

Delivra Health Brands Inc.

Management's Discussion and Analysis

For the year ended June 30, 2023

INTRODUCTION

This Management's Discussion and Analysis ("**MD&A**") should be read in conjunction with the audited consolidated financial statements and related notes thereto of Delivra Health Brands Inc. ("**Delivra Health**" or "**us**" or "**we**" or "**our**" or the "**Company**") for the year ended June 30, 2023 (the "**Annual Financial Statements**"), which have been prepared in accordance with International Financial Reporting Standards ("**IFRS**"). All amounts are expressed in thousands of Canadian dollars, except for share and per share amounts, unless otherwise stated. This MD&A has been prepared as of October 18, 2023 and includes certain statements that may be deemed "forward-looking statements". Additional information relating to the Company is available under the Company's profile at www.sedarplus.ca.

FORWARD LOOKING STATEMENTS

Certain statements contained in this MD&A constitute forward-looking statements and forward-looking information (collectively, "**Forward-Looking Statements**") and the Company cautions investors about important factors that could cause the Company's actual results to differ materially from those expressed, implied or projected in any Forward-Looking Statements included in this MD&A. Any statements that express, or involve discussions as to, expectations, beliefs, plans, objectives, assumptions or future events or performance (often, but not always, through the use of words or phrases such as "will likely result", "are expected to", "expects", "will continue", "is anticipated", "anticipates", "may", "could", "believes", "estimates", "intends", "plans", "forecast", "projection" and "outlook") are not historical facts and may be Forward-Looking Statements that involve projections, estimates, assumptions, known and unknown risks and uncertainties which could cause actual results or outcomes to differ materially from those expressed in such Forward-Looking Statements or otherwise be materially inaccurate. No assurance can be given that these expectations or assumptions will prove to be correct and such Forward-Looking Statements included in this MD&A should not be unduly relied upon. These Forward-Looking Statements speak only to management's beliefs and expectations as of the date of this MD&A and will be updated only as required by applicable securities laws. Accordingly, any such statements are qualified in their entirety by reference to the information discussed throughout this MD&A.

Certain of the Forward-Looking Statements contained within this MD&A are based on third-party information from publicly available government sources, market research and industry analysis. While the Company is not aware of any misstatement regarding any industry or government data presented herein, we have not independently verified any such third-party information.

The Company's Forward-Looking Statements are expressly qualified in their entirety by this cautionary statement. In particular, but without limiting the foregoing, disclosure in this MD&A under the heading "Business Overview", as well as statements regarding the Company's objectives, plans, goals, future operating results, and economic performance may make reference to or involve Forward-Looking Statements. See the discussion under the heading "Risks and Uncertainties" in this MD&A for further details.

The Company cautions that the list and description of the Forward-Looking Statements, risks, assumptions and uncertainties set out above is not exhaustive.

OUR GLOBAL FOOTPRINT

BUSINESS OVERVIEW

Delivra Health is a leading global health and wellness company that is uniquely positioned in the infused cannabis space. Delivra Health has positioned itself to provide products that help with pain, sleep, anxiety, and performance through its acquired brands LivRelief™ and Dream Water®. The Company has significant national penetration in the regulated infused cannabis markets and global penetration in the over-the-counter (“OTC”) markets. The Company is based in British Columbia, Canada and its common shares (the “Common Shares”) are listed on the TSX Venture Exchange (“TSXV”) under the symbol “DHB” and on the OTCQX® Best Market operated by OTC Market Group under the symbol “DHBUF”.

Delivra Health operates a portfolio of brands under its Consumer Division consisting of Dream Products Inc. and its associated subsidiaries (collectively, “Dream Water®”), and Delivra Corp. (LivRelief™) and its associated subsidiaries (collectively, “Delivra”). A strategic component of Delivra Health’s business model is to acquire established health and wellness OTC brands such as Dream Water® and LivRelief™, expand distribution, innovate with intellectual properties, and provide products that are infused with cannabis in regulated markets, capturing more consumers in both the OTC market as well as the infused cannabis market. Delivra Health leverages its established distribution network to further grow its business and uses its product development capabilities to create expanded infused versions of the established OTC brands. Dream Water® and LivRelief™ can be found in major retailers such as Shoppers Drug Mart, Walmart, Loblaws, Sobeys, Rexall, 7-Eleven, Circle K, Amazon, amongst others. Delivra Health cannabis-infused licensed products under the LivRelief™ brand can be found in the regulated Canadian market at provincial dispensaries in British Columbia, Alberta, Saskatchewan, Manitoba, Ontario and New Brunswick including availability at Spectrum Therapeutics as a medical channel.

Our Brands

Dream Water®

Dream Water® is a consumer goods company with a specific focus on sleep aids in a variety of formats and formulations. Dream Water® currently produces convenient, travel-friendly, single serving 2.5oz liquid sleep shots, newly launched gummies and sleep powder packets that consumers can take with or without water. Dream Water® contains a proprietary blend of sleep ingredients widely known to promote effective sleep, among many other benefits. Dream Water® is currently available in three easy to use formats: 74ml liquid sleep shots, 60 count gummies, 6 small-pack gummies and 3g sleep powders.

The trademarked Dream Water® SleepStat™ blend (“**SleepStat™ Blend**”) was first developed in response to the need for an effective alternative to traditional antihistamine based OTC and prescription sleep-aids, and is a combination of three active ingredients: melatonin, gamma-aminobutyric acid, and 5-hydroxytryptophan.

Dream Water® currently has one distinct product line, with three different delivery methods: liquid, gummies and powder. The SleepStat™ Blend offers consumers a unique formula ratio of sleep to relaxation ingredients. The Dream Water® first shot line extension is a beauty formulation which contains SleepStat™ Blend and the beauty ingredient, original Dream Water® is also National Sanitation Foundation (NSF) certified for sport programs which allows the Company to sell products to professional sports teams and athletes who undertake drug testing ensuring the ingredients and process are of the highest standards.

Delivra

Delivra is a specialty biotechnology company having a proprietary transdermal delivery system platform that can shuttle pharmaceutical and natural molecules through the skin, in a targeted manner. Delivra manufactures and sells a growing line of topical creams with the proprietary transdermal delivery system platform under the LivRelief™ brand, for conditions such as joint and muscle pain, nerve pain, varicose veins, wound healing creams and sports performance. In parallel with its consumer products business, Delivra also has a mandate to license its patent-pending, proprietary transdermal delivery technology platform to pharmaceutical companies globally, for the repurposing of pharmaceutical molecules transdermally to treat a broad range of

conditions, along with licensing its OTC products globally.

In March 2020, LivRelief™ launched cannabidiol (“CBD”) and tetrahydrocannabinol (“THC”)-infused topical formulations through licensing agreements under the new Cannabis 2.0 regulations. LivRelief™ infused topical products were one of the first topicals to enter the Canadian market under the new Cannabis 2.0 legislation and have already firmly established themselves as key products in the category. The topical creams are available in: (1) a CBD formulation containing 250mg of CBD; (2) a balanced 1:1 formulation containing 125mg of CBD and 125mg of THC; and (3) an Extra Strength 750mg CBD formulation.

SIGNIFICANT AND RECENT DEVELOPMENTS

The following significant developments relating to the Company took place during the year ended June 30, 2023 and to the date of this MD&A:

a) Merchandising agreement with Las Vegas Resorts Treasure Island Hotel & Casino and Circus Circus Hotel and Casino

On August 3, 2023, the Company announced that its wholly-owned subsidiary, Dream Water USA Inc., entered into a Customer Merchandising Agreement dated August 2, 2023, with Treasure Island Hotel & Casino and Circus Circus Hotel and Casino to provide Dream Water® products to all participating retail outlets and kiosks within its properties. Dream Water USA Inc. will provide Treasure Island Hotel & Casino and Circus Circus Hotel protected pricing, marketing support, in-store programs, social media posts and promotional materials for merchandising of its Dream Water® products. In addition, Treasure Island Hotel & Casino and Circus Circus Hotel will purchase product from a Dream Water USA Inc. distributor to be distributed to all participating retail outlets and certain kiosks.

b) Engagement of Generation

On July 4, 2023, the Company retained Generation IACP Inc. ("Generation") to provide market stabilization and liquidity services for the Company in compliance with the policies and guidelines of the TSXV and applicable legislation. Generation will trade the Common Shares on the TSXV for the purposes of maintaining a reasonable market and improving the liquidity of the Common Shares. Under the issuer trading services agreement between Generation and the Company (the "Generation Agreement"), the Company agreed to pay Generation a fee of C\$7,500 per month, plus applicable taxes and subject to an annual increase of 3% commencing on the second anniversary of the Generation Agreement (the "Generation Fee"). The Generation Fee will be payable quarterly in advance.

c) Licensing agreement with Canopy Growth

On May 24, 2023, the Company granted a subsidiary of Canopy Growth Corporation ("Canopy"), a leading global cannabis company, an exclusive strategic licence to manufacture, distribute and sell infused LivRelief™ branded topicals in Canada.

d) The sale of Lucky Lake Facility in Saskatchewan

On December 28, 2022, the Company sold and transferred the title of its Lucky Lake Facility in Saskatchewan (the "Facility") effective December 28, 2022, to a third party in Saskatchewan for total aggregate consideration of \$3,000. This transaction strengthened the Company's position in the market place by providing working capital to further develop the leading brands Dream Water® and LivRelief™.

e) Sales and distribution agreement with Casey's General Stores

On November 1, 2022, the Company further expanded its distribution in the United States with the signing of a sales and distribution agreement with Casey's General Stores ("Casey's"), a leading North American convenience store chain with over 2,400 locations.

OUTLOOK

Management anticipates sales volumes, net revenues, and adjusted EBITDA to improve throughout the next fiscal year due to a full year of new innovative products including licensed infused cannabis products sold to the Canadian market.

Cannabis 2.0

Delvra Health's initial Cannabis 2.0 product offering includes a selection of pain relief topical creams. The cannabis-infused topical creams utilize Delvra's transdermal technology designed to penetrate the skin, enabling effective, fast absorption, and controlled release of active ingredients directly to the target area. The topical creams are currently available in three formats – a CBD-only formulation containing 250mg of CBD, a 1:1 format formulation with 125mg of THC and 125mg of CBD, and a CBD-only formulation containing 750mg of CBD. Additionally, the Company plans on selling its LivRelief™ cannabis-infused topical creams in the US marketplace when regulations permit.

Consumer

Dream Water® continues to be forward-thinking with respect to internationally compliant formulas and line extensions in both the sleep-aids and CBD markets, including lines of products with multiple delivery formats for both categories. Formulation of CBD-infused Dream Water® continues to advance and will enter the market when regulations allow in the US. The Company continues

to build out a pipeline of innovation that addresses consumers' growing demand for effective sleep aids, in both OTC and cannabinoid-infused formats.

OVERALL PERFORMANCE

DISCUSSION OF OPERATIONS

Net revenue

Net revenue comprised the following sales: (1) Dream Water® brand sales in both US and Canada; (2) Delivra LivRelief™ brand sales in the US and Canada; and (3) LivRelief™ cannabis-infused topical cream sales in Canada.

For the year ended June 30, 2023, net revenue was \$9,791 compared to \$8,139 in prior year. The \$1,652 or 20.3% net increase in net revenue was mainly due to higher sales in the US business by \$2,127 compared to the prior year offset by a reduction in sales in Canada by \$475. The increase in the US sales is the result of higher sales orders from the Company's largest customer as a result of higher demand by consumers and the lower sales in Canada are driven by lower year of year sales as a result of lower orders by the Company's customers as a result of lower demand from consumers in Canada in the retail business of the Company as a indirect result of heightened inflation.

Cost of sales

For the year ended June 30, 2023, cost of sales was \$4,570, compared to \$4,759 in the prior year. The \$189 decrease in cost of sales was due to the Company's lower indirect overhead costs year over year and such costs are not expected to increase due to the semi-fixed nature of such costs. During the year ended June 30, 2023, the Company recognized a write-down total of \$398 (2022 - \$776). The reduction of \$378 or 48.7% is related to improvements in revenue and inventory forecasting methods resulting in streamlined purchasing patterns from vendors to meet expected customer demand.

Gross margin

The table below outlines gross profit (loss) and gross margin for the years ended June 30, 2023 and 2022, respectively.

	For the year ended	
	2023	2022
	\$	\$
Net revenue	9,791	8,139
Cost of sales	4,570	4,759
Inventory write-down	398	776
Gross profit	4,823	2,604
Gross margin	49%	32%

Gross margin for the year ended June 30, 2023 was 49%, compared to 32% in the prior year. The increase was primarily attributable to lower sales fees applied to gross sales due to change in customer mix, higher sales volume and lower inventory write-downs compared to prior year.

Expenses

	For the three months ended		For the year ended	
	2023	2022	2023	2022
	\$	\$	\$	\$
General and administration	1,117	1,071	3,929	4,542
Sales and marketing	328	285	775	1,603
Depreciation and amortization	336	524	1,330	2,119
Share-based compensation	26	59	152	352
Asset impairment and write-downs	-	-	-	398
	1,807	1,939	6,186	9,014

Total expenses decreased by \$132 and \$2,828 for the three months ended June 30, 2023 and the year ended June 30, 2023, respectively, compared to the same periods in the prior year, primarily due to: (1) a decrease in general & administration expenses due to operational changes and cost reductions since the announcement of the Company's strategic review on February 12, 2020 (the "Strategic Review"); (2) a decrease in share-based compensation upon the forfeiture of unvested stock options; and (3) a decrease in asset impairment and write-downs. The changes in expenses are detailed as follows:

General and administration

General and administration expenses increased by \$46 and decreased by \$613 for the three months ended June 30, 2023 and the year ended June 30, 2023, respectively, compared to the same periods in the prior year due to the Company's continued focus on operational efficiencies and cost reductions since its announcement of the Strategic Review. The slight increase of \$46 is primarily due to timing and nature of expenses such as additional accruals of salaries, bonuses and benefits at end of year offset by a reduction of professional and consulting services compared to prior year. As a result of these cost reductions, the Company has incurred lower salaries, bonuses, and benefits; office and general; and travel expenses in the current period.

	For the three months ended		For the year ended	
	2023	June 30 2022	2023	June 30 2022
	\$	\$	\$	\$
Insurance	38	36	150	156
Investor relations	54	37	133	114
Office and general	72	108	376	547
Professional and consulting services	78	200	605	995
Regulatory	13	4	40	17
Rent	(36)	3	6	27
Salaries, bonus and benefits	873	674	2,538	2,632
Travel	26	10	81	54
	1,118	1,072	3,929	4,542

Sales and marketing

Sales and marketing expenses increased by \$43 and decreased by \$828 for the three months ended June 30, 2023 and year ended June 30, 2023, respectively, compared to the same periods in the prior year. The slight increase of \$43 is primarily due to timing and nature of expenses. The year over year decrease of \$828 is a combination of efforts to conserve cash in the first half of the year and then a change in the Company's shift in focus from traditional marketing, such as the use of marketing agencies, towards digital marketing, such as social media campaigns and influencers, in the second half of the year.

Depreciation and amortization

Depreciation and amortization decreased by \$188 and \$789 for the three months ended June 30, 2023 and the year ended June 30, 2023, respectively, compared to the same periods in the prior year due to certain assets having been fully depreciated during the year.

Share-based compensation

Share-based compensation decreased by \$33 and \$200 for the three months ended June 30, 2023 and the year ended June 30, 2023, respectively, compared to the same periods in the prior year. The reduction is driven by stock options that fully vested and forfeited during the year.

The Company announced on November 2, 2022 that it has granted certain directors, officers and employees of the Company an aggregate of 4,900,000 options to purchase common shares in the capital of the Company pursuant to its share option plan. The options are exercisable at a price of \$0.05 per common share and will have an expiry date on October 31, 2027. The stock options were vested immediately upon grant and as of the date of this MD&A, all 4,900,000 options remain outstanding. There were no stock options granted in the three months ended June 30, 2023.

Asset impairment and write-downs

Asset impairment and write-downs decreased by \$nil and \$398 for the three months ended June 30, 2023 and the year ended June 30, 2023, respectively, compared to the same periods in the prior year as the Company did not have any impairment write-downs compared to the write-down of in-progress R&D intangible assets in prior year.

Other (expense) income

Other expenses, such as financing and non-operating expenses, decreased by \$1,778 for the year ended June 30, 2023 compared to the prior year. The decrease is primarily attributable to the gain on the sale of the Facility and gains from extinguishment of debt and associated interest related to legacy accounts.

	For the year ended	
	2023	June 30 2022
	\$	\$
Gain (loss) on assets disposal	602	(692)
Interest and finance costs	(250)	(635)
Gain from extinguishment/settlement of debt	896	230
Unrealized (loss)/reclassification on short term	(15)	486
Foreign exchange loss	(54)	12
	1,179	(599)

Gain (loss) on disposal of assets

Gain on disposal of assets increased by \$1,294 for the year ended June 30, 2023 compared to the prior year primarily due to the sale of the Facility in the second quarter, compared with the loss from prior year which was primarily composed of 1) the Facility construction-in-progress disposal loss of \$55; 2) shares of Cann Group Limited (“**Cann Group**”) disposal realized loss of \$637.

Interest and finance costs

Interest and finance costs decreased by \$385 for the year ended June 30, 2023 compared to the prior year mainly due to significant interest accrued to legacy accounts payable balances related to the Company’s discontinued operations in prior year.

Gain from extinguishment/settlement of debt

Gain from extinguishment/settlement of debt increased by \$666 for the year ended June 30, 2023 compared to the prior year primarily due to settlement of legacy accounts payable amounts related to the Company’s discontinued operations from prior years, as per agreements with vendors.

Unrealized gain/(loss)

Unrealized gain (loss) decreased by \$501 compared to same period last year as a result of the unrealized loss of the Cann Group shares’ fair market value adjustment reclassified to loss on disposal of assets due to the sale of the shares in prior year.

Adjusted EBITDA (non-IFRS measure)

Adjusted EBITDA is a metric used by management which is the profit or (loss) from operations, as reported, before interest, taxes, depreciation and amortization and adjusted for share-based compensation, Common Shares issued for services, the fair value effects of accounting for inventories, asset impairment and write-downs, discontinued operations and other non-cash items.

	For the year ended	
	2023	June 30 2022
	\$	\$
Loss from operations	(1,363)	(6,410)
Inventory write-down	398	776
	(965)	(5,634)
Asset impairment and write-downs	-	398
Depreciation and amortization	1,330	2,119
Share-based compensation	152	352
	1,482	2,869
Adjusted EBITDA	517	(2,765)

For the year ended June 30, 2023, adjusted EBITDA increased by \$3,282 compared to the prior year. The increase in adjusted EBITDA was primarily due to higher net sales and gross margin, as well as an overall reduction in expenses as described above.

Update on Use of Proceeds

On March 17, 2021, the Company closed a bought-deal public offering with Research Capital Corporation, as sole bookrunner, and ATB Capital Markets Inc., as the co-lead underwriters, pursuant to which the Company issued 37,096,700 units of the Company (the “**Units**”) at a price of \$0.155 per Unit for gross proceeds to the Company of approximately \$5,750 (the “**Offering**”), including the full exercise of an over-allotment option. Each Unit consists of one Common Share and one Common Share purchase warrant (each, a “**Bought Deal Warrant**”). Each Bought Deal Warrant entitles the holder thereof to purchase one Common Share at an exercise price of \$0.195 at any time until March 17, 2024.

The Company has committed the use of proceeds from the Offering to meet its planned growth, expand its existing product lines and distribution channels, and for working capital and general corporate purposes. The below table describes the Company's anticipated use of proceeds from the Offering, as disclosed in the short form prospectus of the Company dated March 10, 2021 relating to the Offering (the "Prospectus"), and the Company's actual use of working capital, as at the date of this MD&A.

Total		\$5,090	\$4,623	\$467	\$5,090

The Company generally has negative cash flow from operating activities and has historically incurred net losses. To the extent that the Company has negative operating cash flows in future periods, it may need to deploy a portion of its existing working capital to fund such negative cash flows. The Company will be required to raise additional funds through the issuance of additional equity securities, through loan financing, or other means, such as through partnerships with other companies. There is no assurance that additional capital or other types of financing will be available if needed or that these financings will be on terms at least as favourable to the Company as those previously obtained.

The expected use of net proceeds from the Offering represents the Company's current intentions based upon its present plans and business condition, which could change in the future as its plans and business conditions evolve. The amounts and timing of the actual use of the net proceeds will depend on multiple factors and there may be circumstances where, for sound business reasons, a reallocation of funds may be necessary in order for the Company to achieve its stated business objectives. The Company may also require additional funds in order to fulfill its expenditure requirements to meet existing and any new business objectives, and the Company expects to either issue additional securities or incur debt to do so. While executing the Company plans, the Company allocated certain uses of its funds from its original plan of uses in an effort to increase the return on such uses. By example, the Company concluded that investing in paid media has a higher expected return than investing in radio airtime and thus allocations were made by management based on its assessments.

LIQUIDITY AND CAPITAL RESOURCES

Management of the Company is consistently working to monitor and manage the Company's capital resources to assess if it has access to adequate liquidity to fund its operations. The Company's working capital requirements change frequently given the nature of the business, therefore, our primary liquidity requirement is for working capital and essential general corporate needs. Management's objectives with respect to liquidity and capital structure are to generate sufficient cash to fund the Company's existing operations and growth strategy.

	June 30 2023 \$	June 30 2022 \$
Cash used in operating activities	(1,088)	(4,441)
Cash provided by (used in) investing activities	2,913	1,350
Cash provided by (used in) financing activities	(255)	(309)
Effect of foreign exchange on cash	67	53
Change in cash during the period	1,637	(3,347)

Cash used in operating activities was \$1,088 for the year ended June 30, 2023 compared to \$4,441 in the prior year. The \$3,353 decrease in cash used is primarily due to increase in Adjusted EBITDA resulting in less cash required to fund the Company's operating activity including its working capital needs compared to prior year.

Cash provided by investing activities was \$2,913 for the year ended June 30, 2023, compared to \$1,350 in the prior year. The \$1,563 increase in cash provided is mainly attributable to the proceeds from sale of Lucky Lake: \$2,954. The \$1,350 from the prior year was mainly derived from the disposal of the shares of Cann Group, which shares were issued as consideration in connection with the sale of the Company's prior subsidiaries, Satipharm Limited, Satipharm AG, and PhytoTech Therapeutics Ltd., after all the milestones were met.

Cash used in financing activities was \$255 for the year ended June 30, 2023 compared to cash used by financing activities of \$309 for the same period in the prior year. The \$54 decrease in cash used is due to lower required repayments of loans during the year.

The nature of the Company's current business and the source of revenue from operations is the production and sale of Dream Water's sleep aid products and Delivra's pain relief consumer packaged goods. However, the Company's ability to continue in the normal course of operations and meet its planned growth and development activities is dependent on actions by management achieving profitable operations and raising additional capital to fund future growth and expansion of its portfolio of brands. Management believes it will be able to raise capital as required in the long-term, but recognizes the risks attached thereto including without limitation, risks due to changing market conditions. Historically, the capital requirements of the Company have been met by offering securities of the Company and completing debt financings. Any equity offering will result in dilution to the ownership interests of the Company's shareholders and may result in the dilution to the value of such interests. Although the Company has been successful in the past in obtaining financing, there can be no assurance that it will be able to obtain adequate financing in the future or that the terms of such financing may be favourable to the Company. If adequate financing is not available when required, the Company may be required to delay, scale back, or eliminate various projects and programs, and may be unable to continue in operation. If the Company is unable to achieve profitable operations or raise additional funds it may require, it could have a material adverse effect on the Company's financial condition and future profitability. To date, the Company has not experienced a significant overall downturn in demand for its products in connection with such ongoing uncertainties, however, the Company cannot provide assurance that there will not be downturns or disruptions to its operations in the future.

The Company incurred consolidated net loss of \$184 and a net loss of \$7,009 for the years ended June 30, 2023 and June 30, 2022, respectively. The Company had a negative operating cash flow of \$1,088 for the year ended June 30, 2023 and an accumulated deficit of \$170,038 as at June 30, 2023. The Company had a working capital surplus of \$2,448 as of June 30, 2023. These conditions indicate the existence of material uncertainties that may cast significant doubt on the Company's ability to continue as a going concern. If for any reason the Company is unable to continue as a going concern, then this could have an impact on the Company's ability to realize assets at their recognized values, in particular goodwill and other intangible assets, and to extinguish liabilities in the normal course of business at the amounts stated in the consolidated statements. Management acknowledges that in the absence of securing additional capital there is uncertainty over the Company's ability to meet its funding requirements as they fall due.

SUMMARY OF QUARTERLY RESULTS

Quarter ended	Net revenue \$	Gross profit \$	Net profit (loss) \$	Basic and diluted profit (loss) per share \$
June 30, 2023	3,317	1,997	(8)	(0.00)
March 31, 2023	2,353	961	(685)	(0.003)
December 31, 2022	2,392	987	890	0.004
September 30, 2022	1,729	878	(381)	(0.002)
June 30, 2022	1,923	335	(2,251)	(0.01)
March 31, 2022	2,339	914	(1,676)	(0.01)
December 31, 2021	1,746	645	(1,629)	(0.01)
September 30, 2021	2,131	710	(1,453)	(0.01)

Net revenue for the fourth quarter of fiscal 2023 increased by \$1,394 compared to the fourth quarter of fiscal 2022 due to higher outbound sales shipments in the US as a result of increase in distributor demand which were offset by lower sales in Canada as a result of reduction in consumer demand. Gross profit for the fourth quarter of fiscal 2023 increased by \$1,662 compared to the fourth quarter of fiscal 2022 primarily due to higher sales volume and thus lower indirect cost of sales and higher inventory write-downs in prior year. Net loss for the fourth quarter of fiscal 2023 decreased by \$2,243 compared to the fourth quarter of fiscal 2022 primarily due to the prior quarter impairment costs and losses from discontinued operations.

SHARE CAPITAL

The Company has an unlimited number of Common Shares authorized and the following securities outstanding:

	June 30 2023	As at the date of this MD&A
Common Shares	252,617,854	252,617,854
Bought Deal Warrants	37,096,700	37,096,700
Stock options	16,272,738	15,275,238
Bought Deal Compensation Options	2,596,769	2,596,769
Consultant Warrants	300,000	-

Please see Notes 12 and 13 to the Annual Financial Statements regarding the Company's share capital and other share-based and securities compensation awards issued by the Company during the year ended June 30, 2023.

OFF BALANCE SHEET ARRANGEMENTS

The Company does not have any off-balance sheet arrangements.

TRANSACTIONS WITH RELATED PARTIES

The following expenses were paid to the directors and key management personnel of the Company:

	For the year ended	
	2023	June 30
	2022	2022
	\$	\$
Salaries and benefits	867	644
Directors' fees	240	240
Share-based compensation	95	229
Total	1,202	1,113

As at June 30, 2023, included in accounts payable and accrued liabilities, there was \$200 (2022 – \$nil) of management bonuses and \$280 in directors' fees as follows: \$70 to Andrew Bayfield, \$70 to Jason Bednar, and \$140 to Frank Holler (June 30, 2022 – \$220 as follows: \$55 to Andrew Bayfield, \$55 to Jason Bednar, and \$110 to Frank Holler).

COMMITMENTS AND CONTRACTUAL OBLIGATIONS

As of the date of this MD&A, the Company does not have any contractual obligations beyond the accounts payable and accrued liabilities reported in the financial statements of the Company. Furthermore, the Company does not have any material contingent considerations that will have a material adverse effect on the operations of the Company.

On March 19, 2022, Kadco Electric Inc. (the "Contractor"), a contractor of the Company's previous cannabis business of United Greeneries Operations LTD & United Greeneries Holdings LTD. issued a statement of claim against the Company claiming, among other things, breach of trust and unjust enrichment related to unpaid debt of \$163. On July 25, 2022, the Company issued a statement of defense and counterclaim of \$161 against the Contractor claiming, among other things, the Company had overpaid based for services rendered based on the life to date percentage of completion of the project conducted by the Contractor. In December 2022, the Company reached an agreement with Kadco to settle the claim by paying \$75 resulting in recognizing an accounting gain of \$65.

On July 19, 2022, Jonathan Carroll (the "Consultant") issued a statement of claim against the Company claiming, among other things, damages for breach of contract and exemplary damages of \$134 and an order for the delivery of the balance of the unissued Consultant Warrants of 1,200,000 unissued warrants owed to the Consultant (the "Consultant Warrants"). The Company did not accrue for such claims. On September 14, 2022, the Company issued a statement of defense and counterclaim of \$200 against the Consultant claiming, among other things, damages for negligent misrepresentation, breach of contract and breach of its duty of good faith and honest performance of its contractual obligations. On October 21, 2022, the Consultant issued a reply and defense to the counter-claim. In February 2023, the Company reached a settlement agreement to settle the claim by paying \$36 resulting a loss of \$13 and cancelling the Consultant Warrants.

During the year ended June 30, 2020, United Greeneries Operations, a subsidiary of the Company, was named as the defendant in a civil claim (the "Claim") filed in the Supreme Court of British Columbia in respect of the termination of the lease agreement for land and property in Aldergrove, British Columbia in August 2018. The Company has accrued \$250 as at June 30, 2021. In November 2021, the two parties reached an agreement to settle the entire Claim in the amount of \$35, which resulted in a \$215 gain as a reduction in the Company's liabilities.

FINANCIAL INSTRUMENTS AND OTHER INSTRUMENTS

The Company thoroughly examines the various financial instruments and risks to which it is exposed and assesses the impact and likelihood of those risks. These risks include foreign exchange risk, credit risk, interest rate risk, and liquidity risk. Where material, these risks are reviewed and monitored by the Company's board of directors (the "Board").

The Board has overall responsibility for the determination of the Company's risk management objectives and policies. The overall objective of the Board is to set policies that seek to reduce risk as far as possible without unduly affecting the Company's competitiveness and flexibility.

Foreign exchange risk

Foreign exchange risk is the risk that the fair value of future cash flows will fluctuate as a result of changes in foreign exchange rates. As at June 30, 2023, the Company is exposed to foreign currency risk through its bank accounts denominated in United States Dollars ("USD") and Australian Dollars ("AUD"). A 10% appreciation (depreciation) of USD or AUD against the CAD, with all other variables held constant, would result in an immaterial change in the Company's loss and comprehensive loss for the year.

Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations and arises principally from the Company's trade accounts receivable. The Company's cash and accounts receivable are exposed to credit risk. The risk for cash is mitigated by holding these instruments with highly rated financial

institutions. The Company provides credit to its customers in the normal course of business and has mitigated this risk by managing and monitoring the underlying business relationships. As at June 30, 2023, the Company is exposed to credit risk in the amount of the carrying amount of the Company's cash and accounts receivable. As of June 30, 2023, the maximum credit risk for the Company was approximately \$5,310 (2022 – \$2,660).

Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. As at June 30, 2023, the Company is not exposed to any significant interest rate risk.

Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting obligations associated with financial liabilities. The Company manages liquidity risk by maintaining sufficient cash balances to enable settlement of transactions on the due date. Accounts payable and accrued liabilities have maturities of 30 days or less or are due on demand and are subject to normal trade terms. As at June 30, 2023, the Company had current assets of \$7,918 (June 30, 2022 - \$7,485) and current liabilities of \$5,470 (June 30, 2022 - \$6,541). The Company has addressed its liquidity through debt or equity financing obtained through the sale of Common Shares and the sale of non-core assets. While the Company has been successful in securing financings in the past, there is no assurance that it will be able to do so in the future. Further, the Company's ability to fund operations, to execute its growth strategy and to meet scheduled financial commitments depends on the Company's future operating performance and cash flows as well as capital raising, all of which are subject to prevailing economic conditions and financial, business and other factors, some of which are beyond the Company's control. See also "Liquidity and Capital Resources" in this MD&A.

Fair value hierarchy

Financial instruments measured at fair value are classified into one of three levels in the fair value hierarchy according to the relative reliability of the inputs used to estimate the fair values. The three levels of the fair value hierarchy are:

- Level 1 – Unadjusted quoted prices in active markets for identical assets or liabilities;
- Level 2 – Inputs other than quoted prices that are observable for the asset or liability either directly or indirectly; and
- Level 3 – Inputs that are not based on observable market data.

During the year ended June 30, 2023, there were no transfers of amounts between fair value levels.

Cash and short-term investments are classified as a Level 1 financial instrument. The Company's other financial instruments, including accounts receivable, current portion of lease receivable, promissory note and accounts payable and accrued liabilities are carried at cost which approximates fair value due to the relatively short maturity of those instruments. The carrying value of the Company's non-current portion of lease receivable, loans and borrowings approximate fair value as they bear a market rate of interest.

NON-IFRS MEASURES

This MD&A includes certain measures which have not been prepared in accordance with IFRS such as Adjusted EBITDA. These non-IFRS measures are not recognized under IFRS and, accordingly, users are cautioned that these measures should not be construed as alternatives to net income determined in accordance with IFRS. The non-IFRS measures presented may not be comparable to similar measures presented by other issuers.

Adjusted EBITDA is a non-IFRS measure used by management that does not have any standardized meaning prescribed by IFRS and may not be comparable to similar measures presented by other companies. Management defines adjusted EBITDA as the loss from operations, as reported, before interest, taxes, depreciation and amortization and adjusted for share-based compensation, Common Shares issued for services, the fair value effects of accounting for biological assets and inventories, asset impairment and write-downs, discontinued operations and other non-cash items.

There are no comparable IFRS financial measures presented in the Annual Financial Statements. Reconciliations of the non-IFRS financial measure is presented in this MD&A. The Company provides the non-IFRS financial measure as supplemental information and in addition to the financial measures that are calculated and presented in accordance with IFRS. The supplemental non-IFRS financial measure is presented because management believes such measures provide information which is useful to shareholders and investors in understanding its performance and which may assist in the evaluation of the Company's business relative to that of its peers. Management believes the non-IFRS measure is a useful financial metric to assess the Company's operating performance on a cash basis before the impact of non-cash items, and on an adjusted basis as described above. However, such non-IFRS measure should not be considered superior to, as a substitute for or as an alternative to, and should only be considered in conjunction with, the most comparable IFRS financial measures.

RISKS AND UNCERTAINTIES

This section discusses factors relating to the business of Delivra Health that should be considered by both existing and prospective investors. The information in this section is intended to serve as an overview and should not be considered comprehensive, and Delivra Health may face additional risks and uncertainties not discussed in this section, or not currently known to the Company, or that the Company deems to be immaterial. All risks to Delivra Health's business have the potential to influence its operations in a materially adverse manner.

Inflation Risk

General inflationary pressures may increase, the Company's operating costs and influence consumer behavior towards purchasing essentials goods, which could have a material adverse effect on the Company's financial condition, results of operations and the capital expenditures required to advance the Company's business plans. There can be no assurance that any governmental action will be taken to control inflationary or deflationary cycles, that any governmental action taken will be effective or whether any governmental action may contribute to economic uncertainty. Governmental action to address inflation or deflation may also affect currency values. Accordingly, inflation and any governmental response thereto may have a material adverse effect on the Company's business, results of operations, cash flow, financial condition and the price of the Common Shares.

Additional Financing

There is no guarantee that the Company will be able to execute on its planned strategy. The continued development of the Company requires additional financing and failure to raise such capital could result in the delay or indefinite postponement of current business strategy or the Company ceasing to carry on business. There can be no assurance that additional capital or other types of financing will be available if needed or that, if available, the terms of such financing will be favorable to the Company. If additional funds are raised through issuances of equity or convertible debt securities, existing shareholders could suffer significant dilution. In addition, from time to time, the Company may enter into transactions to acquire assets or the shares of other companies. These transactions may be financed wholly or partially with debt, which may temporarily increase the Company's debt levels above industry standards. Any debt financing secured in the future could involve restrictive covenants relating to capital raising activities and other financial and operational matters, which may make it more difficult for the Company to obtain additional capital and to pursue business opportunities, including potential acquisitions. Debt financings may contain provisions, which, if breached, may entitle lenders to accelerate repayment of loans and there is no assurance that the Company would be able to repay such loans in such an event or prevent the enforcement of security granted pursuant to such debt financing. The Company may require additional financing to fund its operations to the point where it is generating positive cash flows. Negative cash flow may restrict the Company's ability to pursue its business objectives.

New well-capitalized entrants may develop large-scale operations

Currently, the cannabis industry generally is comprised of individuals and small to medium-sized entities, however, the risk exists that large conglomerates and companies who also recognize the potential for financial success through investment in this industry could make strategic acquisitions. These potential competitors may have longer operating histories, significantly greater financial, technological, engineering, manufacturing, marketing and distribution resources, and be larger and better capitalized. Larger competitors could establish price setting and cost controls which would effectively "price out" many of the individuals and small to medium-sized entities who currently make up the bulk of the participants in the varied businesses operating within and in support of the medical and adult-use cannabis industry. While the approach of most laws and regulations seemingly deters this type of takeover, this industry remains nascent and as indicated above this trend is being observed, so what the landscape will be in the future remains largely unknown.

The Company's proposed business plan is subject to all business risks associated with new business enterprises, including the absence of any significant operating history upon which to evaluate an investment. The likelihood of the Company's success must be considered in light of the problems, expenses, difficulties, complications and delays frequently encountered in connection with the formation of a new business, the development of new strategy and the competitive environment in which the Company operates. It is possible that the Company will incur losses in the future. There is no guarantee that the Company will be profitable.

Results of Future Clinical Research

Research in Canada, the U.S. and internationally regarding the medical benefits, viability, safety, efficacy, dosing and social acceptance of cannabis or isolated cannabinoids (such as CBD and THC) remains in early stages. There have been relatively few clinical trials on the benefits of cannabis or isolated cannabinoids (such as CBD and THC) and future research and clinical trials may discredit the medical benefits, viability, safety, efficacy, and social acceptance of cannabis or could raise concerns regarding, and perceptions relating to, cannabis. Given these risks, uncertainties and assumptions, prospective purchasers of the Company's securities should not place undue reliance on such articles and reports. Future research studies may reach negative conclusions regarding the medical benefits, viability, safety, efficacy, dosing, social acceptance or other facts and perceptions relating to cannabis, which could have a material adverse effect on the demand for the Company's products with the potential to lead to a material adverse effect on the Company's business, financial condition, results of operations or prospects.

Product Liability

As a manufacturer and distributor of products designed to be ingested by humans, the Company faces the inherent risk of exposure to product liability claims, regulatory action and litigation if its products are alleged to have caused significant loss or injury. In addition, the manufacture and sale of cannabis involve the risk of injury to consumers due to tampering by unauthorized third parties or product contamination. Previously unknown adverse reactions resulting from human consumption of cannabis alone or in combination with other medications or substances could occur. As a manufacturer and distributor of adult-use and medical cannabis products, or in its role as a service provider to, an entity that is a manufacturer, distributor and/or retailer of adult-use or medical cannabis products, the Company may be subject to various product liability claims, including, among other things, that the cannabis product caused injury or illness, include inadequate instructions for use or include inadequate warnings concerning possible side effects or interactions with other substances. A product liability claim or regulatory action against the Company could result in increased costs, could adversely affect the Company's reputation with its clients and consumers generally, and could have a material adverse effect on the business, results of operations, financial condition or prospects of the Company. There can be no assurances that the Company will be able to maintain product liability insurance on acceptable terms or with adequate coverage against potential liabilities. Such insurance is expensive and may not be available in the future on acceptable terms, or at all. The inability to maintain sufficient insurance coverage on reasonable terms or to otherwise protect against potential product liability claims could prevent or inhibit the commercialization of the Company's potential products or otherwise have a material adverse effect on the business, results of operations, financial condition or prospects of the Company.

Product Recalls

Manufacturers and distributors of products are sometimes subject to the recall or return of their products for a variety of reasons, including product defects, such as contamination, unintended harmful side effects or interactions with other substances, packaging safety and inadequate or inaccurate labeling disclosure. Such recalls cause unexpected expenses of the recall and any legal proceedings that might arise in connection with the recall. This can cause loss of a significant amount of sales. In addition, a product recall may require significant management attention. Although the Company has detailed procedures in place for testing its products, there can be no assurance that any quality, potency or contamination problems will be detected in time to avoid unforeseen product recalls, regulatory action or lawsuits. Additionally, if one of the Company's products were subject to recall, the reputations of that product and the Company could be harmed. Additionally, product recalls can lead to increased scrutiny of operations by applicable regulatory agencies, requiring further management attention and potential legal fees and other expenses.

Risks Related to the COVID-19 and other Pandemics

Global or national health concerns, including the outbreak of pandemic or contagious diseases, such as COVID-19 or its variants, may adversely affect the Company. The Company's business, operations and financial condition could be materially adversely affected by the outbreak of epidemics or pandemics or other health crises. The extent of such impacts is currently unquantifiable, but may be significant. Such impacts include, with respect to its operations, its suppliers' operations and its customers' operations, forced closures, mandated social distancing, isolation and/or quarantines, impacts of declared states of emergency, increased government regulation, public health emergency and similar declarations and could include other increased government regulations, reduced sales, and potential supply and staff shortages, all of which are expected to negatively impact the business, financial condition and results of operations of the Company and thus may impact the ability of the Company to comply with financial covenants, satisfy its obligations to its lenders and other parties, which may in turn may adversely impact, among other things, the ability the Company to access debt or equity capital on acceptable terms or at all.

Disruption of Supply Chain Including Impact of Climate Change

Conditions or events including, but not limited to, those listed below could disrupt the Company's, and other industry participant's, supply chains, interrupt operations, increase operating expenses, and thereby result in loss of sales, delayed performance of contractual obligations or require additional expenditures to be incurred: (i) extraordinary weather conditions or natural disasters such as hurricanes, tornadoes, floods, fires, extreme heat, earthquakes, climate change driven disruptions, etc.; (ii) a local, regional, national or international outbreak of a contagious disease, including the COVID-19 coronavirus, Middle East Respiratory Syndrome, Severe Acute Respiratory Syndrome, H1N1 influenza virus, avian flu, or any other similar illness could result in a general or acute decline in economic activity (iii) political instability, social and labour unrest, war or terrorism; or (iv) interruptions in the availability of basic commercial and social services and infrastructure including power and water shortages, and shipping and freight forwarding services including via air, sea, rail and road. The extent to which any contagious disease impacts the Company's results will depend on future developments, which are highly uncertain and cannot be predicted, including new information which may emerge concerning the severity of this or any other outbreak and the actions to contain those outbreaks or treat its impact, among others.

Consumer Behaviour and Digital Shift

Digital and e-commerce platforms have created additional competition and cost to what previously existed in a traditional retail context. Retail outlets must now incur expenses in connection with growing both their digital and brick-and-mortar presences. These costs are being driven down to suppliers with increased listing fees, sales fees and margin requirements from retailers. Consumers now regularly default to digital platforms for more assortment and better pricing. This continued pressure from digital retailers is causing store closures, especially from the small independent operator and this impacts some of the Company's distribution points.

Environmental, Social and Governance (ESG) Legislation and Climate-Related Disclosures

Environmental legislation has evolved in a manner that has resulted in stricter standards and enforcement, larger fines and liability for non-compliance and increased capital expenditures and operating costs. The environmental issues affecting the Company's operations include extended producer responsibility on plastics and packaging, electricity consumption, fossil fuel use in the transport of goods, air pollution laws and regulations, regulations relating to climate change, hazardous waste regulation, and restrictions against greenhouse gas emissions. The discharge of pollutants into the air, soil or water may give rise to liabilities to governments and third parties and may require the Company to incur costs to remedy such discharge. No assurance can be given that environmental laws will not result in a curtailment of production or a material increase in the costs of production activities that could adversely affect the Company's financial condition, results of operations or prospects. Changes in legislation, including carbon taxes and the implementation of other greenhouse gas reduction initiatives and regulations related to transitioning to a low-carbon and more climate resilient future, could result in additional costs which could have a negative impact on the Company's financial performance if the Company is not able to identify offsetting cost reductions and efficiencies.

The Company must also manage a number of social and governance-related matters in order to safeguard the sustainability of its operations and the interests of its stakeholders. Such matters include ensuring product quality and safety, ethical testing and selling practices, accurate and complete product labelling, and supply chain management and oversight to ensure that the Company's suppliers are complying with the ethical standards and code of conduct set out by the Company. The Company's failure to implement appropriate oversight practices to ensure the foregoing, particularly as the Company's operations continue to grow, may result in legal and financial liability for the Company, lasting impacts on the Company's stakeholders, and subsequent long-term impact on the Company's operations. Please also see "Product Liability" and "Product Recalls" in this "Risks and Uncertainties" section for further information.

Global Economic Conditions

An economic downturn of global capital markets has been shown to make the raising of capital by equity or debt financing more difficult, and in general, negatively impacts overall share prices and market conditions. Global equity markets have experienced significant volatility and weakness as a result of COVID-19. Such volatility and weakness in the global economy and equity markets more specifically may adversely affect the Company's ability to raise necessary capital.

In addition to the above, the Company is also subject to the following risks and uncertainties that can significantly affect its financial condition and future operations. The following risk factors are described in greater detail under the heading "Risks and Uncertainties" in the Company's Annual Information Form dated March 2, 2021, for the year ended June 30, 2020, available under the Company's profile at www.sedarplus.com, and such risk factors are hereby incorporated by reference into this document and should be reviewed in detail by all readers:

- industry competition;
- additional financing;
- access to capital;
- history of net losses;
- credit, liquidity, interest, currency and commodity price risk;
- the Company's actual financial position and results of operations may differ materially from the expectations of the Company's management;
- requirement to generate cash flow for financial obligations;
- profitability of the Company;
- ongoing costs and obligations;
- general business risk and liability;
- new well-capitalized entrants may develop large-scale operations;
- share price volatility;
- reliance on key inputs;
- reliance on facilities;
- results of future clinical research;
- holding company status;
- limited operating history;
- unfavourable publicity on consumer perception;

- product liability;
- product recalls;
- third -party transportation;
- management of growth;
- acquisition strategy risks;
- reliance on management;
- conflicts of interest;
- principal security holder;
- dividends;
- limited market for securities;
- litigation;
- perceived reputational risk for third parties;
- intellectual property;
- political and economic instability;
- ability to establish and maintain bank accounts;
- global economy risk;
- research and development;
- shelf life of inventory;
- maintenance of effective quality control system;
- scheduled maintenance, unplanned repairs, equipment outages and logistical disruptions;
- logistical disruptions;
- client risks;
- no minimum orders;
- distribution risks;
- lack of long-term client commitment risk;
- risk as a result of international expansions;
- operations in foreign jurisdictions;
- reliance upon international advisors and consultants;
- significant sales of common shares;
- analyst coverage;
- tax risks;
- tax issues;
- reliance on partner licences;
- general regulatory risks;
- packaging and labelling;
- advertising;
- restrictions on marketing;
- breaches of security;
- foreign jurisdiction risks;
- competition;
- product liability;

- product recalls;
- operating risk and insurance coverage;
- results of future clinical research;
- dependence on suppliers, manufacturers and contractors;
- co-investment risk;
- difficulty to forecast and reliability of data;
- competition from synthetic production and technological advances; and
- fraudulent or illegal activity by employees, contractors and consultants.

CRITICAL ACCOUNTING JUDGEMENTS AND ESTIMATES

The preparation of the consolidated financial statements requires management to make judgments and estimates and form assumptions that affect the reporting amounts of assets and liabilities at the date of the consolidated financial statements and reporting amounts of revenues and expenses during the reporting period. On an ongoing basis, management evaluates its judgments and estimates in relation to assets, liabilities, revenue, and expenses. Management uses historical experience and various other factors it believes to be reasonable under the given circumstances as the basis for its judgments and estimates. Actual outcomes may differ from these estimates under different assumptions and conditions.

A detailed summary of all of the Company's significant accounting policies is included in Note 2 to the Annual Financial Statements.

Areas that often require significant management estimates and judgement include biological assets and inventory, the estimated useful lives and depreciation of property, plant and equipment, the estimated useful lives and amortization of intangible assets, goodwill, share-based compensation, warrants, accruals, provisions and the determination of the functional currency. The following is an outline of the estimates that the Company considers as critical in the preparation of its consolidated financial statements:

- Inventory is valued at the lower of cost and net realizable value. Determining net realizable value requires the Company to make assumptions about estimated selling prices in the ordinary course of business and the estimated variable costs to sell. Determining cost requires the Company to make estimates surrounding capacity and to allocate both direct and indirect costs on a systematic basis.
- The assessment of any impairment on property, plant and equipment, right-of-use asset and intangible assets is dependent upon estimates of recoverable amounts. As the recoverable amount is the higher of fair value less costs of disposal and value in use, management must consider factors such as economic and market conditions, estimated future cash flows, discount rates and asset specific risks.
- Depreciation and amortization of property, plant and equipment and intangible assets are dependent upon estimates of useful lives and when the asset is available for use, which are determined through the exercise of judgment. The assessment of the useful lives and when the asset is available for use is dependent upon estimates that take into account factors such as economic and market conditions, frequency of use, anticipated changes in laws and technological improvements.
- In calculating share-based compensation expense, the Company includes key estimates such as the rate of forfeiture of options granted, the expected life of the option, the volatility of the Company's share price, and the risk-free interest rate.
- Deferred tax assets, including those arising from tax loss carry-forwards, require management to assess the likelihood that the Company will generate sufficient taxable earnings in future periods in order to utilize recognized deferred tax assets. Assumptions about the generation of future taxable profits depends on management's estimates of future cash flows. In addition, future changes in tax laws could limit the ability of the Company to obtain tax deductions in future periods. To the extent that future cash flows and taxable income differ significantly from estimates, the ability of the Company to realize the net deferred tax assets recorded at the reporting date could be impacted.

CHANGES IN ACCOUNTING POLICIES INCLUDING INITIAL ADOPTION

The Company has not adopted any new standards in fiscal 2023. The Company is evaluating the impact of standards and interpretations that have been issued, but are not yet effective, up to the date of issuance of the consolidated financial statements. The adoption of these standards and interpretations are not expected to have a material impact on the consolidated financial statements.

MANAGEMENT'S RESPONSIBILITY FOR FINANCIAL STATEMENTS

Information provided in this MD&A, including the consolidated financial statements, is the responsibility of management. In the preparation of these consolidated financial statements, estimates are sometimes necessary to make a determination of future value or certain assets or liabilities. Management believes such estimates have been based on careful judgments and have been properly reflected in the accompanying consolidated financial statements. Management maintains a system of internal controls to

provide reasonable assurance that the Company's assets are safeguarded and to facilitate the preparation of relevant and timely information.

MANAGEMENT'S REPORT ON DISCLOSURE CONTROLS AND PROCEDURES

The Company's disclosure controls and procedures are designed to provide reasonable assurance that information required to be disclosed in the Company's filings under securities legislation is recorded, processed, summarized and reported within the time periods specified in securities legislation.

Management of the Company has established processes to provide them sufficient knowledge to support representations that they have exercised reasonable diligence that (i) the consolidated financial statements do not contain any untrue statement of material fact or omit to state a material fact required to be stated or that is necessary to make a statement not misleading in light of the circumstances under which it is made, as of the date of and for the years presented by the consolidated financial statements; and (ii) the consolidated financial statements fairly present in all material respects the financial condition, results of operations and cash flows of the Company, as of the date of and for the years presented. There have been no significant changes in the Company's disclosure controls and procedures, and management has not identified any material weaknesses in its disclosure controls and procedures during the year ended June 30, 2023.

LIMITATIONS OF CONTROLS AND PROCEDURES

The Company's management, including the Chief Executive Officer and the Chief Financial Officer, believe that any system of controls and procedures over financial reporting and disclosure, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. Further, the design of a control system must reflect the fact that there are resource constraints, and the benefits of controls must be considered relative to their costs. Because of the inherent limitations in all control systems, they cannot provide absolute assurance that all control issues and instances of fraud, if any, within the Company have been prevented or detected. These inherent limitations include the realities that judgments in decision-making can be faulty, and that breakdowns can occur because of simple error or mistake. Additionally, controls can be circumvented by the individual acts of some persons, by collusion of two or more people, or by unauthorized override of the control. The design of any system of controls also is based in part upon certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions. Accordingly, because of the inherent limitations in a cost-effective control system, misstatements due to error or fraud may occur and not be detected.
