NOTES TO THE CONDENSED INTERIM FINANCIAL STATEMENTS (UNAUDITED)
Expressed in Canadian Dollars
For the nine months ended October 31, 2019

1. Corporate Information

Tymbal Resources Ltd.'s ("Tymbal" or the "Company") business activity is the exploration and evaluation of mineral properties in Canada. The Company was incorporated under the Canada Business Corporations Act on June 10, 1980, and has continued as a company under the Business Corporations Act of British Columbia. The Company is listed on the TSX Venture Exchange, having the symbol TYMB-V, as a Tier 2 mining issuer and is in the process of exploring its mineral properties.

The address of the Company's corporate office and principal place of business is suite 600, 850 West Hastings Street, Vancouver, British Columbia, Canada V6C 1E1.

2. Basis of Preparation

These condensed interim financial statements for the nine months period ended October 31, 2019 have been prepared in accordance with IAS 34 Interim Financial Reporting.

These condensed interim financial statements should be read in conjunction with the Company's 2019 annual financial statements which have been prepared in accordance with International Financial Reporting Standards (-IFRS) as issued by the International Accounting Standards Board (-IASB).

The condensed interim financial statements have been prepared using accounting policies consistent with those used in the Company's 2019 annual financial statements except for income tax expense which is recognized in each interim period based on the best estimate of the weighted average annual income tax rate expected for the full financial year.

The condensed interim financial statements are presented in Canadian dollars, which is also the Company's functional currency.

These condensed interim financial statements were authorized for issue by the Board of Directors on November 20, 2019.

The preparation of financial statements in compliance with IFRS requires management to make certain critical accounting estimates. It also requires management to exercise judgment in applying the Company's accounting policies. The areas involving a higher degree of judgment of complexity, or areas where assumptions and estimates are significant to the financial statements are disclosed in Note 3.

a) Going Concern of Operations

The Company has not generated revenue from operations. The Company incurred a net loss of \$379,184 during the nine months ended October 31, 2019 (2018: \$379,617) and as of that date the Company's deficit was \$10,483,698 (2018: \$9,955,534). The Company expects to incur further losses in the development of its business, all of which casts significant doubt about the Company's ability to continue as a going concern. The Company's ability to continue as a going concern is dependent upon its ability to raise the necessary funds and/or to obtain the necessary financing to meet its obligations and repay its liabilities arising from normal business operations when they come due. Although the Company has successfully raised funds in the past, there is no assurance that it will be able to do so in the future.

2. Basis of preparation – (cont'd)

b) Accounting standards issued but not yet effective

A number of new standards, and amendments to standards and interpretations, are not yet effective for the quarter ended October 31, 2019, and have not been applied in preparing these financial statements.

IFRS 16, Leases (New)

The Company has not early adopted these revised standards and is currently assessing the impact that these standards will have on the financial statements.

Other accounting standards or amendments to existing accounting standards that have been issued but have future dates are either not applicable or are not expected to have a significant impact on the Company's financial statements.

3. Critical Accounting Estimates and Judgments

The Company makes estimates and assumptions about the future that affect the reported amounts of assets and liabilities. Estimates and judgments are continually evaluated based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. In the future, actual experience may differ from these estimates and assumptions.

The effect of a change in an accounting estimate is recognized prospectively by including it in comprehensive income in the period of the change, if the change affects that period only, or in the period of the change and future years, if the change affects both.

Information about critical judgments in applying accounting policies and sources of estimation uncertainty that have the most significant risk of causing material adjustment to the carrying amounts of assets and liabilities recognized in the condensed interim financial statements within the next financial year are the same as those that applied to the Company's 2019 annual financial statements.

4. Cash and cash equivalents

Cash equivalents are comprised of guaranteed investment certificates held at chartered Canadian financial institutions. Cash at banks and on hand earns interest at floating rates based on daily bank deposit rates.
