1. Nature of Operations and Going Concern

Monarca Minerals Inc. (the "Company" or "Monarca"), was incorporated on March 22, 1995 under the Canada Business Corporations Act. The Company's shares are traded on the TSX Venture Exchange under the trading symbol MMN. The Company is in the process of exploring and evaluating its exploration and evaluation property interests in Mexico. The address of the Company's corporate office and principal place of business is 390 Bay Street, Suite 806, Toronto, Ontario.

Although the Company has taken steps to verify title to the properties on which it is conducting exploration and in which it has an interest, in accordance with industry standards for the current stage of exploration of such properties, these procedures do not guarantee the Company's title. Property title may be subject to government licensing requirements or regulations, social licensing requirements, unregistered prior agreements, unregistered claims, aboriginal claims and non-compliance with regulatory and environmental requirements. The Company's assets may also be subject to increases in taxes and royalties, renegotiation of contracts, currency exchange fluctuations and restrictions and political uncertainty.

The Company presently has no proven reserves, and on the basis of information to date, has not yet determined whether any of its exploration and evaluation property interests contain economically recoverable ore resources. The amounts recorded as exploration and evaluation properties represent deferred exploration costs incurred to date and do not necessarily represent present or future values. The Company is dependent on raising funds through the issuance of shares and/or attracting joint venture partners in order to undertake expanded exploration and development of its exploration and evaluation properties and to ultimately realize profits through future production or sale of the exploration and evaluation properties.

At August 31, 2025, the Company had a working capital deficit of \$5,923,363 (November 30, 2024 - \$5,254,398) and had incurred losses since inception, and at August 31, 2025, had an accumulated deficit of \$35,064,569 (November 30, 2024 - \$34,391,954) which has been funded primarily by the issuance of equity. In addition, the Company's long-term debt, secured by certain exploration property interests, was in default as at August 31, 2025 and 2024 (see Note 6). The ability of the Company to continue as a going concern is dependent upon its ability to raise sufficient funds to meet its obligations as they become due. While the Company has been successful in securing financing in the past, there is no assurance that it will be able to do so in the future. Because of continuing operating losses, the Company's continuance as a going concern is dependent on its ability to obtain adequate financing and to reach profitable levels of operation. It is not possible to predict whether financing efforts will be successful or if the Company will attain profitable levels of operation.

These unaudited condensed consolidated interim financial statements have been prepared on the basis that the Company will continue as a going concern, which assumes that the Company will be able to meet its commitments, continue operations and realize its assets and discharge its liabilities in the normal course of business for the foreseeable future. They do not reflect adjustments to the carrying values of assets and liabilities which may be necessary should the Company be unable to do so and, therefore, be required to realize its assets and discharge its liabilities in other than the normal course of business and at amounts different from those reflected in the consolidated financial statements. Such adjustments could be material. Material uncertainties as mentioned above cast significant doubt upon the Company's ability to continue as a going concern.

2. Basis of Presentation

Basis of Presentation and Measurement

The Company prepares its unaudited condensed consolidated interim financial statements in accordance with International Accounting Standards 34 Interim Financial Reporting ("IAS 34") as issued by the International Accounting Standards Board ("IASB") and under the historical cost method, except for certain financial instruments measured at fair value.

These unaudited condensed consolidated interim financial statements should be read in conjunction with the Company's annual consolidated financial statements for the years ended November 30, 2024 and 2023 which have been prepared in accordance with IFRS as issued by the IASB. The accounting policies and methods adopted are consistent with those disclosed in Note 4 to the Company's consolidated financial statements for the years ended November 30, 2024 and 2023. These unaudited condensed consolidated interim financial statements were approved by the board of directors for issue on October 30, 2025.

Critical Judgments and Estimation Uncertainties

Areas of critical accounting judgments and estimation uncertainties that have the most significant effect on the amounts recognized in the unaudited condensed consolidated interim financial statements are disclosed in Note 4 of the Company's consolidated financial statements for the years ended November 30, 2024 and 2023.

8. Segmented Information

The Company operates in a single industry segment. Assets by geographic location are as follows:

	August 31, 2024	November 30, 2024
Mexico	\$ 19,311	\$ 7,019
Canada	58,623	\$ 79,433

9. Management of Capital Risk

The Company's objectives when managing capital are to safeguard the Company's ability to continue as a going concern in order to pursue the development of its exploration and evaluation properties and to maintain a flexible capital structure which optimizes the costs of capital at an acceptable risk.

In the management of capital, the Company includes the components of shareholders' equity, as well as the cash. The Company manages the capital structure and makes adjustments to it in light of changes in economic conditions and the risk characteristics of the underlying assets. To maintain or adjust the capital structure, the

Company may attempt to issue new shares, issue new debt, acquire or dispose of assets or adjust the amount of cash.

In order to facilitate the management of its capital requirements, the Company prepares annual expenditure budgets that are updated as necessary depending on various factors, including successful capital deployment and general industry conditions. The annual and updated budgets are approved by the Board of Directors.

The Company's investment policy is to invest its cash in highly liquid short-term interest-bearing investments with maturities 90 days or less from the original date of acquisition, selected with regards to the expected timing of expenditures from continuing operations.

The Company has not changed its approach to capital management during fiscal 2023 or 2022. The Company and its subsidiaries are not subject to any external capital restrictions. The Company expects that it will be necessary to raise additional capital during the current fiscal year to meet its budgeted exploration and development plans and fund operations.

The Company is not subject to any capital requirements imposed by a lending institution or regulatory body, other than of the TSX Venture Exchange ("TSXV") which requires adequate working capital or financial resources of the greater of (i) \$50,000 and (ii) an amount required in order to maintain operations and cover general and administrative expenses for a period of 6 months. As at August 31, 2025 and November 30, 2024, management believes the Company was compliant with the requirement.

10. Financial Risk Management

Fair Value Hierarchy and Liquidity Risk Disclosure:

The fair value hierarchy has the following levels: (a) quoted prices (unadjusted) in active markets for identical assets or liabilities (Level 1); (b) inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices) (Level 2); and (c) inputs for the asset or liability that are not based on observable market data (unobservable inputs) (Level 3). At August 31, 2025 and November 30, 2024, the Company had no financial instruments carried at fair value to classify in the fair value hierarchy.

10. Financial Risk Management - continued

The fair value of cash, amounts receivable, accounts payable and accrued liabilities, interest payable, promissory notes and current portion long-term debt approximate their carrying value due to their short-term to maturity.

The Company is exposed to certain financial risks, including currency risk, credit risk, liquidity risk, interest rate risk, and price risk. The Company may be exposed to risks of varying degrees of significance which could affect its ability to achieve its strategic objectives. The main objectives of the Company's risk management processes are to ensure that the risks are properly identified and that the capital base is adequate in relation to those risks. There have been no significant changes in the risks or the Company's objectives, policies and procedures related to risk management during the periods ended August 31, 2025 and November 30, 2024.

(a) Currency Risk:

The Company is exposed to the financial risk related to the fluctuation of foreign exchange rates. The Company operates in Canada and Mexico and a portion of its expenses are incurred in Mexican Pesos. A significant change in the currency exchange rates between the Canadian Dollar relative to the Mexican Peso could have an effect on the Company's results of operations, financial position or cash flows. The Company has not hedged its exposure to currency fluctuations.

At August 31, 2025 and November 30, 2024, the Company is exposed to currency risk through the following assets and liabilities denominated in Mexican Pesos:

	August 31 2025		November 30 2024	
Cash	MP\$	14,750	MP\$	480
Amounts receivable and prepaid expenses		210,085		(1,214,573)
Accounts payable and accrued liabilities		(1,777,278)		(14,898,891)
Total	MP\$	(1,552,443)	MP\$	(16,112,984)
Canadian dollar equivalent	CAD\$	(114,311)	CAD\$	(1,115,753)

At August 31, 2025 and November 30, 2024, the Company is exposed to currency risk through the following assets and liabilities denominated in United States Dollars ("US\$"):

	August 31 2025		November 30 2024	
Cash	US\$	233	US\$	233
Accounts payable and accrued liabilities		-		(233,725)
Total	US\$	233	US\$	(233,492)
Canadian dollar equivalent	CAD\$	321	CAD\$	(327,122)

10. Financial Risk Management - continued**(b) Credit Risk**

Credit risk is the risk of an unexpected loss if a customer or third party to a financial instrument fails to meet its contractual obligations.

The majority of the Company's cash is held through large Canadian financial institutions. The Company is also exposed to credit risk on its amounts receivable, which are unsecured. The Company considers the risk of loss to be low. There have been no significant changes to how management manages credit risk during the period ended August 31, 2025 and November 30, 2024.

(c) Liquidity Risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. The Company manages liquidity risk through the management of its capital structure. Accounts payable, accrued liabilities, interest payable, promissory notes and long-term debt are due within the current operating period.

The Company's expected sources of cash flow in the upcoming year are equity financings. The Company will require additional cash to finance operations. There have been no changes to how management manages liquidity risk during the period ended August 31, 2025 and November 30, 2024.

(d) Interest Rate Risk

Interest rate risk is the risk borne by an interest-bearing asset or liability as a result of fluctuations in interest rates. The Company has cash balances maintained in Canada. The Company's current policy is to invest excess cash in GICs issued by Canadian banking institutions. The Company periodically monitors the investments it makes and is satisfied with the credit ratings of its bank. The Company's interest-bearing debt is at a fixed interest rate and is therefore not impacted by changes in interest rates.

(e) Price Risk

The Company is exposed to price risk with respect to commodity and equity prices. Equity price risk is defined as the potential adverse impact on the Company's earnings due to movements in individual equity prices or general movements in the level of the stock market. Commodity price risk is defined as the potential adverse impact on earnings and economic value due to commodity price movements and volatilities. The Company does not actively manage this risk as it is considered a low risk area given the Company is not a producing entity.

(f) Sensitivity Analysis

Based on management's knowledge and experience of the financial markets, the Company believes the following movements are "reasonably possible" over a twelve-month period.

- Based on the net exposures as at August 31, 2025 (as seen in Note 10(a)), and assuming that all other variables remain constant, a 10% depreciation or appreciation of the Canadian Dollar against the Mexican Peso would not result in a material change to the Company's loss.
- Price risk is remote since the Company is not a producing entity.
- A change in interest rates of 1% would result in a corresponding change in net loss for the year of approximately \$447 based on the cash balance at August 31, 2025.

11. Commitments and Contingencies

Legal Proceedings

The Company is from time to time involved in various claims, legal proceedings and complaints arising in the normal course of business. The Company cannot reasonably predict the likelihood or outcome of these actions. The Company does not believe that adverse decisions in any pending or threatened proceedings related to any matter, or any amount which may be required to be paid by reason thereof, will have a material effect on the financial condition or future results of operations. As at August 31, 2025 and November 30, 2024, no amounts have been accrued related to such matters.

The Company has discontinued mining operations in various jurisdictions and has written down the carrying value of the related assets to nominal amounts. An estimate of the total liability, if any, for which the Company might become obligated as a result of its role as operator, guarantor or indemnifier, is not determinable, nor expected to be material, and no amount has been provided for in these consolidated financial statements.

Exploration and Evaluation Properties
