## **DAMARA GOLD CORP.**

Notes to Financial Statements

For the Three Months Ended October 31, 2023 and 2022 (un-audited)

(Expressed in Canadian Dollars)

### **1. NATURE OF OPERATIONS**

Damara Gold Corp. (“**Damara**” or the “**Company**”) was incorporated on August 1, 1989 under the *Business Corporations Act* of British Columbia as Solomon Resources Limited. On September 30, 2014, the Company changed its name to Damara Gold Corp. Effective October 1, 2014, the Company commenced trading on the TSX Venture Exchange (the “**Exchange**”) under the symbol “DMR” as a Tier 2 issuer.

The Company is in the business of identifying and acquiring prospective and under-explored gold properties worldwide. The Company’s corporate head office is at Suite 335 – 1632 Dickson Avenue, Kelowna, BC V1Y 7T2.

### **2. BASIS OF PREPARATION AND CONTINUANCE OF OPERATIONS**

These condensed interim financial statements for the three-month period ended October 31, 2023 and 2022 and have been prepared in accordance with IAS 34 Interim Financial Reporting. They do not include all disclosures that would otherwise be required in a complete set of financial statements and should be read in conjunction with the Company’s July 31, 2023 audited annual financial statements which have been prepared in accordance with International Financial Reporting Standards (“**IFRS**”), as issued by the International Accounting Standards Board (“**IASB**”), and Interpretations of the International Financial Reporting Interpretations Committee. The preparation of condensed interim financial statements in compliance with IAS 34 requires management to make certain critical accounting estimates. It also requires management to exercise judgment in applying the Company’s accounting policies. The areas involving a higher degree of judgment or complexity, or areas where assumptions and estimates are significant to the condensed interim financial statements are disclosed in Note 4.

The financial statements were authorized for issue by the Board of Directors on December 19, 2023.

These condensed interim financial statements have been prepared on the historical cost basis, except for certain financial assets, which have been measured at fair value. The methods used to measure fair value are discussed in Note 3 of the Company’s July 31, 2023 audited annual financial statements. In addition, these financial statements have been prepared using the accrual basis of accounting, except cash flow information. The condensed interim financial statements are presented in Canadian dollars, which is also the Company’s functional currency. These condensed interim financial statements have been prepared on the basis of accounting principles applicable to a going concern, which assumes the Company will continue in operation for the foreseeable future and will be able to realize its assets and discharge its liabilities in the normal course of business.

The Company has not generated revenues from its operations to date. During the period ended October 31, 2023, the Company incurred a net loss of \$35,040 (2022 - \$43,363) and, as of that date, had a deficit of \$33,907,166 (July 31, 2023 - \$33,872,126). The Company currently has a working capital deficiency of \$80,238 as at October 31, 2023 (July 31, 2023 - \$45,587).

The Company will continue to have to raise funds beyond its current working capital balance in order to continue the development of its exploration properties and general operations.

### **2. BASIS OF PREPARATION AND CONTINUANCE OF OPERATIONS (cont'd)**

These conditions indicate the existence of material uncertainties, which cast significant doubt about the Company's ability to continue as a going concern.

As the Company is in the exploration stage, the recoverability of the costs incurred to date on exploration properties is dependent upon the existence of economically recoverable reserves, the ability of the Company to obtain the necessary financing to complete the exploration and development of its properties, and upon future profitable production or proceeds from the disposition of the properties. The Company has financed its operations to date primarily through the issuance of common shares and exercise of stock options and share purchase warrants. These financial statements do not include any adjustments relating to the recoverability and classification of recorded asset amounts and classification of liabilities that might be necessary should the Company be unable to continue in existence. Such adjustments could be material.

The Company's business may be affected by changes in political and market conditions, such as interest rates, availability of credit, inflation rates, changes in laws, and national and international circumstances. Recent geopolitical events, including, the outbreaks of the coronavirus ("COVID-19") pandemic, relations between NATO and Russian Federation regarding the situation in Ukraine, and potential economic global challenges such as the risk of the higher inflation and energy crises, may create further uncertainty and risk with respect to the prospects of the Company's business.

While it cannot be assured, the Company expects reduced forward-impact of COVID-19 as it relates to the mining sector to generally be in line with normalization of its effects within the broader business sector during 2023 and beyond.

### **3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The significant accounting policies applied in the preparation of these condensed interim financial statements are consistent with the accounting policies disclosed in Note 3 of the Company's audited financial statements for the year ended July 31, 2023. These condensed interim financial statements should be read in conjunction with the audited financial statements of the Company for the year ended July 31, 2023.

### **4. SIGNIFICANT ACCOUNTING JUDGMENTS, ESTIMATES, AND ASSUMPTIONS**

The Company makes estimates and assumptions about the future that affect the reported amounts of assets and liabilities. Estimates and judgments are continually evaluated based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. In the future, actual experience may differ from these estimates and assumptions.

The effect of a change in an accounting estimate is recognized in the year of the change, if the change affects that year only, or in the year of the change and future years, if the change affects both.

Information about critical judgments and estimates in applying accounting policies that have the most significant risk of causing material adjustment to the carrying amounts of assets and liabilities included in the preparation of these financial statements are discussed below.

**4. SIGNIFICANT ACCOUNTING JUDGMENTS, ESTIMATES, AND ASSUMPTIONS (cont'd)****Critical Estimates***Valuation of Share-based Payments*

The Company uses the Black-Scholes option pricing model for valuation of share-based payments. Option pricing models require the input of subjective assumptions including expected price volatility, interest rate, and forfeiture rate. Changes in the input assumptions can materially affect the fair value estimate and the Company's earnings and equity reserves.

**Critical Judgments***Impairment of Exploration and Evaluation Assets*

The application of the Company's accounting policy for exploration and evaluation expenditures requires judgment in determining whether it is likely that future economic benefits will flow to the Company. If, after exploration and evaluation expenditures are capitalized, information becomes available suggesting that the carrying amount of an exploration and evaluation asset may exceed its recoverable amount, the Company carries out an impairment test at the cash-generating unit or group of cash-generating unit's level in the year the new information becomes available. The assessment of impairment indicators, impairment tests, and recoverable value models have a degree of estimation and judgment which may differ in the future.

*Mining Exploration Tax Credits*

The Company is entitled to refundable tax credits on qualified resource expenditures incurred in Canada. Management's judgment is applied in determining whether the resource expenditures are eligible for claiming such credits.

*Going Concern*

The assessment of the Company's ability to continue as a going concern and to raise sufficient funds to pay for its ongoing operating expenditures, meet its liabilities for the ensuing year, and to fund planned and contractual exploration programs, involves significant judgment based on historical experience and other factors, including expectation of future events that are believed to be reasonable under the circumstances.

**British Columbia*****Placer Mountain Property, British Columbia***

On October 15, 2020, Damara entered into an assignment and assumption agreement with Canagold Resources Ltd. (“**Canagold**”) pursuant to which Canagold has assigned (the “**Assignment**”) all of its rights, obligations, interests and assets with respect to a property option agreement dated December 20, 2018 and amended on June 3, 2019 (the “**Option Agreement**”) between Canagold, Universal Copper Ltd. (“**Universal**”), and Sydney Wilson (“**Wilson**”) to acquire a 75% interest (the “**Option**”) in certain mineral claims located approximately 35km south of Princeton, British Columbia of Universal and Wilson (“**Placer Mountain**” or the “**Property**”), subject to the Universal NSR and Wilson NSR (as defined herein).

The Property is subject to a 1% net smelter return (“**NSR**”) to Universal which can be purchased for \$1,000,000 (the “**Universal NSR**”) and a 2% NSR to Wilson which can be reduced to 1% for cash purchase of \$1,000,000 (the “**Wilson NSR**”).

On April 13, 2021, the Company, in accordance with the terms of the Option Agreement, provided notice (the “**Notice**”) of its intent to exercise the Option and acquire its 75% interest and on August 4, 2021 the parties entered into a definitive joint venture agreement (the “**JV Agreement**”). Pursuant to the terms of the Option Agreement, Damara made the cash payment of \$25,000 to Universal on execution of the JV Agreement. Pursuant to the terms of the JV Agreement, Universal’s interest has been diluted to 16% as at October 31, 2023 (July 31, 2023 - 16%) for non-contribution to the exploration programs.

Consideration for the Assignment included:

- Completion of \$300,000 in earn-in exploration expenditures (completed);
- The issuance of 3,989,950 common shares with a fair value of \$292,922 issued on or before December 31, 2020 (issued); and
- The issuance of 9,841,371 common shares with a fair value of \$738,103 issued on or before December 31, 2021 (issued).

### 5. EXPLORATION AND EVALUATION ASSETS (cont'd)

#### Quebec

##### *VanLab Property*

On December 22, 2022 the Company entered into purchase agreement (the "**Purchase Agreement**") to acquire a 100% undivided interest (the "**Interest**") in 203 mineral exploration claims located in the Labrador Trough region of Quebec, (collectively, the "**VanLab Property**") with two arm's length sellers (the "**Sellers**").

Consideration to acquire the Interest included the following:

- The issuance of an aggregate of 4,000,000 units (each a "**Unit**") to the Sellers with a fair value of \$200,000 (issued Note 6). Each Unit is comprised of one common share and one non-transferable share purchase warrant (each a "**VanLab Warrant**"). Each VanLab Warrant entitles the holder to acquire one additional common share at an exercise price of \$0.25 until December 23, 2025; and
- Damara has granted to the Sellers a 2% net smelter return royalty (the "**NSR Royalty**").

Pursuant to the terms of the Purchase Agreement, the Sellers may be entitled to a 0.5% net smelter return royalty in any interest Damara acquires in additional claims within an area of interest of the VanLab Property.

### 6. SHARE CAPITAL
