1. Business of the Company

Minsud Resources Corp. (the "Company") was incorporated under the Ontario Business Corporations Act on October 11, 2007 and is a publicly listed company on the TSX Venture Exchange under the symbol "MSR". The registered office is located at 340 Richmond Street West, Toronto Ontario.

The Company is in the process of exploring its mineral resource properties located in Argentina. To date, the Company has not earned significant revenues and is considered to be in the exploration stage. The realization of amounts shown for resource properties is dependent upon the discovery of economically recoverable reserves, the ability of the Company to obtain the necessary financing to develop these properties and generate future profitable operations or proceeds of disposition from these properties.

2. Basis of Presentation and Going Concern

a) Statement of Compliance

The Company's condensed interim consolidated financial statements have been prepared in accordance with IAS 34, "Interim Financial Reporting." These condensed interim consolidated financial statements should be read in conjunction with the Company's audited consolidated financial statements for the year ended December 31, 2021, which were prepared with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") and interpretations issued by the IFRS Interpretations Committee. These condensed interim consolidated financial statements have been prepared following the same accounting policies used in the preparation of the Company's audited consolidated financial statements for the year ended December 31, 2021, and were approved by the Board of Directors of the Company on November 28, 2022.

b) Basis of Consolidation

These consolidated financial statements include the accounts of the Company, its wholly-owned subsidiary, Minsud Argentina Inc ("MAI"), and MAI's subsidiary Minera Sud Argentina S.A. ("MSA").

MAI acquired 10,309,400 of the 10,852,000 outstanding common shares of MSA at May 10, 2011, representing a 95% ownership interest in MSA. The Company entered into a put and call option agreement with respect to the remaining 542,600 shares of MSA (representing 5% of the total number of issued and outstanding shares of MSA) which includes an irrevocable covenant to not divest or encumber such shares. The put and call option agreement allows the remaining 542,600 shares of MSA to be exchanged for 790,000 common shares of the Company at the option of either party.

As at September 30 2022, MAI held 144,951,699 (December 31, 2021 - 144,951,699) of the 145,494,299 (December 31, 2021 - 145,494,299) outstanding common shares of MSA, representing an ownership interest of 99.63% (December 31, 2021 - 99.63%). As at September 30, 2022 and December 31, 2021, the 542,600 shares of MSA not owned by MAI represented a non-controlling interests of 0.37% for both periods.

2. Basis of Presentation and Going Concern (continued)

b) Basis of Consolidation (continued)

Consolidation of an investee begins when the Company obtains control over the subsidiary and ceases when the Company loses control of the subsidiary. Control is achieved when the Company is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Specifically, the Company controls an investee if and only if the Company has:

- Power over the investee (i.e. existing rights that give it the current ability to direct the relevant activities of the investee)
- Exposure, or rights, to variable returns from its involvement with the investee; and
- The ability to use its power over the investee to affect its returns

Generally, there is a presumption that ownership of a majority of voting rights results in control. To support this presumption, and when the Company has less than a majority of the voting or similar rights of an investee, the Company considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- The contractual arrangement(s) with the other vote holders of the investee
- Rights arising from other contractual arrangement(s); and
- The Company's voting rights and potential voting rights

The Company re-assesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control.

Profit or loss and each component of other comprehensive income (OCI) are attributed to the equity holders of the parent of the Company and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance. When necessary, adjustments are made to the financial statements of subsidiaries to align their accounting policies with the Company's accounting policies. All inter-company assets and liabilities, equity, income, expenses and cash flows relating to intercompany transactions are eliminated in full on consolidation.

2. Basis of Presentation and Going Concern (continued)

c) Going Concern

The Company has not yet established whether its mineral properties contain resources or reserves that are economically recoverable. The recovery of amounts capitalized as mineral properties is dependent upon the discovery of economically recoverable resources or reserves, the ability of the Company to arrange appropriate financing to complete the development of properties, and upon future profitable production, or alternatively, upon the Company's ability to dispose of its interests on an advantageous basis, all of which are uncertain.

The Company's ability to continue as a going concern is dependent upon, but not limited to, its ability to raise financing necessary to fund its exploration programs, maintain its mineral properties concession rights and exploration agreements with purchase options, discharge its liabilities as they become due and generate positive cash flows from operations.

These consolidated financial statements are prepared on the basis of accounting principles applicable to a going concern, which assumes that the Company will continue in operation for the foreseeable future and will be able to realize its assets and discharge its liabilities in the normal course of business for the foreseeable future. The Company has not generated revenue from operations. During the period ended September 30, 2022, the Company incurred a net loss of \$2,101,463 (2021 - \$154,438) and as of that date, the Company's deficit was \$13,003,858 (December 31, 2021 - \$10,907,745). As at September 30, 2022, the Company has current assets of \$5,050,862 (December 31, 2021 - \$3,189,421) and current liabilities of \$1,098,598 (December 31, 2021 - \$1,099,676). The Company has working capital of \$3,952,264 as at September 30, 2022 (December 31, 2021 - \$2,089,745).

On March 11, 2020, the World Health Organization categorized COVID-19 as a pandemic. The potential economic effects within the Company's environment and in the global markets, possible disruption in supply chains, and measures being introduced at various levels of government to curtail the spread of the virus (such as travel restrictions, closures of non-essential municipal and private operations, imposition of quarantines and social distancing) could have a material impact on the Company's operations. The extent of the impact of this outbreak and related containment measures on the Company's operations cannot be reliably estimated at the date these consolidated financial statements.

The prices of metals and minerals fluctuate widely and are affected by many factors outside of the Company's control. The prices of metals and minerals and future expectation of such prices have a significant impact on the market sentiment for investment in mining and mineral exploration companies. This in turn may impact the Company's ability to raise equity financing for its long-term working capital requirements.

The above noted events and conditions give rise to a material uncertainty that may cast significant doubt about the Company's ability to continue as a going concern. These consolidated financial statements do not give effect to adjustments that may be necessary, should the Company be unable to continue as a going concern. If the going concern assumption was not used then the adjustments required to report the Company's assets and liabilities at liquidation values could be material to these consolidated financial statements.

3. Significant Accounting Policies

The accounting policies are consistent with those of the Company's audited consolidated financial statements for the year ended December 31, 2021.

4. Significant Accounting Judgments, Estimates and Assumptions

The preparation of these condensed interim consolidated financial statements in conformity with IFRS requires management to make estimates, assumptions and judgments with respect to future events. These estimates and judgments are based on past experience and other factors, in particular, forecasts of future events that are reasonable in the circumstances. The actual results are likely to differ from the estimates, assumptions and judgments made by management.

The following paragraphs describe the most critical management estimates and assumptions in the recognition and measurement of assets, liabilities and expenses and the most critical management judgments in applying accounting policies.

Estimates

i) Share-based payments and fair value of warrants

The estimate of share-based payment and the fair value of warrants requires the selection of an appropriate valuation model and consideration as to the inputs necessary for the valuation model chosen. The Company has made estimates as to the volatility of its own shares, the expected life of options and expected extinguishments. The model used by the Company is the Black-Scholes option pricing model. Changes in the subjective input assumptions, such as the expected price volatility, can materially affect the fair value estimate.

Critical Judgments

i) Impairment of mineral properties

Mineral properties are tested for impairment when events or changes in circumstances indicate that the carrying amount may not be recoverable. When an indicator of impairment is identified, the Company determines the recoverable amount of the mineral property, which is the higher of an asset's fair value less costs of disposal or value in use. An impairment loss is recognized if the carrying value exceeds the recoverable amount. The recoverable amount of a mineral property may be determined by reference to estimated future operating results and discounted net cash flows, current market valuations of similar properties or a combination of the above. In undertaking this review, management of the Company is required to make significant estimates of, amongst other things: reserve and resource amounts, future production and sale volumes, forecast commodity prices, future operating, capital and reclamation costs to the end of the mine's life and current market valuations from observable market data which may not be directly comparable. These estimates are subject to various risks and uncertainties, which may ultimately have an effect on the expected recoverable amount of a specific mineral property asset. Changes in these estimates could have a material impact on the carrying value of the mineral property amounts and the impairment losses recognized.

4. Significant Accounting Judgments, Estimates and Assumptions (continued)

Critical Judgments (continued)

ii) Deferred tax assets and liabilities

Deferred tax assets and liabilities are measured using enacted or substantively enacted tax rates expected to apply when the temporary differences between accounting carrying values and tax basis are expected to be recovered or settled. The determination of the ability of the Company to utilize tax loss carry forwards and other deferred tax assets to offset deferred tax liabilities requires management to exercise judgment and make certain assumptions about the future performance of the Company. Management is required to assess whether it is probable that the Company will benefit from these prior losses and other deferred tax assets. Changes in economic conditions, commodity prices and other factors could result in revisions to the estimates of the benefits to be realized or the timing of utilizing the losses.

iii) Going Concern

The assessment of the Company's ability to continue as a going concern and to raise sufficient funds to pay its ongoing operating expenditures, meet its liabilities for the ensuing year, and to fund planned and contractual exploration programs involves significant judgment based on historical experience and other factors, including expectation of future events that are believed to be reasonable under the circumstances.

iv) Functional currency of foreign subsidiaries

Management uses its judgment to determine the functional currency that most faithfully represents the economic effects of the underlying transactions, events and conditions. As part of this approach, management gives priority to indicators like the currency that mainly influences costs and the currency in which those costs will be settled and the currency in which funds from financing activities are generated. Management also assesses the degree of autonomy the foreign operation has with respect to operating activities.

v) Hyper-inflationary accounting

The Company has designated Argentina as a hyper-inflationary economy and has therefore employed the use of the hyper-inflationary accounting to consolidate and report MSA. The determination of whether an economy is hyper-inflationary requires the Company to make certain estimates and judgments, such as an assessment of historic inflation rates and anticipation of future trends. In addition, the application of hyperinflationary accounting requires the selection and use of price indices to estimate the impact of inflation on the non-monetary assets and liabilities, and results of operations of the Company. The selection of price indices is based on the Company's assessment of various available price indices on the basis of reliability and relevance. Changes in estimates may significantly impact the carrying value of nonmonetary assets or liabilities, and results of operations, which are subject to hyper-inflationary adjustments, and the related gains and losses within the other comprehensive income.

4. Significant Accounting Judgments, Estimates and Assumptions (continued)

Critical Judgments (continued)

vi) *Deferred exploration recoveries*

Management considered the facts and circumstances surrounding the receipt of deferred exploration recoveries (note 13), in determining that it represents a liability to the Company. The payment represents a portion of the funding that will form the consideration for South32 Aluminium (Holdings) Pty Ltd's ("South32") investment in MSA, should South32 exercise its right to acquire a 50.1% direct interest in MSA. In management's view, as the Company continues to operate the Chita Valley Project, this payment for the future sale of a controlling interest in MSA is considered to be a present obligation of the Company.

Chita Property

On September 28, 2006, the Company, through MSA, entered into an Exploration Agreement (the "Chita Agreement") including a Purchase Option to purchase a 100% ownership interest in the mining properties pursuant to certain terms and conditions, with the owners of the mining properties identified as Proyecto Chita in the Chita Valley, in the Province of San Juan, Argentina. The Chita Property includes the Chita I, II, III, IV, V and VI mining concessions, as well as the Romina, Lucrecia and Mabel mining concessions.

On August 3, 2012, the Company exercised its Purchase Option to acquire a 100% interest in the Chita Property in exchange for a series of cash payments totaling US\$420,000. On September 12, 2012, the ownership interest in the Chita Property was transferred to the Company and registered by the Ministry of Mines in San Juan Province.

On September 12, 2017, the Company made the final payment pursuant to the Purchase Option resulting in a 100% ownership interest in the Chita Property.

During the period ended September 30, 2022, the Company announced an agreement with San Juan Mining S.A. to acquire a mineral property named "Mina Gabriela" located in the central area of the Chita property, in San Juan Province, Argentina. Under the terms of the Transfer Agreement, Minsud acquired 100% of Mina Gabriela's rights for a cash purchase price of US\$ 30,000. The "Mina Gabriela" property has an area of 30 hectares which is within and overlapping the Chita property.

Brechas Vacas Property

On September 7, 2007, MSA entered into an exploration agreement including a purchase option (the "Initial Brechas Vacas Agreement") with the owners of the mining properties (the "Brechas Vacas owners") identified as Proyecto Brechas Vacas, located in the Chita Valley, in the Province of San Juan, Argentina (the "Brechas Vacas property"). In addition to the exploration rights, the Brechas Vacas owners granted to MSA, an irrevocable and exclusive option to purchase a 50% ownership interest in the property.

6. Mineral Properties (continued)

Brechas Vacas Property (continued)

On September 6, 2011, MSA exercised its option to purchase a 50% ownership interest in the Brechas Vacas property for consideration of US\$210,000. Subsequent to exercising this option, the ownership of the Brechas Vacas property was transferred by the Brechas Vacas owners to the Brechas Vacas Trust and MSA simultaneously acquired a 50% beneficial interest in the Brechas Vacas Trust. The remaining 50% beneficial interest in the Brechas Vacas Trust held by the Brechas Vacas owners was subject to a new exclusive and irrevocable purchase option agreement (the "BV Option Agreement") dated January 3, 2012 granted in favour of MSA, and amended on December 19, 2013, June 24, 2016 and June 24, 2019. The option under the BV Option Agreement can be exercised by MSA at any time on or before June 26, 2022 and provides MSA with an irrevocable and exclusive right to purchase the remaining 50% beneficial interest in the Brechas Vacas Trust in exchange for a cash payment of US\$735,000 in addition to the exclusive right to evaluate, prospect and explore the Brechas Vacas property.

On October 7, 2021, the Company, through MSA, has exercised its option to purchase the remaining 50% beneficial interest in the Brechas Vacas Trust, and has become the indirect owner of 100% of the Brechas Vacas property. The Brechas Vacas property represents one of the main properties in the Company's flagship Chita Valley Project. MSA has paid the required sum of US\$735,000 to the Brechas Vacas owners representing the price to fully exercise the option, which was settled in Argentinean pesos.

The Brechas Vacas owners will retain a 0.6% Net Smelter Return ("NSR") royalty on the Brechas Vacas property with the Company having the option to purchase 0.3% of the 0.6% NSR royalty, at any time, for a one-time payment of US\$400,000.

As at September 30, 2022, the Company had made aggregate cash payments totaling US\$1,925,000 (\$2,300,752) (December 31, 2021 - US\$1,925,000 (\$2,300,752)) and issued 629,000 common shares of the Company.

Minas de Pinto Property

On May 7, 2010, the Company, through MSA, entered into an Exploration Agreement including a Purchase Option (the "Initial Minas de Pinto Agreement") with the owners of the mining properties identified under the name of Proyecto Minas de Pinto, located in the Chita Valley in the Province of San Juan, Argentina. Included in Proyecto Minas de Pinto are the Arqueros, Don Marcos, Estrellita, Paulita, Paulita II, Pierina II, Pierina III, San Pablo, and San Urbano mining concessions.

Pursuant to the Minas de Pinto Agreement, the owners granted to the Company the irrevocable and exclusive right to evaluate, prospect and explore the properties using any method, and at the Company's sole discretion. In addition to the exploration rights, the owners granted to the Company an irrevocable and exclusive option to purchase a 100% ownership interest in the properties pursuant to certain terms and conditions stated in the Minas de Pinto Agreement. The Company made aggregate payments of US\$252,500 by the respective due dates in accordance with the Minas de Pinto Agreement.

6. Mineral Properties (continued)

Minas de Pinto Property (continued)

On April 22, 2014, the Minas de Pinto Owners settled the Minas de Pinto Trust and transferred 100% of the mineral properties governed by the Minas de Pinto agreement to the Minas de Pinto Trust. The Company acquired a 50% interest in the Minas de Pinto Trust for total consideration of US\$412,500 with the first payment due upon signing and the final payment due May 7, 2018.

The remaining 50% beneficial interest in the Minas de Pinto Trust held by the Minas de Pinto Owners was subject to a new exclusive and irrevocable purchase option agreement (the "Option") granted in favour of MSA. The Option provides MSA with an irrevocable and exclusive right to purchase the remaining 50% beneficial interest in the Minas de Pinto Trust in addition to the exclusive right to evaluate, prospect and explore the Minas de Pinto properties for consideration of US\$1,335,000 payable at any time on or before May 7, 2019.

On May 8, 2017, the Company and the Minas de Pinto Owners signed an addendum to extend the period in which the Company can acquire the remaining 50% beneficial interest by exercising the Option prior to November 7, 2020. The addendum modified the payment schedule and increased the total amount to be paid to US\$417,500.

On May 4, 2020, MSA entered into a Transfer Agreement, pursuant to which MSA acquired an additional 15% interest in the Minas de Pinto Trust in exchange for aggregate cash payments of US\$400,000, payable in eight semi-annual payments of US\$50,000 starting on May 7, 2020 until November 7, 2023. Furthermore, the parties entered into a second addendum to the Option, which would allow MSA to purchase the remaining 35% interest in the Minas de Pinto Trust by paying US\$935,000 on or before April 7, 2024.

The following table summarizes the payments made and outstanding related to the Minas de Pinto property:

	\$US	Status
Initial Exploration Agreement	\$ 252,500	Paid
Minas de Pinto Trust- 50% interest	417,500	Paid
Minas de Pinto Trust- 15% interest	250,000	Paid
Minas de Pinto Trust- 15% interest	150,000	Outstanding

During the year ended December 31, 2021, 4,180,000 warrants were exercised for proceeds of \$627,000 and 5,349,000 warrants expired un-exercised.

9. Stock Option Plan

On November 29, 2011 a new form of stock option plan (the "2011 Plan") was approved by the shareholders at the annual and special meeting of shareholders held that day. The 2011 Plan is a rolling stock option plan. Options to purchase up to 10% of the total number of Company Shares issued and outstanding at the date of any grant are issuable pursuant to the 2011 Plan. The 2011 Plan is a rolling plan as the number of options which may be granted pursuant to the 2011 Plan will increase as the number of the Company's shares, which are issued and outstanding, increases. If an option expires or is otherwise terminated for any reason, the number of the Company's shares in respect of that expired or terminated option shall again be available for the purposes of the 2011 Plan. Pursuant to the policies of the Exchange, the shareholders of the Company are required to approve on a yearly basis stock option plans which have a rolling plan ceiling. Options issued under the 2011 Plan are non-assignable and non-transferable and may be granted for a term not exceeding ten years. The 2011 Plan is administered by the Company's board of directors (the "Board of Directors") or a committee established by the Board of Directors for that purpose (the "Committee"). The 2011 Plan may be amended, subject to applicable regulatory and shareholder approval, or terminated by the Board of Directors or the Committee at any time, but such amendment or termination will not alter the terms or conditions of any option awarded prior to the date of such amendment or termination. Any option outstanding when the 2011 Plan is amended or terminated will remain in effect until it is exercised or expires or is otherwise terminated in accordance with the provisions of the 2011 Plan. The 2011 Plan provides that other terms and conditions, including vesting provisions, may be attached to a particular stock option at the discretion of the Board of Directors or the Committee, provided that, if required by any stock exchange on which the shares of the Company trades, options issued to consultants which provide investor relations activities must vest in stages over not less than 12 months with no more than one-quarter of the options vesting in any three-month period. All option grants are to be evidenced by the execution of an option agreement between the Company and the optionee which shall give effect to the provisions of the 2011 Plan. Options may be granted under the 2011 Plan only to directors, officers, employees and other service providers of the Company subject to the rules and regulations of applicable regulatory authorities and any Canadian stock exchange upon which the Company's shares may be listed or may trade from time to time.

9. Stock Option Plan (continued)

The aggregate number of the Company's shares which may be reserved for issuance to any one individual under the 2011 Plan within any 12 month period shall not exceed 5% of the Company's shares issued and outstanding at the date of the grant (on a non-diluted basis). Further, the aggregate number of the Company's shares which may be reserved for issuance under the 2011 Plan: (a) to any consultant to the Company shall not exceed 2% of the number of the Company's shares issued and outstanding on the date of the grant (on a non-diluted basis) and (b) to all employees or consultants who provide investor relations activities shall not exceed 2% of the number of the Company's shares issued and outstanding on the date of the grant (on a non-diluted basis). In the event an optionee ceases to be a service provider or employee of the Company (other than by reason of death), the vested stock options will expire on the earlier of the expiry date stated in the option agreement executed in respect of such grant and one year following the date of termination. In the event of death of an optionee, all options will be automatically exercisable by the personal representatives of the optionee within, but only within, the period of one year next succeeding the optionee's death and prior to the expiry date of the option, whichever is sooner. The price at which an optionee may purchase a Company's share upon the exercise of an option will be as set forth in the option agreement executed in respect of such option and, in any event, will not be less than the market price of the Company's shares as of the date of the grant of the stock option (the "Grant Date") less any discounts from the market price allowed by the Exchange, subject to a minimum exercise price of \$0.10. The market price of the Company's shares means the closing price on the last trading day immediately preceding the Grant Date. The Company's shares will not be issued pursuant to options granted under the 2011 Plan until they have been fully paid for.

9. Stock Option Plan (continued)

During the period ended September 30, 2022:

- a) the Company granted 3,060,000 incentive stock options, of which 2,480,000 were granted to directors and officers of the Company. The options are exercisable at a price of \$0.30 per share, all of which shall vest as to one-quarter on February 11, 2022, one quarter on August 11, 2022, one-quarter on February 11, 2023, and one quarter on August 11, 2023, and shall be exercisable for a period of five years from the date of issuance.

The fair value of these options was estimated at the grant date based on the Black-Scholes option pricing model, using the following weighted average assumptions:

Expected dividend yield	Nil
Risk-free interest rate	1.70%
Expected life	5.0 years
Expected volatility	104%*
Share price	\$0.24
Exercise price	\$0.30

*Based on volatility of comparable companies

The fair value of the stock options of \$540,824 was estimated using the Black-Scholes option pricing model as the fair value of the services received could not be reliably measured.

During the year ended December 31, 2021:

- b) the Company granted 539,000 incentive stock options to certain officers of the Company. The options are exercisable at a price of \$0.15 per share, all of which shall vest as to one-quarter on February 12, 2021, one quarter on August 12, 2021, one-quarter on February 12, 2022, and one quarter on August 12, 2022, and shall be exercisable for a period of five years from the date of issuance.

On March 26, 2021, the Chief Operating Officer of MSA resigned, resulting in the expiry of 92,250 of the options granted during the year. During the period ended March 31, 2022, 30,750 of the Chief Operating Officer's options expired unexercised.

The fair value of these options was estimated at the grant date based on the Black-Scholes option pricing model, using the following weighted average assumptions:

Expected dividend yield	Nil
Risk-free interest rate	0.25%
Expected life	5.0 years
Expected volatility	103%*
Share price	\$0.06
Exercise price	\$0.15

*Based on volatility of comparable companies

The fair value of the stock options of \$20,815 was estimated using the Black-Scholes option pricing model as the fair value of the services received could not be reliably measured.

All related party transactions were in the normal course of operations. Amounts owing to related parties are non-interest bearing and have no repayment terms.

11. Financial Instruments

Fair Values

The carrying amounts for the Company's cash and cash equivalents, accounts payable and accrued liabilities, other liabilities, and trust acquisition payable approximate their fair values because of the short-term nature or immaterial interest rate risk of/for these items.

The Company's risk exposures and the impact on the Company's financial instruments are summarized below:

Credit Risk

Credit risk is the risk that one party to a financial instrument will fail to meet its obligations and cause a financial loss. The Company is not exposed to any significant credit risk as at June 30, 2022. The Company's maximum exposure is limited to its cash and cash equivalents as presented in the consolidated statements of financial position. The Company's cash and cash equivalents are on deposit with highly rated financial institutions in Canada and Argentina.

Liquidity Risk

Liquidity risk is the risk that an entity will not be able to meet its financial obligations as they come due. The Company's approach to managing liquidity risk is to ensure that it will have sufficient liquidity to meet liabilities when due. As at September 30, 2022, the Company has current assets of \$5,050,862 (December 31, 2021 - \$3,189,421) and current liabilities of \$1,098,598 (December 31, 2021 - \$1,099,676). The Company has a working capital balance as at September 30, 2022 of \$3,952,264 (December 31, 2021 - \$2,089,745). All of the Company's current financial assets and liabilities, with the exception of the current portion of trust acquisition payable, have contractual maturities of less than 30 days and are subject to normal trade terms.

11. Financial Instruments (continued)

Market Risk

Market risk is the risk that changes in market prices and interest rates will affect the Company's net earnings or the value of financial instruments. These risks are generally outside the control of the Company. The objective of the Company is to mitigate market risk exposures within acceptable limits, while maximizing returns. In order to mitigate these risks, the Company invests in financial instruments with carrying maturities and interest rates based on the Company's expected working capital requirements. The Company's market risk consists of risks from changes in foreign exchange rates, interest rates and market prices that affect its financial liabilities, financial assets and future transactions.

Interest rate risk

Interest rate risk is the risk that the fair value of future cash flows from a financial instrument will fluctuate due to changes in market interest rates. The Company has significant cash and cash equivalents balances and it has no interest-bearing debt. The Company's exposure to interest rate risk is minimal as it does not hold any investments or debt that is subject to interest rate fluctuations.

Foreign currency risk

Foreign currency risk is the risk that the fair value of future cash flows from the Company's operations will fluctuate due to changes in foreign exchange rates. The Company has cash and cash equivalents and accounts payable and accrued liabilities denominated in Argentinean Pesos (AR\$). The carrying value of these items may change due to fluctuations in foreign exchange rates. The Company's obligations pursuant to the various mineral property agreements are denominated in United States Dollars (US\$). As the Company ordinarily raises capital through the issuance of common shares and warrants in Canadian Dollars, the Company is exposed to risk due to fluctuations in the foreign exchange rate between the United States Dollar and the Canadian Dollar and between the Argentinean Peso and the United States Dollar.

Sensitivity Analysis

As at September 30, 2022, cash and cash equivalents includes AR\$1,856,985 and US\$2,401,539, other receivables includes AR\$97,044,365, accounts payable and accrued liabilities includes AR\$80,245,368 and trust acquisition payable includes US\$150,000.

At September 30, 2022, if the Canadian Dollar had weakened (strengthened) 10 percent against the United States Dollar with all other variables held constant, the net loss for the year would have been (\$308,618) higher (lower). If the Canadian Dollar had weakened (strengthened) 10 percent against the Argentinean Peso with all other variables held constant, the net loss for the year would have been \$17,481 lower (higher). If the Canadian Dollar had weakened (strengthened) 10 percent against the Argentinean Peso with all other variables held constant, the other comprehensive loss for the year would have been \$2,552,762 lower (higher).

12. Commitments

On January 25, 2021, the services agreement with the Vice-President (Exploration) was renewed for a monthly fee of US\$3,500 until January 24, 2022.

During the period ended September 30, 2022, the service agreement with the Vice-President (Exploration) was renewed for a monthly fee of US\$3,500 until January 25, 2023.

Additional commitments related to the Company's mineral properties are disclosed in note 6.

13. South32 Limited Agreement

Earn-in Agreement

The Earn-in Agreement grants to South32 the right to acquire up to a 50.1% direct interest in MSA at the end of the earn-in period.

Under the Earn-in Agreement, South32 will provide up to \$14 million in capital contributions to MSA over a period of 4 years, as follows: (i) not less than \$3.5 million by December 31, 2020; (ii) not less than an aggregate of \$7 million by December 31, 2021; (iii) not less than an aggregate of \$10.5 million by December 31, 2022; and (iv) not less than an aggregate of \$14 million by December 31, 2023. South32 has the right to withdraw at the end of each year. Once South32 has complied with its funding obligations, South32 may exercise its right to acquire a 50.1% direct interest in MSA by electing to subscribe for 10% of MSA's shares, in consideration for its funding, and acquire the remaining 40.1% of MSA's shares from MAI for a consideration of \$14 million.

During the period ended September 30, 2022, MSA received payments translated for financial purposes at the period end exchange rate of \$9,035,839 related to the third tranche payments. As at September 30, 2022, South32 invested a total of \$13,596,720 (US\$10,506,474) (December 31, 2021 - \$8,748,480 (US\$6,766,888)) to the Earn-in Agreement. These payments have been deferred as a liability and represents a portion of the funding that will form the consideration for South32's investment in MSA, should South32 exercise its right to acquire a 50.1% direct interest in MSA as discussed above.

On February 4, 2021, South32 gave notice of its intention to fund exploration activities in 2021 as per the Earn-In Agreement. During the year ended December 31, 2021, South32 gave notice of its intention to fund the third tranche of exploration activities in 2022 per the Earn-In Agreement.

13. South32 Limited Agreement (continued)

Shareholders' Agreement

Upon the exercise of South32's right to acquire a 50.1% direct interest in MSA, the Company and South32 will sign a Shareholders' Agreement to govern the management and operation of MSA and, if warranted, further exploration, development and exploitation of the Project. The Shareholders' Agreement provides for the following phases.

Prefeasibility Study Election – "PFS funding"

South32 may undertake to complete a prefeasibility study ("PFS"), in which case it shall be entitled to subscribe for 50.1% of MSA's shares and shall have the right to acquire an additional 19.9% in MSA as described below exercisable on completion of the PFS.

If South32 has elected to fund a PFS at the end of the earn-in period, then, on or before the fifth anniversary of that election, South32 must deliver a PFS that complies with National Instrument 43-101 and CIM Definition Standards on Mineral Resources and Reserves by funding a minimum amount of \$55 million less any amount contributed during the earn-in period. Upon delivering the PFS, South32 may either elect to (i) pay to MAI \$20 million to acquire 19.9% of MSA's shares or (ii) fund a bankable feasibility study ("BFS"), in which case it shall be entitled to subscribe for 19.9% of MSA's shares (such that in either case South32 shall, following the relevant election, own 70% of MSA's shares and Minsud shall own 30% of such shares).

If South32 opts to fund neither the BFS nor to purchase MSA's shares from MAI, its ownership in MSA will be reduced to 49.0% and MAI's interest shall be 51%.

Bankable Feasibility Study Election – "BFS funding"

If South32 has elected to fund a BFS, as long as such BFS is delivered on or before the third anniversary of that election and with effect from the BFS's date of approval by the Board of Director of MSA, South32 will have the sole, exclusive and irrevocable right to subscribe for, be issued and to acquire an additional 10% of the shares of MSA such that, in aggregate, it will hold 80% of the shares. If the BFS is delivered by South32 after the date which is the fourth anniversary but on or before the fifth anniversary of such election, the additional MSA shares to be issued and subscribed or acquired by South32 will be reduced to 5%. In this case, the aggregated participation will be 75%. If the BFS is delivered by South32 after the date which is the fifth anniversary but on or before the sixth anniversary of such election, South32's interest in MSA will remain at 70%. South32 must deliver a BFS that complies with National Instrument 43-101 and the CIM Definition Standards on Mineral Resources and Reserves.

Purchase Election

If South32 has elected to purchase MSA's shares from MAI at the end of the earn-in period, each party shall be obliged to contribute to approved annual programs and budgets in proportion to its participating interest. If a party does not elect to contribute, it will be diluted on a straight-line basis. In the case that the Company is reduced to less than ten percent (10%), it will be entitled to a two percent (2%) net smelter returns royalty on the Project in exchange for its remaining interest in MSA, pursuant to the terms of a royalty agreement.

13. South32 Limited Agreement (continued)

Purchase Election (continued)

In the five years following the purchase by South32 from MAI of MSA shares (pursuant to the elections referred to above), MAI will have a one-time right, exercisable by notice to South32, to elect not to contribute to the approved annual program and budget and to suspend dilution of its equity interest in MSA for the duration of such program while it seeks a third party to acquire its interest in MSA (the "sale period"). During the sale period, South32 will contribute 100% to any approved program and budget but, should Minsud fail to find a third-party buyer for its interest, the Company will have the right to claw back its participation as at the beginning of the sale period by paying 1.5 times the amount of the funding contributed by South32 during that period. Dilution will otherwise be applied retrospectively. Any shareholder holding at least 20% participation has a right of first refusal to match any third-party proposal.

14. Subsequent Event

A subsequent event is disclosed in note 6.
