USHA RESOURCES LTD.

NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS

FOR THE SIX MONTHS ENDED SEPTEMBER 30 2025

(Expressed in Canadian Dollars)

(Unaudited)

1. NATURE AND CONTINUANCE OF OPERATIONS

Usha Resources Ltd. (the "Company" or "USHA") was incorporated under the Business Corporations Act (British Columbia) on February 26, 2018. The Company is listed for trading on the TSX Venture Exchange ("TSX-V") under the symbol USHA.V, the OTCQB Exchange under the symbol USHAF and the Frankfurt Stock Exchange under the symbol JO0. The Company's head office address is 1575 Kamloops Street, Vancouver BC, V5K 3W1, Canada. The registered and records office address is Bentall 5, 1008 – 550 Burrard Street, Vancouver, BC, V6C 2B5, Canada. The Company's business is to acquire and explore interests in mineral properties located in North America. Its portfolio includes Jackpot Lake, a lithium brine project in Nevada; White Willow, a lithium pegmatite project in Ontario; and Southern Arm, a copper-gold project in Quebec.

The Company's exploration and evaluation properties are at the exploration stage. The business of exploring for minerals and mining involves a high degree of risk. Few properties that are explored are ultimately developed into producing mines. Major expenses may be required to establish ore reserves, to develop metallurgical processes, to acquire construction and operating permits and to construct mining and processing facilities.

Although the Company has taken steps to verify title to the properties on which it is conducting exploration and in which it has an interest, in accordance with industry standards for the current stage of operations of such properties, these procedures do not guarantee the Company's title. Property title may be subject to government licensing requirements or regulations, unregistered prior agreements, unregistered claims, aboriginal claims, and non-compliance with regulatory and environmental requirements. The Company's assets may also be subject to increases in taxes and royalties, renegotiation of contracts, political uncertainty and currency exchange fluctuations and restrictions.

These unaudited interim consolidated financial statements are presented in Canadian dollars, which is the functional currency of the Company and its subsidiaries.

These unaudited interim consolidated financial statements have been prepared in accordance with IFRS Accounting Standards with the assumption that the Company will be able to realize its assets and discharge its liabilities in the normal course of business rather than through a process of forced liquidation. Different basis of measurement may be appropriate if the Company is not expected to continue operations for the foreseeable future. As at September 30 2025, the Company had not advanced its properties to commercial production and is not able to finance day to day activities through operations. The Company's ability to continue as a going concern is dependent upon successful results from its exploration activities and its ability to raise equity capital or borrowings sufficient to meet current and future obligations. There are many external factors that can adversely affect general workforces, economies and financial markets globally. Examples include but are not limited to the COVID-19 global pandemic from March 2020 and political conflicts in other regions. While the Company has been successful in obtaining its required financing in the past, there is no assurance that such financing will be available or be available on favourable terms. An inability to raise additional financing may impact the future assessment of the Company as a going concern. The consolidated financial statements do not include adjustments to amounts and classifications of assets and liabilities that might be necessary should the Company be unable to continue operations. These material uncertainties may cast significant doubt upon the Company's ability to continue as a going concern.

2. BASIS OF PREPARATION

These unaudited interim consolidated financial statements have been prepared using accounting policies consistent with IFRS issued by the International Accounting Standards Board ("IASB") and Interpretations of the International Financial Reporting Interpretations Committee ("IFRIC") and follow the same accounting policies and methods of application as the Company's March 31, 2025 annual audited financial statements, unless otherwise noted. These interim consolidated financial statements do not include all the information required for full annual financial statements and accordingly, they should be read in conjunction with the Company's most recent annual statements.

These interim consolidated financial statements have been prepared on a historical cost basis, except for financial instruments classified as financial instruments at fair value through profit and loss, which are stated at their fair value. In addition, these financial statements have been prepared using the accrual basis of accounting, except for cash flow information.

USHA RESOURCES LTD.
NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS
FOR THE SIX MONTHS ENDED SEPTEMBER 30 2025
(Expressed in Canadian Dollars)
(Unaudited)

Basis of consolidation

These interim consolidated financial statements include the financial statements of the Company and its wholly owned subsidiaries, Usha Resources (USA) Corp. which was incorporated on June 1, 2020 and 1540359 B.C. Ltd., which was incorporated on May 20, 2025. Control exists when the Company has the power, directly or indirectly, to govern the financial and operating policies of an entity so as to obtain benefits from its activities. The financial statements of subsidiaries are included in the consolidated financial statements from the date that control commences until the date that control ceases. All material intercompany transactions and balances have been eliminated.

3. CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS

The preparation of interim consolidated financial statements requires management to make judgments, estimates and assumptions that affect the reported amounts of assets, liabilities and contingent liabilities at the date of the financial statements and the reported amounts of expenses during the reporting period. Estimates and assumptions are continuously evaluated and are based on management’s experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. Uncertainty about these judgments, estimates and assumptions could result in outcomes that could require a material adjustment to the carrying amount of the asset or liability affected in future periods.

The information about significant areas of judgment considered by management in preparing the financial statements is as follows:

- i) The carrying value and the recoverability of exploration and evaluation assets included in the statements of financial position. The cost model is utilized and the value of the exploration and evaluation assets is based on the expenditures incurred. At every reporting period, management assesses the potential impairment which involves assessing whether or not facts or circumstances exist that suggest the carrying amount exceeds the recoverable amount.
- ii) The inputs used in calculating the fair value for share-based payments expense included in profit or loss and share-based share issuance costs included in shareholders’ equity. The share-based payments expense is estimated using the Black-Scholes options-pricing model as measured on the grant date to estimate the fair value of stock options. This model involves the input of highly subjective assumptions, including the expected price volatility of the Company’s common shares, the expected life of the options, and the estimated forfeiture rate.
- iii) The valuation of shares issued in non-cash transactions. Generally, the valuation of non-cash transactions is based on the value of the goods or services received. When this cannot be determined, it is based on the fair value of the non-cash consideration. When non-cash transactions are entered into with employees and those providing similar services, the non-cash transactions are measured at the fair value of the consideration given up using market prices.
- iv) Deferred tax assets are recognized in respect of tax losses and other temporary differences to the extent it is probable that taxable income will be available against which the losses can be utilized. Judgment is required to determine the amount of deferred tax assets that can be recognized based upon the likely timing and level of future taxable income together with future tax planning strategies.

Segment information

The Company has one reportable operating segment, being the acquisition and exploration of mineral properties. The Company’s non-current assets on a geographic basis are as follows:

Title to exploration and evaluation assets

Title to exploration and evaluation assets involves certain inherent risks due to the difficulties of determining the validity of certain claims as well as the potential for problems arising from the frequently ambiguous conveyancing history characteristic of many mineral properties. The Company has investigated title to all of its mineral properties and, to the best of its knowledge, title to all of its properties is in good standing.

Jackpot Lake, Nevada, USA

The Company acquired the Jackpot Lake Lithium Brine Property (“Jackpot Lake”) located within Clark County, 35 kilometres northeast of Las Vegas, Nevada, and is comprised of 140 mineral claims (the “core claims”) that total 2,800 acres (approximately 11.3 km²).

The Company has exercised its option to acquire a 100% interest in the core claims and is now the legal and beneficial owner of the core claims subject to a 1% Gross Overriding Royalty, which can be repurchased by the Company for \$1,000,000. The Company made the following payments to Ares Strategic Mining Inc. to earn 100%:

- On May 2, 2022, the Company completed its first payment of \$75,000 cash and issued 1,678,062 common shares valued at \$570,541.
- On September 14, 2022, the Company completed its second payment and issued 745,033 common shares valued at \$225,000.

USHA RESOURCES LTD.**NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS**

FOR THE SIX MONTHS ENDED SEPTEMBER 30 2025

(Expressed in Canadian Dollars)

(Unaudited)

- On March 9, 2023, the Company completed its final payment and issued 654,070 common shares valued at \$215,843.

On March 15, 2024, the Company entered into a letter of intent (LOI) with Stardust Power Inc. (“Stardust Power”) granting Stardust Power the right to earn up to a 90-per-cent interest, subject to a 2-per-cent net smelter royalty (NSR), in Jackpot Lake.

A non-refundable sum of \$75,000 (U.S.) has been paid to Usha by Stardust Power pursuant to the LOI. The LOI is non-binding. The transaction is subject to the satisfaction of a number of conditions, including Stardust Power's satisfactory commercial and legal due diligence, the negotiation and execution of definitive agreements, and the approval of the TSX-V. The Company cautions that there is no guarantee that the definitive agreement will be completed or that the other conditions will be satisfied. The Company paid a finder fee of \$7,500 (U.S.) in relation to the LOI.

The LOI has now expired, and the Company is uncertain if Stardust intends to proceed with the transaction.

White Willow Property, Ontario, Canada

The Company's White Willow Lithium Pegmatite Property is located within the Thunder Bay Mining Division near Atikokan, Ontario.

The White Willow option agreement comprised 712 unpatented mining claims totalling 15,510 hectares that were optioned through two (2) agreements, an option agreement and assignment agreement, whereby for total consideration of \$220,000 cash and 3,600,000 common shares of the Company as indicated in the table below it would acquire 100% interest in the claims:

The Company completed its initial payment for each of Lee Lake, Mead, Bluett, Gathering Lake and Triangle Lake projects after receiving approval from the TSX Venture Exchange on June 6, 2023 by paying \$45,350 cash and issuing 275,000 common shares valued at \$0.27 each for a total consideration of \$74,250.

During the six months ended September 30 2025, the Company entered into an amendment agreement to the Triangle and Gathering Lake option agreements with the vendor. Pursuant to the amendment, the parties agreed to amend the payment terms of the option agreements whereby the Company will pay the vendor \$5,000 cash and 5% of the consideration paid to the Company if the Company sells the Triangle Lake Property and Gathering Lake Property within one year from the date of execution of the Amendment. These amended payment terms replace all payment obligations of the Company under the option agreement that have not been paid to the Vendor. This payment of \$5,000 was completed by the Company in May 2025.

During the six months ended September 30 2025, the Company entered into a mineral option agreement with Molten Metals Corp. ("MMC") whereby MMC can earn up to 100% interest in the Triangle Lake and Gathering Lake Property. The consideration due is a total of \$5,000 cash and the issuance of 1,375,000 shares of MMC, to be issued as to (i) 1,306,250 to the Company and (ii) 68,750 to the original property owner, to earn 100%. In May 2025, the Company received total consideration from MMC consisting of \$5,000 in cash and 1,306,250 common shares, and the vendor received their consideration directly from MMC. The option payment and share consideration received by the Company from MMC were credited to the capitalized cost of the mineral property and the excess is recognized as income during the six months ended September 30 2025.

7. RELATED PARTY TRANSACTIONS

Parties are considered to be related if one party has the ability, directly or indirectly, to control the other party or exercise significant influence over the other party in making financial and operating decisions. Related parties may be individuals or corporate entities. A transaction is considered to be a related party transaction when there is a transfer of resources or obligations between related parties. Related party transactions are in the normal course of operations and are measured at the exchange amount, which is the amount of consideration established and agreed to by the related parties.

The aggregate amount of expenses paid or payable to key management personnel consisting of directors, former directors or companies with common directors was as follows:

Name of the Key management personnel	Company's Name	Nature of Transaction	Six months ended September 30, 2025	Six months ended September 30, 2024

8. FINANCIAL INSTRUMENTS**Fair value**

Financial instruments measured at fair value are classified into one of three levels in the fair value hierarchy according to the relative reliability of the inputs used to estimate the fair values. The three levels of the fair value hierarchy are:

- Level 1 – Unadjusted quoted prices in active markets for identical assets or liabilities;
- Level 2 – Inputs other than quoted prices that are observable for the asset or liability either directly or indirectly; and
- Level 3 – Inputs that are not based on observable market data.

Cash and cash equivalents are carried at fair value using a level 1 fair value measurement. The recorded values of receivables, investments and accounts payable and accrued liabilities approximate their fair values due to their short term to maturity.

Financial risk management

The Company's risk exposures and the impact on the Company's financial instruments are summarized below.

Credit risk

Credit risk is the risk of an unexpected loss if a customer or third party to a financial instrument fails to meet its contractual obligations. The Company limits its exposure to credit risk by placing its cash and cash equivalents with a major financial institution. Management feels that the Company's credit risk with respect to cash and cash equivalents is remote.

Interest rate risk

The Company is exposed to interest rate risk to the extent that the cash and cash equivalents maintained at the financial institutions is subject to a floating rate of interest. The interest rate risk on cash and cash equivalents is not considered significant.

Liquidity risk

All of the Company's financial liabilities are classified as current and are anticipated to mature within the next fiscal year. The Company intends to settle these with funds from its positive working capital position.

Foreign currency risk

Currency risk is the risk that the fair value or future cash flows from a financial instrument will fluctuate due to changes in foreign exchange rates. As at September 30, 2025, the Company did not have any financial instruments denominated in foreign currencies and considers foreign currency risk to be insignificant.

Price risk

Equity price risk is defined as the potential adverse impact on the Company's earnings due to movements in individual equity prices or general movements in the level of the stock market. The Company closely monitors individual equity movements and the stock market to determine the appropriate course of action to be taken by the Company.

9. CAPITAL MANAGEMENT

Capital is comprised of all the components of the Company's shareholders' equity as at September 30 2025, the Company's shareholders' equity was \$8,786,812 and there was no long-term debt outstanding. The Company manages its capital structure to maximize its financial flexibility making adjustments to it in response to changes in economic conditions and the risk characteristics of the underlying assets and business opportunities. The Company does not presently utilize any quantitative measures to monitor its capital. Management reviews its capital management approach on an ongoing basis and believes that this approach is reasonable given the relative size of the Company. The Company is not subject to any externally imposed capital requirements or debt covenants. There were no changes in the Company's approach to capital management during the six months ended September 30 2025.

10. INVESTMENTS

During the six months ended September 30, 2025, the Company received 1,306,250 units of Molten Metals Corp. valued at \$391,875 as an option payment towards acquisition of Triangle and Gathering Lake Property from the Company (Note 4). The fair value as at September 30, 2025 is \$0.30 per share and as follows:

	Investment in Molten Metals Corp.	
Fair value as at March 31, 2025	\$	-
Additions		391,875

11. COMMITMENTS AND CONTINGENCIES

From time to time, the Company is engaged in various legal proceedings and claims that have arisen in the normal course of business. These matters are evaluated individually based on their nature, status, and potential financial impact, in accordance with IAS 37 *Provisions, Contingent Liabilities and Contingent Assets*. During the year ended March 31, 2024, the Company received a demand letter from a vendor related to the Jackpot Lake project, claiming payment for certain invoices issued during the year. Management believes these invoices should not have been billed, as the related work arose from the vendor's own error, and the vendor had previously agreed to perform the corrective work at their own cost. As the parties were unable to reach a settlement and the vendor has indicated an intention to pursue litigation, the Company has recognized a provision of \$100,000 in connection with this matter. The ultimate outcome of the dispute is uncertain and may differ from the amount accrued.

Additionally, the Company may enter into contracts for services in the normal course of operations. The Company's current contractual commitments vary in terms and can be terminated upon sufficient notice.
