KERMODE RESOURCES LTD.
NOTES TO THE CONDENSED INTERIM FINANCIAL STATEMENTS
(Unaudited - Expressed in Canadian Dollars)
FOR THE NINE MONTH PERIOD ENDED JULY 31, 2017

1. NATURE AND CONTINUANCE OF OPERATIONS

Kermode Resources Ltd. (the "Company") was incorporated under the laws of the Province of Alberta and was subsequently continued into British Columbia. The Company has one reportable segment consisting of the acquisition and exploration of minerals property interests in Canada. The Company has not yet determined whether its exploration and evaluation assets contain economic ore reserves.

The Company's registered and records office is 2900-595 Burrard Street, Vancouver, British Columbia, Canada.

These financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") with the assumption that the Company will be able to realize its assets and discharge its liabilities in the normal course of business for the foreseeable future. The Company has incurred ongoing losses. A number of alternatives including, but not limited to completing a financing, are being evaluated with the objective of funding ongoing activities and obtaining additional working capital. The continuing operations of the Company are dependent upon its ability to continue to raise adequate financing and to commence profitable operations in the future and repay its liabilities arising from normal business operations as they become due. These material uncertainties may cast significant doubt about the Company's ability to continue as a going concern.

The financial statements do not include any adjustments relating to the recoverability and classification of recorded asset amounts and classification of liabilities that might be necessary should the Company be unable to continue in existence.

2. BASIS OF PREPARATION

Statement of Compliance

These condensed interim financial statements, including comparatives, have been prepared in accordance with International Accounting Standards ("IAS") 34 'Interim Financial Reporting' ("IAS 34") using accounting policies consistent with the International Financial Reporting Standards ("IFRS") issued by the International Accounting Standards Board ("IASB") and Interpretations of the International Financial Reporting Interpretations Committee ("IFRIC").

Basis of Presentation

These condensed interim financial statements have been prepared on the basis of accounting policies and methods of computation consistent with those applied in the Company's October 31, 2016 annual financial statements.

New standards not yet adopted

The following new standards, amendments to standards and interpretations have been issued but are not effective during the period ended July 31, 2017:

- IFRS 9 New financial instruments standard that replaces IAS 39 for classification and measurement of financial assets⁽ⁱ⁾
- IFRS 11 Amendment to provide specific guidance on accounting for the acquisition of an interest in a joint operation that is a business.⁽ⁱⁱ⁾
- IFRS 15 (Amendment) New revenue standard that establishes a single five-step model framework for determining the nature, amount, timing and uncertainty of revenue and cash flows arising from a contract with a customer⁽ⁱ⁾

(i) Effective for annual periods beginning on or after January 1, 2018

(ii) Effective for annual periods beginning on or after January 1, 2016

The Company anticipates that the application of these standards, amendments and interpretations will not have a material impact on the results and financial position of the Company.

Title to mineral properties

Title to mineral properties involves certain inherent risks due to the difficulties of determining the validity of certain claims as well as the potential for problems arising from the frequently ambiguous conveyancing history characteristic of many mineral properties. The Company has investigated title to all of its mineral properties and, to the best of its knowledge, title to all of its properties are in good standing.

NOTES TO THE CONDENSED INTERIM FINANCIAL STATEMENTS
(Unaudited - Expressed in Canadian Dollars)
FOR THE NINE MONTH PERIOD ENDED JULY 31, 2017

4. EXPLORATION AND EVALUATION ASSETS (cont'd...)

Eastgate Gold

The Company entered into a Mineral Property Option and Joint Venture Agreement with Blue Ridge Gold LLC, (a private Nevada company)("Blue Ridge"). The Eastgate Gold property is comprised of mineral claims located northeast of the Rawhide Mine, and east of Fallon in Churchill, County, Nevada. The Company may acquire up to a 100% interest in the property.

During the year ending October 31, 2012 the Company paid \$100,000 to Blue Ridge and issued 2,000,000 common shares valued at \$160,000 with additional payments of \$1,220 cash and 200,000 common shares (valued at \$16,000) as finder's fee. The Company staked additional claims and reimbursed the optionor for certain other costs.

In order to acquire its initial 30% interest, the Company shall make the following additional payments to Blue Ridge:

- \$200,000 (paid) and 500,000 common shares (issued; valued at \$15,000) of the Company by May 15, 2013
- \$200,000 (paid) by May 15, 2014

The following payments are required to earn further 15% incremental interests:

- \$200,000 by May 15, 2015 for an aggregate 45% interest (paid by Eros)
- \$200,000 by May 15, 2016 for an aggregate 60% interest (paid by Eros)

Once the Company has earned a 75% interest, Blue Ridge shall elect to either (a) enter into a joint venture with the Company and maintain a 25% interest in the Property; or (b) grant the Company the option to acquire the remaining 25% interest in the property through the payment of \$200,000 or 200,000 shares of the Company (at Blue Ridge's election) for each additional 5% interest, exercisable over 5 years.

If the Company acquires at least a 75% interest and no joint venture is formed, the Company will issue an additional 3,000,000 shares to Blue Ridge upon the earlier of (a) commencing commercial production; or (b) disposing of the majority of its interest in the property to a third party purchaser pursuant to an asset sale, merger, amalgamation, take-over or similar corporate reorganization.

Blue Ridge will retain a 3% NSR royalty, which the Company can buy down to 2% for \$1,000,000.

During the year ended October 31, 2015 the Company entered into an agreement to sell part of its interest in its Nevada Eastgate gold project to Eros Resources Corp. (formerly Boss Power Corp.)("Eros")

Under the terms of the agreement, Eros purchased one-half of the Company's 30% interest in the property for \$300,500 (US\$250,000) and has the right to participate with the Company in the underlying agreement that the Company has with Blue Ridge.

Following the above initial 15% purchase, Eros purchased an additional 15% interest in the property in consideration for a payment of US\$200,000 to Blue Ridge. Eros has the right to purchase an additional 15% interest for US\$200,000.

Eros holds a 45% interest, the Company holds a 15% interest and Blue Ridge holds the remaining 40% interest in the Property subject to the Blue Ridge agreement with the Company.

(Unaudited - Expressed in Canadian Dollars)
FOR THE NINE MONTH PERIOD ENDED JULY 31, 2017

4. EXPLORATION AND EVALUATION ASSETS (cont'd...)

Eastgate Gold (cont'd...)

The Company and Eros will jointly and equally participate in the remaining purchases of a 15% interest and a 25% interest in the Property pursuant to and as contemplated by the Blue Ridge Agreement.

Either the Company or Eros may elect not to complete its share of the purchases and the other party may complete the purchases entirely for its own account or may also elect not to complete its share in which case they will enter into a joint venture and joint venture agreement with each other and Blue Ridge pursuant to and as contemplated by the Blue Ridge agreement.

The Company has received \$300,500 (USD\$250,000) as of the year ended October 31, 2015 for the sale of the initial 15% interest in the property. Consequently the Company's remaining 15% interest was written down to \$300,500 during the year ended October 31, 2015. Due to delay in exploration work, the property has been written off during the year ended October 31, 2016.

As of May 17, 2017 the Company elected to enter into a joint venture with Blue Ridge with Eros holding a 45% interest, the Company holds a 15% interest and Blue Ridge holds the remaining 40% interest in the Property subject to the Blue Ridge agreement with the Company.

Jackson's Arm, Newfoundland

The Company acquired a 100% interest in certain mineral claims, located in Newfoundland. Due to a delay in exploration work, the Company wrote off all costs (\$3,407,074) associated with the Property during fiscal 2010. During the fiscal year 2014 the Company entered into an agreement with Atlantic Minerals Ltd. ("Atlantic") for an option to purchase 10 claims from Jackson's Arm Property and received \$25,000. Atlantic elected not to exercise their option to acquire the claims after the initial drill program was completed.

5. RELATED PARTY TRANSACTIONS

During the nine month period ended July 31, 2017, the Company entered into the following transaction with related parties not disclosed elsewhere in the financial statements:

The balance receivable as at July 31, 2017 is \$Nil (October 31, 2016 - \$6,307) from a company owned by a spouse of a director (Note 4).

The key management personnel of the company are the Directors, Chief Executive Officer, and the Chief Financial Officer. Compensation of the Company's key management personnel is comprised of the following:

	July 31, 2017	October 31, 2016
Professional Fees	\$ -	\$ -
Management Fees	-	-
Total Expense	\$ -	\$ -

As at July 31, 2017, the Company owes \$69,543 (October 31, 2016- \$54,548) in accounts payable to various related parties.

6. SHARE CAPITAL AND RESERVES

Authorized share capital

As at July 31, 2017, the authorized share capital of the Company is an unlimited number of common shares without par value. All issued shares, consisting only of common shares are fully paid.

Issued share capital

As at July 31, 2017, the Company had 65,397,373 common shares issued and outstanding.

Stock options

During the year ended October 31, 2012, the Company adopted a 10% rolling stock option plan whereby the Company can reserve approximately 10% of its outstanding shares for issuance to officers and directors, employees and consultants. Under the plan, the exercise price of each option shall be equal or greater than the closing market price of the Company's stock on the day prior to the date of grant. These options are subject to approval from the TSX Venture Exchange ("TSX-V"), can be granted for a maximum term of 10 years, and vest at the discretion of the Board of Directors.

Stock option and warrant transactions are summarized as follows:

	Warrants		Stock Options	
	Number	Weighted Average Exercise Price	Number	Weighted Average Exercise Price

(Unaudited - Expressed in Canadian Dollars)
FOR THE NINE MONTH PERIOD ENDED JULY 31, 2017

8. FINANCIAL AND CAPITAL RISK MANAGEMENT

Financial instruments measured at fair value are classified into one of three levels in the fair value hierarchy according to the relative reliability of the inputs used to estimate the fair values. The three levels of the fair value hierarchy are:

Level 1 – Unadjusted quoted prices in active markets for identical assets or liabilities;

Level 2 – Inputs other than quoted prices that are observable for the asset or liability either directly or indirectly;
and

Level 3 – Inputs that are not based on observable market data.

The fair value of the Company's receivables, advances receivable and accounts payable and accrued liabilities approximate their carrying values due to the short-term nature of these instruments. The Company's cash is measured at fair value using Level 1 inputs.

The Company is exposed to varying degrees to a variety of financial instrument related risks:

Credit risk

Credit risk is the risk of loss associated with a counterparty's inability to fulfill its payment obligations. The Company's credit risk is primarily attributable to receivables and advances receivable. Management believes that the credit risk concentration with respect to financial instruments included in receivables is remote because these receivables are due primarily from a government agency and the credit risk from the advances receivable is addressed with the security and guarantee.

Liquidity risk

The Company's approach to managing liquidity risk is to ensure that it will have sufficient liquidity to meet liabilities when they come due. As at July 31, 2017, the Company had a cash balance of \$62 (October 31, 2016 - \$132) available to settle current liabilities of \$353,374 (October 31, 2016 - \$313,062). All of the Company's financial liabilities are subject to normal trade terms.

Market risk

Market risk is the risk of loss that may arise from changes in market factors such as interest rates, foreign exchange rates, and commodity and equity prices. These fluctuations may be significant.

a) Interest rate risk

The Company has cash balances held with financial institutions. The Company's current policy is to invest excess cash in short-term treasury bills issued by the Government of Canada and its banking institutions. The Company periodically monitors the investments it makes and is satisfied with the credit ratings of its banks.

b) Foreign currency risk

The Company does not have any balances denominated in a foreign currency and believes it has no significant foreign currency risk.

c) Price risk

The Company is exposed to price risk with respect to commodity prices. Changes in commodity prices will impact the economics of development of the Company's mineral properties. The Company closely monitors commodity prices to determine the appropriate course of action to be taken.

NOTES TO THE CONDENSED INTERIM FINANCIAL STATEMENTS
(Unaudited - Expressed in Canadian Dollars)
FOR THE NINE MONTH PERIOD ENDED JULY 31, 2017

8. FINANCIAL AND CAPITAL RISK MANAGEMENT (cont'd...)

Capital management

The Company manages its capital structure and makes adjustments to it, based on the funds available to the Company, in order to support the acquisition and exploration of mineral properties. The Board of Directors does not establish quantitative return on capital criteria for management, but rather relies on the expertise of the Company's management to sustain future development of the business. The Company defines capital that it manages as shareholders' equity.

The property in which the Company currently has an interest is in the exploration stage; as such the Company has historically relied on the equity markets to fund its activities. Current financial markets are very difficult and there is no certainty with respect to the Company's ability to raise capital. The Company will continue to assess new properties and seek to acquire an interest in additional properties if it feels there is sufficient geologic or economic potential and if it has adequate financial resources to do so. Management reviews its capital management approach on an ongoing basis and believes that this approach, given the relative size of the Company, is reasonable.

The Company currently is not subject to externally imposed capital requirements. There were no changes in the Company's approach to capital management.
