Eskay Mining Corp.

Notes to Condensed Interim Financial Statements
Three and Six Months Ended August 31, 2020
(Expressed in Canadian Dollars)
(Unaudited)

1. Nature of operations and going concern

Eskay Mining Corp. (the "Company" or "Eskay") is a Canadian company incorporated in British Columbia and listed for trading on the TSX Venture Exchange ("TSXV"), the Frankfurt Stock Exchange and the OTCQB Venture Market in the United States. The Company is primarily engaged in the acquisition and exploration of mineral properties. The primary office is located at The Canadian Venture Building, 82 Richmond Street East, Toronto, Ontario, M5C 1P1.

These unaudited condensed interim financial statements have been prepared on the basis of accounting principles applicable to a going concern, which assume that the Company will continue in operation for the foreseeable future and will be able to realize its assets and discharge its liabilities in the normal course of operations as they come due. In assessing whether the going concern assumption is appropriate, management takes into account all available information about the future, which is at least, but is not limited to, twelve months from the end of the reporting period. The Company has incurred losses in prior periods, and incurred a net loss of \$2,595,776 during the six months ended August 31, 2020 (six months ended August 31, 2019 - net loss of \$379,811) and has an accumulated deficit of \$72,099,896 (February 29, 2020 - \$69,504,120). As at August 31, 2020, the Company had a working capital surplus of \$3,054,849 (February 29, 2020 - working capital deficiency \$497,021). These matters represent material uncertainties that cast significant doubt about the ability of the Company to continue as a going concern.

On March 31, 2020, the World Health Organization declared coronavirus (COVID-19) a global pandemic. This contagious disease outbreak, which has continued to spread, has adversely affected workforces, economies, and financial markets globally, leading to an economic downturn. It is not possible for the Company to predict the duration or magnitude of the adverse results of the outbreak and its effects on the Company's business or ability to raise funds.

The Company's ability to continue to meet its obligations and carry out its planned exploration activities is uncertain and dependent upon the continued financial support of its shareholders and securing additional financing. While the Company has been successful in securing financing in the past, there is no assurance that it will be able to do so in the future. If the going concern assumption was not used then the adjustments required to report the Company's assets and liabilities on a liquidation basis could be material to these financial statements.

Although the Company has taken steps to verify title to the properties on which it is conducting exploration and in which it has an interest, in accordance with industry standards for the current stage of operations of such properties, these procedures do not guarantee the Company's title. Property title may be subject to social and government licensing requirements or regulations, unregistered prior agreements, unregistered claims, aboriginal claims, and non-compliance with regulatory and environmental requirements. The Company's mineral exploration property interests may also be subject to increases in taxes and royalties, renegotiation of contracts, and political uncertainty.

2. Significant accounting policies

Statement of compliance

The Company applies International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB"). These unaudited condensed interim financial statements have been prepared in accordance with International Accounting Standard 34, Interim Financial Reporting. Accordingly, they do not include all of the information required for full annual financial statements.

The policies applied in these unaudited condensed interim financial statements are based on IFRSs issued and outstanding as of October 23, 2020, the date the Board of Directors approved these financial statements. The same accounting policies and methods of computation are followed in these unaudited condensed interim financial statements as compared with the most recent annual financial statements as at and for the year ended February 29, 2020, except as noted below. Any subsequent changes to IFRS that are given effect in the Company's annual financial statements for the year ending February 28, 2021 could result in restatement of these unaudited condensed interim financial statements.

2. Significant accounting policies (continued)

New accounting policies adopted

IFRS 3, Business Combinations ("IFRS 3")

Amendments to IFRS 3, issued in October 2018, provide clarification on the definition of a business. The amendments permit a simplified assessment to determine whether a transaction should be accounted for as a business combination or as an asset acquisition.

The amendments are effective for transactions for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after January 1, 2020. The adoption of the amendments had no impact on the Company's unaudited condensed interim consolidated financial statements.

IAS 1, Presentation of Financial Statements ("IAS 1")

Amendments to IAS 1, issued in October 2018, provide clarification on the definition of material and how it should be applied. The amendments also align the definition of material across IFRS and other publications.

The amendments are effective for annual periods beginning on or after January 1, 2020 and are required to be applied prospectively. The adoption of the amendments had no impact on the Company's unaudited condensed interim consolidated financial statements.

IAS 8, Accounting Policies, Changes in Accounting Estimates and Errors ("IAS 8")

Amendments to IAS 8, issued in October 2018, provide clarification on the definition of material and how it should be applied. The amendments also align the definition of material across IFRS and other publications.

The amendments are effective for annual periods beginning on or after January 1, 2020 and are required to be applied prospectively. The adoption of the amendments had no impact on the Company's unaudited condensed interim consolidated financial statements.

Future accounting policies

IAS 1 Classification of Liabilities as Current or Non-Current (Amendment)

The IASB has published Classification of Liabilities as Current or Non-Current (Amendments to IAS 1) which clarifies the guidance on whether a liability should be classified as either current or non-current. The amendments:

- clarify that the classification of liabilities as current or non-current should only be based on rights that are in place "at the end of the reporting period"
- clarify that classification is unaffected by expectations about whether an entity will exercise its right to defer settlement of a liability
- make clear that settlement includes transfers to the counterparty of cash, equity instruments, other assets or services that result in extinguishment of the liability.

This amendment is effective for annual periods beginning on or after January 1, 2022 and is to be applied retrospectively. There is currently a proposal in place to extend effective date for annual periods beginning on or after January 1, 2023. Earlier application is permitted. The extent of the impact of adoption of this amendment has not yet been determined.

St. Andrew Goldfield (SIB) - Eskay Project

Pursuant to an option agreement dated May 7, 2008 and amending option agreement dated January 17, 2013 with St. Andrew Goldfields Ltd., the Company earned an 80% interest in the SIB Property at Eskay Creek, British Columbia (the "Property") by expending an aggregate of \$3.98 million on exploration of the Property and issuing further 265,000 common shares. On January 26, 2016, Kirkland Lake Gold Inc. ("Kirkland Lake") announced it completed the acquisition of St. Andrew. St. Andrew is now a wholly-owned subsidiary of Kirkland Lake and continues to hold a 20% interest in the SIB Property. St. Andrew and the Company entered into an agreement with an effective date of November 25, 2016 for the further exploration and development of the Property.

On April 26, 2017, the Company announced that it has signed an option agreement (the "Agreement") with SSR Mining Inc. (formerly Silver Standard Resources Inc.) ("SSR Mining") pursuant to which SSR Mining could acquire up to a 60% undivided interest in part of Eskay's SIB Property, located in northwest British Columbia, Canada. SSR Mining formally abandon the option on January 30, 2019 without earning any interest in the SIB Property.

SSR Mining was responsible for all deposits with the B.C Ministry of Energy and Mines in order to permit SSR Mining to conduct exploration and evaluation activities on Eskay's SIB Property. As a result, the B.C. Ministry of Energy and Mines refunded \$60,000 to the Company on August 7, 2018. On September 24, 2019, the Company entered into an agreement with SSR Mining and is now obligated to pay the sum of \$70,000 plus interest from January 30, 2019 at the prime rate of the Royal Bank of Canada plus 2% until the date of payment as reimbursement for the cash deposits made by SSR Mining. This amount is included in accounts payable and other liabilities.

These mineral exploration properties are located in northwestern British Columbia, 70 km northwest of Stewart. The Company holds a 100% interest in these mineral tenures subject to a 2% net smelter royalty.

Notes to Condensed Interim Financial Statements Three and Six Months Ended August 31, 2020 (Expressed in Canadian Dollars) (Unaudited)

8. Other liabilities

During the year ended February 28, 2017, the Company transferred \$161,105 of accounts payable (the "Statute-barred Claims") to non-current liabilities on the basis that any claims in respect of the Statute-barred Claims were statute-barred under the Limitations Act (Ontario). The Statute-barred Claims related to expenses billed by and third party liabilities incurred by prior management of the Company prior to October 2010. However, for accounting purposes under IFRS, a debt can only be removed from the Company's Statement of Financial Position when it is extinguished meaning only when the contract is discharged or canceled or expires. The effect of the Limitations Act is to prevent a creditor from enforcing an obligation but it does not formally extinguish the debt for accounting purposes. It is the position of management of the Company that the Statute-barred Claims cannot be enforced by the creditors, do not create any obligation for the Company to pay out any cash and do not affect the financial or working capital position of the Company. The Statute-barred Claims are required to be reflected on the Company's Statement of Financial Position as a result of the current interpretation of IFRS, but they are classified as long-term liabilities since the Company has no intention or obligation to pay these Statute-barred Claims and the creditors cannot enforce payment of the Statute-barred Claims. While inclusion of these items is intended solely to comply with the requirements of IFRS, the Company in no way acknowledges any of the Statute-barred Claims.
