NOTES TO THE CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS

For the nine months ended June 30, 2023 and 2022

(Expressed in Canadian dollars)

(Unaudited – Prepared by Management)

1. NATURE AND CONTINUANCE OF OPERATIONS

CMC Metals Ltd. (the “Company”) is incorporated in the Province of British Columbia and its principal activity is the acquisition and exploration of mineral properties in Canada and the United States of America. The Company is listed on the TSX Venture Exchange (“TSX-V”).

The head office and principal address of the Company are located at Suite 1000 – 409 Granville Street, Vancouver, British Columbia, Canada, V6C 1T2 and its records office is located at Suite 1120 – 625 Howe Street, Vancouver British Columbia, Canada, V6C 2T6.

These condensed interim consolidated financial statements have been prepared on the assumption that the Company and its subsidiaries will continue as a going concern, meaning it will continue in operation for the foreseeable future and will be able to realize its assets and discharge its liabilities in the ordinary course of operations. Different bases of measurement may be appropriate if the Company is not expected to continue operations for the foreseeable future. As of June 30, 2023, the Company had not advanced its properties to commercial production. The Company’s continuation as a going concern is dependent upon the successful results from its mineral property exploration activities and its ability to attain profitable operations and generate funds there from and/or raise equity capital or borrowings sufficient to meet current and future obligations. These uncertainties indicate the existence of a material uncertainty that may cast significant doubt about the Company’s ability to continue as a going concern. Management intends to finance operating costs over the next twelve months with loans from directors, by continuing to pursue additional sources of financing through equity offerings, seeking joint venture partners to fund exploration, monitoring exploration activity and reducing overhead costs.

The Company’s business may be affected by changes in political and market conditions, such as interest rates, availability of credit, inflation rates, changes in laws, and national and international circumstances. Recent geopolitical events, including, relations between NATO and Russian Federation regarding the situation in Ukraine, and potential economic global challenges such as the risk of the higher inflation and energy crises, may create further uncertainty and risk with respect to the prospects of the Company’s business.

2. SIGNIFICANT ACCOUNTING POLICIES AND BASIS OF PRESENTATION

Statement of compliance

These condensed interim consolidated financial statements, including comparatives, have been prepared in accordance with International Financial Reporting Standards (“IFRS”) as issued by the International Accounting Standards Board (“IASB”), Interpretations issued by the International Financial Reporting Interpretations Committee (“IFRIC”) and in accordance with International Accounting Standard (“IAS”) 34 Interim Financial Reporting.

The condensed interim consolidated financial statements were authorized for issue by the Board of Directors on August 29, 2023.

Basis of preparation

The condensed interim consolidated financial statements have been prepared on the historical cost basis except for certain financial instruments which are measured at fair value, as explained in the accounting policies set out in Note 3. In addition, these financial statements have been prepared using the accrual basis of accounting, except for cash flow information.

The condensed interim financial statements of the Company are presented in Canadian dollars, which is the functional currency of the Company.

Accounting policy

The preparation of financial data is based on accounting principles and practices consistent with those used in the preparation of the audited consolidated financial statements as at September 30, 2022. The accompanying unaudited condensed interim consolidated financial statements should be read in conjunction with the Company’s audited consolidated financial statements for the year ended September 30, 2022.

2. SIGNIFICANT ACCOUNTING POLICIES AND BASIS OF PRESENTATION – (cont'd)**Recent accounting pronouncements**

Certain new standards, interpretations, amendments and improvements to existing standards were issued by the IASB or IFRIC that are mandatory for future accounting periods are as follows:

Classification of Liabilities as Current or Non-current (Amendments to IAS 1)

The amendments to IAS1 provide a more general approach to the classification of liabilities based on the contractual arrangements in place at the reporting date. These amendments are effective for reporting periods beginning on or after January 1, 2024. The Company does not expect the adoption of the amendments to IAS 1 will have an impact on the Company's financial statements.

3. Critical accounting estimates, assumptions and judgments

The Company makes estimates and assumptions about the future that affect the reported amounts of assets and liabilities. Estimates and judgments are continually evaluated based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. In the future, actual experience may differ from these estimates and assumptions.

The effect of a change in an accounting estimate is recognized prospectively by including it in net loss in the year of the change, if the change affects that year only, or in the year of the change and future years, if the change affects both.

Critical judgments, estimates and assumptions in applying accounting policies

Information about critical judgments in applying accounting policies that have the most significant risk of causing material adjustment to the carrying amounts of assets and liabilities recognized in the financial statements within the next financial year are discussed below:

Going Concern

The assessment of the Company's ability to continue as a going concern require significant judgement. See Note 1.

Title to mineral property interests

Although the Company has taken steps to verify title to mineral properties in which it has an interest, these procedures do not guarantee the Company's title. Such properties may be subject to prior agreements or transfers and title may be affected by undetected defects.

4. MARKETABLE SECURITIES

Marketable securities are fair valued at the end of each reporting period. The fair values of the common shares of the publicly traded companies have been directly referenced to published price quotations in an active market.

Marketable securities consisted of the following as of June 30, 2023:

Investment in marketable securities	Number of shares held at June 30, 2023	Investment Cost	Fair Value at June 30, 2023	Number of shares held at September 30, 2022	Fair Value at September 30, 2022

Silver Hart Property

On February 21, 2005, the Company acquired a 100% interest in certain claims comprising the Silver Hart Property located in the Watson Lake Mining District, Yukon Territories from an individual who subsequently became a director and officer of the Company for a total of \$995,000. The Company's remaining and additional obligation for the consideration was settled by the issuance of a loan.

During the year ended September 30, 2020, the Company entered into a Yukon Mineral Exploration Transfer Payment Program Agreement with the Yukon Geological Survey ("YG") for a one-time financial assistance to assist with the costs of an exploration program related to the Silver Hart Property. The YG agreed to contribute up to a maximum of \$40,000 (the "Government Credit") towards eligible exploration expenditures which are, in the opinion of YG, reasonable and directly attributable to the Silver Hart.

During the year ended September 30, 2020, the Company incurred the eligible exploration expenditures and, therefore, recorded the \$40,000 Government Credit in receivables and as a reduction to the cumulative costs incurred on the Silver Hart Property. During the year ended September 30, 2021, the Government Credit was received in full.

The Government Credit was made available on certain terms and conditions, and in reliance on attestations made by the Company in the agreement. Non-compliance with the terms and conditions may result in termination, withholding by the YG of some or all of the Government Credit or repayment of all or part of the Government Credit. The amount demanded for repayment shall bear interest beginning on the due date and ending on the day before the day on which payment is received by YG. To June 30, 2023, and subsequently, the Company has not received notification of non-compliance.

The Company was subject to a claim made by the Government of the Yukon Territory related to the remediation of the Silver Hart Property. Accordingly, the Company has recognized its obligation to remediate the claim and have provided reclamation deposits on a progressive basis (Notes 6 and 10).

8. LOANS***Regional Relief and Recovery Fund Loan***

During the year ended September 30, 2020, the Company received a \$40,000 loan from Her Majesty the Queen in Right of Canada as represented by the Minister responsible for Western Economic Diversification Canada (the “Minister”), pursuant to the Regional Relief and Recovery Fund (“RRRF”) program (the “RRRF Loan”). The RRRF Loan was made available on certain terms and conditions, and in reliance on attestations made by the Company in the loan agreement.

During the year ended September 30, 2022, the Company receive an additional \$20,000 in RRRF to the maximum of \$60,000.

The RRRF Loan is an interest-free loan until December 31, 2023. If the Company repays \$34,000 by December 31, 2023, a balance of \$20,000 will be forgiven. If on December 31, 2023, the Company has not repaid the \$40,000, it may exercise the option for a 3-year term extension and, accordingly, a 5% interest rate will be applied during this extension period on any balance remaining.

On initial recognition, the Company recorded the RRRF Loan at a fair value based on a prevailing market rate of 17%. The Company recorded the result of the benefit received from the interest-free RRRF Loan as a government grant. The portion of the forgivable RRRF Loan was also treated as a government grant, given reasonable assurance that the Company will meet the terms for forgiveness of the loan.

10. RESTORATION AND ENVIRONMENTAL OBLIGATIONS

As at June 30, 2023, the Company measured the best estimated of the future remediation costs for reclamation that arose as a result of past exploration activities to be \$575,099 for the Bishop Mill Property and Silver Hart Property (Notes 6 and 7). The fair value of the liability was determined to be equal to the estimated remediation costs. The timing of the cash flow related to the reclamation activities is beyond one year with not fixed timeline at this time.

The Company was subject to a claim made by the Government of the Yukon Territory related to the remediation of the Silver Hart mineral property pursuant to its exploration program. The Company's provision for future site closure and reclamation costs is based on the level of known disturbance at the reporting date and known legal requirements. It is not currently possible to estimate the impact on operating results, if any, of future legislative or regulatory developments. The Company has accrued a provision of \$146,070 by way of estimating its obligation to remediate the claim. This liability is secured by a Letter of Credit secured by a guaranteed investment certificate for the same amount which bore interest at 2.05% per annum and cashable at maturity and is included in reclamation bond at June 30, 2023.

The movement of the restoration and environmental obligations are as follows:

13. FINANCIAL RISK AND CAPITAL MANAGEMENT

The fair value of the Company's financial assets and liabilities approximates its carrying amount.

Financial instruments measured at fair value are classified into one of three levels in the fair value hierarchy according to the relative reliability of the inputs used to estimate the fair values. The three levels of the fair value hierarchy are:

- Level 1 – Unadjusted quoted prices in active markets for identical assets or liabilities.
- Level 2 – Inputs other than quoted prices that are observable for the asset or liability either directly or indirectly, and
- Level 3 – Inputs that are not based on observable market data.

The Company's only financial instrument measured at fair value are its marketable securities, for which the fair value is determined using closing prices at the reporting date with any unrealized gain or loss recognized in profit or loss. The marketable securities are classified as Level 1.

The Company is exposed in varying degrees to a variety of financial instrument related risks. The Board of Directors approves and monitors the risk management processes, inclusive of documented investment policies, counterparty limits, and controlling and reporting structures. The type of risk exposure and the way in which such exposure is managed is provided as follows:

Credit risk

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss. The Company's primary exposure to credit risk is on its cash held in bank accounts.

The majority of cash and cash equivalents is deposited in bank accounts held with one major bank in Canada. As most of the Company's cash is held in one bank there is a concentration of credit risk. This risk is managed by using major banks that are high credit quality financial institutions as determined by rating agencies. The Company's secondary exposure to risk is on its receivables and reclamation bond. This risk is minimal as receivables consist primarily of refundable government goods and services taxes and the reclamation bond are held with the financial institution.

Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. The Company has a planning and budgeting process in place to help determine the funds required to support the Company's normal operating requirements on an ongoing basis.

Historically, the Company's sole source of funding has been the issuance of equity securities for cash, primarily through private placements. The Company's access to financing is always uncertain. There can be no assurance of continued access to significant equity funding.

The Company has a working capital of \$568,569 as at June 30, 2023 (September 31, 2022 - \$298,679). Liquidity risk is assessed as high.

Foreign exchange risk

Foreign currency risk is the risk that the fair values of future cash flows of a financial instrument will fluctuate because they are denominated in currencies that differ from the respective functional currency. The Company does not hedge its exposure to fluctuations in foreign exchange rates. Foreign exchange risk is assessed as low.

Interest rate risk

Interest rate risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market interest rates. Interest earned on cash is at nominal interest rates and therefore, the Company does not consider interest rate risk to be significant.

Capital management

The Company's policy is to maintain a strong capital base so as to maintain investor and creditor confidence and to sustain future development of the business. The capital structure of the Company consists of equity, comprising share capital, net of accumulated deficit. There were no changes in the Company's approach to capital management during the year. The Company is not subject to any externally imposed capital requirements.

14. FLOW THROUGH SHARE COMMITMENT

Under the IFRS framework, the increase to share capital when flow-through shares are issued is measured based on the current market price or concurrent non-flow-through share price of common shares. The incremental proceeds, or “premium”, are recorded as deferred income.

Flow-through common shares require the Company to spend an amount equivalent to the proceeds of the issued flow-through common shares on Canadian qualifying exploration expenditures. The Company may be required to indemnify the holders of such shares for any tax and other costs payable by them in the event the Company has not made the required exploration expenditures.

During the nine months ended June 30, 2023, the Company received \$1,780,902 from the issuance of flow-through shares. A flow through premium liability of \$64,556 was initially recognized of which the Company recognized \$64,556 as other income, and as at June 30, 2023 has a commitment to incur an additional \$897,573 in exploration expenditures by the end of December 31, 2023.

15. SUBSEQUENT EVENT

On August 24, 2023, the Company completed the first tranche of financing for aggregate gross proceeds of \$214,250 consisting of 1,167,500 NFT units at a price of \$0.10 per NFT unit and 812,500 FT units at a price of \$0.12 per FT unit. Each NFT unit consists of one common share of the company and one-half of one NFT transferable share purchase warrant. Each FT unit consists of one FT share of the company and one-half of one NFT transferable share purchase warrant. Each whole warrant entitles the holder thereof to acquire one common share of the Company at a price of \$0.15 per share on or before August 25, 2025. In connection to the financing, the Company paid a finders fees of \$5,055 and issued 24,000 non-transferable finders’ warrants exercisable at \$0.15 per share expiring on August 25, 2025.
