This Offering is made on a commercially reasonable efforts basis by the Agent and is subject to completion of the aggregate subscription of 2,250,000 Common Shares for total gross proceeds to the Corporation of \$225,000. The offering price of the Common Shares was determined by negotiation between the Corporation and the Agent subject to Exchange requirements. See "Plan of Distribution".

Market for Securities

Other than the initial distribution of the Common Shares pursuant to this Prospectus, the grant of the Agent's Warrants and the concurrent grant of the Incentive Stock Options, trading in all securities of the Corporation is prohibited during the period between the date a receipt for the preliminary Prospectus is issued by each of the applicable securities commissions and the time the Common Shares are listed for trading on the Exchange except, subject to prior acceptance of the Exchange, where appropriate registration and prospectus exemptions are available under securities legislation or where the applicable securities regulatory authority grants a discretionary order.

There is no market through which the Common Shares offered by this Prospectus may be sold and purchasers may not be able to resell the Common Shares purchased under this Prospectus. The Corporation has applied to list its Common Shares on the Exchange. Listing will be subject to the Corporation fulfilling all of the listing requirements of the Exchange.

Summary of Risk Factors

Investment in the Common Shares offered by this Prospectus is highly speculative due to the nature of the Corporation's business and its present stage of development. This Offering is suitable only to those investors who are willing to rely solely on the management of the Corporation and who are prepared to risk the loss of their entire investment. See a full discussion of "Risk Factors" below.

Upon completion of this Offering, purchasers will suffer an immediate dilution (based on the gross proceeds from this and prior share issuances without deduction of selling and related expenses) of \$0.048 or 48% per Common Share based on the gross proceeds of the Offering, before deduction of selling commissions or related expenses of the Offering. See "Dilution".

The Corporation was only recently incorporated and does not currently own any assets other than cash. The business objective of the Corporation is to identify and evaluate assets or businesses with a view to completing a Qualifying Transaction that requires Exchange approval and in the case of a Non Arm's Length Qualifying Transaction, Majority of the Minority Approval of the Corporation's shareholders. The Corporation has only limited funds with which to identify and evaluate potential Qualifying Transactions. Accordingly, there can be no assurance that the Corporation will successfully complete any Qualifying Transaction. The Corporation may find that even if the terms of a potential acquisition are economic, the Corporation may not be able to finance such acquisition. Where the investment or acquisition is financed by the issuance of Common Shares from the Corporation's treasury, control of the Corporation may change and shareholders may suffer significant dilution to their investment.

Investors must rely solely on the expertise of the Corporation's management for any possible return on

their investment. The directors and officers of the Corporation will only devote a portion of their time to the affairs of the Corporation and there are potential conflicts of interest to which some of the directors and officers of the Corporation will be subject in connection with the opportunities available to, and the activities of, the Corporation.

The Exchange may suspend from trading or delist the Common Shares where the Corporation has failed to complete a Qualifying Transaction within 24 months from the date of listing. Neither the Exchange nor any securities regulatory authority passes upon the merits of a proposed Qualifying Transaction.

There can be no assurance that an active and liquid market for the Corporation's Common Shares will develop and an investor may find it difficult to resell the Common Shares.

Since the Corporation has not placed any geographical restrictions on the location of a Qualifying Transaction, such Qualifying Transaction may involve the acquisition of a business located outside of Canada and, as such, investors should be aware that it may be difficult or may not be possible to effect service or notice to commence legal proceedings upon any directors, officers and experts outside of Canada and that it may not be possible to enforce against such Persons or the Corporation, judgments obtained in Canadian courts predicated upon the civil liability provisions of applicable securities laws in Canada.

The Corporation will be in competition with other corporations with greater resources. The Corporation has neither a history of earnings nor has it paid any dividends and it is unlikely to generate earnings or pay dividends in the immediate or foreseeable future. See "Capitalization", "Business of the Corporation", "Directors, Officers and Promoters", "Use of Proceeds", "Conflicts of Interest" and "Risk Factors".

Maximum Investment

This Offering is subject to the CPC Policy and the securities laws of the Provinces of Ontario, British Columbia and Alberta. Pursuant to the CPC Policy, no purchaser of the Common Shares is permitted to directly or indirectly purchase more than 2% of the total Common Shares offered under this Prospectus or 45,000 Common Shares. In addition, the maximum number of Common Shares that may directly or indirectly be purchased by that purchaser, together with any Associates or Affiliates of that purchaser, is 4% of the total number of Common Shares offered under this Prospectus or 90,000 Common Shares.

Receipt of Subscriptions

Subscriptions will be received subject to rejection or allotment in whole or in part and the right is reserved to close the subscription books at any time without notice. It is expected that one or more global certificates that represent the aggregate number of Common Shares subscribed for under the Offering will be issued in registered form as directed by the Agent and will be available for delivery at the closing of the Offering. The Common Shares subscribed for under the Offering may also be issued on an uncertificated basis. In either case, purchasers of Common Shares will only receive a client confirmation from the Agent as to the number of Common Shares subscribed for. Certificates representing the Common Shares in registered and definitive form will be issued to the purchasers in certain limited circumstances only.

Haywood Securities Inc., as Agent, hereby conditionally offers for sale, on behalf of the Corporation and on a "best efforts" agency basis, 2,250,000 Common Shares without nominal or par value at a price of \$0.10 per Common Share. The Common Shares are conditionally offered, subject to prior sale, if, as and when issued and delivered by the Corporation, and accepted in accordance with the conditions contained in the Agency Agreement referred to under "Plan of Distribution" and subject to the approval of certain legal matters by Sui & Company, Solicitors, on behalf of the Corporation and by Peterson McVicar LLP,

Solicitors, on behalf of the Agent.

SUMMARY OF PROSPECTUS

The following is a summary of the principal features of this distribution and should be read together with the more detailed information and financial data and statements contained elsewhere in this Prospectus.

Business of the Corporation

The principal business of the Corporation will be the identification and evaluation of assets or businesses with a view to completing a Qualifying Transaction. Until the completion of a Qualifying Transaction, the Corporation will not carry on any business other than the identification and evaluation of assets or businesses in connection with a potential Qualifying Transaction. The Corporation has not commenced commercial operations and has no assets other than a minimal amount of cash. See "Business of the Corporation".

Offering

A total of 2,250,000 Common Shares are being offered under this Prospectus at a price of \$0.10 per Common Share for gross proceeds of \$225,000. This Offering is being made on a commercially reasonable efforts basis by the Agent.

In addition, the Corporation will, effective on Closing of the Offering, grant the 225,000 Agent's Warrants to the Agent that will provide the Agent with the right to purchase 10% of the number of Common Shares sold pursuant to the Offering that will be equal to 225,000 Common Shares at a price of \$0.10 per Common Share exercisable for a period of 24 months from the Listing Date, which Agent's Warrants are qualified for distribution under this Prospectus.

The Corporation also intends to grant Incentive Stock Options to its directors and officers to purchase in aggregate 505,000 Common Shares, which will be exercisable at \$0.10 per Common Share for a period of five years from the Closing Date which options are qualified for distribution under this Prospectus. See "Plan of Distribution".

Use of Proceeds

The net proceeds to the Corporation after deduction of the Agent's cash commission, but before deduction of the expenses of the Offering, the Agent's corporate finance fee and the expenses of the Agent, will be \$202,500. The net proceeds of this Offering will be used to provide the Corporation with a minimum of funds with which to identify and evaluate assets or businesses, for acquisition with a view to completing a Qualifying Transaction. The Corporation may not have sufficient funds to secure such businesses or assets once identified and evaluated and additional funds may be required. Until Completion of the Qualifying Transaction and except as otherwise provided in the CPC Policy, a maximum of the lesser of 30% of the gross proceeds realized or \$210,000 may be used for purposes other than evaluating businesses or assets. See "Use of Proceeds". Until completion of the Qualifying Transaction, neither the Corporation nor any party on behalf of the Corporation will engage the services of any person to provide investor relation activities or market making services.

Directors and Officers

The directors and officers of the Corporation - and the positions held by them - are as follows. See "Directors, Officers and Promoters".

James C. Cassina – Chief Executive Officer, Chief Financial Officer, Secretary and Director
Sandra J. Hall – Director
James W. Longshore - Director
William A. Kanters - Director

Escrow

All of the currently issued and outstanding Common Shares of the Corporation, being 3,200,000 Common Shares have been deposited in escrow pursuant to the terms of the Escrow Agreement and will be released from escrow in stages over a period of up to three years after the date of the Final Exchange Bulletin. See "Escrowed Securities".

Risk Factors

There is currently no established market for the Common Shares. Investment in the Common Shares must be regarded as highly speculative due to the proposed nature of the Corporation's business and its present stage of development.

The Corporation was only recently incorporated and has no active business or assets other than cash and deferred offering costs. It does not have a history of earnings, nor has it paid any dividends and will not generate earnings or pay dividends until at least after the Completion of the Qualifying Transaction.

The Offering is only suitable to investors who are prepared to rely entirely on the directors and management of the Corporation and can afford to risk the loss of their entire investment.

The directors and officers of the Corporation will only devote part of their time and attention to the affairs of the Corporation and there are potential conflicts of interest to which the directors and officers of the Corporation will be subject to in connection with the operations of the Corporation.

Assuming completion of the Offering, an investor will suffer an immediate dilution of \$0.048 or 48% per Common Share. An acquisition financed by the issuance of Common Shares from treasury could result in a change of control of the Corporation and may cause the shareholder's interest in the Corporation to be further diluted. There can be no assurance that an active and liquid market for the Corporation's Common Shares will develop and an investor may find it difficult to resell the Common Shares.

Until Completion of the Qualifying Transaction, the Corporation will not carry on any business other than the identification and evaluation of assets or businesses with a view to completing a Qualifying Transaction. The Corporation has only limited funds with which to identify and evaluate possible Qualifying Transactions and there can be no assurance that the Corporation will be able to identify or complete a suitable Qualifying Transaction.

The Qualifying Transaction may involve the acquisition of a business or assets located outside of Canada. It may therefore be difficult or impossible to effect service or notice to commence legal proceedings upon any directors, officers and experts outside of Canada and it may not be possible to enforce against such Persons or companies judgments obtained in Canadian courts predicated upon the civil liability provisions applicable to securities laws in Canada.

See "Risk Factors" below for more detailed information on the risks of an investment in the Corporation's Common Shares.

The Corporation proposes to identify and evaluate businesses and assets with a view to completing a Qualifying Transaction. Any proposed Qualifying Transaction must be accepted by the Exchange and in the case of a Non Arm's Length Qualifying Transaction is also subject to Majority of the Minority Approval in accordance with the CPC Policy. The Corporation has not conducted any commercial operations. The Corporation is not currently targeting any specific industry sector with respect to a Qualifying Transaction.

Until completion of a Qualifying Transaction, the Corporation will not carry on any business other than the identification and evaluation of businesses or assets with a view to completing a potential Qualifying Transaction. With the consent of the Exchange, this may include the raising of additional funds in order to finance an acquisition. Except as described under "Restrictions on Use of Proceeds" and "Private Placements for Cash", the funds raised pursuant to this Offering and any subsequent financing will be utilized only for the identification and evaluation of potential Qualifying Transactions and not for any deposit, loan or direct investment in a potential acquisition.

Although the Corporation has commenced the process of identifying potential acquisitions with a view to completing a Qualifying Transaction, the Corporation has not yet entered into an Agreement in Principle.

Method of Financing

The Corporation may use the issuance of treasury shares, public equity or debt financing, existing cash, or conventional bank or debt financing, or a combination of the foregoing, for the purpose of financing its proposed Qualifying Transaction. **A Qualifying Transaction financed by the issue of treasury shares could result in a change in the control of the Corporation and may cause the shareholders' interest**

in the Corporation to be further diluted.

Criteria for a Qualifying Transaction

The board of directors of the Corporation must approve any proposed Qualifying Transaction. In exercising their powers and discharging their duties in relation to a proposed Qualifying Transaction, the directors will act honestly and in good faith with a view to the best interests of the Corporation and will exercise the care, diligence and skill that a reasonably prudent person would exercise in comparable circumstances.

The potential acquisitions will be screened initially by management of the Corporation to determine their economic viability. Approval of acquisitions will be made by the board of directors. The board of directors will examine proposed acquisitions having regard to, among other things, the (a) projected rate of return; (b) risk of loss; (c) prospects for growth; (d) skill of the management team; and (e) basic financing considerations, including the costs of the acquisition and the prospect of obtaining debt or equity financing to complete the acquisition.

Filings and Shareholder Approval of a Non Arm's Length Qualifying Transaction

Upon the Corporation reaching an Agreement in Principle, the Corporation must issue a comprehensive news release, at which time the Exchange generally will halt trading in the Corporation's Common Shares until the filing requirements of the Exchange have been satisfied as set forth under "Trading Halts, Suspensions and Delisting". Within 75 days after issuance of such news release, the Corporation shall be required to submit for review to the Exchange either an information circular that complies with applicable corporate and securities laws or a filing statement that complies with Exchange requirements. An information circular must be submitted where there is a Non Arm's Length Qualifying Transaction. A filing statement must be submitted where the Qualifying Transaction is not a Non Arm's Length Qualifying Transaction. The information circular or filing statement, as applicable, must contain Prospectus level disclosure of the Target Company and the Corporation, assuming Completion of the Qualifying Transaction, and be prepared in accordance with the CPC Policy and Form 3B1 or Form 3B2. Upon acceptance by the Exchange, the Corporation must then either:

- (a) file the filing statement on SEDAR at least seven business days prior to closing of the Qualifying Transaction, and issue a news release which discloses the scheduled closing date for the Qualifying Transaction as well as the fact that the filing statement is available on SEDAR, or
- (b) mail the information circular and related proxy material to its shareholders in order to obtain the Majority of the Minority Approval of the Qualifying Transaction or other requisite approval, at a meeting of shareholders.

Unless waived by the Exchange, the Corporation will also be required to retain a Sponsor, who must be a member of the Exchange, and who will be required to submit to the Exchange a Sponsor Report prepared in accordance with the Policies of the Exchange. The Corporation will no longer be considered to be a CPC upon the Exchange having issued the Final Exchange Bulletin. The Exchange will generally not issue the Final Exchange Bulletin until the Exchange has received:

- (i) in case of a Non Arm's Length Qualifying Transaction, confirmation of Majority of Minority Approval of the Qualifying Transaction;
- (ii) confirmation of closing of the Qualifying Transaction; and
- (iii) all post-meeting or final documentation, as applicable, otherwise required to be filed with the

Exchange pursuant to the CPC Policy.

Upon issuance of the Final Exchange Bulletin, the CPC Policy will generally cease to apply, with the exception of the escrow provisions of the CPC Policy and the restrictions in the CPC Policy precluding the Corporation from completing a reverse take-over for a period of one year from the Completion of the Qualifying Transaction.

Potential Qualifying Transaction

The Corporation has not, as of the date hereof, entered into negotiations respecting a potential Qualifying Transaction.

Initial Listing Requirements

The Resulting Issuer must satisfy the Exchange's initial listing requirements for the particular industry sector in either Tier 1 or Tier 2 as prescribed under Policy 2.1 and the related Policies of the Exchange.

Trading Halts, Suspension and Delisting

The Exchange will generally halt trading in the Common Shares from the date of the public announcement of an Agreement in Principle until all filing requirements of the Exchange have been satisfied, which includes the submission of a Sponsorship Acknowledgment Form, where the Qualifying Transaction is subject to sponsorship. In addition, personal information forms for all individuals who may be directors, senior officers, promoters, or insiders of the Resulting Issuer must be filed with the Exchange and any preliminary background searches that the Exchange considers necessary or advisable, must also be completed, before the trading halt will be lifted by the Exchange.

Even if all filing requirements have been satisfied and preliminary background checks completed, the Exchange may continue or reinstate a halt in trading of the Common Shares for public policy reasons including:

- (a) the unacceptable nature of the business of the Resulting Issuer; or
- (b) the number of conditions precedent to, or the nature and number of deficiencies required to be resolved prior to, completion of the Qualifying Transaction, are so significant or numerous as to make it appear to the Exchange that the halt should be reinstated or continued.

The Exchange may also impose a trading halt where the Corporation fails to file the supporting documents relating to the Qualifying Transaction within a period of 75 days after public announcement of the Agreement in Principle or if the CPC fails to file post-meeting or final documents as applicable, within the time required. A trading halt may also be imposed if a Sponsor terminates its sponsorship.

The Exchange may suspend from trading or delist the Common Shares of the Corporation where the Exchange has not issued a Final Exchange Bulletin to the CPC within 24 months of the date of listing. In the event that the Common Shares of the Corporation are delisted by the Exchange, within 90 days from the date of such delisting, the Corporation shall wind up and shall make a pro rata distribution of its remaining assets to its shareholders, unless shareholders, pursuant to a majority vote exclusive of the votes of Non Arm's Length Parties to the Corporation, determine to deal with the issuer or its remaining assets in some other manner. See "Filings and Shareholder Approval of a Non Arm's Length Qualifying Transaction".

Refusal of Qualifying Transaction

The Exchange, in its sole discretion, may not accept a Qualifying Transaction where:

- (a) the Resulting Issuer fails to satisfy the applicable initial listing requirements of the Exchange;
- (b) the aggregate number of securities of the Resulting Issuer owned, directly or indirectly, by
 - (i) a member firm of the Exchange;
 - (ii) registrants, unregistered corporate finance professionals, employee shareholders and partners of such member firm; and
 - (iii) associates of any such Person,collectively, would exceed 20% of the issued and outstanding securities of the Resulting Issuer;
- (c) the Resulting Issuer will be a financial institution, finance company, finance issuer or mutual fund, as defined in the securities legislation;
- (d) the majority of the directors and senior officers of the Resulting Issuer are not residents of Canada or the United States or are individuals who have not demonstrated positive association as directors or officers with public companies that are subject to a regulatory regime comparable to the companies listed on a Canadian exchange; or
- (e) notwithstanding the definition of a Qualifying Transaction, there is any other reason for denying acceptance of the Qualifying Transaction.

USE OF PROCEEDS

Proceeds and Principal Purposes

The proceeds from the sale of Common Shares and the principal uses of such proceeds by the Corporation are as follows:

There is no assurance that any of these options will be exercised.
- (3) Includes listing fees, Agent's commission, Agent's corporate finance fee, legal fees, audit fees and expenses.
- (4) Such expenses cover the maximum 24 month period that the Corporation has to complete a Qualifying Transaction, and includes estimated professional fees, office overhead, filing fees and due diligence expenses.
- (5) In the event that the Corporation enters into an Agreement in Principle prior to spending the entire amount available for identifying and evaluating assets or businesses, the remaining funds may be used to finance or partially finance the acquisition of Significant Assets or for working capital after Completion of the Qualifying Transaction.

Until required for the Corporation's purposes, the proceeds of this Offering will only be invested in securities of, or those guaranteed by, the Government of Canada or any Province or territory of Canada or the Government of the United States of America, in certificates of deposit or interest-bearing accounts of Canadian chartered banks, trust companies or credit unions.

The proceeds from this Offering and any prior sale of Common Shares, after deducting the expenses associated with this Offering, will only be sufficient to identify and evaluate a finite number of assets and businesses, and additional funds may be required to finance any acquisition to which the Corporation may commit.

Permitted Use of Funds

Until the Completion of the Qualifying Transaction and except as otherwise specifically provided by the CPC Policy and described in "Restrictions on Use of Proceeds", "Private Placements for Cash" and "Prohibited Payments to Non Arm's Length Parties", the gross proceeds realized from the sale of all securities issued by the Corporation will be used by the Corporation only to identify and evaluate businesses or assets and obtain shareholder approval for a proposed Qualifying Transaction.

The proceeds may be used for expenses incurred for the preparation of:

- (i) valuations or appraisals;
- (ii) business plans;
- (iii) feasibility studies and technical assessments;
- (iv) sponsorship reports;
- (v) engineering or geological reports;
- (vi) financial statements, including audited financial statements;
- (vii) fees for legal and accounting services; and
- (viii) Agent's fees, costs and commissions.

relating to the identification and evaluation of assets or business and in the case of a Non Arm's Length Qualifying Transaction.

In addition, with the prior acceptance of the Exchange, up to an aggregate of \$225,000 may be advanced as a refundable deposit or secured loan by the Corporation to a Vendor or Target Company, as the case may be, for a proposed arm's length Qualifying Transaction that has been publicly announced at least 15 days prior to the date of such advance, due diligence with respect to the Qualifying Transaction is well underway and either a Sponsor has been engaged or sponsorship has been waived. A maximum aggregate amount of \$25,000 may also be advanced as a non-refundable deposit, unsecured deposit or advance to a Vendor or Target Company, as the case may be, to preserve assets without the prior acceptance of the Exchange.

Restrictions on Use of Proceeds

Until Completion of a Qualifying Transaction, not more than the lesser of 30% of the gross proceeds from the sale of all securities issued by the Corporation or \$210,000, will be used for purposes other than those described above. For greater certainty, expenditures which are not included as "Permitted Use of Funds" include:

- (a) listing and filing fees (including SEDAR fees);
- (b) other costs for the issuance of securities (including legal, accounting and audit expenses) relating to the preparation and filing of this Prospectus; and
- (c) administrative and general expenses of the Corporation, including:
 - (i) office supplies, office rent and related utilities;
 - (ii) printing costs (including the printing of this Prospectus and share certificates);
 - (iii) equipment leases; and
 - (iv) fees for legal advice and audit expenses, other than those described above under "Permitted Use of Funds".

Until Completion of a Qualifying Transaction, no proceeds will be used to acquire or lease a vehicle.

Private Placements for Cash

After the closing of the Offering and until the Completion of the Qualifying Transaction, the Corporation will not issue any securities unless written acceptance of the Exchange is obtained before issuance. Prior to the Completion of the Qualifying Transaction, the Exchange generally will not accept a private placement by the Corporation where the gross proceeds raised from the issuance of securities both prior to and pursuant to the Offering, together with any proceeds anticipated to be raised upon closing of the private placement, will exceed \$5,000,000. The only securities issuable pursuant to such a private placement will be Common Shares. Subject to certain limited exceptions, any Common Shares issued pursuant to the private placement to Non Arm's Length Parties to the Corporation and to Principals of the Resulting Issuer will be subject to escrow.

Prohibited Payments to Non Arm's Length Parties

Except as described in "Options to Purchase Securities" and "Restrictions on Use of Proceeds" the Corporation has not made, and until the Completion of the Qualifying Transaction will not make, any

payment of any kind, directly or indirectly, to a Non Arm's Length Party to the Corporation or a Non Arm's Length Party to the Qualifying Transaction, or to a Person engaged in investor relations activities, by any means, including:

- (a) remuneration, which includes but is not limited to salaries, consulting fees, management contract fees or directors' fees, finders' fees, loans, advances and bonuses, and
- (b) deposits and similar payments.

Further, no such payment will be made on or after the Completion of a Qualifying Transaction if such payment relates to services rendered or obligations incurred prior to or in connection with the Qualifying Transaction.

Notwithstanding the above, the Corporation may reimburse a Non Arm's Length Party to the Corporation for reasonable expenses for office supplies, office rent and related utilities, equipment leases (excluding vehicle leases), and legal services (provided that neither the lawyer providing the legal services nor any member of a law firm of lawyers providing the services is a promoter of the Corporation or in the case of a law firm of lawyers (which does not include a sole practitioner), no member of the firm owns greater than 10% of the outstanding Common Shares of the Corporation), and the Corporation may also reimburse a Non Arm's Length Party to the Corporation for reasonable out-of-pocket expenses incurred in pursuing the business of the Corporation described in "Permitted Use of Funds".

The foregoing restrictions on the use of proceeds and prohibitions on payment to Non Arm's Length Parties and persons engaged in investor relations activities continue to apply until the Completion of the Qualifying Transaction.

The following table sets out, as at the date hereof, the number of Common Shares of the Corporation which are held in escrow.

TOTAL	3,200,000	3,200,000	100.00%	58.71%	59.95%

Notes:

- (1) The percentages in this column are calculated on an undiluted basis (do not include the exercise of any proposed stock options, warrants or other convertible securities) and on the basis that the directors do not purchase any of the Common Shares in the Offering. See "Options to Purchase Securities".
- (2) This is a private company controlled or beneficially owned by Mr. Wayne T. Egan.

Where the Common Shares of the Corporation which are required to be held in escrow are held by a non individual (a "**holding company**"), each holding company pursuant to the Escrow Agreement has agreed, or will agree, not to carry out any transactions during the currency of the Escrow Agreement which would result in a change of control of the holding company, without the consent of the Exchange. Any holding company must sign an undertaking to the Exchange that, to the extent reasonably possible, it will not permit or authorize any issuance of securities or transfer of securities which could reasonably result in a change of control of the holding company. In addition, the Exchange may require an undertaking from any Control Person of the holding company not to transfer the shares of that Company.

Under the Escrow Agreement, 10% of the escrowed Common Shares will be released from escrow on the issuance of the Final Exchange Bulletin (the "**Initial Release**") and an additional 15% will be released 6 months, 12 months, 18 months, 24 months, 30 months and 36 months following the Initial Release.

If, upon completion of a Qualifying Transaction, the Corporation meets the Exchange's Tier 1 initial listing requirements either at the time the Final Exchange Bulletin is issued or subsequently, the release of the escrowed Common Shares will be accelerated. An accelerated escrow release will not commence until the Resulting Issuer has made application to the Exchange for listing as a Tier 1 issuer and the Exchange has issued a bulletin that announces the acceptance for listing of the Resulting Issuer on Tier 1 of the Exchange.

The Exchange's prior consent must be obtained before a transfer within escrow of escrowed Common Shares. Generally, the Exchange will only permit a transfer within escrow to be made to incoming Principals in connection with a proposed Qualifying Transaction.

If a Final Exchange Bulletin is not issued, the escrowed Common Shares will not be released. Under the Escrow Agreement each Non Arm's Length Party to the Corporation who holds escrowed Common Shares acquired at a price below the Offering price under this Prospectus has irrevocably authorized and directed the Escrow Agent to immediately:

- (a) cancel all of those escrowed Common Shares upon the issuance by the Exchange of a bulletin delisting the Common Shares of the Corporation; or
- (b) if the Corporation is listed on NEX, either:
 - (i) cancel all Seed Shares (as defined in the policies of the Exchange) purchased by Non Arm's Length Parties to the CPC at a discount from the IPO price, in accordance with section 11.2(a) of the CPC Policy, or

- (ii) subject to majority shareholder approval, cancel an amount of Seed Shares purchased by Non Arm's Length Parties to the CPC so that the average cost of the remaining Seed Shares (as defined in the policies of the Exchange) is at least equal to the IPO price.

Escrowed Securities On Qualifying Transaction

Generally, if at least 75% of the securities issued pursuant to the Qualifying Transaction are "Value Securities", then all of the securities issued to Principals of the Resulting Issuer pursuant to the Qualifying Transaction will be deposited into escrow pursuant to a value security agreement (the "**Value Security Escrow Agreement**"). "Value Securities" are securities issued pursuant to a transaction, for which the deemed value of the securities at least equals the value ascribed to the asset, using a valuation method acceptable to the Exchange, or securities that are otherwise determined by the Exchange to be Value Securities and required to be placed in escrow under a Value Security Escrow Agreement. However, if at least 75% of the securities issued pursuant to the Qualifying Transaction are not Value Securities, all securities issued pursuant to the Qualifying Transaction will be deposited into a surplus security escrow agreement (a "**Surplus Security Escrow Agreement**").

The principal distinction between a Value Security Escrow Agreement and a Surplus Security Escrow Agreement is the time period for release of securities from escrow. In the case of a Resulting Issuer that will be a Tier 2 issuer when the Final Exchange Bulletin is issued, the Value Security Escrow Agreement provides for a three year escrow release mechanism with 10% of the escrowed securities being releasable at the time of the Final Exchange Bulletin, and 15% of the escrowed securities being releasable every 6 months thereafter, on each of the 6, 12, 18, 24, 30 and 36 month anniversaries of the Final Exchange Bulletin. In the case of a Resulting Issuer that will be a Tier 2 issuer subject to a Surplus Security Escrow Agreement, when the Final Exchange Bulletin is issued, the Surplus Security Escrow Agreement provides for a three year escrow release mechanism with 5% of the escrowed securities releasable at the time of the Final Exchange bulletin, 5% on the date which is 6 months after the Final Exchange Bulletin, 10% on each of the dates which are 12 and 18 months after the Final Exchange Bulletin, 15% on each of the dates which are 24 and 30 months after the Final Exchange Bulletin and 40% on the date which is 36 months after the Final Exchange Bulletin.

In the case of a Resulting Issuer that will be a Tier 1 issuer when the Final Exchange Bulletin is issued, the Value Security Escrow Agreement provides for an 18 month escrow release mechanism with 25% of the escrowed securities being releasable at the time of the Final Exchange Bulletin, with 25% of the escrowed securities being releasable every 6 months thereafter. In the case of a Resulting Issuer that will be a Tier 1 issuer when the Final Exchange Bulletin is issued, the Surplus Security Escrow Agreement provides for an 18 month escrow release mechanism with 10% of the escrowed securities being releasable upon the issuance of the Final Exchange Bulletin, 20% on the date which is 6 months after the Final Exchange Bulletin, 30% on the date which is 12 months after the Final Exchange Bulletin and 40% on the date which is 18 months after the Final Exchange Bulletin.

Securities issued pursuant to a private placement to Principals of the Corporation and the proposed Resulting Issuer will generally be exempt from escrow requirements where:

- (a) the private placement is announced at least five trading days after the news release announcing the Agreement in Principle and the pricing for the financing is at not less than the discounted market price, as determined in accordance with the Policies of the Exchange; or
- (b) the private placement is announced concurrently with the Agreement in Principle and
 - (i) at least 75% of the proceeds from the private placement are not from Principals of the Corporation or the proposed Resulting Issuer,

- (ii) if subscribers, other than Principals of the Corporation or the proposed Resulting Issuer, will obtain securities subject to hold periods, then in addition to any resale restrictions under applicable securities legislation, any securities issued to such Principals will be subject to a four month hold period, and
- (iii) none of the proceeds of the private placement are allocated to pay compensation or to settle indebtedness owing to Principals of the Resulting Issuer.

Corporate Cease Trade Orders or Bankruptcies

To the Corporation's knowledge, except as disclosed below, no director, officer, insider or promoter of the Corporation or a shareholder holding a sufficient number of securities of the Corporation to affect materially the control of the Corporation is, or within 10 years before the date of the Prospectus, has been a director, officer, insider or promoter of any other issuer that, while that person was acting in that capacity:

- (a) was the subject of a cease trade or similar order, or an order that denied the other issuer access to any exemptions under applicable securities legislation for a period of more than 30 consecutive days, or
- (b) became bankrupt, made a proposal under any legislation relating to bankruptcy or insolvency or was subject to or instituted any proceedings, arrangement or compromise with creditors or had a receiver, receiver manager or trustee appointed to hold its assets.

On January 9, 2017, the Ontario Securities Commission as Principal Regulator issued a Failure-to-File Cease Trade Order ("FFCTO") against Grown Rogue International Inc. (formerly Novicius Corp). Subsequently, Grown Rogue filed the required continuous disclosure documents and on March 20, 2017, the Principal Regulator revoked the FFCTO. Mr. Cassina was an officer and director of Grown Rogue during such time period.

Penalties or Sanctions

Except as disclosed below, to the Corporation's knowledge, no director, officer, insider, or promoter or a shareholder holding sufficient securities of the Corporation to affect materially the control of the Corporation, or a personal holding company of any such person has been subject to any penalties or sanctions imposed by a court relating to securities legislation, or by any securities regulatory authority or has entered into a settlement agreement with a securities regulatory authority; or been subject to any other penalties or sanctions imposed by a court or regulatory body or self-regulatory authority that would be likely to be considered important to a reasonable investor making an investment decision.

OSC Settlement with James Longshore

On August 23, 2002, Mr. Longshore (nee or also known as James Frederick Pincock) entered into a settlement agreement with the Ontario Securities Commission (the "Settlement Agreement") for trading in securities without having filed a preliminary prospectus and a prospectus and without registration, thereby engaging in conduct contrary to the public interest. Under the terms and conditions of the

Settlement Agreement, an order was made on August 27, 2002 stating: 1. Pincock shall cease trading in securities for a period of five years from the effective date of the Order, with the exception that after three years from the date of the Order, Pincock is permitted to trade in securities beneficially owned by him in his personal accounts in his name; 2. Pincock shall resign his position as an officer or director of any issuer in Ontario in which he holds the position of officer or director, and his position as an officer or director of any issuer in Ontario, which has an interest directly or indirectly in any registrant, in which he holds a position of officer or director, effective the date of the Order; 3. Pincock is prohibited from becoming or acting as an officer or director of any issuer in Ontario or an officer or director of any issuer which has an interest directly or indirectly in any registrant, for a period of five years effective the date of the Order; 4. Pincock is reprimanded; and 5. Pincock will make payment to the Ontario Securities Commission (the "OSC") in the amount of \$20,000 in respect of a portion of the costs incurred by the OSC and Staff relating to the proceeding. Mr. Longshore has complied with all of the foregoing matters set forth in the Order.

In considering Mr. Longshore as a director of the Corporation, each other member of the Board reviewed the Settlement Agreement documentation and had the opportunity to discuss this matter with Mr. Longshore and understood the gravity of the matters giving rise to the Settlement Agreement. Each Board member gave significant consideration to Mr. Longshore's business conduct during the term of the Settlement Agreement and following the expiration of the Order in August 2007. In particular, they reviewed his approval by TSX as a director of Xtra-Gold Resources Corp. ("Xtra-Gold") in 2015 and his conduct as CEO and General Manager of Xtra-Gold. The Board was satisfied that Mr. Longshore had learned from the matters giving rise to the Settlement Agreement and believes that he continues to give his best efforts and is dedicated to conducting himself in a professional and compliant manner so as to serve the best interests of the Corporation's shareholders and the investing public.

Personal Bankruptcies

To the Corporation's knowledge no director, officer insider, or promoter or a shareholder holding sufficient securities of the Corporation to affect materially the control of the Corporation, or a personal holding company of any such person has, within the ten years prior to the date of the Prospectus, as applicable become bankrupt, made a proposal under any legislation relating to bankruptcy or insolvency or has been subject to or instituted any proceedings, arrangement, or compromise with creditors, or had a receiver, receiver manager or trustee appointed to hold their assets.

Conflicts of Interest

There are potential conflicts of interest to which all of the directors, officers, insiders and promoters of the Corporation will be subject in connection with the operations of the Corporation. All of the directors, officers, insiders and promoters are engaged in and will continue to be engaged in corporations or businesses which may be in competition with the search by the Corporation for businesses or assets in order to close a Qualifying Transaction. Accordingly, situations may arise where all of the directors, officers, insiders and promoters will be in direct competition with the Corporation. Conflicts, if any, will be subject to the procedures and remedies as provided under the *Canada Business Corporations Act*.

Promoter

James C. Cassina may be considered to be the Promoter of the Corporation in that he took the initiative in organizing the Corporation. As of the date hereof, Mr. Cassina owns 2,250,000 Common Shares and will be granted 250,000 Incentive Stock Options upon the Closing of the Offering. See "Principal Shareholders", "Prior Sales" and "Options to Purchase Securities".

EXECUTIVE COMPENSATION

Except as disclosed in this Prospectus, prior to Completion of a Qualifying Transaction, no payment of any kind has been made, or will be made, directly to any Party to the Qualifying Transaction, or to any Person engaged in investor relations activities in respect of the securities of the Corporation or any Resulting Issuer by any means, including:

- (a) remuneration, which includes but is not limited to:
 - (i) salaries;
 - (ii) consulting fees;
 - (iii) management contract fees or directors' fees;
 - (iv) finders fees;
 - (v) loans, advances, bonuses; and
- (b) deposits and similar payments.

The Corporation may reimburse Non Arm's Length Parties for the Corporation's reasonable allocation of rent, secretarial services and other general administrative expenses, at fair market value ("**Permitted Reimbursement**"), which reimbursements, since incorporation, have totaled the aggregate sum of \$Nil. No reimbursement may be made for any payment made to lease or buy a vehicle.

The directors and officers of the Corporation will also be granted stock options as more particularly described under the heading "Options to Purchase Securities".

Following Completion of the Qualifying Transaction, it is anticipated that the Corporation shall pay compensation to its directors and officers. However, no payment other than the Permitted Reimbursements, will be made by the Corporation or by any party on behalf of the Corporation, after Completion of the Qualifying Transaction, if the payment relates to services rendered or obligations incurred or in connection with the Qualifying Transaction.

DILUTION

Purchasers of Common Shares under this Prospectus will suffer an immediate dilution of \$0.048, or 48%, per Common Share on the basis of there being 5,450,000 Common Shares issued and outstanding following completion of this Offering. Dilution has been computed on the basis of total gross proceeds to be raised by this Prospectus and from sales of securities prior to filing this Prospectus, without deduction of commissions or related expenses incurred by the Corporation.

RISK FACTORS

A purchase of Common Shares of the Corporation is highly speculative, involving a number of substantial risks. The list below outlines material risk factors, which list is not exhaustive, that should be considered by persons considering purchasing the Common Shares:

- (a) the Corporation was only recently incorporated, has not commenced commercial operations and has no assets other than cash. It has no history of earnings, and shall not generate earnings or pay dividends until at least after Completion of the Qualifying Transaction. See "Corporate Structure", "Business of the Corporation" and "Proposed Operations until Completion of a Qualifying Transaction";
- (b) investment in the Common Shares offered by the Prospectus is highly speculative given the proposed nature of the Corporation's business and its present stage of development;

- (c) the directors and officers of the Corporation will only devote a portion of their time to the business and affairs of the Corporation and some of them are or will be engaged in other projects or businesses such that conflicts of interest may arise from time to time. See "Directors, Officers and Promoters" and "Conflicts of Interest";
- (d) assuming completion of the Offering, an investor will suffer an immediate dilution to the investor's investment of \$0.048 or 48% per Common Share;
- (e) there can be no assurance that an active and liquid market for the Corporation's Common Shares will develop and an investor may find it difficult to resell its Common Shares;
- (f) until Completion of a Qualifying Transaction, the Corporation is not permitted to carry on any business other than the identification and evaluation of potential Qualifying Transactions. See "Proposed Operations until Completion of a Qualifying Transaction";
- (g) the Corporation has only limited funds with which to identify and evaluate potential Qualifying Transactions and there can be no assurance that the Corporation will be able to identify a suitable Qualifying Transaction;
- (h) even if a proposed Qualifying Transaction is identified, there can be no assurance that the Corporation will be able to successfully complete the transaction;
- (i) Completion of a Qualifying Transaction is subject to a number of conditions including acceptance by the Exchange and in the case of a Non Arm's Length Qualifying Transaction, Majority of the Minority Approval. See "Filings and Shareholder Approval of a Non Arm's Length Qualifying Transaction";
- (j) unless the shareholder has the right to dissent and be paid fair value in accordance with applicable corporate or other law, a shareholder who votes against a proposed Non Arm's Length Qualifying Transaction for which Majority of the Minority Approval by shareholders has been given, will have no rights of dissent and no entitlement to payment by the Corporation of fair value for the Common Shares;
- (k) upon public announcement of a proposed Qualifying Transaction, trading in the Common Shares of the Corporation will be halted and will remain halted for an indefinite period of time, typically until a Sponsor has been retained and certain preliminary reviews have been conducted. The Common Shares of the Corporation will be reinstated to trading before the Exchange has reviewed the transaction and before the Sponsor has completed its full review. Reinstatement to trading provides no assurance with respect to the merits of the transaction or the likelihood of the Corporation completing the proposed Qualifying Transaction. See "Business of the Corporation" and "Trading Halts, Suspension and Delisting";
- (l) trading in the Common Shares of the Corporation may be halted at other times for other reasons, including for failure by the Corporation to submit documents to the Exchange in the time periods required. See "Trading Halts, Suspension and Delisting";
- (m) the Exchange will generally suspend trading in the Corporation's Common Shares or delist the Corporation in the event that the Exchange has not issued a Final Exchange Bulletin within 24 months from the date of listing. See "Trading Halts, Suspension and Delisting";
- (n) neither the Exchange nor any securities regulatory authority passes upon the merits of the proposed Qualifying Transaction;

- (o) in the event that management of the Corporation resides outside of Canada or the Corporation identifies a foreign business as a proposed Qualifying Transaction, investors may find it difficult or impossible to effect service or notice to commence legal proceedings upon any directors, officers and experts resident outside of Canada or upon the foreign business and may find it difficult or impossible to enforce against such Persons or companies, judgments obtained in Canadian courts;
- (p) the Qualifying Transaction may be financed in all or part by the issuance of additional securities by the Corporation and this may result in further dilution to the investor, which dilution may be significant and which may also result in a change of control of the Corporation. See "Method of Financing"; and
- (q) subject to prior Exchange acceptance, the Corporation may be permitted to loan or advance up to an aggregate of \$250,000 of its proceeds to a target business without requiring shareholder approval and there can be no assurance that the Corporation will be able to recover that loan. See "Permitted Use of Funds".

As a result of these factors, this Offering is only suitable to investors who are willing to rely solely on management of the Corporation and who can afford to lose their entire investment. Those investors who are not prepared to do so should not invest in the Common Shares.

LEGAL PROCEEDINGS

The Corporation is not currently a party to any actual or pending material legal proceedings to which the Corporation is or is likely to be a party or of which any of its assets are or are likely to be subject.

Management of the Corporation is not currently aware of any legal proceedings contemplated against the Corporation.

RELATIONSHIP BETWEEN CORPORATION AND AGENT

Neither the Corporation nor any of its directors or officers is a "connected issuer" or a "related issuer" as those terms are defined in National Instrument 33-105, of the Agent. No member of the Pro Group related to the Agent will hold any Common Shares upon completion of the Offering.

ELIGIBILITY FOR INVESTMENT

In the opinion of Sui & Company, Solicitors, if, as and when the Common Shares are listed on a "designated stock exchange" (as defined in the Income Tax Act (Canada) (the "**Tax Act**") and the regulations thereunder), the Common Shares will be qualified investments under the Tax Act for a trust governed by a registered retirement savings plan ("**RRSP**"), registered retirement income fund ("**RRIF**"), registered education savings plan, deferred profit sharing plan, registered disability savings plan or a tax-free savings account ("**TFSA**"). Tier 1 and Tier 2 of the Exchange are currently designated stock exchanges for these purposes. Notwithstanding the foregoing, the annuitant or holder of an RRSP, RRIF or TFSA, as the case may be, will be subject to a penalty tax on such Common Shares held in the RRSP, RRIF or TFSA if such Common Shares are a "prohibited investment" for purposes of section 207.01 of the Tax Act. The Common Shares will generally be a "prohibited investment" if the annuitant of the RRSP or RRIF or the holder of the TFSA either a) does not deal at arm's length with the Corporation for purposes of the Tax Act or b) has a "significant interest" (within the meaning of that term in the Tax Act) in the Corporation.

Prospective subscribers that intend to hold Common Shares in an RRSP, RRIF or TFSA are urged to consult their own tax advisors as to whether such shares would constitute a "prohibited investment" in their particular circumstances.

OTHER MATERIAL FACTS

There are no other material facts relating to the securities to be offered and not disclosed elsewhere in this Prospectus.

PURCHASERS' STATUTORY RIGHTS OF WITHDRAWAL AND RESCISSION

The purchaser should refer to any applicable provisions of the securities legislation of the purchaser's Province for the particulars of these rights or consult with a legal adviser.

Independent Auditor's Report

To the Directors of Good2Go2 Corp.:

Opinion

We have audited the financial statements of Good2Go2 Corp. (the "Company"), which comprise the statement of financial position as at August 31, 2019 and the statements of loss and comprehensive loss, changes in shareholders' equity and cash flows for the period from March 21, 2019 (date of incorporation) to August 31, 2019, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Company as at August 31, 2019, and its financial performance and its cash flows for the period from March 21, 2019 to August 31, 2019, in accordance with International Financial Reporting Standards.

Basis for Opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the ethical requirements that are relevant to our audit of the financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with International Financial Reporting Standards, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with Canadian generally accepted auditing standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Canadian generally accepted auditing standards, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Notes to the Financial Statements

August 31, 2019

1. Incorporation and Nature of Operations

Good2Go2 Corp. was incorporated under the *Canada Business Corporations Act* on March 21, 2019 and registered in the Province of Ontario on March 21, 2019 ("Good2Go2" or the "Company"). The Company is in the process for applying for status as a Capital Pool corporation, as defined in the Policy 2.4 of the TSX Venture Exchange (the "Exchange"). The principal business of the Company will be the identification and evaluation of assets or businesses with a view to completing a Qualifying Transaction ("QT"). The Company has not commenced operations and has no assets other than cash held in trust. The Company's continuing operations as intended are dependent upon its ability to identify, evaluate and negotiate an acquisition, or business, or an interest therein. Such an acquisition will be subject to the approval of the regulatory authorities concerned and, in the case of a non-arm's length transaction, of the majority of the minority shareholders.

The proceeds raised from the issuance of share capital may only be used to identify and evaluate assets or businesses for future investment, with the exception that up to the lesser of 30% of the gross proceeds realized by the Company, in respect of the sale of its securities, or \$210,000, may be used for purposes other than evaluating businesses or assets. These restrictions apply until completion of a QT by the Company, as defined under the policies of the Exchange. The Company is required to complete its QT on or before two years from the date the Company receives regulatory approval.

The Company's head office and registered office is located at 1 King Street West, Suite 1505, Toronto, Ontario, M5H 1A1.

2. Basis of Preparation

Statement of Compliance

These Financial Statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") and interpretations issued by the International Financial Reporting Interpretation Committee ("IFRIC"). The policies applied in these Financial Statements are based on IFRS issued and outstanding as of January 1, 2019.

On November 13, 2019, the Board of Directors of the Company approved the Financial Statements for the period from incorporation (March 21, 2019) to August 31, 2019.

Basis of Measurement

The Financial Statements have been prepared on a historical cost basis except for certain financial instruments measured at fair value.

Functional and Presentation Currency

The functional and presentation currency of the Company is Canadian dollars.

3. Summary of Significant Accounting Policies

Financial Instruments

Recognition

The Company recognizes financial assets and financial liabilities on the date the Company becomes a party to the contractual provisions of the instruments.

3. Summary of Significant Accounting Policies (cont'd)**Classification**

The Company classifies its financial assets and financial liabilities in the following measurement categories: i) those to be measured subsequently at fair value (either through other comprehensive income or through profit or loss, and ii) those to be measured at amortized cost. The classification of financial assets depends on the business model for managing the financial assets and the contractual terms of the cash flows.

Financial liabilities are classified as those to be measured at amortized cost unless they are designated as those to be measured subsequently at fair value through profit or loss (irrevocable election at the time of recognition). For assets and liabilities measured at fair value, gains and losses are either recorded in profit or loss or other comprehensive income.

The Company reclassifies financial assets when and only when its business model for managing those assets changes. Financial liabilities are not reclassified.

The Company has implemented the following classifications:

The Company has classified its financial instruments as follows:

Financial Instrument	Classification
Cash held in trust	Loans and receivables
Accrued liabilities	Other liabilities

Measurement

All financial instruments are required to be measured at fair value on initial recognition, plus, in case of a financial asset or financial liability not at fair value through profit or loss, transaction costs that are directly attributable to the acquisition or issue of the financial asset or financial liability. Transaction costs of financial assets and financial liabilities carried at FVTPL are expensed in profit or loss.

Financial assets that are held within a business model whose objective is to collect the contractual cash flows, and that have contractual cash flows that are solely payments or principal and interest on the principal outstanding are generally measured at amortized cost at the end of the subsequent accounting periods. All other financial assets including equity investments are measured at their fair values at the end of subsequent accounting periods, with any changes taken through profit and loss or other comprehensive income (irrevocable election at the time of recognition).

Additional fair value measurement disclosure includes classification of financial instrument fair values in a fair value hierarchy comprising three levels reflecting the significance of the inputs used in making the measurements which are as follows:

Level 1: Valuations based on quoted prices (unadjusted) in active markets for identical assets or liabilities;

Level 2: Valuations based on directly or indirectly observable inputs in active markets for similar assets or liabilities, other than Level 1 prices, such as quoted interest or currency exchange rates; and

Level 3: Valuations based on significant inputs that are not derived from observable market data, such as discounted cash flow methodologies based on internal cash flow forecasts.

Offering Costs

Offering costs relate to expenditures incurred in connection with the Company's share offerings and are charged against share capital.

3. Summary of Significant Accounting Policies (cont'd)**Loss Per Share**

Basic loss per common share is determined by dividing loss attributable to common shareholders by the weighted average number of common shares outstanding during the period, excluding shares in escrow.

Diluted loss per common share is calculated in accordance with the treasury stock method and is based on the weighted average number of common shares and dilutive common share equivalents outstanding. 3,000,000 common shares were excluded from the calculation as they were contingently issuable and all conditions necessary for their issuance have not been satisfied (Note 4).

Income Taxes

Current income tax assets and liabilities for the current periods are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted by the end of the reporting period. Current tax assets and current tax liabilities are only offset if a legally enforceable right exists to set off the amounts, and the intention is to settle on a net basis, or to realize the asset and settle the liability simultaneously. Current income tax relating to items recognized directly in equity is recognized in equity and not in the statement of comprehensive loss.

Deferred income tax is provided using the balance sheet method on temporary differences at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes. Deferred income tax liabilities are recognized for all taxable temporary differences and deferred income tax assets are recognized for all deductible temporary differences, carry forward of unused tax credits and unused tax losses. The Company creates a valuation allowance to the extent that it considers deductible temporary differences, the carry forward of unused tax credits and unused tax losses cannot be utilized.

Measurement Uncertainty

The preparation of financial statements, in conformity with IFRS accounting principles, requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and the reported amounts of revenues and expenses during the period. Actual results could differ from those estimates used in the financial statements.

The 3,000,000 common shares issued at \$0.05 per share, will be held in escrow pursuant to the requirements of the Exchange. All common shares granted to directors and officers prior to the completion of a Qualifying Transaction, must also be deposited in escrow until the final exchange bulletin is issued.

4. Share Capital (cont'd)**Escrowed Shares (cont'd)**

All common shares of the Company acquired in the secondary market prior to the completion of a Qualifying Transaction by a Control Person, as defined in the policies of the Exchange, are required to be deposited in escrow. Subject to certain permitted exemptions, all securities of the Company held by principals of the resulting issuer will also be subject to escrow.

Options

Options expire within 12 months after completion of a qualifying transaction or within 90 days of termination of employment or holding office as director or officer of the Company and, in the case of death, expire within a maximum period of one year after such death, subject to the expiry date of the option.

Any shares issued upon exercise of the options prior to the Company entering into a Qualifying Transaction will be subject to escrow restrictions.

The stock option plan is subject to regulatory approval.

No options have been granted or are outstanding as at August 31, 2019.

5. Financial Risk Management Objectives and Policies**Capital Management**

The Company's objective when managing capital is to maintain its ability to continue as a going concern, in order to provide returns for the shareholders and benefits for other stakeholders. The Company includes equity, comprised of share capital and deficit, in the definition of capital.

The Company's primary objective, with respect to its capital management, is to ensure that it has sufficient cash resources to fund the identification and evaluation of potential acquisitions. To secure the additional capital necessary to pursue these plans, the Company may attempt to raise additional funds through the issuance of equity or by securing strategic partners.

The proceeds raised from the issuance of common shares may only be used to identify and evaluate assets or businesses for future investment, with the exception that not more than the lesser of 30% of the gross proceeds from the issuance of shares or \$210,000 may be used to cover prescribed costs of issuing the common shares or administrative and general expenses of the Company. These restrictions apply until completion of a Qualifying Transaction by the Company as defined under the Exchange policy 2.4.

Risk Disclosures and Fair Values

The Company's financial instruments, consisting of cash held in trust and accrued liabilities, approximate fair value due to the relatively short-term maturities of the instruments. It is management's opinion that the Company is not exposed to significant interest, currency or credit risks arising from these financial instruments.

6. Subsequent Events
