### 1 Nature of operations and liquidity risk

Appili Therapeutics Inc. (the “Company” or “Appili”) is a biopharmaceutical company dedicated to advancing the global fight against infectious diseases by matching clearly defined patient needs with drug development programs that provide solutions to existing challenges patients, doctors and society face. Appili has one wholly owned subsidiary, Appili Therapeutics USA Inc.. The Company is domiciled in Halifax, Nova Scotia. The Company exists under the Canada Business Corporations Act, and its Class A common shares (“common shares”) are listed for trading on the Toronto Stock Exchange (“TSX”) under the symbol “APLI”. The Company also trades in the United States on the OTCQB Exchange. The address of its principal place of business is #21-1344 Summer Street, Halifax, Nova Scotia, Canada.

#### Going concern

These unaudited interim condensed consolidated financial statements have been prepared using International Financial Reporting Standards (“IFRS”) applicable to a going concern, which contemplates the realization of assets and settlement of liabilities in the normal course of business as they come due.

For the six months ended September 30, 2023, the Company reported a loss of \$2,525,114 (September 30, 2022 - \$3,962,977) and an accumulated deficit of \$67,837,320 (September 30, 2022 - \$60,032,169). In addition to its ongoing working capital requirements, the Company must secure sufficient funding through financing activities to cover research and development expenditures to advance the programs in its pipeline that are planned for the next twelve months. In addition, the Company’s ability to remain in compliance with minimum cash balance requirements to its lenders are dependent on receiving all funding from the US Air Force Academy (“USAFA”) in a timely manner (note 4). As a result of certain delays in funding, management has requested and obtained a waiver from the lenders with respect to the minimum cash balance requirements. Such waiver may be extended from time to time until March 2024. However, future delays in USAFA funding may cause the Company to be in breach of the minimum cash balance requirements and there is no certainty that additional waivers from such requirements would be available beyond March 2024. These circumstances lend significant doubt as to the ability of the Company to fund planned expenditures and, accordingly, the appropriateness of the use of accounting principles applicable to a going concern.

The ability of the Company to advance its programs in its pipeline is dependent on raising additional financing through equity and non-dilutive funding and partnerships. There can be no assurance that additional financing will be available on acceptable terms or at all. If the Company is unable to obtain additional financing when required, Appili may have to substantially reduce or eliminate planned expenditures. Management is evaluating alternatives to secure additional financing so that the Company can continue to operate as a going concern. Nevertheless, there is no assurance that these initiatives will be successful.

The Company's ability to continue as a going concern is dependent on its ability to fund its research and development programs and generate future positive cash flows from operations. These consolidated financial statements do not reflect the adjustments to the carrying values of assets and liabilities and the reported expenses and balance sheet classifications that would be necessary if the Company were unable to realize its assets and settle its liabilities as a going concern in the normal course of operations. Such adjustments could be material.

### 2 Basis of preparation

The Company prepares its unaudited interim condensed consolidated financial statements in accordance with IFRS as issued by the International Accounting Standards Board (“IASB”) and Part I of the Chartered Professional Accountants of Canada Handbook – Accounting.

These unaudited interim condensed consolidated financial statements have been prepared in accordance with IFRS applicable to the preparation of interim condensed consolidated financial statements, including IAS 34, International Accounting Standards 34 “Interim Financial Reporting”. Accordingly, certain information normally included in annual consolidated financial statements prepared in accordance with IFRS, as issued by the IASB, have been omitted or condensed. The unaudited interim condensed consolidated financial statements should be read in conjunction with the Company’s annual audited financial statements for the year ended March 31, 2023. The accounting policies used are consistent with those used in the audited financial statements.

The policies applied in these unaudited interim condensed consolidated financial statements are based on IFRS issued and outstanding as of November 13, 2023, the date the Board of Directors approved the unaudited interim condensed consolidated financial statements.

### 3 Critical accounting estimates and judgments

These unaudited interim condensed consolidated financial statements for the six months ended September 30, 2023 have been prepared using the same policies and methods as the annual audited consolidated financial statements of the Company. Refer to note 3 of the Company’s annual audited consolidated financial statements for the year ended March 31, 2023 for more information on accounting estimates and judgements applied.

### 4 Revenue

### 7 Long-term debt (continued)

#### *ACOA Loans*

Total contributions received, less amounts that have been repaid as at September 30, 2023 for ACOA loans, were \$3,479,994 (March 31, 2023 - \$3,564,466). Certain ACOA loans require approval by ACOA before the Company can pay dividends or other distributions, or before there is any change in ownership of the Company.

#### *Bloom Burton unsecured bridge loan*

On June 28, 2023, the Company obtained an unsecured bridge loan (the “Bridge Loan”) from Bloom Burton, a related party (see note 6) amounting to \$300,000. The Bridge Loan bears interest at 1% per annum for the first month increasing to 2% thereafter and matures on the earlier of September 28, 2024, or the date on which the Company receives aggregate reimbursements from USAFA of not less than \$2,500,000. The Bridge Loan was funded in two equal tranches, with the first tranche advanced on June 29, 2023, and the second tranche advanced on July 10, 2023. The Bridge Loan is intended to be used by the Company for working capital purposes in the event that reimbursements from USAFA are delayed.

The first tranche of the Bridge Loan was recorded at fair value at inception. The fair value was calculated using the discounted cashflow method using a discount rate of 24% based on the estimated market interest rate of comparable debt. The fair value was determined to be \$118,700 and the discount of \$31,300 has been accounted for as a transaction with a shareholder and credited to equity as contributed surplus.

The second tranche of the Bridge Loan was recorded at fair value at inception. The fair value was calculated using the discounted cashflow method using a discount rate of 24% based on the estimated market interest rate of comparable debt. The fair value was determined to be \$119,536 and the discount of \$30,464 has been accounted for as a transaction with a shareholder and credited to equity as contributed surplus.

Interest on the Bridge Loan is accrued monthly on the last business day of each successive month, commencing July 31, 2023. Prior to the maturity date, interest accrued under the Bridge Loan is added to the principal amount.

The costs associated directly with the acquisition of the Bridge Loan for legal and other fees amounting to \$18,011 were capitalized and deducted from the initial carrying value of the loan and will be amortized on a straight-line over the term of the Bridge Loan.

#### *LZH Secured Loans*

On March 28, 2022, the Company executed a senior secured loan agreement (the “Agreement”) with LZH providing for a secured loan for gross proceeds of \$4,500,000 (US\$3,600,000) (the “First Tranche Loan”).

Under the terms of the Agreement, LZH obtained the First Tranche Loan bearing a minimum interest rate of 8.5% or the US Prime Lending rate plus 5.25% per year, compounded quarterly and paid in arrears, maturing on March 28, 2025. The loan is secured by a general security over all the assets of the Company, including intellectual property. The Agreement provides for early prepayment option and various default events which trigger a default penalty interest of an additional 5% to be paid. These features represent embedded derivatives requiring bifurcation. The Company determined the fair value of these embedded derivatives to be nominal at inception.

### 7 Long-term debt (continued)

The Company received net proceeds of \$4,297,646 (US\$3,438,117) after deducting fees paid to LZH for origination fee, work fee and other costs totaling \$202,354 (US\$161,883). The Company also paid legal, professional and other costs amounting to \$99,464. Total costs of \$301,818, relating directly to the acquisition of the loan were capitalized and deducted from the initial carrying value of the loan.

Concurrently with the loan, the Company issued 1,500,000 common share purchase warrants, exercisable over seven years at an exercise price of \$0.115. The fair value of the warrants on the date of issuance was \$117,627.

Concurrently with the loan, the Company entered into an agreement which, subject to obtaining certain consents by the due date, entitled LZH an exclusive licence to commercialize the Company's future approved products in Latin America, Canada, and Israel. The fair value of the agreement at inception was estimated at \$117,627, with the respective portion of the loan proceeds allocated to the transaction and recorded as deferred credit in the consolidated statement of financial position. As the Company was not able to secure the required consents, additional 1,500,000 warrants were issued to LZH on December 28, 2022, and the deferred credit was recognized as the fair value of the additional warrants in the consolidated statement of changes in shareholders' equity.

On March 17, 2023, the Company entered into an amended and restated secured loan agreement (the "Amended Loan Agreement") with LZH, amending and restating the Agreement. Pursuant to the terms of the Amended Loan Agreement, LZH provided an additional loan (the "Second Tranche Loan") of \$2,500,000, which supplements the First Tranche Loan (collectively with Second Tranche Loan, the "Loans"). The Loans mature on March 15, 2025, bearing the following terms:

- The interest rate on the First Tranche Loan was amended, to be the higher of 11% or the US prime lending rate plus 3.25%;
- Second Tranche Loan, the higher of 11% or the Canadian prime lending rate plus 4.3%;
- The loans include a prepayment feature at the option of the Company, which requires interest to be paid to the maturity date from the payment date;
- The loan includes a default interest feature whereby the Company will owe 5% in additional interest if an event of default occurs;
- The Loans require the Company to maintain a minimum cash balance of US\$360,000 at all times, unless a waiver is obtained from LZH. On September 27, 2023, the Company entered into an agreement with LZH whereby the Company obtained a temporary waiver of the minimum cash balance requirement. Such waiver may be renewed from time to time until March 2024.

Interest is compounded quarterly and paid in arrears. In addition, a 4% per year fixed maintenance fee is payable on the Loans to LZH.

Concurrently with the Second Tranche Loan, the Company issued 6,930,000 common share purchase

warrants, exercisable over seven years at an exercise price of \$0.045. The fair value of the warrants on the date of issuance was \$279,378 (note 9).

### 7 Long-term debt (continued)

The Company received net proceeds of \$2,199,348 after deducting fees paid to LZH for origination fee, legal and other fees amounting to \$300,652 on the Second Tranche Loan. The Company allocated the net proceeds of the Second Tranche Loan to the Second Tranche Loan and the common share purchase warrants on a reasonable basis, proportionately based on their relative stand-alone fair values of the instruments. Based on the proportionate relative fair value, \$1,953,568 was allocated to the Second Tranche Loan and \$245,780 was allocated to the common share purchase warrants.

Total costs associated with the Second Tranche Loan of \$300,652 was allocated to the Second Tranche Loan and the common share purchase warrants on a reasonable basis, proportionately based on their relative stand-alone fair values of the instruments. Based on the proportionate relative fair value \$267,054 was allocated to the Second Tranche Loan and deducted from the initial loan, and \$33,598 to the common share purchase warrants.

The fair value of the LZH secured loan is as follows:

The Board of Directors of the Company has established a stock option plan (the "Plan") under which options to acquire common shares of the Company are granted to directors, employees and other advisors of the Company. The maximum number of common shares issuable under the Plan shall not exceed 10% of the issued and outstanding common shares at the date of the grant. If any option expires or otherwise terminates for any reason without having been exercised in full, or if any option is exercised in whole or in part, the number of shares in respect of which option is expired, terminated or was exercised shall again be available for the purposes of the Plan.

Stock options are granted with an exercise price determined by the Board of Directors, which is the market price of the shares on the day preceding the award. The term of the option is determined by the Board of Directors, not to exceed ten years from the date of grant. The vesting of the options is determined by the Board and is typically 33 1/3% every year after the date of grant.

In the event that the option holder should die while he or she is still a director, employee or other advisor of the Company, the expiry date shall be one (1) year from the date of death of the option holder, not to

exceed the original expiry date of the option. In the event that the option holder ceases to be a director, employee or other advisor of the Company other than by reason of death or termination, the expiry date of the option shall be three (3) months following the date the option holder ceases to be a director, employee or other advisor of the Company, not to exceed the original expiry date of the option.

On November 13, 2022, the Company granted 1,000,000 stock options, to the newly appointed President & Chief Executive Officer on appointment, under Appili's Stock Option Plan. The stock options will be exercisable at \$0.04 per share and will have a term of ten years and will vest over a period of three years.

On January 4, 2023, the Company terminated and cancelled 4,305,990 stock options with a strike price in excess of \$0.13 to purchase Class A common shares of the Company, resulting in additional stock based compensation expense of \$368,777, in the consolidated statement of loss and comprehensive loss.

The fair value of stock options is estimated using the Black-Scholes valuation model. Due to the absence of company specific volatility rates, the Company determined the expected volatility of these stock options using the average volatility of biotechnology companies traded on the Toronto Stock Exchange and the TSX Venture Exchange.

### 11 Financial instruments

Financial instruments are defined as a contractual right or obligation to receive or deliver cash on another financial asset. The following table sets out the approximate fair values of financial instruments as at the consolidated statements of financial position dates with relevant comparatives:

	September 30, 2023		March 31, 2023	
	Carrying Value	Fair Value	Carrying Value	Fair Value
	\$	\$	\$	\$
Cash	395,619	395,619	2,465,882	2,465,882
Amounts Receivable	1,059,241	1,059,241	69,006	69,006
Accounts Payable and accrued liabilities	3,619,349	3,619,349	2,823,001	2,823,001
Long-term debt	8,002,449	8,002,449	7,665,345	7,665,345

Assets and liabilities, such as commodity taxes, that are not contractual and arise as a result of statutory requirements imposed by governments, do not meet the definition of financial assets or financial liabilities and are, therefore, excluded from amounts receivable and accounts payable and accrued liabilities in this table.

Fair value of items, which are short-term in nature, has been deemed to approximate their carrying value. The above-noted fair values, presented for information only, reflect conditions that existed only at September 30, 2023, and do not necessarily reflect future value or amounts, which the Company might receive if it were to sell some or all of its assets to a willing buyer in a free and open market.

The fair value of the long-term debt is estimated based on the expected interest rates for similar borrowings by the Company at the unaudited interim condensed consolidated statements of financial position dates. At September 30, 2023, the fair value is estimated to be equal to the carrying amount. The inputs into the determination of the fair value of the long-term debt, including the discount rate, are classified as Level 3 in the fair value hierarchy.
