Independent Auditor's Report

To the Shareholders of Magnum Goldcorp Inc.

Opinion

We have audited the financial statements of Magnum Goldcorp Inc. (the "Company"), which comprise the statements of financial position as at May 31, 2024 and May 31, 2023 and the statements of loss and comprehensive loss, changes in shareholders' equity and cash flows for the years then ended, and notes to the financial statements, including a summary of material accounting policies.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Company as at May 31, 2024 and May 31, 2023, and its financial performance and its cash flows for the years then ended in accordance with IFRS Accounting Standards as issued by the International Accounting Standards Board.

Basis for Opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Company in accordance with the ethical requirements that are relevant to our audit of the financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Material Uncertainty Related to Going Concern

We draw attention to Note 1 to the financial statements which describes the material uncertainty that may cast significant doubt on the Company's ability to continue as a going concern. Our opinion is not modified in respect of this matter.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the year ended May 31, 2024. In addition to the matter described in the Material uncertainty related to going concern section, we have determined the matters described below to be a key audit matter to be communicated in our report. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Recoverability of Exploration and Evaluation Assets

As disclosed in Note 4 to the financial statements, the carrying value of Exploration and Evaluation Assets represents a significant asset of the Company. Refer to Note 2 and Note 3 to the financial statements for a description of the accounting policy and significant judgments applied to Exploration and Evaluation Assets.

At each reporting period end, management applies judgment in assessing whether there are any indicators of impairment relating to exploration and evaluation assets. If there are indicators of impairment, the recoverable amount of the related asset is estimated in order to determine the extent of any impairment. Indicators of impairment may include (i) the period during which the entity has the right to explore in the specific area has expired during the year or will expire in the near future and is not expected to be renewed; (ii) substantive expenditure on further exploration for and evaluation of mineral resources in the specific area is neither budgeted nor planned; (iii) exploration for and evaluation of mineral resources in the specific area have not led to the discovery of commercially viable quantities of mineral resources and the entity has decided to discontinue such activities in the specific area; and (iv) sufficient data exists to indicate that the carrying amount of exploration and evaluation assets is unlikely to be recovered in full from successful development or by sale. No impairment indicators were identified by management as at May 31, 2024.

Why the matter was determined to be a key audit matter

We considered this a key audit matter due to (i) the significance of the exploration and evaluation assets balance and (ii) the judgments made by management in its assessment of indicators of impairment related to exploration and evaluation assets, which have resulted in a high degree of subjectivity in performing audit procedures related to these judgments applied by management.

How the matter was addressed in our audit

We have evaluated management's assessment of impairment indicators per IFRS 6 Exploration for and Evaluation of Mineral Resources, including but not limited to:

- Reviewing the Company's rights to explore in the relevant exploration areas and assessing whether the rights to tenure remained current at balance date;
- Obtaining, by reference to government registries, evidence to support (i) the right to explore the area and (ii) claim expiration dates;
- Considering the status of the relevant exploration areas by holding discussions with management;
- Assessing whether any data exists to suggest that the carrying value of the Exploration and Evaluation Assets is unlikely to be recovered through development or sale; and
- Assessing the adequacy of the related disclosures in Note 2, Note 3 and Note 4 to the financial statements.

Other Information

Management is responsible for the other information. The other information comprises:

- Management's Discussion and Analysis

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

We obtained the other information prior to the date of this auditor's report. If, based on the work we have performed on this other information, we conclude that there is a material misstatement of this other information, we are required to report that fact in this auditor's report. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with IFRS Accounting Standards as issued by the International Accounting Standards Board, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian generally accepted auditing standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Canadian generally accepted auditing standards, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partner on the audit resulting in this independent auditor's report is Diana Huang.

MAGNUM GOLDCORP INC.

Notes to the Financial Statements

May 31, 2024

(Expressed in Canadian Dollars)

1. NATURE OF OPERATIONS AND GOING CONCERN

Nature of operations

Magnum Goldcorp Inc. (the “Company”) was incorporated under the Alberta Business Corporations Act on April 4, 2011 and, effective July 25, 2014, continued into the Province of British Columbia under the provisions of the Business Corporations Act (British Columbia).

The Company is engaged in the acquisition and exploration of mineral resource properties.

Going concern

These financial statements have been prepared on the basis of accounting principles applicable to a going concern, which assume that the Company will be able to continue in operation for the foreseeable future and will be able to realize its assets and discharge its liabilities and commitments in the normal course of business.

Management believes the Company will be successful at securing additional funding so that its capital resources will be sufficient to carry its operations through the next twelve months and intends to continue the programs on its exploration and evaluation assets. However, there are several conditions that cast significant doubt on the Company’s ability to continue as a going concern, including that the Company has incurred significant operating losses in the year ended May 31, 2024 - \$76,837 (2023 - \$85,879). The Company is unable to self-finance operations in the long term, had a working capital deficit of \$93,499 (May 31, 2023 - working capital deficit of \$21,697), has a deficit of \$1,988,695 (May 31, 2023 - \$1,917,556), has limited resources, no source of operating cash flows and no assurances that sufficient funding will be available to conduct further exploration and development of its exploration and evaluation assets. The recoverability of amounts shown for exploration and evaluation assets is dependent upon several factors. These include the discovery of economically recoverable reserves, the ability of the Company to obtain the necessary financing to complete the development of these properties, and future profitable production or proceeds from disposition of exploration and evaluation assets. These factors indicate the existence of material uncertainty that may cast significant doubt about the Company’s ability to continue as a going concern.

The application of the going concern concept is dependent upon the Company’s ability to generate future profitable operations and receive continued financial support from its creditors and shareholders. Management is actively engaged in the review and due diligence on new projects, is seeking to raise the necessary capital to meet its funding requirements and has undertaken available cost cutting measures. There can be no assurance that the management’s plan will be successful. If the going concern assumption were not appropriate for these financial statements, then adjustments would be necessary to the carrying value of assets and liabilities, the reported expenses and the statement of financial position classifications used. Such adjustments could be material.

The business of mining and exploration involves a high degree of risk and there can be no assurance that current exploration programs will result in profitable mining operations. The Company has no source of revenue and has significant cash requirements to meet its administrative overhead and maintain its mineral interests. The recoverability of amounts shown for exploration and evaluation assets is dependent on several factors. These include the discovery of economically recoverable reserves, the ability of the Company to obtain the necessary financing to complete the development of these properties, and future profitable production or proceeds from disposition of exploration and evaluation assets.

MAGNUM GOLDCORP INC.

Notes to the Financial Statements

May 31, 2024

(Expressed in Canadian Dollars)

2. BASIS OF PREPARATION

Statement of compliance

These financial statements have been prepared in accordance with the IFRS Accounting Standards (“IFRS”) as issued by the International Accounting Standards Board (“IASB”).

The policies applied in these financial statements are based on IFRS issued and effective as of May 31 2024. The Board of Directors approved the financial statements for issue on September 23, 2024.

Basis of measurement

The financial statements have been prepared on the historical cost basis except for financial instruments measured at fair value. These financial statements have been prepared using the accrual basis of accounting, except for cash flow information.

Functional and presentation currency

These financial statements are presented in Canadian dollars, which is the Company’s functional currency. All financial information is expressed in Canadian dollars unless otherwise stated and have been rounded to the nearest dollar.

Use of estimates and judgements

The preparation of the financial statements in conformity with IFRS requires the use of estimates and assumptions that affect the reported amounts of assets and liabilities at the reporting date and the reported amounts of revenues and expenses during the reporting period. Although these estimates are based on management’s best knowledge of the amount, event or actions, actual results ultimately may differ from these estimates.

The Company has no significant accounting estimate.

Significant accounting judgements:

Significant accounting judgments that management has made in the process of applying accounting policies and that have the most significant effect on the amounts recognized in the financial statements include, but are not limited to, the ability of the Company to continue as a going concern and the assessment of any indicators of impairment of the carrying value of the Company’s exploration and evaluation assets.

3. MATERIAL ACCOUNTING POLICIES

The following is a list of material accounting policies used by the Company.

(a) Financial instruments

The following table shows the classification and measurement under IFRS 9:

Financial assets/liabilities	Classification and measurement
Cash	Amortized cost
Reclamation deposits	Amortized cost
Accounts payable and accrued liabilities	Amortized cost
Loan payable	Amortized cost

MAGNUM GOLDCORP INC.

Notes to the Financial Statements

May 31, 2024

(Expressed in Canadian Dollars)

3. MATERIAL ACCOUNTING POLICIES (Continued)

(b) Exploration and evaluation assets

The Company is in the exploration stage with respect to its investment in exploration and evaluation assets and accordingly follows the practice of capitalizing all costs upon obtaining the legal right to explore relating to the acquisition of, exploration for and evaluation of mineral claims and crediting all proceeds received against the cost of the related claims. Such costs include, but are not exclusive to, geological studies, geophysical studies, and exploratory drilling and sampling. The aggregate costs related to abandoned mineral claims are charged to operations at the time of any abandonment, or when it has been determined that there is evidence of an impairment. An impairment charge relating to an exploration and evaluation asset is subsequently reversed when new exploration results or actual or potential proceeds on sale or farmout of the property result in a revised estimate of the recoverable amount, but only to the extent that this does not exceed the original carrying value of the property that would have resulted if no impairment had been recognized.

The recoverability of amounts shown for exploration and evaluation assets is dependent upon the discovery of economically recoverable reserves, the ability of the Company to obtain financing to complete development of the properties, and on future production or proceeds of disposition.

The Company recognizes costs recovered in excess of the carrying amount of exploration and evaluation assets in income.

The Company recognizes mining exploration tax credits when it is received given the unpredictability of the collection.

Once the technical feasibility and commercial viability of the extraction of mineral resources in an area of interest are demonstrable, exploration and evaluation assets attributable to that area of interest are first tested for impairment and then reclassified to mining property and development assets. At such time as commercial production commences, these costs are reclassified as mining assets and will be charged to operations on a unit-of-production method based on proven and probable reserves.

All capitalized exploration and evaluation expenditures are monitored for indications of impairment at each reporting date. Where a potential impairment is identified, assessments are performed for each area of interest. To the extent that exploration expenditure is not expected to be recovered, it is charged to profit or loss.

Although the Company has taken steps to verify the title to exploration and evaluation assets in which it has an interest in accordance with industry standards for the current stage of exploration of such properties, these procedures do not guarantee the Company's title. Property title may be subject to unregistered prior agreements or transfers and title may be affected by undetected defects.

MAGNUM GOLDCORP INC.

Notes to the Financial Statements

May 31, 2024

(Expressed in Canadian Dollars)

3. MATERIAL ACCOUNTING POLICIES (Continued)

(c) Impairment

At each reporting date, the carrying amounts of the Company's assets are reviewed to determine whether there is any indication that those assets are impaired. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment, if any. Where the asset does not generate cash flows that are independent from other assets, the Company estimates the recoverable amount of the cash-generating unit to which the asset belongs.

An asset's recoverable amount is the higher of fair value less costs of disposal and value in use. Fair value is determined as the amount that would be obtained from the sale of the asset in an arm's length transaction between knowledgeable and willing parties. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. If the recoverable amount of an asset or cash generating unit is estimated to be less than its carrying amount, the carrying amount of the asset is reduced to its recoverable amount and the impairment loss is recognized in profit or loss.

Where an impairment loss subsequently reverses, the carrying amount of the asset (or cash-generating unit) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognized for the asset (or cash-generating unit) in prior years. A reversal of an impairment loss is recognized immediately in profit or loss.

(d) Share capital

Common shares are classified as equity. Transaction costs directly attributable to the issue of common shares and share options are recognized as a deduction from equity, net of any tax effects.

Valuation of equity units issued in private placements:

The Company has adopted the residual value method with respect to the measurement of shares and warrants issued as private placement units. The residual value method first allocates value to common shares issued in the private placements at their fair value, as determined by the trading price on the announcement date. The balance, if any, is allocated to the warrants. Any fair value attributed to the warrants is recorded in reserves. When warrants are not exercised at the expiry date, the amount previously recognized in reserves is transferred to retained earnings.

Flow-through shares:

The Company will from time to time, issue flow-through common shares to finance a significant portion of its exploration program. Pursuant to the terms of the flow-through share agreements, these shares transfer the tax deductibility of qualifying resource expenditures to investors. On issuance, the Company bifurcates the flow-through shares into i) a flow-through share premium, equal to the estimated premium, if any, investors pay for the flow-through feature, which is recognized as a liability, and ii) share capital.

Upon expenditures being incurred, the Company derecognizes the liability and recognizes a deferred tax liability for the amount of tax reduction renounced to the shareholders. The premium is recognized as other income and the related deferred tax is recognized as a tax provision.

Proceeds received from the issuance of flow-through shares are restricted to be used only for Canadian resource property exploration and expenditures within a two-year period. The Company may also be subject to a Part XII.6 tax on flow-through proceeds renounced under the Look-back Rule, in accordance with the Government of Canada flow-through regulations. When applicable, this tax is accrued as an expense until paid.

MAGNUM GOLDCORP INC.

Notes to the Financial Statements

May 31, 2024

(Expressed in Canadian Dollars)

3. MATERIAL ACCOUNTING POLICIES (Continued)

(e) Share based payment transactions

The Company's stock option plan allows employees and consultants to acquire shares of the Company. The fair value of options granted is recognized as an employee or consultant expense with a corresponding increase in shareholders' equity. An individual is classified as an employee when the individual is an employee for legal or tax purposes (direct employee) or provides services similar to those performed by a direct employee. Share-based payments to non-employees are measured at the fair value of the goods or services received or at the fair value of the equity instruments issued, if it is determined the fair value of the goods or services cannot be reliably measured and are recorded at the date the goods or services are received.

The fair value of options granted is measured at grant date, and each tranche is recognized using the graded vesting method over the period during which the options vest. The fair value of the options granted is measured using the Black-Scholes option pricing model taking into account the terms and conditions upon which the options were granted. The fair value of the options is charged either to operations or exploration and evaluation assets, with the offset credit to share-based payment reserve over the vesting period. If and when the stock options are exercised, the applicable amounts from share-based payment reserve are transferred to capital stock. When vested options are forfeited or are not exercised at the expiry date, the amount previously recognized in share-based payment reserve is transferred to retained earnings (deficit).

(f) Loss per share

Basic loss per share is calculated by dividing the loss for the period by the weighted average number of common shares outstanding during the period. Diluted loss per share reflects the potential dilution that could occur if potentially dilutive securities were exercised or converted to common shares.

The dilutive effect on loss per share is calculated presuming the exercise of outstanding options, warrants and similar instruments. It assumes that the proceeds from the exercise of outstanding options, warrants and similar instruments would be used to purchase common shares at the average market price during the period. However, the calculation of diluted loss per share excludes the effects of various conversions and exercises of options and warrants that would be anti-dilutive. For the years presented, this calculation proved to be anti-dilutive.

(g) Income taxes

Income tax on the profit or loss for the years presented comprises current and deferred tax. Income tax is recognized in profit or loss except to the extent that it relates to items recognized directly in equity, in which case it is recognized as equity.

Deferred tax is provided for temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. The amount of deferred tax provided is based on the expected manner of realization or settlement of the carrying amount of assets and liabilities, using tax rates enacted or substantively enacted at the reporting date.

A deferred tax asset is recognized only to the extent that it is probable that future taxable profits will be available against which the asset can be utilized. To the extent that the Company does not consider it probable that a deferred tax asset will be recovered, it will not be recognized.

MAGNUM GOLDCORP INC.

Notes to the Financial Statements

May 31, 2024

(Expressed in Canadian Dollars)

3. MATERIAL ACCOUNTING POLICIES (Continued)

(h) Restoration and rehabilitation provision

An obligation to incur restoration, rehabilitation and environmental costs arises when environmental disturbance is caused by the exploration, development or ongoing production of an exploration and evaluation asset interest. Such costs arising from the decommissioning of plant and other site preparation work, discounted to their net present value, are provided for and capitalized at the start of each project to the carrying amount of the asset, as soon as the obligation to incur such costs arises. Pre-tax discount rates that reflect the time value of money are used to calculate the net present value. These costs are charged against profit or loss over the economic life of the related asset, through amortization using either the unit-of-production or the straight-line method. The related liability is adjusted for each period for the unwinding of the discount rate, changes to the current market-based discount rate, and amount or timing of the underlying cash flows needed to settle the obligation. Costs for restoration of subsequent site damage which is created on an ongoing basis during production are provided for at their net present values and charged against profits as extraction progresses.

(i) New accounting standards and amendments adopted

Effective June 1, 2023, the Company adopted the following new and amended standards:

Disclosure of Accounting Policies (Amendments to IAS 1 and IFRS Practice Statement 2)

These amendments continue the IASB's clarifications on applying the concept of materiality. These amendments help companies provide useful accounting policy disclosures, and they include: requiring companies to disclose their material accounting policies instead of their significant accounting policies; clarifying that accounting policies related to immaterial transactions, other events or conditions are themselves immaterial and do not need to be disclosed; and clarifying that not all accounting policies that relate to material transactions, other events or conditions are themselves material. The IASB also amended IFRS Practice Statement 2 to include guidance and examples on applying materiality to accounting policy disclosures. The adoption of the standards and amendments had reduced the disclosures to the Company's financial statements.

Amendments to IAS 8 – Definition of Accounting Estimates

These amendments clarifies how companies distinguish changes in accounting policies from changes in accounting estimates, with a primary focus on the definition of and clarifications on accounting estimates. The distinction between the two is important because changes in accounting policies are applied retrospectively, whereas changes in accounting estimates are applied prospectively. Further, the amendments clarify that accounting estimates are monetary amounts in the financial statements subject to measurement uncertainty. The amendments also clarify the relationship between accounting policies and accounting estimates by specifying that a company develops an accounting estimate to achieve the objective set out by an accounting policy. The adoption of the standards and amendments had no impact on the Company's financial statements.

MAGNUM GOLDCORP INC.

Notes to the Financial Statements

May 31, 2024

(Expressed in Canadian Dollars)

3. MATERIAL ACCOUNTING POLICIES (Continued)

(j) Accounting standards and amendments not yet effective

The following accounting standards and amendments are effective for future periods:

Classification of Liabilities as Current or Non-current (Amendments to IAS 1)

The amendments to IAS1 provide a more general approach to the classification of liabilities based on the contractual arrangements in place at the reporting date.

These amendments are effective for reporting periods beginning on or after January 1, 2024. The Company expects there would be no significant impact on the future financial statements.

Presentation and Disclosure in Financial Statements (IFRS 18)

IFRS 18 introduces three sets of new requirements to give investors more transparent and comparable information about companies' financial performance for better investment decisions.

1. Three defined categories for income and expenses—operating, investing and financing—to improve the structure of the income statement, and require all companies to provide new defined subtotals, including operating profit.
2. Requirement for companies to disclose explanations of management-defined performance measures (MPMs) that are related to the income statement.
3. Enhanced guidance on how to organise information and whether to provide it in the primary financial statements or in the notes.

This new standard is effective for reporting periods beginning on or after January 1, 2027. The Company will be evaluating the impact on the future financial statements.

MAGNUM GOLDCORP INC.

Notes to the Financial Statements

May 31, 2024

(Expressed in Canadian Dollars)

4. EXPLORATION AND EVALUATION ASSETS

The investment in and expenditures on mineral properties comprise a significant portion of the Company's assets. Realization of the Company's investment in these assets is dependent upon the confirmation of legal ownership, the attainment of successful production from the properties or from the proceeds of their disposal.

Resource exploration and development is highly speculative and involves inherent risks. While the rewards if an ore body is discovered can be substantial, few properties that are explored are ultimately developed into producing mines. There can be no assurance that current exploration programs will result in the discovery of economically viable quantities of ore.

Environmental

The Company is subject to the laws and regulations relating to environmental matters in all jurisdictions in which it operates, including provisions relating to property reclamation, discharge of hazardous material and other matters. The Company may also be held liable should environmental problems be discovered that were caused by former owners and operators of its properties and properties in which it has previously had an interest. The Company conducts its mineral exploration activities in compliance with applicable environmental protection legislation. Environmental legislation is becoming increasingly stringent and costs and expenses of regulatory compliance are increasing. The impact of new and future environmental legislation on the Company's operations may cause additional expenses and restrictions. If the restrictions adversely affect the scope of the exploration and the development of a mineral property, the potential for production on the property may be diminished or negated.

As at May 31, 2024, the Company estimated that the fair value of the asset retirement obligation was \$54,000 (May 31, 2023 - \$54,000). The fair value of the liability was determined to be equal to the estimated remediation costs. The Company is still in the early stages of developing a remediation plan, which will then require approval from the relevant governmental authorities. Due to the early stages of the remediation plan, the Company is unable to predict with any precision the timing of the cash flow related to the reclamation activities. The Company anticipates the reclamation activities and related costs to occur beyond 12 months from the reporting date.

Title to mineral properties

Title to mineral properties involves certain inherent risks due to the difficulties of determining the validity of certain claims as well as the potential for problems arising from the frequently ambiguous conveyancing history characteristic of many mineral properties. The Company has investigated title to all of its mineral properties and, to the best of its knowledge, title to all of its properties are in good standing. However, such properties may be subject to prior agreements or transfer and title may be affected by undetected defects.

The Company has entered into agreements to acquire, explore and develop certain mineral properties located in various regions of Canada. Numerous aboriginal groups are claiming inextinguishable aboriginal title to the lands and resources in these regions, which may include one or more of the mineral claims beneficially owned by the Company. The extent to which any successful aboriginal claim would materially affect the ability of the Company to exploit its mineral properties is not determinable at this time.

Reclamation deposits

As at May 31, 2024, the Company has refundable deposits of \$30,792 (May 31, 2023 - \$30,792) with the British Columbia Ministry of Mines relating to the Company's "LH Property".

4. EXPLORATION AND EVALUATION ASSETS (Continued)

The Company's expenditures on exploration and evaluation assets are as follows:

	LH Property
Balance, May 31, 2022	\$ 3,265,859
Deferred costs:	
Changes during for the year:	
Accommodations	3,032
Drilling	165,255
Transportation	54,320
Field office expenses	3,874
Geological and labour	62,755
Storage	4,296
Reports	4,818
Fuel	8,551
Asset retirement obligations	54,000
Mining tax credits received	(6,448)
Exploration advance (used)	(37,575)
Balance, May 31, 2023	3,582,737
Deferred costs:	
Changes during for the year:	
Geological and labour	5,875
Storage	4,377
Mining tax credits received	(15,287)
Balance, May 31, 2024	\$ 3,577,702

LH Property

On March 1, 2016, the Company acquired 100% of the LH Property, consisting of 19 contiguous crown-granted claims and 7 mineral claims, located near Silverton, British Columbia, on the east side of Slocan Lake. There are two net smelter return ("NSR") royalties connected with the LH Property. The first is a 1% NSR royalty on the 19 crown-granted claims, wherein once royalties of \$350,000 have been paid, the NSR royalty will reduce to 0.5%. The second is a 1% NSR royalty on four of the LH Property mineral claims wherein once royalties of \$500,000 have been paid, the NSR royalty will reduce to 0.5%.

5. RELATED PARTY TRANSACTIONS

As at May 31, 2024, accounts payable and accrued liabilities of \$35,911 (May 31, 2023 - \$17,869) were owing to companies controlled by directors or companies having certain common directors.

The Company paid or accrued the following amounts to companies controlled by directors, former directors or companies having certain common directors:

	2024	2023
Directors' fees	\$ 8,000	\$ 8,000
Rent	\$ -	\$ 18,701

Key management compensation to the CEO, President, CFO, Directors, and former Directors include the following:

	2024	2023
Directors' fees	\$ 8,000	\$ 8,000

The Company reimbursed Waterfront Communications Inc. (a company with a director in common) on a cost basis, to cover shared administrative and payroll costs in the amount of \$nil (2023 - \$ nil) and expense reimbursement in the amount of \$6,372 (2023 - \$4,192).

The Company reimbursed Beachfront Enterprise Limited (a company with certain directors in common) on a cost basis, to cover shared administrative and payroll costs in the amount of \$nil (2023 - \$2,859) and shared expenses in the amount of \$nil (2023 - \$2,132).

These transactions were in the normal course of operations and were measured at the exchange value, which represented the amount of consideration established and agreed to by the parties. Amounts due to (from) related parties are unsecured and have no stated terms of repayment and/or interest unless otherwise stated.

6. CAPITAL STOCK

- Authorized share capital

Unlimited common shares with no par value

- Issued share capital

There were no share transactions during the year ended May 31, 2023.

During the year ended May 31, 2024, the Company proceeded with the following share transactions:

On June 13, 2023 the Company closed a private placement raising a total of \$60,000 through the issuance of 2,000,000 units at \$0.03 per Unit. Each Unit consists of one common share and one share purchase warrant, with each warrant entitling the holder to purchase an additional common share for a period of 2 years at an exercise price of \$0.05 in the first 12 months, and at an exercise price of \$0.10 in the second 12 months. No finders' fees were paid in connection with the private placement. \$nil was allocated to warrants.

7. STOCK OPTIONS AND WARRANTS

Stock Options

The Company has a rolling stock option plan, whereby it is allowed to issue options of up to 10% of the Company's issued and outstanding common shares at any given time. Under the plan, options can be granted for a maximum term of ten years and vesting of stock options is at the discretion of the Board of Directors at the time options are granted.

Stock option transactions are summarized as follows:

	Number of Stock Options	Weighted Average Exercise Price
Balance, May 31, 2022	3,200,000	\$ 0.05
Issued	200,000	0.05
Balance, May 31, 2023	3,400,000	0.05
Expired	(200,000)	0.05
Balance May 31, 2024	3,200,000	\$ 0.05

The following options were exercisable and outstanding at May 31:

Expiry Date	Number of Options		Exercise Price
	May 31, 2024	May 31, 2023	
April 7, 2027	3,200,000	3,200,000	\$ 0.05
June 1, 2023	-	200,000	\$ 0.05
Outstanding and exercisable	3,200,000	3,400,000	
Weighted average remaining contractual life	2.85 years	3.63 years	

On June 1, 2022, 200,000 stock options were granted to a consultant of the Company. The options are exercisable at \$0.05 per share for 1 year from date of grant and vest immediately upon grant. The fair value of the options was estimated at \$5,698, using the Black-Scholes Option Pricing Model with the following weighted average inputs: expected dividend yield – Nil%, share price of \$0.05, expected volatility – 129% (based on historical volatility), risk-free interest rate – 2.74%, exercise price of \$0.05 and an expected life of 1 year.

7. STOCK OPTIONS AND WARRANTS (Continued)**Warrants**

Warrant transactions are summarized as follows:

	Number of Warrants	Weighted Average Exercise Price
Balance, May 31, 2022 and 2023	15,260,000	\$ 0.10
Issued	2,000,000	0.05
Balance, May 31, 2024	17,260,000	\$ 0.09

The following warrants were exercisable and outstanding at May 31:

Expiry Date	Exercise Price	2024	2023
June 13, 2025	\$ 0.05*	2,000,000	-
October 7, 2026	\$ 0.10	12,260,000	12,260,000
May 3, 2027	\$ 0.10	3,000,000	3,000,000
		17,260,000	15,260,000
Weighted average remaining contractual life		2.30 years	3.47 years

* These warrants have an exercise price of \$0.05 in the first 12 months, and an exercise price of \$0.10 in the second 12 months.

8. LOAN PAYABLE

The Company entered into a loan agreement in May 2024, pursuant to which the Company received \$3,000 for working capital purposes. The loan is for a term of 1 year with interest at a rate of 1% per month (12% per annum).

MAGNUM GOLDCORP INC.

Notes to the Financial Statements

May 31, 2024

(Expressed in Canadian Dollars)

9. INCOME TAXES

Income tax expense differs from the amount that would be computed by applying the Canadian statutory income tax rate of 27% to income before income taxes (2023 - 27%).

	2024	2023
Loss before tax	\$ (76,837)	\$ (85,879)
Statutory income tax rate	27%	27%
Expected income tax recovery	\$ (20,746)	\$ (23,187)
Permanent differences	-	(7,239)
Change in tax benefits not recognized	20,746	30,426
	\$ -	\$ -

The Company recognizes tax benefits on losses or other deductible amounts generated when the probable criteria for the recognition of deferred tax assets has been met.

The Company's unrecognized deductible temporary differences consist of the following amounts for the years ended May 31:

	2024	Expiry	2023	Expiry
Non-capital losses	\$ 1,561,000	2033-2044	\$ 1,474,000	2033-2043
Share issue costs	18,000	2045-2046	28,000	2044-2046
Unrecognized deductible temporary differences	\$ 1,579,000		\$ 1,502,000	

The following is the analysis of recognized deferred tax liabilities and deferred tax assets for the years ended May 31:

	2024	2023
<u>Deferred tax liabilities</u>		
Exploration and evaluation assets	\$ (263,000)	\$ (261,000)
<u>Deferred tax assets</u>		
Non-capital losses	263,000	261,000
Net deferred tax assets (liabilities)	\$ -	\$ -

10. CAPITAL MANAGEMENT

The Company manages its common shares, warrants and stock options as capital. The Company's objectives when managing capital are to safeguard the Company's ability to continue as a going concern in order to maintain a flexible capital structure that optimizes the costs of capital at an acceptable level of risk.

The Company manages the capital structure and makes adjustments to it in light of changes in economic conditions and the risk characteristics of the underlying assets. To maintain or adjust the capital structure, the Company may attempt to issue new shares, issue new debt, acquire or dispose of assets.

In order to facilitate the management of its capital requirements, the Company prepares expenditure budgets that are updated as necessary depending on various factors, including successful capital deployment and general industry conditions. The Board of Directors does not establish quantitative return on capital criteria for management, but rather relies on the expertise of the Company's management to sustain future development of the business.

MAGNUM GOLDCORP INC.

Notes to the Financial Statements

May 31, 2024

(Expressed in Canadian Dollars)

10. CAPITAL MANAGEMENT (Continued)

The Company's investment policy is to invest its short-term excess cash in highly liquid short-term interest-bearing investments with maturities of 365 days or less from the original date of acquisition, selected with regards to the expected timing of expenditures from continuing operations.

There have been no changes to the Company's approach to capital management during the year ended May 31, 2024. The Company is not subject to externally imposed capital requirements.

11. FINANCIAL INSTRUMENTS

Fair Value

The carrying values of cash, loan payable, and accounts payable and accrued liabilities approximate their fair values due to the short-term maturity of these financial instruments.

The Company's risk exposure and the impact on the Company's financial instruments are summarized below.

Credit risk

Credit risk is the risk of financial loss to the Company if a counter party to a financial instrument fails to meet its payment obligations. The Company's credit risk is primarily attributable to cash. Management believes that the credit risk concentration with respect to cash is remote as it maintains accounts with highly rated financial institutions. Overall, the Company is not subject to significant credit risk.

Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in satisfying financial obligations as they become due. The Company manages its liquidity risk by forecasting cash flows from operations and anticipated investing and financing activities. As at May 31, 2024, the Company had a working capital deficit of \$93,499. The Company will need to raise additional money through share issuance.

The amounts listed below are the remaining contractual maturities for financial liabilities held by the Company:

	0 to 90 days	91 to 365 days	Total
May 31, 2024			
Accounts payable and accrued liabilities	\$ 95,477	\$ -	\$ 95,477
Loan payable	\$ -	\$ 3,000	\$ 3,000
May 31, 2023			
Accounts payable and accrued liabilities	\$ 39,001	\$ -	\$ 39,001

MAGNUM GOLDCORP INC.

Notes to the Financial Statements

May 31, 2024

(Expressed in Canadian Dollars)

11. FINANCIAL INSTRUMENTS (Continued)

Market risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate due to changes in market prices. Market risk comprises three types of risk: interest rate risk, foreign currency risk and other price risk.

(i) Interest rate risk

To the extent that changes in prevailing market rates differ from the interest rate on the Company's monetary assets and liabilities, the Company is exposed to interest rate price risk. The Company's cash consists of cash held in bank accounts and a reclamation deposit of \$30,792 (May 31, 2023 - \$30,792) at the prime rate minus 2.80% (May 31, 2023 - 2.90%) held as per instructions on the Safekeeping Agreement from the Ministry of Energy and Mines. Due to the short-term nature of the Company's financial instruments, fluctuations in market rates do not have a significant impact on estimated fair values.

For the balance of the cash, any fluctuations in the interest rate would lead to an immaterial change in the profit or loss.

(ii) Foreign currency risk

The Company is not exposed to foreign currency risk.

(iii) Other price risk

Other price risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices, other than those arising from interest rate risk or foreign currency risk. The Company is not exposed to significant other price risk.

12. COMMITMENTS

The Company has previously entered into two 5-year term renewable agreements with companies controlled by two directors for the provision of consulting services at a cost of \$2,500 per month (\$30,000 per annum) for each of the two agreements. Beginning January 1, 2020, payments under the two above mentioned agreements were voluntarily reduced to \$nil per month and were not paid or accrued. If either of such agreements are terminated without cause or if there is a change in control of the Company, the Company is required to pay an amount equal to three times the annual fee payable under the agreements.

13. SUBSEQUENT EVENT

In July 2024, the Company entered into a loan agreement, pursuant to which the Company received \$2,000 for working capital purposes. The loan is for a term of 1 year with interest at a rate of 1% per month (12% per annum).
