TROYMET EXPLORATION CORP.
NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS
Nine Months Ended July 31, 2017
(Unaudited – Expressed in Canadian Dollars, unless otherwise stated)

1. NATURE OF OPERATIONS

Troymet Exploration Corp. (the "Company"), of PO Box 37033 Country Club PO, Nanaimo, British Columbia, was incorporated under the Business Corporations Act (Alberta) on June 4, 2007. A Plan of Arrangement between the Company, Signet Minerals Inc., and Cash Minerals Ltd. was completed on August 7, 2007. The Company was listed on the TSX Venture Exchange on September 20, 2007 and trades under the symbol "TYE".

2. GOING CONCERN

These condensed consolidated interim financial statements have been prepared on the basis of accounting principles applicable to a going concern, which assumes that the Company will continue in operation for the foreseeable future and will be able to realize its assets and discharge its liabilities in the normal course of operations.

The Company is in the process of exploring and evaluating its mineral exploration and evaluation assets. On the basis of the information to date, it has not yet determined whether these assets contain economically recoverable ore reserves. The underlying value of the mineral exploration and evaluation assets and related deferred costs is entirely dependent on the existence of economically recoverable reserves, the ability of the Company to obtain the necessary financing to complete development and upon future profitable production. The amounts shown as mineral exploration and evaluation assets and deferred exploration costs represent net costs to date, less any amounts written off, and do not necessarily represent present or future values.

The Company's ability to continue as a going concern is dependent on accessing capital markets, or entering into collaborative agreements that would provide additional financing. These material uncertainties may cast significant doubt about the Company's ability to continue as a going concern.

Realization values may be substantially different from carrying values as shown and these condensed consolidated interim financial statements do not include any adjustments that would be necessary to the carrying values and classifications of assets and liabilities should the Company be unable to continue as a going concern.

3. BASIS OF PRESENTATION

Statement of compliance

The condensed consolidated interim financial statements of the Company have been prepared in accordance with IAS 34 Interim Financial Reporting.

The condensed consolidated interim financial statements of the Company should be read in conjunction with the Company's 2016 annual financial statements which have been prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB").

TROYMET EXPLORATION CORP.
NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS
Nine Months Ended July 31, 2017
(Unaudited – Expressed in Canadian Dollars, unless otherwise stated)

3. BASIS OF PRESENTATION (continued)

Approval of the financial statements

The condensed consolidated interim financial statements of the Company for the nine months ended July 31, 2017, were authorized for issue on September 28, 2017 by the Board of Directors of the Company.

Measurement basis

The condensed consolidated interim financial statements are presented in Canadian dollars. The condensed consolidated interim financial statements of the Company have been prepared on an accrual basis except for cash flow information, and are based on historical costs, except for certain financial instruments, which are stated at their fair values.

Principles of consolidation

These condensed consolidated interim financial statements include the accounts of the Company and its wholly-owned subsidiary, Troymet USA LLC. ("Troymet USA"), which was incorporated in the USA during the year ended October 31, 2015. All intercompany transactions and balances have been eliminated.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The condensed consolidated interim financial statements have been prepared, for all periods presented, following the same accounting policies and methods of computation as described in Note 4 to the audited financial statements for the year ended October 31, 2016.

Significant accounting judgments, estimates and assumptions

The preparation of these condensed consolidated interim financial statements requires management to make judgments, estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Estimates and assumptions are continuously evaluated and are based on management's experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

Significant accounting estimates

Significant areas requiring the use of management estimates include the determination of impairment of mineral exploration and evaluation assets (including the Company's investment in McClarty Lake), the recoverability and measurement of deferred income tax assets and liabilities, the recognition and valuation of provisions for restoration and environmental liabilities and assumptions used in valuing options in share-based compensation calculations. Management believes the estimates are reasonable; however, actual results could differ from those estimates and could impact future results of operations and cash flows.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Significant accounting judgments

Information about critical judgments in applying accounting policies that have the most significant risk of causing material adjustment to the carrying amounts of assets and liabilities recognized in the consolidated financial statements within the next financial year include the Company's going concern assessment, and the determination of Troymet USA's functional currency.

5. CASH AND CASH EQUIVALENTS

At July 31, 2017, the Company held a Guaranteed Investment Certificate ("GIC") with a total value of \$100,275 (October 31, 2016 – two GIC's with a value of \$186,500).

The GIC is cashable, has a principal amount of \$100,000, bears interest at 0.70%, and matures on April 5, 2018.

Included in the balance of cash and cash equivalents is \$275 of accrued interest (October 31, 2016 - \$2,840).

6. RECLAMATION ADVANCES

During the year ended October 31, 2015, the Company advanced \$5,000 to the Minister of Finance of British Columbia as a security deposit for exploration work on the Redhill property (note 7(c)). The amount is without interest.

During the year ended October 31, 2016, the Company advanced \$22,070 USD to the State of Utah Department of Natural Resources as surety for exploration work on the Wildcat property (note 7(b)). The amount is without interest. During the nine months ended July 31, 2017, the Company received a refund of \$13,242 USD from the advance. At July 31, 2017, \$8,828 USD remains advanced for surety.

7. MINERAL EXPLORATION AND EVALUATION ASSETS

a) Golden Eagle

Pursuant to an option agreement dated September 24, 2001 the Company acquired a 100% interest in the Golden Eagle property located in British Columbia. The Company has granted the optionor a 1% net smelter royalty ("NSR").

b) Wildcat

On February 23, 2015, Troymet USA entered into an option agreement with Renaissance Exploration Inc. ("RenEx"). Under the terms of the option, the Company may acquire a 70% interest in the Wildcat gold project located in Utah, by paying RenEx \$50,000 USD in cash (paid), reimbursing claim fees of \$8,219 USD (reimbursed), incurring exploration expenditures of \$3,000,000 USD over seven years and completing a bankable feasibility study. The minimum annual work commitments are as follows:

Nine Months Ended July 31, 2017
(Unaudited – Expressed in Canadian Dollars, unless otherwise stated)

7. MINERAL EXPLORATION AND EVALUATION ASSETS (continued)

b) Wildcat (continued)

- \$50,000 USD during the first year of the agreement (spent);
- an additional \$250,000 USD during the second year of the agreement (spent);
- an additional \$350,000 USD during the third year of the agreement; and
- an additional \$500,000 USD during each of the fourth through seventh years of the agreement.

c) Redhill

On July 8, 2015, the Company entered into an option agreement with Homegold Resources Ltd. ("Homegold"). Under the terms of the option, the Company may acquire a 100% interest in the Redhill property located in British Columbia by making option payments as follows:

- \$5,000 upon signing of the agreement (paid);
- \$5,000 on the first and second anniversaries of the agreement (paid);
- \$10,000 on the third anniversary of the agreement;
- \$40,000 on the fourth through ninth anniversaries of the agreement; and
- \$235,000 on the tenth anniversary of the agreement.

In addition to the option payments, the Company must spend \$500,000 on exploration as follows:

- \$20,000 on or before the first anniversary of the agreement (spent);
- \$50,000 on or before the second anniversary of the agreement (spent);
- \$150,000 on or before the third anniversary of the agreement (spent);
- \$30,000 on or before the fourth through ninth anniversaries of the agreement (spent); and
- \$100,000 on or before the tenth anniversary of the agreement.

If the Company exercises the option, Homegold will retain a 2% NSR, half (1%) of which can be purchased by the Company for \$1,000,000 at any time. In the event of commercial production or sale of 100% of the property, Homegold will receive a bonus payment of \$500,000 in cash or shares at the election of Homegold. Expenditures can be accelerated at the Company's election and excess expenditures in any year will be credited towards future years.

7. MINERAL EXPLORATION AND EVALUATION ASSETS (continued)

d) Key

On December 10, 2013, the Company entered into an asset sale agreement (the "Sale Agreement") with respect to the Company's 100% interest in the Key Property in British Columbia to New Gold Inc. ("New Gold"). Pursuant to the Sale Agreement, the Company sold its 100% interest in the Key Property, along with associated technical information and permits, for a purchase price of \$2,000,000 in cash. The Company was also granted a 2% NSR on the Key Property, of which 1% (reducing the NSR from 2% to 1%) can be purchased by New Gold for \$2,000,000 in cash. As part of the Sale Agreement, New Gold committed to spend \$1,500,000 on the Key Property. The expenditure commitment was completed during the year ended October 31, 2015.

At July 31, 2017, expenditures incurred on mineral exploration and evaluation assets are as follows:

8. INVESTMENT IN MCCLARTY LAKE

The McClarty Lake property is comprised of five contiguous mineral claims totaling 596 hectares. The Company owns 100% of three of the claims that were staked in 2000 and pursuant to an option agreement between the Company and Hudson Bay Exploration and Development Company Limited ("HBED"), dated February 15, 2000 and amended on September 28, 2000, August 31, 2001, August 31, 2005, and June 28, 2007, the Company had an option to acquire a 60% interest in two claims comprising 252 hectares. As consideration, the Company made option payments totaling \$125,000 to HBED. No further option payments are required.

The Company has fulfilled the expenditure requirements and completed the earn-in requirements of the option agreement by incurring \$800,000 of exploration expenditures on or before August 15, 2008. Pursuant to the option agreement, HBED incurred sufficient expenditures to earn back a 20% interest in the two claims covered by the option agreement by spending \$750,000 on exploration and development. This earn-back was completed in June 2011.

On July 30, 2012, the Company signed an agreement with HBED for joint exploration of the McClarty Lake property. Both companies, having previously incurred expenditures on the McClarty Lake property, agreed to combine their interests and jointly explore the property going forward, with the Company incurring 40% of the expenditures and HBED incurring 60% of the expenditures. No new entity was created upon signing of the agreement. The Company's contribution to the McClarty Lake agreement was its exploration expenditures on the McClarty Lake property of \$1,557,428. Under terms of the agreement, HBED must contribute \$1,151,052 in joint venture expenditures before the Company is required to fund its participating interest.

During the year ended October 31, 2016, the Company recorded an impairment of \$1,565,117 related to the investment in McClarty Lake as a result of no exploration plan for the foreseeable future by either HBED or the Company.

Geological consisted of \$56,000 (2016 - \$72,000) paid to a company controlled by the President and Chief Executive Officer.

At July 31, 2017, included in accounts payable and accrued liabilities was \$nil (2016 - \$9,627) due to a company controlled by a director.

12. FINANCIAL RISK MANAGEMENT

a) Overview

The Company's activities expose it to a variety of financial risks that arise as a result of its exploration, development, and financing activities such as credit risk, liquidity risk and market risk.

The Board of Directors oversees managements' establishment and execution of the Company's risk management framework. Management has implemented and monitors compliance with risk management guidelines. The Company's risk management guidelines are established to identify and analyze the risks faced by the Company, to set appropriate risk limits and controls, and to monitor risks and adherence to market conditions and the Company's activities.

b) Credit Risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations.

The maximum exposure to credit risk at period-end is as follows:

	July 31, 2017	October 31, 2016
Cash and cash equivalents	\$ 138,557	\$ 298,677
Accounts receivable	4,807	15,036
	\$ 143,364	\$ 313,713

The Company limits its exposure to credit risk on cash and short-term investments by only investing in liquid securities offered by Chartered Banks. Given the credit rating of the bank and the securities owned, management does not expect significant credit losses on cash and short-term investments.

The Company's accounts receivable consisted entirely of GST receivable at July 31, 2017 and October 31, 2016.

12. FINANCIAL RISK MANAGEMENT (continued)

b) Credit Risk (continued)

As at July 31, 2017 and October 31, 2016, the Company's accounts receivable were current (less than 90 days). The Company believes that all outstanding balances are collectible and therefore there is no allowance for doubtful accounts at July 31, 2017 and October 31, 2016.

c) Liquidity Risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. The Company's approach to managing liquidity is to ensure, as much as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation.

The Company has a planning and budgeting process in place by which it anticipates and determines the funds required to support normal operation requirements and the growth and development of its mineral exploration and evaluation assets. The Company coordinates this planning and budgeting process with its financing activities through the capital management process described in Note 13. Management has increased its focus on liquidity risk given the impact of the current economic and financial market climate on the availability of equity financing.

The Company's financial liabilities are comprised of accounts payable and accrued liabilities. The financial liabilities at July 31, 2017 are summarized below:

	Carrying amount	Contractual cash flows	Less than one year	One to two years	Two to five years	More than five years
Non-derivative financial liabilities						
Trade and other payables	\$ 999	\$ -	\$ 999	\$ -	\$ -	\$ -
	\$ 999	\$ -	\$ 999	\$ -	\$ -	\$ -

d) Interest Rate Risk

Interest rate risk is the risk that future cash flows will fluctuate as a result of changes in market interest rates. The Company expects the fluctuation in finance income as a result of interest rate fluctuations to be minimal.

e) Commodity Price Risk

The Company's ability to raise the capital required to fund exploration or development activities is subject to risk associated with the market price of gold and base metals and the outlook for these commodities.

f) Fair Value

Financial instruments recorded at fair value on the consolidated statements of financial position are classified using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

- Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.
- Level 3: Inputs for assets or liabilities that are not based on observable market data.

The fair value hierarchy requires the use of observable market inputs whenever such inputs exist. A financial instrument is classified to the lowest level of the hierarchy for which a significant input has been considered in measuring fair value.

The following table presents the financial instruments recorded at fair value in the consolidated statements of financial position, classified using the fair value hierarchy described above:

July 31, 2017	Level 1	Level 2	Level 3
Cash and cash equivalents	\$ 138,557	-	-
		\$	-
October 31, 2016	Level 1	Level 2	Level 3
Cash and cash equivalents	\$ 298,677	-	-

13. MANAGEMENT OF CAPITAL

The Company's policy is to maintain a strong capital base so as to maintain investor, creditor and market confidence and to sustain future development of the business. The Company manages its capital structure and makes adjustments to it in the light of changes in economic and financial market conditions. The Company considers its capital structure to include shareholders' equity and working capital. In order to maintain or adjust the capital structure, the Company may issue shares and adjust its spending to manage current and projected cash levels.

As the Company is in the exploration stage, it endeavors to manage its capital structure in a manner that provides sufficient funding for operational activities through funds primarily secured through equity capital obtained in private placements. There can be no assurances that the Company will be able to continue raising capital in this manner.

The Company facilitates the management of capital through preparation of annual expenditure budgets and cash forecasts that are updated as necessary. There were no changes in the Company's approach to capital management during the nine months ended July 31, 2017.

The Company is not exposed to externally imposed capital requirements.
