Transactions with Related Parties

The Company derives revenue primarily from financial consulting related to real estate development and venture capital activities. Fee income for the period ended September 30, 2025 includes \$302,155 attributable to one customer (2024 - \$277,519).

The financial statements have been prepared on a going concern basis which assumes that the Company will be able to realize its assets and discharge its liabilities in the course of business rather than through a process of forced liquidation. The Company is critically dependent on related parties for all of its revenues, its management, its premises, and much of its expenses that are paid to third parties. These circumstances indicate the existence of material uncertainties that cast significant doubt as to the Company's ability to continue as a going concern.

In assessing whether the going concern assumption is appropriate, management takes into account all available information about the future, which is at least, but not limited to twelve months from the end of the reporting period. The financial statements do not include any adjustments relating to the realization of assets and liquidation of liabilities that might be necessary should the Company be unable to continue as a going concern. Such adjustments could be material.

In the opinion of management, the future cash flows from operations and the continued financial support from related parties are sufficient to support the Company's ability to operate on an ongoing basis.

Changes in Accounting Policies including Initial Adoption

At the date of authorization of the consolidated financial statements, the IASB and IFRIC have not issued any new and revised standards and interpretations which could be applicable to the Company and are not yet effective for the relevant reporting periods. The Company generally does not early adopt any new standards, amendments and interpretations. The Company assesses what impact the application of any new standards or amendments will have on the financial statements of the Company. Any new standards and amendments will be first applied in the financial report of the Company that relates to the annual reporting period beginning on or after the effective date of each pronouncement. The Company continues to monitor the development of IFRS with respect to any potential impact to the financial statements of the Company.
