021, the Company has qualified to trade on the OTCQX Best Market in the United States under the symbol "PGXFF". The Company has moved its US listing on the OTCQX to the QTCCB.

On April 6, 2023, the Company incorporated Prosper Gold USA LLC, a wholly owned subsidiary, to enter into a definitive option agreement for a property located in Mohave County, Arizona in the United States (note 7(c)).

The principal business activity of the Company is the acquisition, exploration, and development of mineral properties. These consolidated financial statements have been prepared on a going concern basis, which assumes that the Company will continue its operation in the foreseeable future and will be able to realize its assets and settle its liabilities in the normal course of business. The Company has not yet generated any revenues, has incurred losses of \$1,487,942 (nine months ended July 31, 2024 - \$1,208,979) for the nine months ended July 31, 2025, negative cash flows from operations since inception and has a deficit of \$34,875,238 as at July 31, 2025 (October 31, 2024 - \$33,387,296). At July 31, 2025, the Company had cash of \$207,905 (October 31, 2024 - \$476,515) and working capital of \$172,821 (October 31, 2024 - \$499,879). The ability of the Company to continue as a going concern over a longer term is dependent on the Company's ability to complete financing to meet administrative overhead and to complete the exploration and development of its mineral property interest, attainment of profitable mining operations or the receipt of proceeds from the disposition of its mineral property interest. However, there is no guarantee that the Company will establish economically recoverable reserves, profitable operations, or positive cash flows from operations. The Company will continue to raise funding through equity financing to continue operations and has been successful to date, but there can be no assurance that adequate financing will be available in the future, or available on terms acceptable to the Company and, therefore, a material uncertainty exists that may cast significant doubt over the Company's ability to continue as a going concern.

These consolidated financial statements do not include any adjustments relating to the recoverability of assets and classification of assets and liabilities that might be necessary should the Company be unable to continue as a going concern. Such adjustments could be material.

2. Basis of preparation

(a) Statement of compliance

These consolidated financial statements have been prepared in accordance with International Financial Reporting Standards 34, Interim Financial Reporting ("IAS 34") as issued by the International Accounting Standards Board ("IASB"). Accordingly, these condensed interim consolidated financial statements do not include all information and disclosures required by International Financial Reporting Standards ("IFRS") for annual financial statements and should be read in conjunction with the Company's audited financial statements for the year ended October 31, 2024, which have been prepared in accordance with IFRS.

(b) Basis of consolidation

These consolidated financial statements include the accounts of the Company and its integrated wholly owned subsidiary Prosper Gold USA LLC. All material intercompany balances have been eliminated in these consolidated financial statements. A subsidiary is an entity over which the Company has control. Control is based on whether an investor has power over the investee, exposure of rights to variable returns from its involvement with the investee, and the ability to use its power over the investee to affect the amount of returns.

2. Basis of preparation (continued)

(c) Basis of presentation

These consolidated financial statements have been prepared on a historical cost basis, except for certain financial instruments, which are recorded at fair value. In addition, these consolidated financial statements have been prepared using the accrual basis of accounting, except for cash flow information.

(d) Presentation and functional currency

The presentation and functional currency of the Company and its subsidiary is the Canadian dollar. All amounts in these consolidated financial statements are expressed in Canadian dollars, unless otherwise indicated.

(e) Critical accounting judgments and estimates

The preparation of financial statements in accordance with IFRS requires management to make certain critical accounting estimates and assumptions that affect the reported amounts of revenue, expenses, assets and liabilities and the accompanying disclosures. Actual results could differ from these judgments and estimates. Estimates and underlying assumptions are reviewed on an ongoing basis based on management's experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. The impacts of changes to estimates are recognized in the period estimates are revised and in future periods affected. The critical judgment and assumptions applied in the preparation of these condensed interim consolidated financial statements and other major sources of measurement uncertainty are discussed in the Company's audited financial statements for the year ended October 31, 2024.

3. Material accounting policies and critical judgements and key sources of estimation uncertainty

The material accounting policies and critical judgments and key sources of estimation uncertainty applied in the preparation of these condensed interim consolidated financial statements are consistent with those applied and discussed in the Company's audited financial statements for the year ended October 31, 2024.

4. Marketable securities

(a) Ontario Projects, Ontario, Canada

Matachewan Land Package

During the year ended October 31, 2024, the Company sold certain mineral claims in the Matachewan Land Package for gross proceeds of \$200,000. The Company wrote off accumulated cost of \$7,737 including legal fees of \$565 for the transaction.

Golden Sidewalk Project

Sabina Agreement

On August 9, 2020 ("Sabina Effective Date"), the Company entered into an option agreement with Sabina Gold & Silver Corp. ("Sabina") to acquire a 100% interest in the Golden Sidewalk Properties. The Company completed the acquisition of the 100% interest with the payment of \$50,000 in cash, issuance of 1,500,000 common shares and incurred exploration expenditures of \$2,600,000.

Upon the exercise of the first option by the Company, Sabina and the Company will enter in a royalty agreement ("Golden Sidewalk Royalty") whereby Sabina will retain and the Company will pay to Sabina 2.0% NSR on the proceeds from the production or sale of products produced or derived from the Golden Sidewalk property. The Company can elect to purchase 1.0% of the NSR by payment of \$1,000,000.

During the year ended October 31, 2023, Sabina completed the transfer of the title of the claims to the Company and legal fees of \$1,988 were incurred.

In addition to the Sabina Agreement, the Company also entered into various transactions from August 2020 to November 2022 to acquire 100% interest in certain mineral claim, land purchase and purchase for 100% rights, title and interest in 2% net smelter return royalty on the Skinner Gold Property located in Ontario. The cost of these transactions totaled \$215,618 and required the issuance of 285,000 common shares. The acquisitions in 100% interest of the mineral claims are subject to NSR from 1% to 2% with the option to purchase of 50% of the NSR from \$500,000 to \$1,000,000.

During the year ended October 31, 2024, the Company received \$200,000 from the Ministry of Northern Development, Mines, Natural Resources and Forestry under an Ontario Transfer Payment Agreement. Under this agreement, the Company received \$200,000 to conduct exploration work and activities on the Golden Sidewalk Project. This is recorded as a reduction of exploration expenditures in the consolidated statements of comprehensive loss.

(b) Star Property, British Columbia, Canada

During the year ended October 31, 2022, the Company entered into a definitive option agreement with CAVU Mining Corp. ("CAVU") to grant CAVU the exclusive right and option to acquire 51% interest in the Star Project. Under the terms of the Option Agreement, CAVU may exercise the option by issuing 1,250,000 common shares on or before May 23, 2022 (received) and making aggregate cash payments of \$1,155,000 with the first payment of \$100,000 due on May 23, 2022 (received), \$285,000 due by July 1, 2022 (received), \$385,000 due by May 23, 2023 (received on May 11, 2023), and \$385,000 due by May 23, 2024 (received on May 24, 2024). Legal fees of \$12,898 were incurred in prior years relating to this transaction.

During the year ended October 31, 2023, CAVU was acquired by Alpha Copper Corp. ("ALCU"). As CAVU shareholders received 0.7 of ALCU common share for each CAVU share previously held, the Company received 875,000 ALCU common shares in exchange for 1,250,000 CAVU shares previously held. On October 18, 2023, ALCU consolidated its common shares with every 4 old shares for 1 new share. As at October 31, 2023, the Company holds 218,750 common shares of

		3,981,500	\$ 0.77	3.03	1,981,500

The total fair value of the incentive options and broker warrants were calculated using the Black-Scholes option pricing model with the following weighted average assumptions and inputs:

	July 31, 2025	October 31, 2024
Risk-free interest rate	3.03%	3.12%
Expected volatility	154%	153%
Expected life	4.51 years	4.48 years
Expected dividend yield	-	-
Share price	\$ 0.11	\$ 0.12
Exercise price	\$ 0.16	\$ 0.15
Expected forfeitures	0.00%	0.00%

Expected stock price volatility was derived from historical movements in the closing prices of the Company's stock for a length of time equal to the expected life of the options. Companies are required to utilize an estimated forfeiture rate when calculating the expense for the reporting period. Based on the best estimate, management applied the estimated forfeiture rate of 0.00% in determining the expense recorded in the accompanying consolidated statements of comprehensive loss.

The fair value of the incentive options recognized as share-based payments for the 3 and 9 months ended July 31, 2025 was \$26,354 and \$111,544 (3 and 9 months ended July 31, 2024 - \$3,493 and \$3,493). 11. Financial instruments

The Company's financial instruments consist of cash, amounts receivable (other than GST receivable), marketable securities, deposit, accounts payable and accrued liabilities, and loan payable.

The fair values of the Company's cash, amounts receivable (other than GST receivable), deposit, and accounts payable and accrued liabilities approximate their carrying amounts due to the short-term maturities of these instruments.

These are classified as level 1 financial instruments. The Company's marketable securities are classified as level 1 financial instruments and the loan payable is classified as a level 2 financial instrument.

The Company's financial instruments are exposed to certain financial risks, including credit risk, liquidity risk, interest rate risk, and foreign currency risk.

(a) Credit risk

Credit risk is the risk that one party to a financial instrument will fail to discharge its obligation and cause the other party to incur a financial loss. The Company considers its exposure to credit risk to be low, as its cash, deposit, and reclamation deposit are deposited with a large financial institution with a strong credit rating. Amounts receivable consists of GST receivable.

(b) Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in raising funds to meet obligations associated with its financial instruments. The Company manages liquidity risk by maintaining adequate cash and managing its capital. At July 31, 2025, the Company had accounts payable and accrued liabilities of \$118,947 (October 31, 2024 - \$122,220), deferred income taxes payable of \$9,528 (October 31, 2024 - \$Nil) and cash of \$207,905 (October 31, 2024 - \$476,515).

(c) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate due to changes in market interest rates. Floating interest earned on the Company's cash balances are considered to be at market interest rates. The deposit of \$33,825 at July 31, 2025 (October 31, 2024 - \$11,442) earns no interest and is deposited with a major bank for the Company's corporate credit card. Assuming that all variables remain constant, a change representing a 1% increase or decrease in the interest rate would not have a significant effect for the Company.

11. Financial instruments (continued)

(d) Foreign currency risk

Foreign currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate due to changes in foreign exchange rates. The Company is exposed to foreign currency risk to the extent that monetary assets and liabilities are denominated in foreign currency. At July 31, 2025 and October 31, 2024, the Company's monetary assets and liabilities are primarily denominated in Canadian dollars.

There has been no change to the Company's approach to risk management during the periods ended July 31, 2025 and October 31, 2024.

(e) Other price risk

Other price risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices, whether those changes are caused by factors specific to the individual financial instrument or its issuer or by factors affecting all similar financial instruments traded in the market. The other price risk associated with the Company's current investments primarily relates to the change in the market price of the investments in Harfang Exploration Inc. ("Harfang") common shares. As at July 31, 2025, the Company owns 18,130 (October 31, 2024 - 18,130) Harfang common shares. Each Harfang common share has a fair value of \$0.08 (October 31, 2024 - \$0.08). A 10% change in the market price of Harfang common shares would have an impact of approximately \$145 (October 31, 2024 - \$136) on profit or loss. Management believes there is other price risk related to this investment. While the Company will seek to maximize the proceeds it receives from the sale of its investment, there is no assurance as to the timing of disposition or the amount that will be realized. The Company's exposure to and management of other price risk has not changed materially during the period ended July 31, 2025.

12. Related party transactions and balances

The Company's related parties consist of its key management personnel, including its directors and their close family members, and entities controlled by key management personnel. During the periods ended July 31, 2025 and 2024, the Company had the following related party transactions:

14. Management of capital

The Company's capital includes all amounts attributable to its shareholders. The Company's objectives when managing capital are to safeguard its ability to continue as a going concern and to maintain a flexible capital structure that optimizes the cost of capital within a framework of acceptable risk. The Company manages its capital structure and make adjustments to it in light of changes in economic conditions and the risk characteristics of its underlying assets. To maintain or adjust its capital structure, the Company may issue additional shares or debt. The Company is dependent on the capital markets as its primary source of operating capital, and the Company's capital resources are largely determined by the strength of the junior resource markets.

The Company is not subject to any capital requirements imposed by regulators or other third parties.

At July 31, 2025, the Company had cash of \$207,905 (October 31, 2024 - \$476,515) and working capital of \$172,821 (October 31, 2024 - \$499,879). The Company will require additional capital to fund its total obligations under the Option Agreement to purchase the Ontario Projects, the Cyprus Project, and general and administrative costs. However, there is no guarantee that such financing will be available to the Company or on suitable terms.

There were no changes in the Company's approach to capital management during the periods ended July 31, 2025 and October 31, 2024.
