TSX-Venture: PEGA

OVERVIEW

The following management discussion and analysis of the financial position of Pegasus Resources Inc. (“Company”) and results of operations should be read in conjunction with the unaudited condensed interim consolidated financial statements for the six months ended November 30, 2025 and audited consolidated financial statements for the years ended May 31, 2025. The condensed interim consolidated financial statements together with the following management discussion and analysis are intended to provide investors with a reasonable basis for assessing the financial performance of the Company as well as forward-looking statements relating to potential future performance.

Additional information related to the Company is available for view on SEDAR+ at www.sedarplus.ca, on the Company’s website at www.pegasusresourcesinc.com, or by requesting further information from the Company’s head office located at: 700 – 838 West Hastings Vancouver, BC, V6C 0A6 and its registered address is Suite 2501 - 550 Burrard Street, Vancouver, BC V6C 2B5.

Date of report: January 29, 2025.

NATURE OF BUSINESS AND OVERALL PERFORMANCE

The Company is engaged in the exploration and development of mineral resources, currently focusing on projects in North America.

As of the date of the report, the Company does not own any operating mines and has no operating income from mineral production. Funding for operations is raised primarily through public and private share offerings. It is not known whether the Company’s mineral properties contain reserves that are economically recoverable. The recoverability of amounts recorded by the Company for mineral property interests and related deferred exploration costs are dependent upon the discovery of economically recoverable reserves, the ability to raise funding for continued exploration and development, the completion of property option expenditures and acquisition requirements, or from proceeds from disposition.

The condensed interim consolidated financial statements have been prepared under a going concern assumption which contemplates the Company will continue in operation and realize its assets and discharge its liabilities in the normal course of operations. Should the going concern assumption not continue to be appropriate, adjustments to carrying values may be required. The Company’s ability to meet its obligations and maintain its current operations is contingent upon successful completion of additional financing arrangements and ultimately upon the discovery of proven reserves and generating profitable operations.

Management expects to be successful in arranging sufficient funding to meet operating commitments for the ensuing year. However, the Company's future capital requirements will depend on many factors, including the costs of exploring and developing its resource properties, operating costs, the current capital market environment and global market conditions. The Company has a working capital deficiency at November 30, 2025 of \$76,738 (May 31, 2025–\$114,873). For significant expenditures and resource property development, the Company will depend almost exclusively on outside capital. Such outside capital will include the issuance of additional equity shares. There can be no assurance that capital will be available, as necessary, to meet the Company’s operating commitments and further exploration and development plans. The issuance of additional equity securities by the Company may result in significant dilution to the equity interests of current shareholders. If the Company is unable to obtain financing in the amounts and on terms deemed acceptable, the future success of the business could be adversely affected.

FORWARD LOOKING STATEMENTS

Forward-looking statements are based on the opinions and estimates of management as of the date such statements are made and represent management's best judgment based on facts and assumptions that management considers reasonable, including that the demand for mineral deposits develops as anticipated, that operating and capital plans will not be disrupted by issues such as mechanical failure, unavailability of parts and supplies, labor disturbances, interruption in transportation or utilities, or adverse weather conditions, and that there are no material unanticipated variations in the cost of energies or supplies. The Company makes no representation that reasonable businesspeople in possession of the same information would reach the same conclusions.

This MD&A may include certain “forward-looking statements” within the meaning of applicable Canadian securities legislation. All statements other than statements of historical facts, included in this MD&A that address activities, events or developments that the Company expects or anticipates will or may occur in the future, including such things as future business strategy, competitive, strengths, goals, expansion and growth of the Company’s businesses, operations, plans and other such matters are forward looking statements. When used in this MD&A, the words “estimate”, “plan”, "anticipate", “expect”, “intend”, "believe" and similar expressions are intended to identify forward-looking statements.

These statements involve known and unknown risks, uncertainties and other factors which may cause the actual results, performance or achievements of the Company to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements. Such factors include, among others, risks related to the unavailability of capital and financing on acceptable terms, unfavorable market conditions, inherent risks involved in the exploration and development of mineral properties, uncertainties concerning reserve and resource estimates, results of exploration, inability to obtain required regulatory approvals, unanticipated difficulties or costs in any rehabilitation which may be necessary, market conditions and general business, economic, competitive, political and social conditions. These statements are based on a number of assumptions, including assumptions regarding general market conditions, timing and receipt of regulatory approvals, the ability of the Company and other relevant parties to satisfy regulatory requirements, the availability of financing for proposed transactions and programs on reasonable terms and the ability of third-party service providers to deliver services in a timely manner. Additional factors are discussed in the section titled “Risks”.

Although the Company has attempted to identify important factors that could cause actual results to differ materially, there may be other factors that cause results not to be as anticipated, estimated or intended. There can be no assurance that such statements will prove to be accurate as actual results and future events could differ materially from those anticipated in such statements. Other than as required by applicable securities laws, the Company does not intend, and does not assume any obligation, to update any forward-looking statement to reflect events or circumstances after the date on which such statement is made, or to reflect the occurrence of unanticipated events, whether as a result of new information, future events or results or otherwise. There can be no assurance that forward-looking statements will prove to be accurate, as actual results and future events could differ materially from those anticipated in such statements. Accordingly, readers should not place undue reliance on the forward-looking statements.

MINERAL PROPERTY INTERESTS

Jupiter Project, Utah, USA

On July 3, 2024, the Company entered into a property purchase and sales agreement (later amended on September 17, 2024) to acquire an interest in the Jupiter Project located in Emery County, Utah, USA.

To earn 75% interest in the property, the Company is required to satisfy all considerations as follows:

Share issuances

- i) 2,200,000 common shares on or before the date that is within 10 days of the Exchange approval of the option agreement (issued and valued at \$352,000).

Cash payments

- i) USD \$25,000 cash payment on or before August 2, 2024 (paid).
- ii) USD \$75,000 cash payment on or before the earlier of July 3, 2025 (paid).

The Company will earn the remaining 25% interest upon completion of the NI 43-101 resource estimate.

This interest is subject to resource bonuses of USD\$100,000 for every increment of 500,000 lbs of uranium up to 2,500,000 lbs. The first resource bonus payment will be due within 90 days from the date the initial resource Calculation exceeding 475,000 lbs of uranium is issued.

Upon completion of the agreement, the vendor will retain 2.5% NSR.

Exploration 2025 – 2026

The Company has secured drilling permits and intends to commence drilling in 2026.

Energy Sands Project, Utah, USA

On October 20, 2021, the Company announced the acquisition, by staking, of the Energy Sands Project, located in Emery County, Utah. The Project consists of sandstone-hosted uranium and vanadium mineralization with demonstrated potential to establish resources, with historical small-scale mining having occurred in two isolated regions of the Property.

On November 30, 2023, the Company staked an additional 48 lode claims adjacent to Energy Sands.

Project highlights:

- 78 unpatented lode claims, totaling 1560 acres
- Located within the San Rafael Uranium District, and approximately 4 kilometres from the San Rafael Uranium Project of Western Uranium.

Exploration 2025-2026

In January 2024, The Company completed a first-pass geological exploration program at Energy Sands. During the first-pass study, geologists conducted a broad assessment to gather basic information about the geological features, rock formations, and potential uranium mineralization in an area. The Company successfully secured drilling permits and intends to commence drilling in 2026.

MANAGEMENT DISCUSSION AND ANALYSIS
AS AT AND FOR THE SIX MONTHS ENDED NOVEMBER 30, 2025

RESULTS OF OPERATIONS

Operational activities:

Six Months ended November 30, 2025

During the six months ended November 30, 2025, the Company had a comprehensive loss of \$219,156, compared to \$679,289 during the six months ended November 30, 2024. Significant comparative variances for the period ended November 30, 2025 and 2024 were:

Business development and shareholder communications of \$46,285 (2024 - \$193,352) decreased due to the Company's effort to increase market awareness during the comparative period.

Consulting expenses of \$219,833 (2024 - \$341,100) decreased due to Company's decrease in business activities during current period.

Share-based payments of \$5,500 (2024 - \$33,500) decreased as a result of less share options granted during the current period.

Gain on sale of exploration and evaluation assets of \$50,000 (2024 - \$Nil) due to sale proceeds from Garnet Lake property during the current period.

Change in fair value of marketable securities of \$99,790 (2024 - \$1,405) increased due to fluctuation in share price of the investment owned by the Company in the current period.

Three Months ended November 30, 2025

During the three months ended November 30, 2025, the Company had a comprehensive loss of \$11,317, compared to \$350,488 during the three months ended November 30, 2024. Significant comparative variances for the period ended November 30, 2025 and 2024 were:

Business development and shareholder communications of \$10,655 (2024 - \$66,604) decreased due to the Company's effort to increase market awareness during the comparative period.

Consulting expenses of \$107,833 (2024 - \$220,000) decreased due to Company's decrease in business activities during current period.

Share-based payments of \$5,500 (2024 - \$33,500) decreased as a result of less share options granted the during current period.

Change in fair value of marketable securities of \$156,920 (2024 - \$1,405) increased due to fluctuation in share price of the investment owned by the Company in the current period.

PEGASUS RESOURCES INC.
MANAGEMENT DISCUSSION AND ANALYSIS
AS AT AND FOR THE SIX MONTHS ENDED NOVEMBER 30, 2025

SUMMARY OF QUARTERLY FINANCIAL RESULTS

The following table provides a summary of the Company's eight quarterly results:

	30-Nov-25	31-Aug-25	31-May-25	28-Feb-25
Revenue	\$Nil	\$Nil	\$Nil	\$Nil
Net loss for the period	(11,317)	(207,839)	(761,103)	(610,027)
Loss per share	(0.00)	(0.01)	(0.03)	(0.02)
	30-Nov-24	31-Aug-24	31-May-24	29-Feb-24
Revenue	\$Nil	\$Nil	\$Nil	\$Nil
Net loss for the period	(350,488)	(328,801)	(412,673)	(315,490)
Loss per share	(0.01)	(0.01)	(0.02)	(0.02)

Fluctuations in the Company's expenditures reflect the seasonal variations of exploration and the ability of the Company to raise capital for its projects.

Decreased loss for the quarter ended November 30, 2025 compared with the previous quarter was primarily due to \$156,920 in change in fair value of marketable securities.

Decreased loss for the quarter ended August 31, 2025 compared with the previous quarter was primarily due to \$57,190 in change in fair value of marketable securities and gain on sale of exploration and evaluation assets of \$50,000.

Increased loss for the quarter ended May 31, 2025 compared with the previous quarter was primarily due to \$122,810 in change in fair value of marketable securities and flow-through penalty of \$169,854.

Increased loss for the quarter ended February 28, 2025 compared with the previous quarter was primarily due to impairment of mineral property of \$308,827.

Increased loss for the quarter ended November 30, 2024 compared with the previous quarter was primarily due to higher consulting fees of \$220,000.

Decreased loss for the quarter ended August 31, 2024 compared with the previous quarter was primarily due to lower share-based compensation of \$33,500.

Increased loss for the quarter ended May 31, 2024 compared with the previous quarter was primarily due to \$115,200 in share-based payments and \$182,346 in write-off of exploration and evaluation assets.

Increased loss for the quarter ended February 29, 2024 compared with the previous quarter was primarily due to \$88,000 in share-based payments and \$77,945 in business development and shareholder communications.

CAPITAL DISCLOSURE

The Company considers its capital structure to include net residual equity of all assets, less liabilities. The Company's objectives when managing capital are to (i) maintain financial flexibility in order to preserve its ability to meet financial obligations and continue as a going concern; (ii) maintain a capital structure that allows the Company to finance its growth using internally generated cash flow and debt capacity; and (iii) optimize the use of its capital to provide an appropriate investment return to its shareholders commensurate with risk.

The Company's financial strategy is formulated and adapted according to market conditions in order to maintain a flexible capital structure that is consistent with its objectives and the risk characteristics of its underlying assets. The Company manages its capital structure and adjusts it in light of changes in economic conditions and the risk

PEGASUS RESOURCES INC.
MANAGEMENT DISCUSSION AND ANALYSIS
AS AT AND FOR THE SIX MONTHS ENDED NOVEMBER 30, 2025

characteristics of its underlying assets. To maintain or adjust the capital structure, the Company may attempt to issue new shares, acquire or dispose of assets, or adjust the amount of cash and cash equivalents and receivables.

LIQUIDITY & CAPITAL RESOURCES

As at November 30, 2025, the Company had a working deficiency of \$76,738 (May 31, 2025 – \$114,873), and cash of \$54,011 (May 31, 2025 – \$70,553). The Company will require significant funds from either equity or debt financing for property exploration and to support general administrative expenses.

For the period ended November 30, 2025, the Company experienced a net decrease in its cash position by \$16,542 (2024 – increase of \$289,612).

Cash flows used in operating activities was \$311,980 as November 30, 2025 (2024 - \$162,414) primarily attributed to the change in working capital during the current period.

Cash flows provided by investing activities was \$13,113 as at November 30, 2025 (2024 – used in \$106,302) primarily attributed to the expenditure on exploration and evaluation assets.

Cash flows provided by financing activities was \$282,325 as at November 30, 2025 (2024 – \$558,328) primarily attributed to proceeds from private placements and exercise of options.

As the Company is an exploration company, it does not receive, nor does it anticipate receiving any revenue in the next fiscal year. The Company's interests do not currently generate cash flow from operations and, in order to continue operations and fund its expenditure commitments, it is dependent on equity financing through existing and new shareholders, third party financing, and cost sharing arrangements to fund its work programs and operations.

OFF-BALANCE SHEET ARRANGEMENTS

The Company has no off-balance sheet arrangements other than reported in the accompanying notes to the financial statements.

TRANSACTIONS WITH RELATED PARTIES AND EXECUTIVE COMPENSATION

Related party transactions are in the normal course of operations and measured at the exchange amount, which is the amount of consideration established and agreed by the related parties. Amounts due to or from related parties are non-interest bearing and unsecured. Amount advanced to the director(s) of the Company is for business purposes, such as travel and accommodation and is included in prepaid expenses. The amount due from (to) companies with directors in common was for shared office administration and occupancy expenses. Repayment terms, if any, are determined at the time of the advance. As at November 30, 2025, due to related parties amounted to \$35,580 (May 31, 2025 – \$23,755) included in accounts payable and accrued liabilities and prepaid expenses to related parties amounted to \$Nil (May 31, 2025 - \$2,100) on the statements of financial position.

For the period ended November 30, 2025 and 2024, the Company incurred the following amounts through transactions with directors of the Company:

	2025	2024
	- \$ -	- \$ -
Consulting fees	168,000	183,000
	168,000	183,000

PEGASUS RESOURCES INC.
MANAGEMENT DISCUSSION AND ANALYSIS
AS AT AND FOR THE SIX MONTHS ENDED NOVEMBER 30, 2025

Key Management Compensation:

Key management includes directors (executive and non-executive) and officers of the Company. The compensation paid or payable to key management is as follows:

During the period ended November 30, 2025, the Company:

- i. paid or accrued \$60,000 (2024 - \$45,000) to a director and a company controlled by a director of the Company in consulting fees.
- ii. paid or accrued \$72,000 (2024 - \$102,000) to a company controlled by the President of the Company in consulting fees.
- iii. paid or accrued \$15,000 (2024 - \$15,000) to a director of the Company in consulting fees.
- iv. paid or accrued \$6,000 (2024 - \$6,000) to a company controlled by a director in consulting fees.
- v. paid or accrued \$15,000 (2024 - \$15,000) to a spouse of a director of the Company in consulting fees.

FINANCIAL INSTRUMENTS

The Company's financial instruments are comprised of cash, marketable securities, reclamation bond, accounts payable and accrued liabilities, and loans payable. The carrying value of cash, accounts payable and accrued liabilities, and loan payable as presented in the consolidated statement of financial position is a reasonable estimate of its fair value.

Financial assets and liabilities measured at fair value on a recurring basis are classified in their entirety based on the lowest level of input that is significant to their fair value measurement. Certain non-financial assets and liabilities may also be measured at fair value on a non-recurring basis. There are three levels of the fair value hierarchy that prioritize the inputs to valuation techniques used to measure fair value, with Level 1 inputs having the highest priority. The levels and the valuation techniques used to value financial assets and liabilities are described below.

Level 1 - Quoted Prices in Active Markets for Identical Assets

Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities.

Cash and marketable securities are valued using quoted market prices in active markets. Accordingly, these are included in Level 1 of the fair value hierarchy.

Level 2 - Significant Other Observable Inputs

Quoted prices in markets that are not active, quoted prices for similar assets or liabilities in active markets, or inputs that are observable, either directly or indirectly, for substantially the full term of the asset or liability. There are no items in Level 2 of the fair value hierarchy.

Level 3 - Significant Unobservable Inputs

Unobservable (supported by little or no market activity) prices. There are no items in Level 3 of the fair value hierarchy.

PEGASUS RESOURCES INC.
MANAGEMENT DISCUSSION AND ANALYSIS
AS AT AND FOR THE SIX MONTHS ENDED NOVEMBER 30, 2025

Fair Values

The following table outlines the Company's financial instruments measured at fair value by level with the fair value hierarchy. Assets and liabilities are classified based on the lowest level of input that is significant to the fair measurement.

As at November 30, 2025 and May 31, 2025, the Company's financial instruments measured at fair value are as follows:

	Level 1	Level 2	Level 3	Total
November 30, 2025				
Cash	\$ 54,011	\$ -	\$ -	\$ 54,011
Marketable securities	\$ 390,000	\$ -	\$ -	\$ 390,000
May 31, 2025				
Cash	\$ 70,553	\$ -	\$ -	\$ 70,553
Marketable securities	\$ 304,215	\$ -	\$ -	\$ 304,215

Financial Instrument Risks

The Company's financial instruments are exposed to certain financial risks, including credit risk, interest rate risk, market risk, liquidity risk and currency risk.

a) Credit risk

The Company is exposed to credit concentration risk by holding cash. This risk is minimized by holding the investments in large Canadian financial institutions. The Company has no accounts receivable exposure.

b) Interest rate risk

The Company is exposed to minimal interest rate risk. Fluctuations in market interest rates do not have a significant impact on the Company's operations.

c) Market risk

The Company is exposed to market risk for fluctuating values of its publicly traded marketable securities and other company investments. The Company has no control over these fluctuations and does not hedge its investments.

d) Liquidity risk

Liquidity risk is the risk that the Company is unable to meet its financial obligations as they come due. As at November 30, 2025, the Company manages this risk by monitoring its working capital to ensure its expenditures will not exceed available resources. As at November 30, 2025, the Company had cash of \$54,011 (May 31, 2025 - \$70,553) and a working capital deficiency of \$76,738 (May 31, 2025 - \$114,873). The Company may not be able to settle accounts payable and accrued liabilities of \$467,282 (May 31, 2025 - \$478,935), and loans payable of \$60,000 (May 31, 2025 - \$60,000) which fall due for payment within 12 months of the statement of financial position date. The Company will require financing from lenders, shareholders and other investors to generate sufficient capital to meet its short term business requirements. All of the Company's financial liabilities have contractual maturities of 30 days or due on demand and are subject to normal trade terms.

e) Currency risk

Currency risk is the risk from fluctuations in foreign exchange rates and the degree of volatility of these rates. As at November 30, 2025, the Company's cash is held in Canadian dollars and accordingly the Company's exposure to foreign currency risks on cash balances held in foreign currencies is not expected to be significant.

PEGASUS RESOURCES INC.
MANAGEMENT DISCUSSION AND ANALYSIS
AS AT AND FOR THE SIX MONTHS ENDED NOVEMBER 30, 2025

PROPOSED TRANSACTIONS

The Company entered into a binding letter agreement, negotiated at arm's length and dated December 1, 2025, in respect of a proposed business combination transaction pursuant to which Urano Energy Corp (“Urano”) will acquire all of the issued and outstanding securities of Pegasus.

Pursuant to the letter agreement, Urano will on closing of the proposed transaction acquire all of the issued and outstanding Pegasus common shares from the Pegasus shareholders in exchange for units of Urano on the basis of for 0.7 Urano unit for every one Pegasus share (the exchange ratio). Each whole Urano unit consists of a common share and a half of one share purchase warrants. Each Urano warrant entitles the holder to acquire an additional Urano share at a price of 15 cents for a period of 18 months from the closing date of the proposed transaction. Based on the current capitalization of each company, and upon completion of the proposed transaction, the shareholders of Urano will hold approximately 86.75 per cent of the outstanding Urano shares and the shareholders of Pegasus will hold 13.25 per cent of the outstanding Urano shares.

Outstanding stock options of Pegasus will on closing of the proposed transaction be exchanged for corresponding options of Urano, and outstanding warrants will be exercisable for Urano shares, in each case adjusted in accordance with the above exchange ratio.

The proposed transaction will be structured as a plan of arrangement or other structure based on the advice of the parties' respective advisers and taking into account various securities, tax, operating and other considerations.

Pegasus will be entitled to nominate one director to the board of Urano on closing, which is anticipated to be Christian Timmins, a current director and chief executive officer of Pegasus. The remainder of the current board and management of Pegasus will resign on closing.

SIGNIFICANT ACCOUNTING JUDGEMENT AND ESTIMATES

MANAGEMENT'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING

In connection with Exemption Orders issued in November 2007 by each of the securities commissions across Canada, the Chief Executive Officer ("CEO") and Chief Financial Officer ("CFO") of the Company will file a Venture Issuer Basic Certificate with respect to the financial information contained in the unaudited interim financial statements and the audited annual financial statements and respective accompanying MD&A.

In contrast to the certificate under National Instrument ("NI") 52-109 (Certification of Disclosure in Issuer's Annual and Interim Filings), the Venture Issuer Basic Certification includes a 'Note to Reader' stating that the CEO and CFO do not make any representations relating to the establishment and maintenance of disclosure controls and procedures and internal control over financing reporting, as defined in NI 52-109.

PEGASUS RESOURCES INC.
MANAGEMENT DISCUSSION AND ANALYSIS
AS AT AND FOR THE SIX MONTHS ENDED NOVEMBER 30, 2025

RISKS

The Company is engaged in the exploration for and development of mineral deposits. These activities involve significant risks which careful evaluation, experience and knowledge may not, in some cases, eliminate. The commercial viability of any material deposit depends on many factors not all of which are within the control of management. Some of the factors that affect the financial viability of a given mineral deposit include its size, grade, proximity to infrastructure, Government regulation, taxes, royalties, land tenure, land use, environmental protection and reclamation and closure obligations.

The discovery, development and acquisition of mineral properties are in many respects, unpredictable events. Future metal prices, capital equity markets, the success of exploration programs and other property transactions can have a significant impact on capital requirements.

Although the Company has taken steps to verify the title to the properties in which it has an interest, in accordance with industry standards for the current stage of exploration of the same, these procedures do not guarantee the Company's title to these properties. Property title may be subject to unregistered prior agreements or transfers and title may be affected by undetected defects.

The Company's current operations do not generate any positive cash flow and it is not anticipated that any positive cash flow will be generated for some time. The Company has limited financial resources and the mining claims, which impose financial obligations on the Company. There can be no assurance that additional funding will be available to allow the Company to fulfill such obligations.

Further exploration and development of the various mineral properties in which the Company holds interests depends upon the Company's ability to obtain financing through the joint venturing of projects, debt financing, equity financing or other means. Failure to obtain additional financing on a timely basis could cause the Company to forfeit all or part of its interests in some or all of its Resource Properties and reduce or terminate its operations.

The Company's properties are in the exploration stages only and are without known bodies of commercial mineralization and have no ongoing mining operations. Mineral exploration involves a high degree of risk and few properties which are explored are ultimately developed into producing mines. Exploration of properties may not result in any discoveries of commercial bodies of mineralization. If the Company's efforts do not result in any discovery of commercial mineralization, the Company could be forced to look for other exploration projects or cease operations.

The Company is subject to the laws and regulations relating to environmental matters in all jurisdictions in which it operates, including provisions relating to property reclamation, discharge of hazardous material and other matters. The Company may also be held liable should environmental problems be discovered that were caused by former owners and operators of the properties and properties in which it has previously had an interest. The Company conducts its mineral exploration activities in compliance with applicable environmental protection legislation. The Company is not aware of any existing environmental problems related to its current properties that may result in material liability to the Company.

The preparation of financial statements in conformity with IFRS requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

The Company's business financial condition and results of operations may be further negatively affected by economic and other consequences from Russia's military action against Ukraine and the sanctions imposed in response to that action in late February 2022. While the Company expects any direct impacts, of the pandemic and the war in the Ukraine, to the business to be limited, the indirect impacts on the economy and on the mining industry and other industries in general could negatively affect the business and may make it more difficult for it to raise equity or debt financing. There can be no assurance that the Company will not be impacted by adverse consequences that may be brought about on its business, results of operations, financial position and cash flows in the future.

PEGASUS RESOURCES INC.
MANAGEMENT DISCUSSION AND ANALYSIS
AS AT AND FOR THE SIX MONTHS ENDED NOVEMBER 30, 2025

Annual losses are expected to continue until the Company has an interest in a mineral property that produces revenues. The Company's ability to continue its operations and to realize assets at their carrying values is dependent upon the continued support of its shareholders, obtaining additional financing and generating revenues sufficient to cover its operating costs. The Company's accompanying financial statements do not give effect to any adjustments which would be necessary should the Company be unable to continue as a going concern and therefore be required to realize its assets and discharge its liabilities in other than the normal course of business and at amounts different from those reflected in the accompanying financial statements.

Any forward-looking information in this MD&A is based on the conclusions of management. The Company cautions that due to risks and uncertainties, actual events may differ materially from current expectations. With respect to the Company's operations, actual events may differ from current expectations due to economic conditions, new opportunities, changing budget priorities of the Company and other factors.

MANAGEMENT AND DIRECTORS

Certain directors of the Company are also directors, officers and/or shareholders of other companies that are similarly engaged in the business of acquiring, developing and exploring natural resource properties. Such associations may give rise to conflicts of interest from time to time. The directors of the Company are required to act in good faith with a view to the best interests of the Company and to disclose any interest which they may have in any project opportunity of the Company. If a conflict of interest arises at a meeting of the board of directors, any director in a conflict will disclose his/her interest and abstain from voting in the matter(s). In determining whether or not the Company will participate in any project or opportunity, the directors will primarily consider the degree of risk to which the Company may be exposed and its financial position at the time.

Current Directors and Officers of the Company are as follows:

Dave Bissoondatt, CFO and Director

Derrick Strickland, Director

Chris Timmins, President, CEO and Director

OUTLOOK

The Company's primary focus for the foreseeable future will be on reviewing its financial position, raising funds to support exploration and operational activities, continuing exploration activities on its mineral properties and financing business ventures in the mineral resource industry.
