The accompanying notes are an integral part of these consolidated condensed interim financial statements.

1. Nature of business

Pool Safe Inc. ("Pool Safe" or the "Company") was incorporated under the Business Corporations Act (Ontario) on October 27, 2011. The Company manufactures and sells a product known as the "LounGenie", which functions as a multi-purpose safe, contains a solar-powered charger for USB compatible devices including phones, cameras and tablets as well as a server call-button and a beverage cooler and holders. Pool Safe's head office located at 906 Magnetic Drive, Toronto Ontario, M3J 2C4.

2. Basis of presentation

(a) Going concern

These consolidated financial statements have been prepared with the assumption that the Company will be able to realize its assets and discharge its liabilities in the normal course of business rather than through a process of forced liquidation. The Company's ability to continue in the normal course of operations is dependent on its ability to raise equity or debt financing or through the sale of its products at a profit. As of September 30, 2025, the Company has accumulated deficit of \$7,588,259 (December 31, 2024 - \$7,374,390). In addition, the Company had a working capital deficit in the amount of \$1,177,531 at September 30, 2025 (December 31, 2024 - \$2,173,306). There are no assurances that the Company will be successful in achieving these goals. These circumstances cast significant doubt on the Company's ability to continue as a going concern and ultimately on the appropriateness of the use of the accounting principles applicable to a going concern. The consolidated financial statements do not include adjustments to amounts and classifications of assets and liabilities that might be necessary should the Company be unable to continue operations. These adjustments could be material.

(b) Statement of compliance

The Company applies International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") and interpretations of the IFRS Interpretations Committee ("IFRIC"). These consolidated interim condensed financial statements have been prepared in accordance with International Accounting Standard 34, Interim Financial Reporting. Accordingly, they do not include all of the information required for full annual financial statements required by IFRS as issued by the IASB. The same accounting policies and methods of computation are followed in these consolidated interim condensed financial statements as compared with the most recent annual consolidated financial statements as at and for the period ended December 31, 2024. Any subsequent changes to IFRS that are given effect in the Company's annual financial statements for the year ending December 31, 2025 could result in restatement of these consolidated interim condensed financial statements.

The policies applied in these unaudited consolidated interim condensed financial statements are based on IFRS issued and outstanding as of November 25, 2025, the date the Board of Directors approved the statements.

(c) Basis of consolidation

These consolidated financial statements include the accounts of the Company as well as its 100% owned subsidiary 1974134 Ontario Inc.

(d) Basis of measurement

Apart from certain assets and liabilities measured at fair value as required under certain IFRS's, the consolidated financial statements have been presented and prepared on the basis of historical cost.

(e) Functional and presentation currency

These consolidated financial statements are presented in Canadian dollars, which is the functional currency of the Company.

(f) Estimates and critical judgments by management

The preparation of these consolidated financial statements in conformity with International Financial Reporting Standards requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the current period. These estimates are reviewed periodically, and adjustments are made to income as appropriate in the year they become known. Items for which actual results may differ materially from these estimates are described in the following section.

- (i) Useful lives of equipment, patent and design costs, and revenue share assets (collectively "Equipment")
Depreciation of equipment is dependent upon estimates of useful lives, which are determined through the exercise

of judgment. The assessment of any impairment of these assets is dependent upon estimates of recoverable amounts that take into account factors such as economic and market conditions and the useful lives of the equipment.

- (ii) **Income taxes**
Income taxes and tax exposures recognized in the consolidated financial statements reflect management's best estimate of the outcome based on facts known at the reporting date. When the Company anticipates a future income tax payment based on its estimates, it recognizes a liability. The difference between the expected amount and the final tax outcome has an impact on current and deferred taxes when the Company becomes aware of this difference.

In addition, when the Company incurs losses that cannot be associated with current or past profits, it assesses the probability of taxable profits being available in the future based on its budgeted forecasts. These forecasts are adjusted to take account of certain non-taxable income and expenses and specific rules on the use of unused credits and tax losses. When the forecasts indicate that sufficient future taxable income will be available to deduct the temporary differences, a deferred tax asset is recognized for all deductible temporary differences.

3. Material accounting policies

The principal accounting policies applied to the preparation of these consolidated financial statements are set out below:

- (a) **Financial instruments**

Financial assets

Financial assets are classified as either financial assets at fair value through profit or loss ("FVTPL"), fair value through other comprehensive income ("FVTOCI") or amortized cost. The Company determines the classification of financial assets at initial recognition.

Financial assets at Fair-value through profit or loss

Financial instruments classified as fair value through profit and loss are reported at fair value at each reporting date, and any change in fair value is recognized in the statement of operations in the period during which the change occurs. Realized and unrealized gains or losses from assets held at FVPTL are included in losses in the period in which they arise.

Financial assets at Fair-value through other comprehensive income

Financial assets carried at FVTOCI are initially recorded at fair value plus transaction costs with all subsequent changes in fair value recognized in other comprehensive income (loss). For investments in equity instruments that are not held for trading, the Company can make an irrevocable election (on an instrument-by-instrument bases) at initial recognition to classify them as FVTOCI. On the disposal of the investment, the cumulative change in fair value remains in other comprehensive income (loss) and is not recycled to profit or loss.

Financial assets at amortized cost

Financial assets are classified at amortized cost if the objective of the business model is to hold the financial asset for the collection of contractual cash flows, and the asset's contractual cash flows are comprised solely of payments of principal and interest. The Company's accounts receivable are recorded at amortized cost as they meet the required criteria. A provision is recorded based on the expected credit losses for the financial asset and reflects changes in the expected credit losses at each reporting period.

Financial liabilities

Financial liabilities are initially recorded at fair value and subsequently measured at amortized cost, unless they are required to be measured at FVTPL (such as derivatives) or the Company has elected to measure at FVTPL. The Company's financial liabilities include trade and other payables which are classified at amortized cost.

Impairment

IFRS 9 requires an 'expected credit loss' model to be applied which requires a loss allowance to be recognized based on expected credit losses. This applies to financial assets measured at amortized cost. The expected credit loss model requires an entity to account for expected credit losses and changes in those expected credit losses at each reporting date to reflect changes in initial recognition.

(b) Revenue Recognition

Revenue is measured at the fair value of the consideration received or receivable, net of estimated returns and discounts. The Company considers the terms of the sales contracts as well as industry practices, taking into consideration the type of customer, the nature of the transaction and the specific circumstances of each arrangement. The Company's revenue is comprised of direct sales of its LounGenie product line units and revenue sharing from its LounGenie product at revenue partners sites and locations.

The Company recognizes revenues on product sales at the time the product is delivered. At the time of delivery, the following criteria for revenue recognition exist: title has transferred to the customer according to the shipping terms, the Company no longer retains managerial involvement with the product associated with ownership, the amount of revenue and costs incurred with respect to the underlying transaction are measured reliably, and collection of the related receivable is probable. Anticipated product returns are provided for at the time of sale.

The Company recognizes revenues on revenue sharing units as it is earned. The Company places LounGenie units into service with the venue operator. The LounGenie units can be rented on a daily basis as part of a cabana or VIP daybed rental. The lease is treated as an operating lease. The Company retains ownership of the assets. The Company and the venue operator share the rental proceeds per an agreed distribution rate.

(c) Trade receivables

Trade receivables are recognized initially at fair value less allowances made for doubtful receivables based on a review of period-end trade receivables, and do not carry any interest. An allowance for doubtful accounts receivables is generally made when there is objective evidence that the Company will not be able to collect the amounts due according to original payment terms or when there are indications of collection issues related to specific customers. As at September 30, 2025 and December 31, 2024 there was no provision for uncollectible accounts recorded by the Company.

(d) Inventory

The Company's inventory is recorded at the lower of cost or net realizable value, with cost being determined on a first-in, first-out basis. Net realizable value is defined as the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs.

The value of obsolete or unmarketable inventory is based on the Company's assessment of market conditions for its product determined by historical usage, estimated future demand and in some cases, the specific risk of loss on specifically identified inventory.

(e) Equipment

Equipment is stated at cost less accumulated depreciation. They are depreciated on the basis of their useful lives using the following methods and rates:

	<u>Method</u>	<u>Rate</u>
Furniture and equipment	Declining balance	20%
Computer equipment	Declining balance	30%
Manufacturing equipment tooling and moulds	Straight-line	15 years
Right of use assets	Straight-line	5 years
Revenue share assets	Declining balance	33%

An asset's residual value, useful life and depreciation method are reviewed at each financial year end and adjusted if

appropriate. When parts of an item of equipment have different useful lives, they are accounted for as separate items (major components).

(f) Provisions

In accordance with IAS 37 Provisions, Contingent Liabilities and Contingent Assets, provision for risks and expenses are recognized for probable outflows of resources that can be estimated and that result from present obligations resulting from past events. In the case where a potential obligation resulting from past events exists, but where occurrence of the outflow of resources is not probable or the estimate is not reliable, these contingent liabilities are disclosed in off-balance sheet commitments and litigation. The provisions are measured based on management's best estimates of outcomes on the basis of facts known at the reporting date.

(g) Share capital

Share capital is presented at the value of the shares issued. Costs related to the issuance of shares are reported in equity, net of tax, as deduction of the issuance proceeds.

(h) Foreign exchange translation

The consolidated financial statements of the Company are presented in Canadian dollars, which is the functional currency. Transactions in foreign currencies are recorded at the exchange rate prevailing at the date of the transaction. At each reporting date, foreign currency denominated monetary assets and liabilities are translated at year-end exchange rates. Exchange differences arising from the transactions are recorded in profit or loss for the period. Exchange differences arising from operating transactions are recorded in operating profit for the period; exchange differences related to financing transactions are recognized in finance income or in equity.

(i) Research and development

Research costs are expensed as incurred. Patent and Design costs are expensed as incurred unless they can be measured reliably, the product or process is technically and commercially feasible, future economic benefits are probable, and the Company intends to and has sufficient resources to complete development and to use the asset.

Capitalized Patent and Design costs are amortized on a straight-line basis over 15 years. Management reviews amortization periods and methods annually, with any changes accounted for prospectively.

(j) Government assistance

Government assistance that the Company receives for expenses incurred are recognized in profit or loss as an offset to the expenses to which they relate in the periods in which the expenses are recognized, unless the conditions for receiving the assistance are met after the related expenses have been recognized. In that case, the assistance is recognized when it becomes receivable.

Government assistance in the form of a guarantee from the government are recorded at fair value at the time received.

(k) Income taxes

The Company accounts for its income taxes using the deferred tax assets and liabilities method. Deferred income tax assets and liabilities are determined based on the difference between the carrying amount and the tax basis of the assets and liabilities. Any change in the net amount of deferred income tax assets and liabilities is included in profit or loss or equity. Deferred income tax assets and liabilities are determined based on enacted or substantively enacted tax rates and laws which are expected to apply to taxable profit for the years in which the assets and liabilities will be recovered or settled. Deferred income tax assets are recognized when it is probable they will be realized. Deferred tax assets and liabilities are not discounted.

(l) Share-based compensation

The Company has in place an Omnibus Plan, (the "Omnibus Plan") which was last approved by the shareholders of Pool Safe's at its Annual General and Special Meeting of Shareholders (the "AGSM") held on February 28, 2023. The purpose of the Omnibus Plan is to advance the interests of the Corporation through the motivation, attraction and retention of key

employees, consultants and directors of the Company and designated affiliates of the Company and to secure for the Company and Shareholders the benefits inherent in the ownership of Common Shares by key employees, consultants and directors of the Company and the designated affiliates of the Company through the granting of non-transferable options ("Options") and restricted share units ("RSUs", and together with the Options, collectively, the "Awards") to eligible participants under the Omnibus Plan. The Omnibus Plan is currently administered by the Board. Pursuant to the Omnibus Plan, the directors may delegate the administration of the Omnibus Plan to a committee (the "Committee") of the directors of the Company authorized to carry out such administration and, failing a committee being so designated, the Omnibus Plan is to be administered by the Board.

Common Shares Subject to the Omnibus Plan

The aggregate number of Options reserved for issue under the Omnibus Plan may not exceed 10% of the Common Shares outstanding from time to time. The Omnibus Plan sets the maximum number of Common Shares reserved for issuance, in the aggregate, pursuant to the settlement of RSUs granted under the Omnibus Plan at 8,997,975 Common Shares.

The maximum number of Common Shares reserved for issue pursuant to Awards granted to participants who are insiders of the Company in any twelve-month period may not exceed, in the aggregate, 10% of the number of Common Shares then outstanding, unless disinterested Shareholder approval is received therefor in accordance with the policies of the TSXV. The maximum number of Common Shares reserved for issue pursuant to Awards granted under the Omnibus Plan to any one participant in any twelve-month period shall not exceed 5% of the number of Common Shares then outstanding, unless disinterested Shareholder approval is received therefore in accordance with the policies of the TSXV. The maximum number of Common Shares reserved for issue under Awards granted to any one participant (other than a participant who is an eligible director or eligible employee) in any twelve-month period shall not exceed 2% of the number of Common Shares then outstanding.

The maximum number of Common Shares reserved for issue under Options granted to all eligible employees and to all participants (other than participants who are eligible directors) conducting Investor Relations Activities in any twelve-month period shall not exceed, in the aggregate, 2% of the number of Common Shares then outstanding. Options granted to participants (other than participants who are eligible directors or eligible employees) performing Investor Relations Activities shall vest in stages over a twelve-month period, with no more than one-fourth of the Options vesting in any three month period. The directors of the Company shall, through the establishment of appropriate procedures, monitor the trading in the securities of the Company by all grantees of Options performing Investor Relations Activities.

At the 2023 AGSM, Shareholders were asked to approve an amended and restated omnibus incentive plan (the "Amended Omnibus Plan"), including certain amendments to the existing Omnibus Plan. The intent and design of the amended Omnibus Plan remains the same, to attract and retain the key executives necessary for the Company's long-term success, to encourage executives to further the development of the Company and its operations, and to motivate top quality and experienced executives. The proposed amendments to the Omnibus Plan are being implemented to comply with the recent amendments, on November 24, 2021, to the TSXV Policy 4.4 – Security Based Compensation. The full text of the Amended Omnibus Plan can be found on SEDAR+ (www.sedarplus.ca) in the Management Information Circular dated January 16, 2023.

The Company previously had an employee stock option plan as noted below. Where equity-settled share options are awarded to employees, officers and directors, the fair value of the options at the date of grant is charged to the statement of operations over the vesting period. Performance vesting conditions are taken into account by adjusting the number of equity instruments expected to vest at each reporting date so that, ultimately, the cumulative amount recognized over the vesting period is based on the number of options that eventually vest. Non-vesting conditions and market vesting conditions are factored into the fair value of the options granted. As long as all other vesting conditions are satisfied, a charge is made irrespective of whether these vesting conditions are satisfied. The cumulative expense is not adjusted for failure to achieve a market vesting condition or where a non-vesting condition is not satisfied.

Where the terms and conditions of options are modified before they vest, the increase in the fair value of the options, measured immediately before and after the modification, is also charged to the statement of operations over the remaining vesting period.

Where equity instruments are granted to employees, they are recorded at the fair value of the equity instrument granted at the grant date. The grant date fair value is recognized in comprehensive loss/income over the vesting period, described as

the period during which all vesting conditions are to be satisfied.

Where equity instruments are granted to non-employees, they are recorded at the fair value of the goods or services received in the statement of operations. Options or warrants granted related to the issuance of shares are recorded as a reduction of share capital. When the value of goods or services received in exchange for the share-based payment cannot be reliably estimated, the fair value is measured by use of a valuation model.

All equity-settled share-based payments are reflected in contributed surplus, until exercised. Upon exercise, shares are issued from treasury and the amount reflected in contributed surplus is credited to share capital, adjusted for any consideration paid.

Where a grant of options is cancelled or settled during the vesting period, excluding forfeitures when vesting conditions are not satisfied, the Company immediately accounts for the cancellation as an acceleration of vesting and recognizes the amount that otherwise would have been recognized for services received over the remainder of the vesting period. Any payment made to the employee on the cancellation is accounted for as the repurchase of an equity interest except to the extent the payment exceeds the fair value of the equity instrument granted, measured at the repurchase date. Any such excess is recognized as an expense.

(m) Leases

Lease accounting policy

At inception of a contract, the Company assesses whether a contract is, or contains a lease based on whether the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

The Company recognizes a right-of-use ("ROU") asset and a lease obligation at the lease commencement date. The right-of-use asset is initially measured based on the initial amount of the lease obligation adjusted for any lease payments made at or before the commencement date. The assets are depreciated over the lease term using the straight-line method as this most closely reflects the expected pattern of consumption of future economic benefits.

The lease obligation is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the Company's incremental borrowing rate. Variable lease payments that do not depend on an index or rate are not included in the measurement of the lease obligation. The lease obligation is subsequently measured at amortized cost using the effective interest rate method.

(n) Earnings per share

The Company presents basic and diluted earnings per share data for its common shares. Basic earnings per share is calculated by dividing the profit or loss attributable to common shareholders of the Company by the weighted average number of common shares outstanding during the period. Diluted earnings per share is determined by adjusting the profit or loss attributable to common shareholders and the weighted average number of common shares outstanding, adjusted for the effects of all potentially dilutive common shares, which comprise convertible loans payable, warrants and share options.

4. New standards adopted in the current year and future changes

Accounting Standards issued but not yet adopted:

There are currently no new accounting standards issued but not effective that are anticipated to have a significant impact on the Company.

Pool Safe Inc.
Notes to Consolidated Interim Condensed Financial Statements

Revolving line of credit repayments are based on a percentage of the Company's share of revenue from revenue sharing assets. Repayments are based on expected business during 2025.

In the period ended September 30, 2025, the Company incurred interest on the revolving line of credit in the amount of \$76,176 (September 30, 2024 - \$71,944) and accretion expenses of \$13,737 (September 30, 2024 - \$4,733).

Promissory Note

On March 19, 2025, the Company announced that its subsidiary company, 1974134 Ontario Inc., had entered into an agreement with a Lender for a short-term Promissory Note in the amount of \$300,000 to the Subsidiary. On May 23, 2025 the Company repaid the Promissory Note and all accrued interest in full.

Senior Secured Loan

In May 2021, the Company entered into a Financing Agreement for a senior secured loan of \$500,000. The Company issued 1,600,000 warrants in conjunction with the Senior Secured Loan. The loan was originally due December 31, 2022 and bore interest at 12% per annum. Subsequent to December 31, 2022, the repayment date was extended to December 31, 2023, December 31, 2024, and December 31, 2025, and the term of the warrants was concurrently extended. The warrants were valued at \$24,598 using a Black-Scholes valuation option model and are considered a cost of issuance. The warrants were accreted against the loan balance, as accretion expenses, over the term of the loan. This loan is subordinate only to the revolving line of credit.

Canada Emergency Business Account (“CEBA”) loan

In April 2020, the Company received the Canada Emergency Business Account (“CEBA”) loan of \$40,000 which is an interest-free loan to cover operating costs. In December 2020, the Company received the Canada Emergency Business Account (“CEBA”) loan of \$20,000 which is an interest-free loan to cover operating costs. The CEBA loan program was launched by the government of Canada to support businesses by providing financing for their expenses that cannot be avoided or deferred and assisting businesses for successful relaunch when the economy recovers from COVID-19. In 2022, the Government extended the repayment term to January 18, 2024. Repaying the balance of the loan on or before that date will result in a loan forgiveness of \$20,000. The Company repaid the loan in 2024, prior to the due date, and recognized a \$20,000 gain in the period of repayment.

Balance, end of period	12,580,000	\$0.05	36,687,500	\$0.05

As related to the revolving line of credit financings, the Company determined that the fair value of the warrant liability at April and May 2019 related to the 3,000,000 warrants, using the Black-Scholes Options Pricing Model, was \$53,612. The Company determined that the fair value of the warrant liability using the Black-Scholes Options Pricing Model, using the following inputs; Dividend yield – Nil, interest rate of 0.52%, volatility of 91% and an expected life of 3 years. In July, 2022, the Company extended the term of the 3,000,000 warrants to May 31, 2025, in connection with the line of credit. The warrant extension was valued at \$31,554 using a Black-Scholes valuation option model and is considered a cost of extending the facility. The warrants expired unexercised.

In May 2025, the Company issued 3,000,000 warrants related to the extension of the revolving line of credit financings. The Company determined that the fair value of the warrant liability at May 2025 related to the 3,000,000 warrants, using the Black-Scholes Options Pricing Model, was \$29,796 (net - \$4,816), using the following inputs; Dividend yield – Nil, interest rate of 3.00%, volatility of 85% and an expected life of 3 years.

As related to debt financings in the 2021 year, the Company determined that the fair value of the warrants at April 2021 related to the 1,600,000 warrants, using the Black-Scholes Options Pricing Mode, was \$24,598. The Black-Scholes Options Pricing Model used the following inputs; Dividend yield – Nil, interest rate of 0.52%, volatility of 91% and an expected life of 1.7 years.

As related to debt financings in the 2022 year, the Company determined that the fair value of the warrants at August 2022 related to the 19,237,500 warrants, using the residual value method, was \$94,026, based on the relative value of the warrants. The fair value of the warrants at November 2022 related to the 3,705,000 warrants, using the residual value method, was \$18,109, based on the relative value of the warrants.

As related to debt financings in the 2023 year, the Company determined that the fair value of the warrants at September 2023 related to the 32,490,000 warrants, using the residual value method, was \$204,825, based on the relative value of the warrants.

In December 2024, 23,345,000 warrants were exercised. See Note 12 (b)(vii).

In May 2025, 19,950,000 warrants were exercised. See Note 12 (b)(viii).

In August 2025, 3,562,500 warrants were exercised. See Note 12 (b)(ix).

(d) **Stock Options and Restricted Share Units (RSU)**

Stock Options

On April 19, 2017, the Company approved the 10% rolling stock option plan (the "Plan"). Pursuant to the Plan, the Company is entitled to grant options and reserve for issuance up to 10% of the shares issued and outstanding at the time of grant. The terms and conditions of any options granted, including the number and type of options, the exercise period, the exercise price and vesting provisions, are determined by the Compensation Committee which makes recommendations to the board of directors for their approval. The maximum term of options granted cannot exceed 10 years. The TSXV's rules require the Plan to be approved annually by shareholders. On December 1, 2021, at the Company's AGSM, shareholders approved the adoption of the Omnibus Plan. The Omnibus Plan was last approved by the shareholders at the Annual General and Special Meeting of Shareholders (the "AGSM") held on June 3, 2025. The Company repealed and replaced its current Plan to adopt the Omnibus Plan. Stock options granted under the previous Plan remained outstanding and were governed by the terms of the Omnibus Plan.

At September 30, 2025, the following stock options were outstanding:

Number of Options	Exercise Price	Expiry Date
3,400,000	\$0.05	March 20, 2033
500,000	\$0.05	January 25, 2034

Stock option transactions and the number of stock options outstanding are summarized as follows:

	September 30, 2025		December 31, 2024	
	Number of Options	Weighted Average Exercise Price	Number of Options	Weighted Average Exercise Price
Outstanding, beginning of year	8,361,487	\$ 0.05	7,861,487	\$ 0.05
Granted	-	-	500,000	0.05
Exercised	-	-	-	-
Cancelled/Expired	(4,461,487)	0.05	-	-
Outstanding, end of period	3,900,000	\$ 0.05	8,361,487	\$ 0.05
Exercisable, end of period	3,900,000	\$ 0.05	5,372,291	\$ 0.05

The Company did not grant stock options during the period ended September 30, 2025. During the year ended December 31, 2024, the Company issued 500,000 stock options. The options have a strike price of \$0.05 per share and a ten-year term. The options vest as to one half immediately and one half over one year. The options were valued at \$7,091 using the Black-Scholes model and the value will be expensed over the vesting term of the options.

The aggregate fair value of the options issued and vested in the year ended December 31, 2024 was \$55,444. The weighted average contractual term of stock options outstanding and exercisable as at September 30, 2025 is 7.6 years (December 31, 2024 – 7.4 years).

A total of 4,461,487 stock options were granted to the Company's former executive chairman and fully vested in January 2024 in accordance with the term of his executive contract.

During the period ended September 30, 2025, 4,461,487 (December 31, 2024 - nil) stock options expired unexercised.

RSU

At September 30, 2025, the following RSU's were outstanding:

Pool Safe Inc.
Notes to Consolidated Interim Condensed Financial Statements
Nine months ended September 30, 2025 and 2024
(Expressed in Canadian Dollars - Unaudited)

Number of RSU's	Expected Vesting Date
4,400,000	March 21, 2026

During the year ended December 31, 2023, the Company issued 4,650,000 RSU's. Vesting of 4,400,000 RSU's has been deferred until 2026. The RSU's will be expensed on vesting.

During the year ended December 31, 2024, the Company issued 250,000 common shares on the vesting of RSUs.

13. Related party transactions

The following is a summary of the Company's related party transactions during the periods ended September 30, 2025 and 2024:

(a) Key management compensation

Key management personnel are persons responsible for planning, directing and controlling activities of an entity, and include executive and non-executive directors. Compensation provided to key management is as follows:

	September 30, 2025	September 30, 2024
Short-term employee benefits, including salaries and fees	\$ 242,564	\$ 203,125
Stock-based compensation	-	52,784
	<u>\$ 242,564</u>	<u>\$ 255,909</u>

No stock-based compensation was granted to related parties in the period ended September 30, 2025. Stock-based compensation of \$52,784 was granted to related parties via the issuance of 500,000 options in the period ended September 30, 2024.

Balances of \$Nil (December 31, 2024 - \$nil) were due to related parties at September 30, 2025.

14. Income taxes

This note has not been updated from December 31, 2024.

15. Operating Segment Information

Management has determined that the Company's operations have similar economic characteristics and are similar in the nature of products and services, production processes, types and classes of customer, methods of distribution and regulatory environment and as such have aggregated its operating units into a single reportable segment. The Company undertakes its operations in the U.S. and has no significant assets located or revenues generated outside the U.S. Therefore, no segment reporting is included in these consolidated financial statements.

16. Earnings (loss) per share

Basic and diluted loss per share are calculated using the following numerators and denominators:

Numerators	September 30, 2025	September 30, 2024
Loss attributable to common shareholders	\$ (213,869)	\$ (271,581)
Loss used in the computation of basic and diluted earnings per share	\$ (213,869)	\$ (271,581)
	<u>\$ (213,869)</u>	<u>\$ (271,581)</u>
Denominators	September 30, 2025	September 30, 2024
Weighted average number of common shares for computation of basic and diluted loss per share	125,139,778	89,996,234

Denominators did not include balances for stock options or warrants as these items were anti-dilutive.

17. Financial instruments

(a) Financial risks

(i) Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they become due. The Company's policy is to review liquidity resources and ensure that sufficient funds are available to meet financial obligations as they become due. Further, the Company's management is responsible for ensuring funds exist and are readily accessible to support business opportunities as they arise. The Company's funding is provided in the form of capital raised through the issuance of shares and long-term debt. As the Company has a large working capital deficiency, liquidity risk is considered high.

(ii) Credit risk

Credit risk is the risk that one party to a financial instrument will cause a financial loss for the other party by failing to discharge an obligation. The Company's main credit risk relates to its accounts receivable. The accounts receivable are due from a few customers and various government bodies. The Company does not anticipate any significant loss for non-collection.

(iii) Market risk

(1) Price risk

Price risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices (other than those arising from interest rate risk or currency risk), whether those changes are caused by factors specific to the individual financial instrument or its issuer, or factors affecting all similar financial instruments traded in the market. The company is not exposed to price risk.

(2) Concentration and Interest rate risk

Concentration risk is the risk that any single investment or group thereof, has the potential to materially affect the operating results of the Company. The Company is not exposed to significant concentration risk.

The Company's debt bears fixed rate interest and therefore it is management's opinion that the Company is not subject to significant interest rate risk.

(b) Fair value hierarchy

Financial instruments recorded at fair value on the statement of financial position are classified using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

Level 1 - valuation based on quoted prices (unadjusted) in active markets for identical assets and liabilities;

Level 2 - valuation techniques based on inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly; and

Level 3 - valuation techniques using the inputs for the asset or liability that are not based on observable market data (unobservable inputs).

In these consolidated financial statements, classification of financial instruments measured at fair value is as follows:

Level 1 - cash;

Level 2 - none;

Level 3 - none.

During the period, there were no transfers of amounts between Level 1 and Level 2 and 3.

18. Capital management

The Company considers its capital to be its equity, and debt as disclosed in Notes 11 and 12. The Company's objectives when

Pool Safe Inc.
Notes to Consolidated Interim Condensed Financial Statements
Nine months ended September 30, 2025 and 2024
(Expressed in Canadian Dollars - Unaudited)

managing its capital are to maintain a sufficient capital base in order to meet its short-term obligations and at the same time preserve investors' confidence required to sustain future investments.

The Company is not subject to any capital requirements imposed by a lending institution or regulatory body, other than that of the TSXV which requires adequate working capital or financial resources of the greater of (i) \$50,000 and (ii) an amount required in order to maintain operations and cover general and administrative expenses for a period of 6 months. As of September 30, 2025, the Company is not compliant with the policies of the TSXV. The impact of this violation is not known and is ultimately dependent on the discretion of the TSXV.

The Company manages the capital structure and makes appropriate adjustments to it based upon changes in economic conditions and the risk characteristics of the underlying assets. To maintain or adjust the capital structure, the Company will attempt to issue new shares, issue new debt, acquire or dispose of assets.

19. Subsequent events

Subsequent to September 30, 2025, Pool Safe repaid the \$100,000 principal, and accrued interest, related to its 2022 debenture financing.

Subsequent to September 30, 2025, Pool Safe repaid the \$30,000 principal, and accrued interest, related to its 2022 debenture financing.

Subsequent to September 30, 2025, 1,000,000 warrants were exercised for 1,000,000 common shares. The Company received proceeds of \$50,000 from the exercises, which will be used for general corporate purposes. In addition, 2,705,000 warrants expired unexercised.
