5.1 Full Description of Material Change

Marksman announced that it plans to complete a non-brokered private placement of up to 8,750,000 units (the “Units”) of Marksman at a price of \$0.04 per Unit for aggregate gross proceeds of up to a maximum of \$350,000 (the “Offering”). There is no minimum Offering. The Units will be comprised of one (1) common share (“Common Share”) and one (1) share purchase warrant (“Warrant”) of Marksman. Each whole Warrant entitles the holder thereof to purchase one Common Share for \$0.07 expiring two (2) years from the date of the closing of the Offering..

Marksman may pay a cash commission or finder's fee to qualified non-related parties of up to 8% of the gross proceeds of the Offering (up to \$28,000) and broker warrants (the “Broker Warrants”) equal to up to 8% of the number of Units sold in the Offering (up to 700,000 Broker Warrants). Each Broker Warrant will entitle the holder to acquire one Common Share at a price of \$0.04 per Broker Warrant for a period of one (1) year from the date of issuance

In the following order depending on the proceeds raised Marksman intends to use the net proceeds of the Offering to pay \$75,000 of debenture interest, \$200,000 towards recompletion of wells targeting the Clinton Sandstone formation in Portage County, Ohio and \$47,000 towards working capital.

The Offering is being offered to all of the existing shareholders of Marksman who are permitted to subscribe pursuant to the Existing Shareholder Exemption. This offer is open until February 1, 2021 or such other date or dates as the Company determines and one or more closings are expected to occur, with the first closing anticipated for on or before December 30, 2020.

Any existing shareholders interested in participating in the Offering should contact the Company pursuant to the contact information set forth below.

The Company has set December 18, 2020 as the record date for determining existing shareholders entitled to subscribe for Units pursuant to the Existing Shareholder Exemption. Subscribers purchasing Units under the Existing Shareholder Exemption will need to represent in writing that they meet certain requirements of the Existing Shareholder Exemption, including that they were, on or before the record date, a shareholder of the Company and still are a shareholder as at the closing date. The aggregate acquisition cost to a subscriber under the Existing Shareholder Exemption cannot exceed \$15,000 unless that subscriber has obtained advice from a registered investment dealer regarding the suitability of the investment.

As the Company is also relying on the Exemption for Sales to Purchasers Advised by Investment Dealers, it confirms that there is no material fact or material change related to the Company which has not been generally disclosed. In addition to offering the Units pursuant to the Existing Shareholder Exemption and the Exemption for Sales to Purchasers Advised by Investment Dealers, the Units are also being offered pursuant to other available prospectus exemptions, including sales to accredited investors. Unless the Company determines to increase the gross proceeds of the Offering, if subscriptions received for the Offering based on all available exemptions exceed the maximum Offering amount of \$350,000, Units will be allocated pro rata among all subscribers qualifying under all available exemptions.

Completion of the Offering is subject to regulatory approval including, but not limited to, the approval of the TSX Venture Exchange. The Common Shares and Warrants issued will be subject to a four month hold period from the date of the closing of the Offering.

It is expected that insiders of the Company will participate in the Offering.

The board of directors and management of the Corporation thank Dr. Geib for his dedication and services to Marksmen and wish him every success in his future endeavors.
