About Fokus

Fokus Mining Corporation is a mineral resource company actively acquiring and exploring precious metal deposits located in the province of Québec, Canada. In implementing this major undertaking within the Canadian mining industry, we are determined to unlock the secret of the Galloway gold project.

The Galloway project covers an area of 2865.54 hectares and is located just north of the Cadillac-Larder Lake deformation which extends laterally for more than 100 km. Numerous gold deposits are related to that structure and its subsidiaries. The current work focuses on a small western portion of the mineral claims where several mineral occurrences have been identified. For more information, visit our website: fokusmining.com.
