2.6 Oversight and Description of Directors and Named Executive Officers Compensation

Compensation of Named Executive Officers:

The Board of Directors sets the compensation received by Named Executive Officers so as to be generally competitive with the compensation received by persons with similar qualifications and responsibilities who are engaged by other companies of corresponding size, stage of development, having similar assets, number of employees, market capitalization and profit margin. In setting such levels, the Board of Directors will rely primarily on their own experience and knowledge.

The executive compensation program adopted by the Corporation and applied to its executive officers is designed to attract and retain qualified and experienced executives who will contribute to the success of the Corporation. The executive compensation program attempts to ensure that the compensation of the senior executive officers provides a competitive base compensation package and a strong link between corporate performance and compensation. Senior executive officers are motivated through the program to enhance long-term shareholder value.

Compensation provided to Named Executive Officers consists of two principal components: salary (including potential bonuses) and stock options granted under the Corporation's stock option plan, described below. In addition to base salary, the Board of Directors may from time to time pay a bonus to Named Executive Officers for either the accomplishment of specific performance criteria or for exceptional performance. Currently, compensation is not tied any performance criteria or goals. Pursuant to the Corporation's stock option plan, the Board of Directors, at its discretion, determines all grants of stock options to Named Executive Officers and Directors. Such grants are considered incentives intended to align the Named Executive Officers', Directors' and Shareholders' interests in the long term.

Compensation of Directors:

The Board of Directors sets the compensation received by directors. Currently, the Corporation does not compensate its directors in their capacity as directors of the Corporation except that each director is eligible to receive stock options granted pursuant to the Corporation's stock option plan. The Corporation has compensated the directors with stock options in the past but did not issue stock options during Fiscal 2023; consequently, no compensation was paid to the directors of the Corporation, in their capacity as directors, during Fiscal 2023.

2.7 Pension Disclosure

The Corporation does not have any defined benefit or defined contribution pension plans in place which provide for payments or benefits at, following, or in connection with retirement.
