Notes to the Condensed Interim Financial Statements
For the Six Months Ended October 31, 2019
(Expressed in Canadian Dollar)
(Unaudited)

1. NATURE OF OPERATIONS AND ABILITY TO CONTINUE AS A GOING CONCERN

Fort St. James Nickel Corp. (the “Company”) was incorporated under the Canada Business Corporation Act on March 22, 1988. The Company is listed on the TSX Venture Exchange, having the symbol FTJ.V and its primary business is the acquisition of exploration and evaluation of mineral properties in North America.

The address of the Company’s registered office is 888 Dunsmuir Street, Suite 888, Vancouver, BC, V6C 3K4. The address of the Company’s principal place of business is 888 Dunsmuir Street, Suite 888, Vancouver, BC, V6C 3K4.

These financial statements have been prepared on a going concern basis, which contemplates continuity of normal business activities and the realization of assets and discharge of liabilities in the normal course of business. The Company has not generated revenues from operations. The Company is considered to be in the exploration stage as it has not placed any of its mineral properties into production. The underlying value of the Company’s mineral properties is dependent upon the existence and economic recovery of such reserves in the future and the ability of the Company to raise financing to complete future exploration.

While these financial statements have been prepared on the assumption that the Company is a going concern and will be able to realize its assets and meet its obligations in the normal course of operations, there are conditions and events that cast doubt on the validity of that assumption. As at October 31, 2019, the Company has a net working capital deficit of \$191,205, has an accumulated deficit of \$14,937,988, and has incurred a loss of \$169,442. The Company’s ability to continue as a going concern is dependent on management’s ability to raise required funding through future equity issuances, asset sales or a combination thereof. There is no assurance that such financing will be sufficient to sustain operations in the foreseeable future.

The current cash resources are not adequate to pay the Company’s accounts payable and to meet its minimum commitments at the date of these financial statements, including planned corporate and administrative expenses, and other project implementation costs, accordingly, there is significant doubt about the Company’s ability to continue as a going concern. These financial statements do not give effect to adjustments that would be necessary to the carrying amounts and classifications of assets and liabilities should the Company be unable to continue as a going concern.

2. BASIS OF PREPARATION AND STATEMENT OF COMPLIANCE

a) Statement of Compliance

These condensed interim financial statements of the Company for the six months ending October 31, 2019 have been prepared in accordance with International Financial Reporting Standard 34, *Interim Financial Reporting* (“IAS 34”) as issued by the International Accounting Standards Board (“IASB”). These condensed interim financial statements should be read in conjunction with the Company’s annual financial statements for the year ended April 30, 2019.

The condensed interim financial statements of the Company as at October 31, 2019 were approved and authorised for issue by the Board of Directors on December 28, 2019.

(Unaudited)

2. BASIS OF PREPARATION AND STATEMENT OF COMPLIANCE (Continued)

b) Basis of measurement

The financial statements have been prepared on a historical cost basis, except for financial instruments classified as financial instruments at fair value through profit and loss, which are stated at their fair value. These condensed interim financial statements do not include all the information required for full annual financial statements. The condensed interim financial statements should be read in conjunction with the Company's annual financial statements for the year ended April 30, 2019. The accounting policies, methods of computation and presentation applied in these financial statements are consistent with those of the previous financial year.

3. ACCOUNTING STANDARDS ISSUED BUT NOT YET EFFECTIVE

IFRS 16 – Leases

IFRS 16 provides a single lessee accounting model, requiring the recognition of assets and liabilities for all leases, unless the lease term is 12 months or less or the underlying asset has a low value. Lessor accounting remains largely unchanged from IAS 17 "Leases", and the distinction between operating and finance leases is retained. The standard is effective for annual period beginning on or after January 1, 2019. The Company has determined there is no impact of this standard on its financial statements.

4. EXPLORATION AND EVALUATION ASSETS

Cumulative acquisition and exploration costs incurred and expensed by the Company to date on its mineral properties are summarized below.

| | Kilometer 26 \$ | Porcupine \$ | Total \$ |
|---------------------------|--------------------|-----------------|------------------|
| April 30, 2018 | 1,963,572 | 171,216 | 2,134,788 |
| Acquisition Costs | 1,368 | - | 1,368 |
| Exploration Costs | 50,409 | 87,727 | 138,136 |
| Balance, October 31, 2018 | 2,015,349 | 258,943 | 2,274,292 |
| April 30, 2019 | 2,015,573 | 366,464 | 2,382,037 |
| Acquisition Costs | - | 38,359 | 38,359 |
| Exploration Costs | 12,020 | 2,651 | 14,671 |
| Balance, October 31, 2019 | <u>2,027,593</u> | <u>407,474</u> | <u>2,435,067</u> |

Management has determined that due to uncertainty on future recoverability of its mineral exploration and evaluation assets, acquisition and exploration costs are expensed as incurred.

a) Kilometer Property, British Columbia, Canada

The Company has a 100% interest in the Kilometer 26 property consisting of 5,778 hectares in the Omineca Mining Division, British Columbia.

9. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT

The Company’s cash under the fair value hierarchy is recorded at fair value based on level one quoted prices in active markets for identical assets or liabilities.

The Company’s risk exposures and the impact on the Company’s financial instruments are summarized below:

a) Credit Risk

Credit risk is the risk of loss associated with a counterparty’s inability to fulfill its payment obligations. The Company’s credit risk is primarily attributable to its liquid financial assets including cash. Management believes that its credit risk is not significant.

b) Liquidity Risk

The Company’s approach to managing liquidity risk is to ensure that it will have sufficient liquidity to meet liabilities when due. As at October 31, 2019, the Company had a cash balance of \$70,114 to settle current liabilities of \$268,098. All of the Company’s financial liabilities have contractual maturities of less than 30 days and are subject to normal trade terms. Management expects to fund those liabilities through equity financing and loans from related parties over the coming year.

c) Interest Rate Risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company’s amounts due to related parties are non-interest bearing, and as such, the Company is not exposed to significant interest rate risk.

d) Commodity Price Risk

The Company is subject to price risk from fluctuations in the market prices of commodities as it relates to the possible underlying values of its commodity based mineral properties and the corresponding ability to raise funds for future operations. Management closely monitors commodity prices to determine the appropriate course of actions to be taken in its investing and financing activities. As the Company has not yet developed commercial mineral interests, it is not exposed to significant commodity price risk.
