## Accounting Standards Issued But Not Yet Effective

The following new standards, and amendments to standards and interpretations, are not yet effective for the year ended June 30, 2019, and have not been applied in preparing these financial statements:

- New standard IFRS 16, "Leases"

The Company has not early adopted this revised standard and it will not have a significant impact on the Company's financial statements.

Other accounting standards or amendments to existing accounting standards that have been issued but have future effective dates are either not applicable or are not expected to have a significant impact on the Company's financial statements.

## Financial Instruments and Risks

### *Fair Values*

Assets and liabilities measured at fair value on a recurring basis were presented on the Company's statement of financial position as at June 30, 2019, as follows:

	Fair Value Measurements Using			Balance, June 30, 2019 \$
	Quoted prices in active markets for identical instruments (Level 1) \$	Significant other observable inputs (Level 2) \$	Significant unobservable inputs (Level 3) \$	
Cash and cash equivalents	906,164	–	–	906,164

The fair values of other financial instruments, which include accounts receivable, GST receivable, accrued interest receivable, loans receivable, and accounts payable and accrued liabilities, approximate their carrying values due to the relatively short-term maturity of these instruments.

## *Credit Risk*

Financial instruments that potentially subject the Company to a concentration of credit risk consist primarily of cash, GST receivable, accrued interest receivable, and loans receivable. The Company limits its exposure to credit loss by placing its cash with high credit quality financial institutions. The Company performs ongoing credit evaluations, does not require collateral and establishes an allowance for doubtful accounts based on the age of the receivable and the specific identification of receivables the Company considers at risk. GST receivable is due from the Government of Canada. The carrying amount of financial assets represents the maximum credit exposure.

## *Foreign Exchange Rate Risk*

The Company is not exposed to any significant foreign exchange rate risk.

## *Interest Rate Risk*

The Company's exposure to interest rate risk relates to its ability to earn short-term interest on cash and cash equivalents balances at variable rates.

## *Liquidity Risk*

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. The Company currently settles its financial obligations out of cash. The ability to do this relies on the Company raising equity financing in a timely manner and by maintaining sufficient cash in excess of anticipated needs. Given the nature of the Company's financial assets, it believes that liquidity risk is relatively low.

## **Capital Management**

The Company manages its capital to maintain its ability to continue as a going concern and to provide returns to shareholders and benefits to other stakeholders. The capital structure of the Company consists of cash and equity comprised of issued share capital and share-based payment reserve.

The Company manages its capital structure and makes adjustments to it in light of economic conditions. The Company, upon approval from its Board of Directors, will balance its overall capital structure through new share issues or by undertaking other activities as deemed appropriate under the specific circumstances.

The Company is not subject to externally imposed capital requirements and the Company's overall strategy with respect to capital risk management remains unchanged from the year ended June 30, 2018.
