## **CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS**

**FOR THE THREE AND NINE MONTHS ENDED SEPTEMBER 30, 2023 AND 2022**

**(Unaudited)**

**(Expressed in Canadian dollars)**

### **NOTICE OF NO AUDITOR REVIEW OF INTERIM FINANCIAL STATEMENTS**

Under National Instrument 51-102, Part 4, subsection 4.3(3)(a), if an auditor has not performed a review of the interim financial statements, they must be accompanied by a notice indicating that the interim financial statements have not been reviewed by an independent auditor. These condensed interim consolidated financial statements for the periods ended September 30, 2023 and 2022 have been prepared by and are the responsibility of the Company's management. They have not been reviewed by the Company's independent auditor.

## **A.I.S. RESOURCES LIMITED**

### **Notes to the Condensed Interim Consolidated Financial Statements**

For the three and nine months ended September 30, 2023 and 2022

(Unaudited - Expressed in Canadian dollars)

---

#### **1. NATURE OF OPERATIONS AND GOING CONCERN**

A.I.S. Resources Limited (the “Company” or “A.I.S.”) was incorporated under the laws of Bahamas Islands. On December 20, 2018, the Company continued as a British Columbia corporation and is now governed by the Business Corporations Act (British Columbia). The Company is listed on the TSX Venture Exchange and trades under the stock symbol “AIS”. AIS is an investment issuer with a primary focus on exploration and evaluation of mineral properties.

The head office and principal address of the Company is Suite 1120 – 789 West Pender Street, Vancouver, British Columbia, Canada V6C 1H2. The Company’s records office and registered office is located at Suite 700 - 1199 West Hastings Street, Vancouver, British Columbia, Canada, V6E 3T5.

The condensed interim consolidated financial statements have been prepared on the basis of accounting principles applicable to a going concern which assumes that the Company will continue its operations and will be able to realize the carrying value of its assets and discharge its liabilities in the normal course of business. At September 30, 2023, the Company had a working capital deficit of \$1,313,321 (December 31, 2022: \$298,543) and an accumulated deficit of \$21,772,400 (December 31, 2022: \$20,930,444). The ability of the Company to continue as a going concern is dependent upon the continued financial support from related parties, the ability of the Company to raise equity financing to continue its exploration activities and upon future profitable operations or proceeds from disposition of investments. Given the operating losses accumulated since inception, the Company’s ability to realize its assets and discharge its liabilities depends on continued support from its directors, the ability to raise further funds to provide working capital and ultimately on generating future profitable operations. These uncertainties cast a significant doubt on the ability of the Company to continue operations as a going concern. The consolidated financial statements do not reflect adjustments to the carrying values of assets, liabilities or reported results should the Company be unable to continue as a going concern.

#### **2. BASIS OF PREPARATION**

##### **Statement of compliance**

These condensed interim consolidated financial statements for the period ended September 30, 2023 have been prepared in accordance with International Accounting Standards (IAS) 34 Interim Financial Reporting using the accounting policies adopted by the Company in its most recent annual financial statements.

These condensed interim consolidated financial statements should be read in conjunction with the Company’s audited financial statements for the year ended December 31, 2022, which were prepared in accordance with International Financial Reporting Standards (“IFRS”) as issued by the International Accounting Standards Board (IASB).

The condensed interim consolidated financial statements were approved by the Board of Directors and authorized for issue on November 29, 2023.

##### **Basis of consolidation and presentation**

The condensed interim consolidated financial statements have been prepared on a historical cost basis except for certain financial instruments which are valued at fair value through profit or loss. Historical cost is generally based on the fair value of the consideration given in exchange for assets. In addition, these consolidated financial statements have been prepared using the accrual basis of accounting except for cash flow information.

## A.I.S. RESOURCES LIMITED

### Notes to the Condensed Interim Consolidated Financial Statements

For the three and nine months ended September 30, 2023 and 2022

(Unaudited - Expressed in Canadian dollars)

---

#### 2. BASIS OF PREPARATION (continued)

##### **Basis of consolidation and presentation (continued)**

These condensed interim consolidated financial statements incorporate the financial statements of the Company and its controlled subsidiaries. Control exists when the Company has the power, directly or indirectly, to govern the financial and operating policies of an entity so as to obtain benefits from its activities. The consolidated financial statements include the accounts of the Company and its wholly-owned subsidiaries; AIS Resources S.A., an Argentina company and AIS Resources Aust. Pty Ltd, an Australian company. All significant intercompany transactions and balances have been eliminated.

The financial statements of a subsidiary are included in the consolidated financial statements from the date that control commences until the date that control ceases. When the Company ceases to control a subsidiary, assets, liabilities and non-controlling interests of the subsidiary are derecognized at their carrying amounts at the date when control is lost. Investment retained in the former subsidiary is recognized at its fair value and any gain or loss resulting from deconsolidation is recorded through profit or loss.

The condensed interim consolidated financial statements are presented in Canadian dollars which is the functional currency of the Company and its subsidiaries.

##### **Significant accounting judgments and estimates**

The preparation of condensed interim consolidated financial statements in conformity with IFRS requires management to make estimates, judgements and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Estimates, judgements and assumptions are reviewed on a continuous basis and are based on management's historical experience, knowledge of current conditions and other factors believed to be reasonable under the circumstances. Material estimates, and assumptions are made with respect to current and deferred income taxes and the fair value and level of financial instruments.

Significant assumptions about the future and other sources of estimation uncertainty that management has made at the financial position reporting date, that could result in a material adjustment to the carrying amounts of assets and liabilities, in the event that actual results differ from assumptions made, relate to, but are not limited to, the following:

##### a) Judgements

###### *Going concern*

The Company's management has made an assessment of the Company's ability to continue as a going concern and is satisfied that the Company has the resources to continue in business for the foreseeable future. The factors considered by management are disclosed in Note 1.

###### *Title to mineral property interests*

Although the Company has taken steps to verify title to mineral properties in which it has an interest, these procedures do not guarantee the Company's title. Such properties may be subject to prior agreements or transfers and title may be affected by undetected defects.

## A.I.S. RESOURCES LIMITED

### Notes to the Condensed Interim Consolidated Financial Statements

For the three and nine months ended September 30, 2023 and 2022

(Unaudited - Expressed in Canadian dollars)

---

#### 2. BASIS OF PREPARATION (continued)

##### a) Judgements (continued)

###### *Exploration and evaluation expenditures*

The application of the Company's accounting policy for exploration and evaluation expenditure requires judgment in determining whether it is likely that future economic benefits will flow to the Company, which may be based on assumptions about future events or circumstances. Estimates and assumptions made may change if new information becomes available. If, after an expenditure is capitalized, information becomes available suggesting that the recovery of the expenditure is unlikely, the amount capitalized is written off in the profit or loss in the period the new information becomes available.

##### b) Estimates

###### *Share-based payment transactions*

The Company measures the cost of equity-settled transactions with employees by reference to the fair value of the equity instruments at the date at which they are granted. Estimating fair value for share-based payment transactions requires determining the most appropriate valuation model, which is dependent on the terms and conditions of the grant. This estimate also requires determining the most appropriate inputs to the valuation model including the expected life of the share option, volatility and dividend yield and making assumptions about them.

###### *Recognition of deferred income tax assets and liabilities*

The carrying amount of deferred income tax assets and liabilities is reviewed at the end of each reporting period and recognized only to the extent that it is probable that sufficient taxable profit will be available to allow all or part of the deferred income tax asset to be utilized. Changes in estimates of future taxable profit can materially affect the amount of deferred income tax assets and liabilities recognized from period to period.

###### *Impairment*

Management assesses exploration and evaluation assets for impairment when facts and circumstances suggest that the carrying amount of any such assets may exceed their recoverable amount. When facts and circumstances suggest that the carrying amount exceeds the recoverable amount, the Company shall measure, present and disclose any resulting impairment.

###### *Valuation of investments*

For publicly traded investments (marketable securities), the Company estimates the fair value of such investments to be the closing price on the date of the statement of financial position. For investments in private entities, the Company evaluates the financial health of, and near-term business outlook for, the investees, including factors such as industry and sector performance, changes in technology, and operational and financing cash flow.

The determinations of fair value of the Company's investments at other than initial cost are subject to certain limitations. Financial information for privately-held company investments may not be available and, even if available, that information may be limited and/or unreliable. Use of the valuation approach described below may involve uncertainties and determinations based on the Company's judgment and any value estimated from these techniques may not be realized or realizable.

Company-specific information is considered when determining whether the fair value of a privately-held investment should be adjusted upward or downward at the end of each reporting period. In addition to company-specific information, the Company will take into account trends in general market conditions when valuing privately-held investments.

## A.I.S. RESOURCES LIMITED

### Notes to the Condensed Interim Consolidated Financial Statements

For the three and nine months ended September 30, 2023 and 2022

(Unaudited - Expressed in Canadian dollars)

#### 3. ACCOUNTS RECEIVABLE

Accounts receivable is comprised of input tax credits and amounts due for the recoveries of exploration expenditures from properties optioned out to other entities.

During the period ended September 30, 2023, the Company settled outstanding receivable of USD 208,667 from Recharge Resources Ltd. for \$50,000 cash and 166,667 shares of Recharge Resources with a fair value of \$63,333. Upon settlement, the Company realized a loss on settlement of receivables of \$180,224 (2022 - \$nil).

#### 4. PREPAID EXPENSES

##### a) Yalgogrin

On October 7, 2020, the Company entered into an Option Agreement (the "Agreement") to acquire up to 100% interest in the Yalgogrin Gold Project (the "Project" or "Property") located in West Wyalong, NSW, Australia. Under the terms of the Agreement, the Company acquired 60% interest in the Project by paying the consideration consisting of (i) a cash payment of AU\$275,000 (paid) upon signing of the Agreement; and (ii) the issuance of 4,000,000 of the Company's common shares (issued). During the year ended December 31, 2022, the Company recorded a write-down of \$1,386,804 as management decided to relinquish the property.

##### b) Toolleen-Fosterville

On November 11, 2020, the Company entered into a Sale and Purchase Agreement (the "Agreement") to acquire a 100% interest in the Toolleen-Fosterville Gold Project (the "Project" or "Property") located 3 km from the township of Toolleen, Victoria Australia and 12 km from the Kirkland Lake Fosterville gold mine. The Project is comprised of one exploration licence. The Agreement replaces and supersedes a binding letter of intent dated August 21, 2020 for acquisition of the Project. The Project is subject to a 1% net smelter return royalty on all gold production.

### Notes to the Condensed Interim Consolidated Financial Statements

For the three and nine months ended September 30, 2023 and 2022

(Unaudited - Expressed in Canadian dollars)

#### 7. EXPLORATION AND EVALUATION ASSETS (continued)

##### b) Toolleen-Fosterville (continued)

During the year ended December 31, 2021, the title to the underlying exploration licence was transferred to the Company following a payment of AU\$375,000 and issuance of 6,060,000 common shares and 6,060,000 share purchase warrants of the Company. Each warrant will entitle the holder to acquire one common share of the Company at a price of \$0.15 for a period of five years.

##### c) Kingston

On November 13, 2020, the Company entered into a Sale and Purchase Agreement (the "Agreement") to acquire a 100% interest in the Kingston Gold Project (the "Project" or "Property") located near Navarre, Victoria, Australia. The Project is comprised of one exploration licence. The Agreement replaces and supersedes an option agreement dated September 17, 2020 for acquisition of the Project. The Company paid AU\$35,000 for an exclusivity period of 60 days between the option agreement and the Sale and Purchase Agreement dates. The Project is subject to a 1% net smelter return royalty on the first 50,000 oz gold production after the exploration licence is converted into a mining licence.

Under the terms of the Agreement, the Company acquired 100% interest in the Project by paying the consideration consisting of (i) cash payments of AU\$125,000 (paid) upon signing of the Agreement; (ii) cash payment of AU\$125,000 (paid) upon receiving TSX Venture Exchange approval; and (iii) issue upon exchange approval 4,000,000 shares of the Company (issued) and 4,000,000 share purchase warrants (issued) exercisable at \$0.15 for five years.

##### d) Bright

During January 2022 the Company entered into an agreement (the "Agreement") to acquire a 60% interest in the Bright Gold Property (the "Project" or "Property"), exploration license EL006194 from Clarus Resources Pty Ltd. (the "Vendor"). Under the terms of the Agreement the Company acquired a 60% interest by paying AUD\$150,000 and issuing 10 million common shares to the Vendor. The Company has an option to acquire the remaining 40% of the Property on the following terms:

- i) 20% on the date on which an indicated mineral resource containing not less than 50,000 ounces of gold is identified. The payment will be comprised of 50% cash and 50% common shares of the Company and will be calculated based on the gold resource estimate (troy oz of gold) multiplied by the gold price per troy oz (A) in accordance with the following schedule:

Resource Estimate	Underground Mine	Open Cut
Inferred	A x0.5% x troy oz of gold	A x0.85% x troy oz of gold
Indicated	A x1% x troy oz of gold	A x1.66% x troy oz of gold
Measured	A x2% x troy oz of gold	A x4.0% x troy oz of gold

## A.I.S. RESOURCES LIMITED

### Notes to the Condensed Interim Consolidated Financial Statements

For the three and nine months ended September 30, 2023 and 2022

(Unaudited - Expressed in Canadian dollars)

#### 7. EXPLORATION AND EVALUATION ASSETS (continued)

##### d) Bright (continued)

- ii) 20% on the date on which a feasibility study is provided containing an indicated and/or measured mineral resource. The payment will be comprised of 50% cash and 50% common shares of the Company and will be calculated based on the gold resource estimate (troy oz of gold) multiplied by the gold price per troy oz (A) in accordance with the following schedule:

Resource Estimate	Underground Mine	Open Cut
Indicated	A x1% x troy oz of gold	A x2.0% x troy oz of gold
Measured	A x2% x troy oz of gold	A x5.0% x troy oz of gold

Under the terms of an amending agreement the shares for shall be issued at a deemed price of \$0.06 per share. The number of common shares to be issued shall not at any time exceed 9.9% of the post-issuance issued and outstanding share capital of the Company on a diluted basis.

During the year ended December 31, 2022, the Company issued 10 million common shares to the Vendor (Note 10) in accordance with the Agreement.

##### e) Candela II

On March 18, 2021, the Company entered into an Option Agreement to acquire a 100% interest in the Candela II Project (the "Project" or "Property") located in Incahuasi Salar in Salta province, Argentina, for a purchase price of USD \$1.2 million. The Project is comprised of a mining license. Under the terms of the Option Agreement, the Company paid USD \$100,000 upon signing of the Option Agreement and paid USD \$100,000 six months from the Option Agreement date. The Option Agreement is valid for a 12-month option period entitling the Company to conduct exploration, sampling, chemistry and drilling to determine the commercial viability of the Project.

During March 2021, the Company entered into an Option Agreement with Tech One Lithium Resources Corp. ("Tech One"), a subsidiary of Spey Resources Corp., granting Tech One the right to acquire an 80% interest in the Project for a purchase price of USD \$1 million. Under the terms of the Option Agreement, Tech One paid USD \$100,000 to the Company upon signing the Option Agreement and paid USD \$100,000 in six months from the Option Agreement date. In addition, Tech One must incur expenditures of \$500,000 USD on the property during the option period (12 months). Tech One has the right to acquire the remaining 20% interest in the Project for a consideration of USD \$6 million.

During March 2022, the Company paid US\$1,000,000 to acquire 100% interest in the Candela II project. Concurrently, the Company received US\$1,000,000 from Tech One for 80% of the Candela II project. The Company retains a 20% interest in Candela II.

## A.I.S. RESOURCES LIMITED

### Notes to the Condensed Interim Consolidated Financial Statements

(Unaudited - Expressed in Canadian dollars)

---

#### 7. EXPLORATION AND EVALUATION ASSETS (continued)

##### e) Candela II (continued)

On September 28, 2023 The report on the Candela II property in which AIS holds a 20% equity carry in the Candela II concession was completed by WSP Australia Pty Limited and quoting from the Spey new release: "is estimated to contain lithium metal of 86,000 tonnes which equates to 457,520 tonnes of in-situ Lithium Carbonate Equivalent ("LCE") and a lithium yield of 48,000 tonnes of LCE from 9,000 tonnes of lithium metal." At this time the reported Inferred Mineral Resource is considered too speculative geologically to have economic considerations applied to them that would enable them to be categorized as Mineral Reserves. The current lithium carbonate price of \$30,000 per tonne will provide the basis for a planned scoping study analysis for a possible 5,000 t/year production plant, designed to evaluate the overall economics of the project. AIS and Spey are finalising a shareholder agreement for the development of the Candela II concession. AIS retains a 20% equity carry.

##### f) Pocitos

On June 10, 2021, the Company entered into an Option Agreement to acquire a 100% interest in five mining tenements comprising the Pocitos Project (the "Project" or "Properties") located in Salta province, Argentina. The purchase price of each tenement was USD \$1,000 per hectare. Under the terms of the Option Agreement, the Company paid USD \$125,000 upon signing and USD \$100,000 in the year ended December 31, 2022 entitling it to conduct exploration, sampling, chemistry and drilling to determine the commercial viability of the Project. The initial option period was 18 months from the date of signing and in April 2022 it was extended to June 30, 2023 at no additional cost.

On June 22, 2021, the Company entered into an Option Agreement with Spey Resources Corp. ("Spey") granting Spey the right to acquire a 100% interest in two mining tenements, Pocitos 1 and Pocitos 2, of the Pocitos Project. The purchase price of Pocitos 1 is USD \$1,000,000 and of Pocitos 2 is USD \$732,000. Spey has the option to pay the purchase price 100% in cash or 80% in cash and 20% in shares of Spey. Under the terms of the Option Agreement, Spey paid USD \$200,000 to the Company upon signing the Option Agreement and issued 2,500,000 shares of Spey for an initial 18-month option period, subsequently extended to June 30, 2023. In addition, Spey incurred expenditures of USD \$500,000 on the property within 12 months from the Option Agreement date.

Prior to June 30, 2023 Spey advised the Company of its intention to exercise the Pocitos 1 option. The Company notified the Optionor of its intention to exercise the Pocitos 1 option however the Optionor refused to accept payment for the exercise. The Company is assessing its options going forward to enforce its rights with respect to the Option agreement.

On September 1, 2022, the Company entered into an exploration and purchase option agreement with C29 Metals Limited ("C29") granting C29 the right to acquire 100% interest in the Pocitos 7 and 9 licences of the Pocitos project by June 30, 2023. Under the terms of the Option Agreement, C29 agreed to pay USD \$25,000 per licence upon signing of the agreement (paid), USD \$115,000 per licence following 30 days of the signing (paid) and USD \$75,000 per licence after the technical evaluation report was completed. C29 could acquire 80% interest in the Pocitos 7 and 9 licences by paying \$2.38 million to the Company by June 30, 2023. C29 could subsequently acquire AIS's 20% interest at a price based on the LCE resource. C29 declined to exercise the option.

The Company decided not to exercise the Pocitos 2, 7, 9 and Yaretta XIII options and allowed the Options to expire unexercised as of June 30, 2023.

#### 8. RELATED PARTY TRANSACTIONS AND BALANCES (continued)

Included in prepaid expenses at September 30, 2023, is \$nil for expenses are paid to the Chairman of the Board (December 31, 2022 - \$21,974).

Included in accounts receivable at September 30, 2023, is \$1,749 due from a company associated with a former director (December 31, 2022 - \$3,476).

At September 30, 2023, promissory notes and loans payable with an aggregate principal amount of \$239,149 were payable to a director of the Company (December 31, 2022 - \$239,149). (*Note 9*)

#### 9. PROMISSORY NOTES AND LOANS PAYABLE

a) During the year ended December 31, 2020, the Company issued a promissory note in the amount of \$150,000 to a former director of the Company. The note is unsecured, payable one year from the date of issuance, and bears interest at a rate of 8% per annum. The Company issued 379,747 bonus shares with a fair value of \$30,000 in connection with the promissory note, which was recorded against the face value of the promissory note on the date of issuance. During the three and nine months ended September 30, 2023, the Company recorded \$3,025 and 8,976 (2022 - \$3,025 and \$8,975), respectively, as interest expense. The carrying value of this promissory note at September 30, 2023 is \$179,622 (December 31, 2022 - \$170,647).

b) During the year ended December 31, 2021, the Company issued a promissory note in the principal amount of \$100,000 to a third party. The note is unsecured, payable one year from the date of issuance, and bears interest at a rate of 6% per annum payable at maturity. In connection with the promissory note, the Company issued 2,000,000 bonus warrants with an exercise price of \$0.05 and term of one year. The fair value of the bonus warrants of \$15,909 was recorded against the face value of the promissory note on the date of issuance. The fair value of the bonus warrants was estimated using the Black-Scholes option-pricing model assuming an expected life of 1 year, a risk-free interest rate of 0.82% and an expected volatility of 69.65%.

During the year ended December 31, 2022, the Company entered into an amending agreement with the third party to extend the maturity of the loan by six months. In connection with the extension, the Company issued 3,333,333 bonus warrants with an exercise price of \$0.05 and term of one year. The fair value of the bonus warrants of \$31,970 was recorded against the face value of the promissory note on the date of issuance. The fair value of the bonus warrants was estimated using the Black-Scholes option-pricing model assuming an expected life of 1 year, a risk-free interest rate of 4.44% and an expected volatility of 118.33%. During the three and nine months ended September 30, 2023, the Company recorded \$2,395 and \$7,105 (2022- \$1,512 and \$4,504), respectively, as interest expense and recorded accretion expense of \$8,058 and \$23,912 (2022- \$4,010 and \$11,899), respectively, in connection with this promissory note. The carrying value of this promissory note at September 30, 2023 is \$104,615 (December 31, 2022 - \$73,597).

c) During the year ended December 31, 2021, the Company issued a promissory note in the principal amount of \$150,000 to a third party. The note is unsecured, payable one year from the date of issuance, and bears interest at a rate of 6% per annum payable at maturity. In connection with the promissory note, the Company issued 3,000,000 bonus warrants with an exercise price of \$0.05 and term of one year. The fair value of the bonus warrants of \$23,862 was recorded against the face value of the promissory note on the date of issuance. The fair value of the bonus warrants was estimated using the Black-Scholes option-pricing model assuming an expected life of 1 year, a risk-free interest rate of 0.82% and an expected volatility of 69.65%.

	\$	\$	\$
<b>Total Assets as at:</b>			
September 30, 2023	1,223,360	3,545,279	4,768,639
December 31, 2022	1,225,532	3,372,456	4,597,988

#### 14. FINANCIAL INSTRUMENTS AND FINANCIAL RISK MANAGEMENT

##### Fair Value

Financial instruments measured at fair value are classified into one of three levels in the fair value hierarchy according to the relative reliability of the inputs used to estimate the fair values. The three levels of the fair value hierarchy are:

- Level 1 – Unadjusted quoted prices in active markets for identical assets or liabilities;
- Level 2 – Inputs other than quoted prices that are observable for the asset or liability either directly or indirectly; and
- Level 3 – Inputs that are not based on observable market data.

The Company, through its financial assets and liabilities, has exposure to the following risks from its use of financial instruments.

The fair value of the marketable securities is disclosed in Note 5 of the consolidated financial statements and is based on inputs that are based on other observable data – Level 1.

The fair value of the other investment is disclosed in Note 6 of the consolidated financial statements and is based on inputs not based on observable data – Level 3.

During the year ended December 31, 2022, the other investment described in Note 6 was reclassified from Level 2 to Level 3. During the period ended September 30, 2023, no reclassifications were made.

#### **14. FINANCIAL INSTRUMENTS AND FINANCIAL RISK MANAGEMENT (continued)**

##### **Fair Value (continued)**

The Company's other investment represents its minority ownership in a private company without an active market (see Note 6). Management considered whether key fair value indicators were present by considering whether the private company had completed any recent financings with arm's length parties or whether there were any available market comparatives from which the Company could benchmark a value for its investment. As none were available, management assessed the carrying value of its investment against factors indicative of whether the most recently completed financing would not be an appropriate value, and did not identify any such factors given the performance of the private company and industry trends. As a result, management concluded that the value at which the most recently completed financing was conducted was the most appropriate, given the circumstances surrounding the investment.

Based on the carrying value of the other investment as at September 30, 2023, a 10% change in fair value would impact other comprehensive income for the period in the amount of \$122,336.

The Company's other financial instruments as at September 30, 2023 include cash, accounts receivable, marketable securities, due from related parties, accounts payable, due to related parties, and promissory notes. The fair value of these financial instruments, approximate their carrying amounts due to their short terms to maturity.

##### **Credit risk**

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations. Cash and cash equivalent deposits are placed with financial institutions that have a high credit rating and the Company considers the credit risk on bank deposits to be insignificant. The Company considers the credit risk on accounts receivable to be low. The carrying amounts of cash and cash equivalents and accounts receivable represents the maximum exposure to credit risk.

The Company avoids complex investment vehicles with higher risk such as asset-backed commercial paper and derivatives contracts and acquires equity investments.

##### **Liquidity risk**

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they become due. The Company's approach to managing liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions without incurring unacceptable losses or risking harm to the Company's reputation. The companies, in which the Company holds shares, have varying degrees of liquidity and there is no assurance that the investment can be sold at the quoted market price.

The Company maintained cash at September 30, 2023 in the amount of \$55,205 (December 31, 2022 - \$241,866), to meet short-term liabilities of \$1,522,210 (December 31, 2022 - \$1,284,971).

##### **Market risk**

Market risk is the risk that changes in market prices, such as foreign exchange rates, commodity prices and interest rates will affect the Company's net earnings or the value of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable limits, while maximizing returns.

### Notes to the Condensed Interim Consolidated Financial Statements

For the three and nine months ended September 30, 2023 and 2022

(Unaudited - Expressed in Canadian dollars)

#### 14. FINANCIAL INSTRUMENTS AND FINANCIAL RISK MANAGEMENT (continued)

##### Equity price risk

Equity price risk arises from the fluctuations in the trading price of equity securities. The Company monitors the mix of marketable securities in its investment portfolio based on market expectations. The investments are recorded at fair value which is affected by changes in the market price of the equity securities. The nature of the equity investments exposes the Company to significant equity price risks.

##### Interest rate risk:

The Company's exposure to interest rate risk arises from the interest rate impact on cash. The Company's policy is to invest cash at floating rates of interest, in order to maintain liquidity, while achieving a satisfactory return for shareholders. There is minimal risk that the Company would recognize any loss as a result of a decrease in the fair value. The promissory notes and loans payable bear interest at fixed rates of 6%, 8%, and 10%.

##### Foreign exchange risk

Foreign currency exchange risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because they are denominated in currencies that differ from the respective functional currency.

The Company has financial assets and liabilities denominated in the US dollar (USD) and Argentinian Pesos (ARS). The Company does not hedge its exposure to fluctuations in foreign exchange rates.

The following is an analysis of Canadian dollar equivalent of financial assets and liabilities that are denominated in USD and ARS:

	September 30, 2023	December 31, 2022
	\$	\$
Financial assets		
Cash – USD	59	198,817
Cash – AUD	4,346	12,493
Cash – ARS	66	34,251
Accounts receivable – USD	50,421	376,083
Accounts receivable – AUD	-	787
Accounts receivable – ARS	1,749	3,476
Other investment – USD	1,223,360	1,225,532
	1,280,001	1,851,439
Financial liabilities		
Accounts payable – USD	3,655	8,224
Accounts payable – AUD	26,989	26,722
Accounts payable – ARS	15,288	121,789
	45,932	156,735

The Company has determined that an effect of a 10% increase or decrease in the US dollar and Argentinian Pesos against the Canadian dollar on financial assets and liabilities, as at September 30, 2023, denominated in US dollars and Argentinian Pesos, would result in an increase or decrease of approximately \$123,000 to the comprehensive loss for the period ended September 30, 2023. At September 30, 2023, the Company had no hedging agreements in place with respect to foreign exchange rates. The Company has not entered into any agreements or purchased any instruments to hedge possible currency risks at this time.

#### **15. MANAGEMENT OF CAPITAL STRUCTURE**

The Company considers the amount of capital it requires in proportion to the associated risks. Generally, it is the Company's policy to operate with an under leveraged financial position but as conditions warrant, it may from time to time depart from this policy and use debt. Liquidity and cash management is the highest priority. Therefore, adjustments may be made to the capital structure in light of changes in economic conditions and the risk characteristics of the investment portfolio. The capital structure can be adjusted in a variety of ways as circumstances may change, including: purchasing shares for cancellation (Normal Course Issuer Bid); issuing new common and preferred shares; and increasing or repaying long-term debt. The Company's objectives when managing capital are the safeguarding of assets.

The Company's share capital is not subject to external restrictions. The Company has not paid or declared any dividends since date of incorporation, nor are any contemplated in the foreseeable future.

#### **16. CONTINGENCIES AND COMMITMENTS**

From time to time, the Company is engaged in various legal proceedings and claims that have arisen in the normal course of business. The outcome of all the proceedings and claims against the Company is subject to future resolution, including the uncertainties of litigation. Management believes that the probable ultimate resolution of any such proceedings and claims, individually or in the aggregate, will not have a material adverse effect on the financial condition of the Company. Additionally, the Company may enter into contracts for services in the normal course of operations. The Company's current contractual commitments vary in terms and can be terminated upon sufficient notice.

#### **17. SUBSEQUENT EVENTS**

On November 12, 2023, 8,333,333 warrants with an exercise price of \$0.15 expired unexercised.
