### 1 Nature of operations and going concern

TrustBIX Inc.'s (the "Company" or "TrustBIX") business operations consist of information solutions for the agri-food industry, including:

- ViewTrak Technologies Inc., a wholly owned subsidiary of TrustBIX, which has developed solutions with an emphasis on the livestock sector. Its technologies include:
  - Auction Master Pro ("AMP") - livestock auction market software solution to help build and operate auction activities; and
  - Electronic Pork Grader - pork probe technology to help producers price pork by evaluating fat thickness, lean meat thickness, meat percentage and class.
- Insight Global Inc., a wholly owned subsidiary of TrustBIX, which has developed industrial Internet-of-Things ("IoT") products and traceability solutions. Its technologies include:
  - BIX Location Services - IoT devices to track, protect and identify the movement of high-value moveable equipment used in agriculture and other industries; and
  - BIX (Business InfoXchange System) - a proprietary platform that uses innovative, blockchain-derived technology and data to deliver independent validation of food provenance and sustainable production practices within the supply chain.
- Alberta Food Security Inc., a wholly owned subsidiary of TrustBIX, which holds the exclusive Alberta territory license and an Ontario territory license for an innovative Controlled Environment Agriculture vertical indoor farming technology.

The Company and its wholly owned subsidiaries, ViewTrak Technologies Inc. ("ViewTrak"), Insight Global Technology Inc. ("Insight"), BIX Operations Inc. ("BIX Operations"), and Alberta Food Security Inc. ("AFS") are incorporated and domiciled in Canada. The Company and its subsidiaries' principal office is located at #138 – 9650 20<sup>th</sup> Avenue NW, Edmonton, AB T6N 1G1.

#### Going concern

These interim condensed consolidated financial statements have been prepared on a going concern basis in accordance with International Financial Reporting Standards ("IFRS"), which contemplates the realization of assets and satisfaction of liabilities in the normal course of business as they come due.

As at June 30, 2025, the Company had a net working capital deficit of \$2,461,433 (September 30, 2024 - \$2,156,197). For the three and nine months ended June 30, 2025, the Company incurred a net loss and comprehensive loss of \$255,984 and \$493,628, respectively (2024 – \$9,773 and \$471,708, respectively). During the three months ended June 30, 2025, net cash provided by operating activities was \$31,780 (2024 – \$18,638) and during the nine months ended June 30, 2025, net cash outflow from operating activities was \$24,236 (2024 - \$74,787). As at June 30, 2025, the Company had an accumulated deficit of \$20,556,517 (September 30, 2024 – \$20,062,889).

### 1 Nature of operations and going concern (continued)

#### Going concern (continued)

In addition, the Company has lease commitments in the amount of \$18,078 (note 9) and has entered into a contribution agreement with Prairies Economic Development Canada (formerly Western Economic Diversification Canada) (“PrairiesCan”) for a repayable financial contribution under the Regional Relief and Recovery Fund with a remaining principal balance of \$898,000 (note 14). Operations during the nine months ended June 30, 2025, have been financed primarily from customer deposits and a non-brokered private placement of \$86,800.

On November 13, 2023, the company received TSX Venture Exchange (“TSXV”) final acceptance for the acquisition of Alberta Food Security Inc. and management is actively pursuing new business opportunities. The Company may also continue to raise financing, including equity and debt, as needed, for working capital and to expand the business.

There can be no assurance that management’s efforts will be successful. This uncertainty casts significant doubt upon the Company’s ability to continue as a going concern and, accordingly, the appropriateness of the use of accounting principles applicable to going concern.

These interim condensed consolidated financial statements do not reflect the adjustments to the carrying values of assets and liabilities and the reported revenues and expenses that would be necessary if the Company were unable to realize its assets and settle its liabilities as a going concern in the normal course of operations. Such adjustments could be material.

### 2 Basis of presentation

#### Statement of compliance

These condensed interim consolidated financial statements have been prepared in accordance with International Accounting Standard 34 – Interim Financial Reporting (“IAS 34”) as issued by the International Accounting Standards Board (the “IASB”). Accordingly, certain information and note disclosures normally included in the annual consolidated financial statements prepared in accordance with International Financial Reporting Standards (“IFRS”) have been omitted or condensed and accordingly, these condensed interim consolidated financial statements should be read in conjunction with the annual consolidated financial statements of the Company for the years ended September 30, 2024 and 2023.

These interim condensed consolidated financial statements were authorized for issue by the Board of Directors on August 25, 2025.

### 2 Basis of presentation (continued)

#### Basis of measurement

These interim condensed consolidated financial statements have been prepared in Canadian dollars, which is the Company's presentation and functional currency, and are prepared on a historical cost basis, except for certain financial instruments, which are measured at fair value.

#### Use of management critical judgment, estimates and assumptions

The preparation of the interim condensed consolidated financial statements requires management to make critical judgments, estimates and assumptions that affect the reported amounts of certain assets and liabilities and disclosure of contingent assets and liabilities at the date of the interim condensed consolidated financial statements and the reported amounts of revenues and expenses recorded during the reporting period. In making estimates and judgments, management relies on external information and observable conditions where possible, supplemented by internal analysis as required. Actual results may differ from those estimates. Estimates and assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected.

The critical accounting estimates and judgments made by management in applying the Company's accounting policies were the same as those described in note 2 to the Company's consolidated financial statements for the years ended September 30, 2024 and 2023, with the addition of:

#### i) Modification versus extinguishment of financial liability

Judgement is required in applying *IFRS 9 Financial Instruments* ("IFRS 9") to determine if the amended terms of the loan agreement is a substantial modification of an existing financial liability and whether it should be accounted for as a modification or extinguishment of the original financial liability.

### 3 Material Accounting Policies

The material accounting policies applied by the Company in these interim condensed consolidated financial statements are consistent with those applied by the Company in its annual consolidated financial statements for the years ended September 30, 2024 and 2023.

Balance, end of period	35,000	35,000

On January 27, 2023, the Company issued a convertible debenture with a principal balance of \$150,000 at an interest rate of 10% per annum, with the interest to be paid only in cash, for a term of one (1) year. The convertible debenture was convertible into units of the Company, composed of one (1) common share and one half (1/2) warrant exercisable at a price of \$0.05 per common share for a term of one (1) year, at a price of \$0.05 per unit.

The liability component of the convertible debenture was initially recognized at the fair value of a similar liability that did not have an equity conversion option and using a discount rate of 18%. The equity component of the convertible debenture was recognized at the difference between the fair value of the convertible debenture as a whole and the fair value of the liability component.

On December 29, 2023, the Company amended the terms of the convertible debenture to extend the maturity date from January 5, 2024 to January 5, 2025 and to remove the option of the holder to convert the convertible debenture into common shares of the Company, such that no securities will be issued as payment for the convertible debenture. On January 5, 2025, the Company amended the terms of the debenture to further extend the maturity date from January 5, 2025 to January 5, 2026. All other terms of the previously convertible debenture remained the same.

The holder of the debenture was a director of the Company between April 14, 2023 and November 13, 2023 (note 19).

Non-current portion	<u>548,465</u>	<u>568,854</u>

#### Repayable Regional Relief and Recovery Fund contribution

On July 27, 2020, the Company entered into a contribution agreement with PrairiesCan for a repayable financial contribution under the Regional Relief and Recovery Fund. Under the contribution agreement, PrairiesCan supported the Company with an investment of \$1,000,000 for general working capital requirements (the "Contribution"). The Contribution is unsecured and non-interest bearing, unless repayment is not made as scheduled. Interest is calculated at an average bank rate plus 3%, compounded monthly, on repayments not made as scheduled. The interest calculation ends when repayments are back on schedule.

On December 29, 2022, the repayment terms were revised, changing the amount of the monthly installment payments and extending the final installment payment to December 31, 2027. All other terms remained the same.

On January 31, 2025, the repayment terms were further revised, changing the amount of the monthly instalment payments. All other terms remained the same. The Company has recalculated the carrying amount of the liability based on the revised repayment terms, discounted by the original effective interest rate of 18%. Management concluded that, based on the terms of the amended agreement, the loan amendment is a modification under IFRS 9. The Company has recorded a gain on modification of \$34,794 in the interim condensed consolidation statement of loss and comprehensive loss during the nine months ended June 30, 2025.

The short-term and long-term components of the Contribution are as follows:

	June 30, 2025 \$	September 30, 2024 \$
Current portion	161,535	132,592
Non-current portion	548,465	568,854

#### c) Stock options and compensation expense

The Company has adopted a twenty percent (20%) fixed stock option plan (the “Stock Option Plan”) for directors, officers, employees, management company employees and consultants. In accordance with the Stock Option Plan and as approved at the Annual General and Special Meeting of Shareholders on April 14, 2023, the Company has reserved up to a total of 18,886,094 common shares for issuance. The Board of Directors determines the price per common share, the number of common shares which may be allocated to each eligible participant, and all other terms and conditions of the stock options, subject to the rules of the TSX Venture Exchange.

A summary of the stock options outstanding as at June 30, 2025 and September 30, 2024 and changes during the periods ended on those dates is as follows:

	Nine months ended June 30, 2025		Year ended September 30, 2024

Options exercisable – End of period	13,313,518	0.10	9,140,185	0.13

On January 9, 2024, the Company approved the grant of 8,400,000 stock options to directors, officers, employees and consultants. The stock options have an exercise price of \$0.01 and will vest one third on each of the grant, first anniversary and second anniversary dates. The stock options will expire after three years if not exercised.

On April 16, 2025, the Company approved the grant of 4,120,000 stock options to directors, officers, employees and consultants. The stock options have an exercise price of \$0.05 and will vest one third on each of the grant, first anniversary and second anniversary dates. The stock options will expire after three years if not exercised.

The fair value of the stock options granted to non-employees was measured at the value of services the Company received.

### 15 Share capital (continued)

#### c) *Stock options and compensation expense (continued)*

The Company used the Black-Scholes option pricing model to estimate the fair value of the stock options granted to directors, officers, employees. The Company considered historical volatility of its common shares as well as industry benchmarking in estimating its future stock price volatility. The risk-free interest rate for the expected life of the stock options was based on the yield available on government benchmark bonds with an approximate equivalent remaining term at the time of the grant. The expected life is based on the contractual term, taking into account expected director, employee and non-employee exercise and expected post-vesting employment termination behaviour. The following weighted average assumptions were used to estimate the Black-Scholes fair value of the options granted during the nine months ended June 30, 2025 and the year ended September 30, 2024:

	Nine months ended June 30, 2025	Year ended September 30, 2024
Annualized volatility	299%	166%
Risk-free interest rate	2.5%	3.8%
Expected life of options in years	3	3
Dividend rate	nil%	nil%
Exercise price	\$0.05	\$0.01
Market price on date of grant	\$0.04	\$0.01
Weighted average fair value	\$0.040	\$0.004

Stock-based compensation expense for the three and nine months ended June 30, 2025 was \$76,145 and \$81,751, respectively (2024 – \$4,205 and \$18,795, respectively), with a corresponding increase in contributed surplus included in shareholders' deficiency.

The following table summarizes information on stock options outstanding as at June 30, 2025:

Exercise price \$	Number outstanding	Weighted average remaining contractual life in years	Options exercisable	Weighted average remaining contractual life in years
0.01	8,400,000	1.53	5,600,000	1.53

For the three and nine months ended June 30, 2025 and 2024, potential shares issuable in exchange for warrants, stock options and the previously convertible debenture have been excluded in the diluted loss per share calculation as their effects would have been anti-dilutive. In addition, 20,000,000 common shares issued by the Company, pursuant to the acquisition of Insight, which were held in escrow until their cancellation on April 23, 2024, have been excluded.

#### 17 Financial instruments and financial risk management

For accounting recognition and measurement purposes, cash, accounts receivable, share subscription receivable, accounts payable and accrued liabilities, loans payable and debenture are classified as amortized cost. The carrying value of cash, accounts receivable, share subscription receivable, accounts payable and accrued liabilities, and debenture approximates their fair value due to the immediate or short-term maturity of these financial instruments. The loans payable were measured using the estimated incremental borrowing rate and approximates fair value.

Financial instruments are recognized on the interim condensed consolidated statements of financial position at their fair values and are classified in a hierarchy based on the significance of the estimates used in their measurement, as follows:

- Level 1 – Quoted prices in active markets for identical assets or liabilities.
- Level 2 – Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.
- Level 3 – Inputs for the asset or liability that are not based on observable market data.

### 17 Financial instruments and financial risk management (continued)

#### Financial risk management

The non-marketable equity securities in Provision Analytics (note 10) are an investment in a privately held company without readily determinable market values and is classified as Level 3.

During the three and nine months ended June 30, 2025 and 2024, there have been no transfers between levels of the fair value hierarchy.

The Company's activities are exposed to a variety of financial risks: market risk, credit risk and liquidity risk. The Company's overall risk management program focuses on the unpredictability of financial and economic markets and seeks to minimize potential adverse effects on the Company's financial performance. Risk management is carried out by financial management in conjunction with overall corporate governance.

#### a) Market risk

##### i) Currency risk

Some of the Company's transactions, assets and liabilities are denominated in US dollars and thus the Company is exposed to risk arising from changes in exchange rates.

The following table presents the Company's exposure in Canadian dollars to the US dollar as at June 30, 2025 and September 30, 2024:

	June 30, 2025 \$	September 30, 2024 \$
Cash – USD	27,823	52,382
Accounts receivable – USD	80,383	565
Accounts payable and accrued liabilities – USD	(112,672)	(126,690)
	<u>(4,466)</u>	<u>(73,743)</u>
	June 30, 2025 \$	September 30, 2024 \$
CAD\$ - USD	<u>0.7330</u>	<u>0.7408</u>

As at June 30, 2025, based on the Company's foreign currency exposure noted above, varying the foreign exchange rates to reflect a 10% strengthening of the US dollar would have increase net loss by approximately \$500 (September 30, 2024 - \$7,000), assuming all other variables remained constant. An assumed 10% weakening of the US dollar would have had an equal but opposite effect to the amounts shown above, assuming all other variables remained constant.

#### Financial risk management (continued)

##### a) *Market risk (continued)*

###### ii) Market price risk

The Company is exposed to market price risk on its equity investment in Provision Analytics Inc. (note 10). Market price risk is the risk of loss arising from changes in the fair value of a financial instrument as a result of changes in market prices.

The sensitivity of the fair value of the investment to changes in market prices is monitored by the Company and it estimates that a 20% increase or decrease in the market price would result in an approximately \$36,000 increase or decrease, respectively, in the fair value of the investment.

###### iii) Interest rate risk

The Company does not have any variable rate financial liabilities and is therefore management does not believe it is exposed to significant interest rate risk as at June 30, 2025 and September 30, 2024.

##### b) *Credit risk*

The Company, in the normal course of business, is exposed to credit risk from its customers. The allowance for doubtful accounts and past due receivables is reviewed by management at each consolidated statement of financial position reporting date. Accounts are considered past due when customers have failed to make the contractually required payment when due, which is generally within 60 days of the billing date.

The Company applied the simplified approach to provide for ECL prescribed by IFRS 9, which permits the use of the lifetime ECL provision for trade receivables and contract assets without a significant financing component.

The following table presents a summary of the activity related to the allowance for doubtful accounts:

	<b>Nine months ended June 30, 2025 \$</b>	<b>Year ended September 30, 2024 \$</b>
