What are the business objectives that we expect to accomplish using the available funds?

The business objective that the Company expects to accomplish using the net proceeds of the Offering, together with existing cash and cash equivalents, is to fund the operational expenses of the Company and for general corporate purposes.

The above noted allocation of capital and anticipated timing represents the Company's current intentions based upon its present plans and business condition, which could change in the future as its plans and business conditions evolve. Although the Company intends to spend the proceeds from the Offering as set forth above, there may be circumstances where, for sound business reasons, a reallocation of funds may be deemed prudent or necessary and may vary materially from that set forth above, as the amounts actually allocated and spent will depend on a number of factors, including the Company's ability to execute on its business plan. See the "Cautionary Statement Regarding Forward-Looking Information" section above.

The most recent audited annual financial statements and interim financial report of the Company included a going concern note. The Company is still focusing on the exploration and development of the Carter Lake Uranium Project and the Pendleton Lake Uranium Project and has not yet generated positive cash flows from its operating activities, which may cast doubt on the Company's ability to continue as a going concern. The Offering is intended to permit the Company to continue to achieve its business objectives and is not expected to affect the decision to include a going concern note in the next annual financial statements of the Company.

How have we used the other funds we have raised in the past 12 months?

The Company has not raised other funds in the past 12 months.

FEES AND COMMISSIONS

Who are the dealers or finders that we have engaged in connection with this Offering, if any, and what are their fees?

The Company has not engaged any dealers or finders in connection with the Offering. The Company may elect to pay finders' fees to eligible parties who have introduced subscribers to the Offering and will determine the amount of such fees in negotiation with the eligible parties.
