The Issuer was only recently incorporated and has no active business or assets other than cash. The Issuer does not have a history of earnings, nor has it paid any dividends and will not generate earnings or pay dividends until at least after the Completion of the Qualifying Transaction. The Offering is only suitable to investors who are prepared to rely entirely on the directors and management of the Issuer and can afford to risk the loss of their entire investment. The directors and officers of the Issuer will only devote part of their time and attention to the affairs of the Issuer and there are potential conflicts of interest to which some of the directors and officers of the Issuer will be subject in connection with the operations of the Issuer. Assuming completion of the Offering, an investor will suffer an immediate dilution (based on the gross proceeds from the Offering and prior issuances without deduction for selling commissions or related expenses) per Common Share of \$0.024 or 24% in the event of the Minimum Offering being completed or \$0.021 or 21% per Common Share in the event of the Maximum Offering being completed. There can be no assurance that an active and liquid market for the Common Shares will develop and an investor may find it difficult to resell the Common Shares. Until Completion of the Qualifying Transaction, the Issuer will not carry on any business other than the identification and evaluation of assets or businesses with a view to completing a Qualifying Transactions. The Issuer has only limited funds with which to identify and evaluate possible Qualifying Transactions and there can be no assurance that the Issuer will be able to identify or complete a suitable Qualifying Transaction.

The Qualifying Transaction may involve the acquisition of a business or assets located outside of Canada. It may therefore be difficult or impossible to effect service or notice to commence legal proceedings upon any directors, officers and experts outside of Canada and it may not be possible to enforce judgments against such persons or companies obtained in Canadian courts predicated upon the civil liability provisions applicable to securities laws in Canada. See *"Business of the Issuer"*, *"Directors, Officers and Promoter"*, *"Capitalization"*, *"Dilution"* and *"Risk Factors"*.

The Issuer currently intends to pursue a Qualifying Transaction in either the mineral resource or energy industries but there is no assurance that either sector will, in fact, be the business sector of a proposed Qualifying Transaction or of the Issuer following the Completion of the Qualifying Transaction.

Until Completion of the Qualifying Transaction, the Issuer will not carry on any business other than the identification and evaluation of businesses or assets with a view to completing a potential Qualifying Transaction. With the consent of the Exchange, this may include the raising of additional funds in order to finance an acquisition. Except as described under “*Use of Proceeds*”, the funds raised pursuant to this Offering and any subsequent financing will be utilized only for the identification and evaluation of potential Qualifying Transactions and not for any deposit, loan or direct investment in a potential acquisition.

Although the Issuer has commenced the process of identifying potential acquisitions with a view to completing the Qualifying Transaction, the Issuer has not yet entered into a Qualifying Transaction Agreement.

Method of Financing

The Issuer may use cash, bank financing, the issuance of treasury shares, private or public debt

or equity financing or a combination of these for the purpose of financing its proposed Qualifying Transaction. **A Qualifying Transaction financed by the issuance of treasury shares could result in a change of control of the Issuer and may cause the shareholders' interest in the Issuer to be further diluted.**

Criteria for a Qualifying Transaction

The Issuer will consider acquisitions of assets or businesses operated or located both inside and outside of Canada, as permitted by the CPC Policy. The board of directors will examine proposed acquisitions having regard to the sound business fundamentals, utilizing the expertise and experience of the directors of the Issuer. The board of directors of the Issuer must approve any proposed Qualifying Transaction. In exercising their powers and discharging their duties in relation to a proposed Qualifying Transaction, the directors will act honestly and in good faith having regard to the best interests of the Issuer and will exercise the care, diligence and skill that a reasonably prudent person would exercise in comparable circumstances.

Process of Identification of a Qualifying Transaction

The Issuer proposes to identify acquisitions of interests in assets or businesses through discussions with various business associates and contacts of the Issuer's directors. Once a prospective acquisition target has been identified and evaluated, the Issuer will proceed to negotiate the terms upon which it may acquire an interest in the asset or business.

Filings and Shareholder Approval of the Qualifying Transaction

Upon the Issuer reaching a Qualifying Transaction Agreement, the Issuer must issue a comprehensive news release, at which time the Exchange generally will halt trading in the Common Shares until the filing requirements of the Exchange have been satisfied as set forth under "*Trading Halts, Suspensions and Delisting*". Within 75 days after issuance of such news release, the Issuer shall be required to submit for review to the Exchange either an information circular that complies with applicable corporate and securities laws (a "**CPC Information Circular**") or a filing statement (a "**CPC Filing Statement**") that complies with Exchange Policies containing prospectus level disclosure of the Significant Assets and the Issuer, assuming Completion of the Qualifying Transaction (each, a "**Disclosure Document**"). Where the proposed Qualifying Transaction is a Non-Arm's Length Qualifying Transaction, the Issuer must obtain Majority of the Minority Approval of the Qualifying Transaction. Where the proposed Qualifying Transaction is not a Non-Arm's Length Qualifying Transaction, the Exchange will not require the Issuer to obtain shareholder approval of the Qualifying Transaction provided that it files the CPC Filing Statement. Once the Disclosure Document has been accepted for filing, the Exchange will advise the Issuer that it is cleared to file the final Disclosure Document on SEDAR and:

- (a) where shareholder approval of the Qualifying Transaction is not required, the Issuer must file the final CPC Filing Statement on SEDAR at least seven business days prior to:
 - (i) the resumption of trading in the securities of the Resulting Issuer following the Completion of the Qualifying Transaction, if the securities of the Issuer are halted from trading; or
 - (ii) the Completion of the Qualifying Transaction, if the securities of the Issuer

are not halted from trading;

- (b) where shareholder approval is required and is to be obtained at a meeting of shareholders, the Issuer will file on SEDAR and mail to its shareholders the notice of meeting, CPC Information Circular and form of proxy, together with any other required documents; and
- (c) where shareholder approval is required and is to be obtained by written consent, the Issuer will file on SEDAR the final Disclosure Document.

Unless granted an exemption by the Exchange, the Issuer will also be required to retain a Sponsor, who must be a Member of the Exchange or a Participating Organization (as set out in the definition of “Participating Organization” in Exchange Policy 1.1 – *Interpretation*) of the Toronto Stock Exchange, and who will be required to submit to the Exchange a Sponsor Report prepared in accordance with Exchange Policies. The Issuer will no longer be considered to be a CPC upon the Exchange having issued the Final QT Exchange Bulletin. The Exchange will generally not issue the Final QT Exchange Bulletin until the Exchange has received:

- (a) confirmation of shareholder approval of the Qualifying Transaction, if required;
- (b) confirmation of closing of the Qualifying Transaction; and
- (c) all post-meeting or final documentation, as applicable, otherwise required to be filed with the Exchange pursuant to the CPC Policy.

Upon issuance of the Final QT Exchange Bulletin, the CPC Policy will generally cease to apply to the Issuer, with the exception of the escrow provisions of the CPC Policy.

Initial Listing Requirements

The Resulting Issuer must satisfy the Exchange’s Initial Listing Requirements for the particular industry sector in either Tier 1 or Tier 2 as prescribed under the applicable Exchange Policies.

Trading Halts, Suspension and Delisting

The Exchange will generally halt trading in the Common Shares from the date of the public announcement of a Qualifying Transaction Agreement until all filing requirements of the Exchange have been satisfied, which includes the submission of a Sponsorship Acknowledgment Form, where the Qualifying Transaction is subject to sponsorship. In addition, personal information forms or, if applicable, declarations for all individuals who may be directors, officers, promoters, or insiders of the Resulting Issuer must be filed with the Exchange and any preliminary background searches that the Exchange considers necessary or advisable must be completed before the trading halt will be lifted by the Exchange.

Even if all filing requirements have been satisfied and preliminary background checks completed, the Exchange may continue or reinstate the halt in trading of the Common Shares for public policy reasons including:

- (a) the unacceptable nature of the business of the Resulting Issuer, or
- (b) the number of conditions precedent to, or the nature and number of deficiencies

required to be resolved prior to, Completion of the Qualifying Transaction are so significant or numerous as to make it appear to the Exchange that the halt should be reinstated or continued.

A trading halt may also be imposed by the Exchange where the Issuer fails to file the supporting documents relating to the Qualifying Transaction within a period of 75 days after public announcement of the Qualifying Transaction Agreement or if the Issuer fails to file post-meeting or final documents, as applicable, within the time required. A trading halt may also be imposed if a Sponsor terminates its sponsorship.

In the event that the Common Shares are delisted by the Exchange, within 90 days from the date of such delisting, the Issuer shall wind up and shall make a pro rata distribution of its remaining assets to its shareholders, unless shareholders, pursuant to a majority vote exclusive of the votes of Non-Arm's Length Parties to the Issuer, determine the deal with the Issuer or its remaining assets in some other manner. See *"Filings and Shareholder Approval of the Qualifying Transaction"* above.

If the Issuer does not complete a Qualifying Transaction within 24 months after the date of listing, it may apply for listing on NEX rather than be delisted. In order to be eligible to list on NEX, the Issuer must:

- (a) obtain majority shareholder approval for the transfer to NEX, exclusive of the votes of Non-Arm's Length Parties to the Issuer; and
- (b) either:
 - (i) cancel all escrowed Common Shares purchased by Non-Arm's Length Parties to the Issuer at a discount to the Offering Price, in accordance with section 11.2(a) of the CPC Policy, as if the Issuer had delisted from the Exchange; or
 - (ii) subject to majority shareholder approval, cancel an amount of the escrowed Common Shares purchased by Non-Arm's Length Parties to the Issuer so that the average cost of the remaining escrowed Common Shares is at least equal to the Offering Price.

If the Issuer becomes listed on NEX, it must continue to comply with all requirements and restrictions of the CPC Policy.

Refusal of Qualifying Transaction

The Exchange, in its sole discretion, may not accept a Qualifying Transaction where:

- (a) the Resulting Issuer fails to satisfy the applicable Initial Listing Requirements of the Exchange upon Completion of the Qualifying Transaction;
- (b) the Resulting Issuer will be a mutual fund, as defined in applicable securities legislation; or
- (c) notwithstanding the definition of a Qualifying Transaction, there is any other reason for denying acceptance of the Qualifying Transaction.

The CPC Escrow Agreement provides that the Common Shares may not be sold, assigned, hypothecated, transferred within escrow or otherwise dealt with in any manner without prior consent of the Exchange. The CPC Escrow Agreement provides that if the holder of the escrowed shares becomes bankrupt, the Common Shares will be transferred within escrow to the trustee in bankruptcy or to such other person as is legally entitled to the Common Shares. The CPC Escrow Agreement further provides that upon the death of the holder of the escrowed shares, the Common Shares will be released from escrow and certificates for the Common Shares will be delivered to the legal representative of the deceased shareholder.

Where the Common Shares of the Issuer which are required to be held in escrow are held by a

non-individual (a “**holding company**”), each holding company will agree, pursuant to the CPC Escrow Agreement, not to carry out any transactions during the currency of the CPC Escrow Agreement which would result in a change of control of the holding company, without the consent of the Exchange. Any holding company must also sign an undertaking to the Exchange that, to the extent reasonably possible, it will not permit or authorize any issuance of securities or transfer of securities that could reasonably result in a change of control of the holding company. In addition, the Exchange may require an undertaking from any control person of the holding company not to transfer the shares of that company.

Under the CPC Escrow Agreement:

- (a) all CPC Stock Options granted prior to the date of the Final QT Exchange Bulletin and all Common Shares that were issued pursuant to the exercise of such CPC Stock Options prior to the date of the Final QT Exchange Bulletin will be released from escrow on the date of the Final QT Exchange Bulletin, other than CPC Stock Options that were granted prior to the Issuer’s IPO with an exercise price that is less than the issue price of the Common Shares under this Prospectus and any Common Shares that were issued pursuant to the exercise of such CPC Stock Options which will be released from escrow in accordance with (b);
- (b) except for the CPC Stock Options and Common Shares issued pursuant to the exercise of such CPC Stock Options that are released from escrow on the date of the Final QT Exchange Bulletin as provided for in (a), all of the securities held in escrow will be released from escrow in accordance with the following schedule:

Release Date	Percentage to be Released (%)
Date of Final QT Exchange Bulletin	25
Date 6 months following Final QT Exchange Bulletin	25
Date 12 months following Final QT Exchange Bulletin	25
Date 18 months following Final QT Exchange Bulletin	25
TOTAL:	100%

The Exchange’s prior consent must be obtained before a transfer within escrow of escrowed Common Shares. Generally, the Exchange will only permit a transfer within escrow to be made to existing Principals of the Issuer and/or to incoming Principals in connection with a proposed Qualifying Transaction.

If a Final QT Exchange Bulletin is not issued, the escrowed Common Shares will not be released. Under the CPC Escrow Agreement, upon the issuance by the Exchange of a bulletin delisting the Issuer, the Trustee is irrevocably authorized to:

- (a) immediately cancel all of the escrowed Common Shares held by each Non-Arm’s Length Party to the Issuer that were issued at a price below the Offering Price under this Prospectus and all CPC Stock Options held by such person; and
- (b) cancel all of the escrowed securities on a date that is 10 years from the date of such bulletin.

INDEPENDENT AUDITORS' REPORT

To the directors of Benz Capital Corp.:

Opinion

We have audited the financial statements of Benz Capital Corp. [the "Company"], which comprise the statement of financial position as at March 31, 2021, and the statements of comprehensive loss, cash flows, and changes in equity for the period from incorporation on February 8, 2021 to March 31, 2021, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, these financial statements present fairly, in all material respects, the financial position of the Company as at March 31, 2021, and its financial performance and its cash flows for the period from February 8, 2021 to March 31, 2021 in accordance with International Financial Reporting Standards ["IFRS"].

Basis for Opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Company in accordance with the ethical requirements that are relevant to our audit of the financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Material Uncertainty Related to Going Concern

We draw attention to Note 1 in the financial statements, which indicates that as of March 31, 2021, the Company has no business operations, has not generated any revenues, and has incurred losses of \$5,999 since inception. As stated in Note 1, these events or conditions, along with other matters as set forth in Note 1, indicate that a material uncertainty exists that may cast significant doubt on the Company's ability to continue as a going concern. Our opinion is not modified in respect of this matter.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with IFRS, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian generally accepted auditing standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Canadian generally accepted auditing standards, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We believe that the audit evidence we have obtained in our audit is sufficient and appropriate to provide a basis for our audit opinion. We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

The engagement partner on the audit resulting in this independent auditor's report is Michael J. David.

1. NATURE AND CONTINUANCE OF OPERATIONS

Benz Capital Corp. (the “Company”) was incorporated under the Business Corporations Act (British Columbia) on February 8, 2021. The Corporation is in the process of applying for status as a Capital Pool Company (“CPC”) as defined by the TSX Venture Exchange (the “Exchange”) Policy 2.4. The Company has not commenced commercial operations and has no significant assets. The activities of the Company are initially limited to the efforts to identify and evaluate the acquisition of assets and business, which would represent a “Qualifying Transaction” for regulatory purpose. The proceeds raised from the issuance of share capital may only be used to identify and evaluate assets or businesses for future investment may be used to cover prescribed costs of issuing the common shares or administrative and general expenses of the Company. These restrictions apply until completion of a Qualifying Transaction by the Company. The Company’s registered office is located at 927 Poirier Street, Coquitlam, British Columbia, V3J 6C3.

As at March 31, 2021, the Company has no business operations and its only assets are cash and cash equivalents, sales tax recoverable and deferred financing costs. The Company has not generated any revenues and has incurred losses of \$5,999 since inception. There is no assurance that it will be able to complete an initial public offering (the “IPO”) as described in Note 8 and to identify or complete a Qualifying Transaction, all of which casts significant doubt about the Company’s ability to continue as a going concern. In view of these conditions, the ability of the Company to continue as a going concern depends upon the injection of a successful project, achieving a profitable level of operations and also on the ability of the Company to obtain necessary financing to fund ongoing operations. The Company's ability to achieve these objectives cannot be determined at this time.

As a CPC, the Company’s principal business is the identification, evaluation and acquisition of assets, properties or businesses or participation therein subject to, in certain cases, shareholder approval and acceptance by the Exchange. Where an acquisition or participation (the “Qualifying Transaction”) is warranted, additional funding may be required. The ability of the Company to fund its potential future operations and commitments is dependent upon the ability of the Company to obtain additional financing. Under the CPC policies of the Exchange, the Company must identify and complete a Qualifying Transaction within 24 months from the date the Company’s shares are listed for trading on the Exchange. There is no assurance that the Company will be able to complete a Qualifying Transaction within 24 months of being listed or that it will be able to secure the necessary financing to complete a Qualifying Transaction. The Exchange may suspend or de-list the Company’s shares from trading should it not meet these requirements.

Where an acquisition or participation is warranted, additional funding may be required. The ability of the Company to fund its potential future operations and commitments is dependent upon its ability to obtain additional financing. Such an acquisition will be subject to regulatory approval and, if required, shareholder approval.

2. BASIS OF PRESENTATION

The Company prepares its annual financial statements (the “Financial Statements”) in accordance with International Financial Reporting Standards (“IFRS”). All financial information is reported in the Company’s functional and presentation currency, being the Canadian dollar, unless otherwise noted. These Financial Statements have been prepared using the accrual basis of accounting, except for cash flow information.

The Financial Statements were approved by the Board of Directors on April 27, 2021.

Significant accounting judgments and estimates

Estimates and judgements are continuously evaluated and are based on management’s experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. However, actual outcomes can differ from these estimates.

Critical Judgments

Going Concern

The preparation of these Financial Statements requires management to make judgments regarding the going concern assumption for the Company as discussed in Note 1.

Key Sources of Estimation Uncertainty

Because a precise determination of many assets and liabilities is dependent upon future events, the preparation of financial statements in conformity with IFRS requires management to make estimates and assumptions. Actual results could differ from those estimates and such differences could be significant. Significant estimates made by management affecting these Financial Statements include:

Deferred Tax Assets & Liabilities

The estimation of income taxes includes evaluating the recoverability of deferred tax assets based on an assessment of the Company’s ability to utilize the underlying future tax deductions against future taxable income prior to expiry of those deductions. Management assesses whether it is probable that some or all of the deferred income tax assets will not be realized. The ultimate realization of deferred tax assets is dependent upon the generation of future taxable income, which in turn is dependent upon the successful completion of a Qualifying Transactions and future profitable operations. To the extent that management’s assessment of the Company’s ability to utilize future tax deductions changes, the Company would be required to recognize more or fewer deferred tax assets, and future income tax provisions or recoveries could be affected. The measurement of deferred income tax provision is subject to uncertainty associated with the timing of future events and changes in legislation, tax rates and interpretations by tax authorities.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Cash and Cash Equivalents

Cash and cash equivalents includes deposits held with banks that are available on demand.

Benz Capital Corp.

Notes to the Financial Statements

March 31, 2021

Financial Instruments

Financial assets and financial liabilities are classified into three categories: Amortized Cost, Fair Value through Other Comprehensive Income ("FVOCI") and Fair Value through Profit and Loss ("FVPL"). The classification of financial assets is determined by their context in the Company's business model and by the characteristics of the financial asset's contractual cash flows.

Financial assets and financial liabilities are measured at fair value on initial recognition, which is typically the transaction price unless a financial instrument contains a significant financing component. Subsequent measurement is dependent on the financial instrument's classification.

The Company's sales tax recoverable, and trade and other payables are measured at amortized cost. The contractual cash flows received from the financial assets are solely payments of principal and interest and are held within a business model whose objective is to collect the contractual cash flows. The financial assets and financial liabilities are subsequently measured at amortized cost using the effective interest method.

The Company's cash and cash equivalents is classified as a financial asset measured at fair value through profit and loss.

The Company has no financial instruments measured at FVOCI

Impairment of financial assets is determined by measuring the assets' expected credit loss ("ECL"). Trade and other accounts receivable are due within one year or less; therefore, these financial assets are not considered to have a significant financing component and a lifetime ECL is measured at the date of initial recognition of the accounts receivable.

Loss per Share

Basic loss per share is computed by dividing the net loss for the period by the weighted average number of common shares outstanding during the period. The diluted loss per share reflects the potential dilution of common share equivalents, such as outstanding share options and warrants, in the weighted average number of common shares outstanding during the period, if dilutive. For this purpose, the "treasury stock method" is used which assumes proceeds upon the exercise of share options and warrants are used to purchase common shares at the average market price during the period. Diluted loss per share does not adjust the loss attributable to common shareholders or the weighted average number of common shares outstanding when the effect is anti-dilutive. Basic and diluted loss per share are the same for the period presented.

Income Taxes

Income tax expense is comprised of current and deferred tax. Current tax and deferred tax are recognized in net income or loss except to the extent that it relates to a business combination or items recognized directly in equity or in other comprehensive income or loss. Current income taxes are recognized for the estimated income taxes payable or receivable on taxable income or loss for the current year and any

adjustment to income taxes payable in respect of previous years. Current income taxes are determined using tax rates and tax laws that have been enacted or substantively enacted by the year-end date.

Deferred tax assets and liabilities are recognized where the carrying amount of an asset or liability differs from its tax base, except for taxable temporary differences arising on the initial recognition of goodwill and temporary differences arising on the initial recognition of an asset or liability in a transaction which is not a business combination and at the time of the transaction affects neither accounting nor taxable profit or loss. Recognition of deferred tax assets for unused tax losses, tax credits and deductible temporary differences is restricted to those instances where it is probable that future taxable profit will be available against which the deferred tax asset can be utilized. At the end of each reporting period the Company reassesses unrecognized deferred tax assets. The Company recognizes a previously unrecognized deferred tax asset to the extent that it has become probable that future taxable profit will allow the deferred tax asset to be recovered.

Deferred Financing Costs

Financing costs incurred related to the Company's proposed financing are deferred. Deferred costs consist primarily of agent and professional fees. Costs will be charged to share capital upon the issuance of shares. In the event that the share issuance does not occur, the costs will be charged to income in the period.

Share Capital

The Company's common shares, and any future offerings of share warrants and options are classified as equity instruments. Incremental costs directly attributable to the issue of common shares are recognized as a deduction from equity.

Accounting Standards Issued But Not Yet Adopted

The new accounting standards and amendments to existing standards that have been issued and that the Company will be required to adopt in future years are either not applicable or are not expected to have a significant impact on the Company's financial statements

4. CAPITAL MANAGEMENT

Capital is comprised of the Company's shareholders' equity and any debt that it may issue. The Company's objectives when managing capital are to maintain financial strength and to protect its ability to meet its on-going liabilities, to continue as a going concern, to maintain creditworthiness and to maximize returns for shareholders over the long term. Protecting the ability to pay current and future liabilities includes maintaining capital above minimum regulatory levels, current financial strength rating requirements and internally determined capital guidelines and calculated risk management levels.

The Company does not have any externally imposed capital requirements to which it is subject other than the restriction on the use of cash as referred to in Note 1.

Current capital will only be sufficient to identify and evaluate a limited number of assets and businesses for the purpose of identifying and completing a Qualifying Transaction. Additional funds may be required to finance the Company's Qualifying Transaction.

5. FINANCIAL INSTRUMENTS AND RISK

The Company's financial instruments consist of cash and cash equivalents, sales tax recoverable, and trade and other payables. The fair value of the financial instruments approximates their carrying values, unless otherwise noted. The Company's risk exposures and the impact on the Company's financial instruments are summarized below:

a) Credit risk

The Company's credit risk is mainly attributable to its liquid financial assets: cash and cash equivalents. The Company deposits cash with high credit quality financial institutions and credit risk is considered to be minimal. The Company's maximum exposure to credit risk is \$280,001, which is the carrying value of the Company's cash and cash equivalents at March 31, 2021.

b) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The risk that the Company will realize a cash loss is limited as the Company's liabilities are non-interest bearing. As at March 31, 2021, the Company is not exposed to any significant interest rate risk.

c) Liquidity risk

Liquidity risk is the risk that the Company is not able to meet its financial obligations as they become due. The Company's approach to managing liquidity risk is to ensure that it will have sufficient liquidity to meet liabilities when due. As at March 31, 2021, the Company had cash and cash equivalents balance of \$280,001 to settle current liabilities of \$15,091. Additional funds will be required to identify and evaluate potential qualifying transactions.

6. SHARE CAPITAL

Authorized:

Unlimited common shares, without par value

Issued:

On February 8, 2021, the Company issued its initial seed shares of 3,400,000 common shares for gross proceeds of \$170,000.

On March 16, 2021, the Company issued 1,200,000 common shares for gross proceeds of \$120,000.

The shares will be released as follows: 25% upon the issuance of notice of final acceptance of a Qualifying Transaction by the TSX Venture Exchange, and the remainder in three equal tranches of 25% every six months thereafter for a period of 18 months.

Benz Capital Corp.

Notes to the Financial Statements

March 31, 2021

Stock Options:

The Company has adopted an incentive stock option plan which provides that the Board of Directors may from time to time, in its discretion, and in accordance with the Exchange requirements, grant to directors, officers, employees and consultants to the Company, nontransferable options to purchase Common Shares, provided that the number of Common Shares reserved for issuance will not exceed 10% of the issued and outstanding Common Shares. However, other than in connection with a Qualifying Transaction, during the time that the Company is a CPC, the aggregate number of Common Shares issuable upon exercise of all options granted under the Option Plan shall not exceed 10% of the Common Shares of the Company issued and outstanding at the closing of the Company's initial public offering. Such options will be exercisable for a period of up to ten years from the date of grant.

The significant components of the Company's future income tax assets are as follows:

8. INITIAL PUBLIC OFFERING
