NOTICE - No Independent Auditor Review of the Condensed Consolidated Interim Financial Statements

The accompanying unaudited condensed consolidated interim financial statements of HAWKEYE Gold & Diamond Inc. (the "Company" or "HAWKEYE"), for the three months ended August 31, 2018, have been prepared by management, approved by the audit committee and board of directors, and authorized for issuance on October 29, 2018. These condensed consolidated interim financial statements have not been the subject of a review by the Company's external independent auditor.

HAWKEYE GOLD & DIAMOND INC.

Notes to Consolidated Financial Statements

August 31, 2018

(Expressed in Canadian dollars)

1. Nature and Continuance of Operations

Hawkeye Gold & Diamond Inc. (the "Company") is an exploration stage company and the primary function of the business is to be engaged in the exploration for and the development of natural resources in Canada. The Company's registered office is M202 – 1985 Alberni Street, Vancouver BC, V6G 0A2.

The Company's principal business activities include the acquisition and exploration of mineral property assets. At August 31, 2018, the Company had not yet determined whether the properties contain reserves that are economically recoverable. The recoverability of amounts shown for an exploration and evaluation asset is dependent upon the discovery of economically recoverable reserves, confirmation of the Company's interest in the underlying mineral claims, the ability of the Company to obtain the necessary financing to complete the development of and future profitable production from the properties or realizing proceeds from their disposition.

The Company has an accumulated deficit of \$16,788,032 as at August 31, 2018 (2017: \$16,484,696). The Company's ability to continue its operations and to realize its assets at their carrying values is dependent upon obtaining additional financing and generating revenues sufficient to cover its operating costs. There can be no assurances that the Company will continue to obtain the additional financial resources necessary and/or achieve profitability or positive cash flows. If the Company is unable to obtain adequate financing, the Company will be required to curtail operations. All of which indicate the existence of a material uncertainty that may cast substantial doubt on whether the Company would continue as a going concern and realize its assets and settle its liabilities and commitments in the normal course of business.

These consolidated financial statements do not give effect to any adjustments which would be necessary should the Company be unable to continue as a going concern and therefore be required to realize its assets and discharge its liabilities in other than the normal course of business and at amounts different from those reflected in the accompanying consolidated financial statements.

These consolidated financial statements were approved for issuance by the Board of Directors on October 29, 2018.

2. Statement of Compliance

These consolidated financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") and interpretations of the International Financial Reporting Interpretations Committee ("IFRIC").

3. Basis of Measurement

The annual consolidated financial statements have been prepared on a historical cost basis, as modified by the revaluation of available-for-sale financial assets. The annual consolidated financial statements are presented in Canadian dollars, which is also the Company's functional currency.

The preparation of consolidated financial statements in compliance with IFRS requires management to make certain critical accounting estimates. It also requires management to exercise judgment in applying the Company's accounting policies. The areas involving a higher degree of judgement of complexity, or areas where assumptions and estimates are significant to the consolidated financial statements are disclosed in Note 4.

The accounting policies set out in Note 4 have been applied consistently by the Company to all periods presented.

HAWKEYE GOLD & DIAMOND INC.

Notes to Consolidated Financial Statements

August 31, 2018

(Expressed in Canadian dollars)

4. Significant Accounting Policies

a) Principles of consolidation

The consolidated financial statements include the accounts of the Company and its wholly-owned subsidiary company: Hawkeye Oro de Mexico S.A. de C.V. (a Mexican incorporated company) (currently inactive). All inter-company amounts have been eliminated on consolidation.

b) Cash and cash equivalents

Cash and cash equivalents comprise of highly liquid investments with original maturities of three months or less. As at May 31, 2018 and 2017 the Company had no cash-equivalents.

c) Equipment

Equipment is recorded at cost. Amortization is provided for on a declining balance basis at the following annual rates:

Computer equipment	30%
Computer software	100%
Office equipment	20%

In the year of acquisition, the rate used is one-half of that shown above.

d) Exploration and evaluation assets

(i) Pre-license expenditures

Pre-license expenditures are costs incurred before the legal rights to explore a specific area have been obtained. These costs are expensed in the period in which they are incurred as exploration and evaluation expense.

(ii) Exploration and evaluation expenditures

Once the legal right to explore has been acquired, costs directly associated with the exploration project are capitalized as either tangible or intangible exploration and evaluation assets according to the nature of the asset acquired. Such E&E costs may include undeveloped land acquisition, geological, geophysical and seismic, exploratory drilling and completion, testing, decommissioning and directly attributable internal costs. E&E costs are not depleted and are carried forward until technical feasibility and commercial viability of extracting a mineral resource is considered to be determined. The technical feasibility and commercial viability of a mineral resource is considered to be established when proved and or probable mineral reserves are determined to exist. All such carried costs are subject to technical, commercial and management review at least once a year to confirm the continued intent to develop or otherwise extract value from the exploratory activity. When this is no longer the case, impairment costs are charged to exploration and evaluation expense. Upon determination of mineral reserves, E&E assets attributed to those reserves are first tested for impairment and then reclassified to development and production assets within property, plant and equipment, net of any impairment. Expired land costs are also expensed to exploration and evaluation expense as they occur.

HAWKEYE GOLD & DIAMOND INC.

Notes to Consolidated Financial Statements

August 31, 2018

(Expressed in Canadian dollars)

4. Significant Accounting Policies (continued)

d) Exploration and evaluation assets (continued)

The Company has not established any NI 43-101 compliant proven or probable reserves on any of its mineral properties which have been determined to be economically viable.

(iii) Impairment

Exploration and evaluation assets are assessed for impairment when indicators and circumstances suggest that the carrying amount may exceed its recoverable amount. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment. Where it is not possible to estimate the recoverable amount of an individual asset, the Company estimates the recoverable amount of the cash-generating unit to which the asset belongs. The recoverable amount is the higher of fair value less costs to sell and value in use. Fair value is determined as the amount that would be obtained from the sale of the asset in an arm's length transaction between knowledgeable and willing parties. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. If the recoverable amount of an asset is estimated to be less than its carrying amount, the carrying amount of the asset is reduced to its recoverable amount and the impairment loss is recognized in the profit or loss for the period.

Industry-specific indicators for an impairment review arise typically when one of the following circumstances applies:

- Substantive expenditure for further exploration and evaluation activities is neither budgeted nor planned;
- Title to the asset is compromised, has expired or is expected to expire;
- Adverse changes in the taxation, regulatory or political environment;
- Adverse changes in variables in commodity prices and markets making the project unviable; and
- Variations in the exchange rate for the currency of operation.

Where an impairment loss subsequently reverses, the carrying amount of the asset (or cash generating unit) is increased to the revised estimate of its recoverable amount, but to an amount that does not exceed the carrying amount that would have been determined had no impairment loss been recognized for the asset (or cash-generating unit) in prior years. A reversal of an impairment loss is recognized immediately in profit or loss.

e) Share Capital

Common shares are classified as equity. Transactions costs directly attributable to the issue of common shares and share options are recognized as a deduction from equity, net of any tax effects.

f) Loss per share

Earnings per share are calculated based on the weighted average number of shares outstanding during the period. The Company follows the treasury stock method for the calculation of diluted earnings per share. Under this method, dilution is calculated based upon the net number of common shares issued should "in-the-money" options and warrants be exercised and the proceeds be used to repurchase common shares at the average market price in the year.

HAWKEYE GOLD & DIAMOND INC.

Notes to Consolidated Financial Statements

August 31, 2018

(Expressed in Canadian dollars)

4. Significant Accounting Policies (continued)

g) Share-based payments

Options and warrants granted are accounted for using the fair value method. Under this method, the fair value of stock options and warrants granted are measured at estimated fair value at the grant date and recognized over the vesting period. Consideration received on the exercise of stock options is recorded as share capital and the related contributed surplus on options granted is transferred to share capital.

The Corporation uses the Black-Scholes option pricing model to determine the fair value of these incentives taking into consideration terms and conditions upon which the options were granted. At each financial reporting date, the amount recognized as an expense is adjusted to reflect the actual number of share options that are expected to vest.

h) Warrants

Warrants issued to agents or brokers in connection with a financing are recorded at fair value and charged to issue costs associated with the offering with an offsetting credit to warrants in shareholders' equity.

The Company has adopted a residual value method with respect to the measurement of shares and warrants issued as private placement units. The residual value method first allocates value to the more easily measurable component based on fair value and then the residual value, if any, to the less easily measurable component. The fair value of the common shares issued in the placements are determined to be the more easily measurable component and were valued at their fair value, as determined by the closing price on the announcement date. The balance, if any, was allocated to the attached warrants. Any fair value attributed to the warrants is recorded as reserves.

Proceeds of the exercise of these warrants are credited to share capital together with the corresponding amount, if any, of the original warrant charge included in warrants.

i) Income taxes

Income tax on the profit or loss for the periods presented comprises current and deferred tax. Income tax is recognized in profit or loss except to the extent that it relates to items recognized in other comprehensive income of loss or directly in equity, in which case it is recognized in other comprehensive income of loss or equity.

Current tax expense is the expected tax payable on the taxable income for the year, using tax rates enacted or substantively enacted at year end, adjusted for amendments to tax payable with regards to previous years.

Deferred tax is provided using the balance sheet liability method, providing for unused tax loss carry-forwards and temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. The amount of deferred tax provided is based on the expected manner of realization or settlement of the carrying amount of assets and liabilities, using tax rates enactive or substantively enacted at the end of the reporting period applicable to the period of expected realization or settlement.

A deferred tax asset is recognized only to the extent that it is probable that future taxable profits will be available against which the asset can be utilized.

HAWKEYE GOLD & DIAMOND INC.

Notes to Consolidated Financial Statements

August 31, 2018

(Expressed in Canadian dollars)

4. Significant Accounting Policies (continued)

i) Income taxes (continued)

Additional income taxes that arise from the distribution of dividends are recognized at the same time as the liability to pay the related dividend.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same tax authority and the group intends to settle its current tax assets and liabilities on a net basis.

j) Provision for Environmental rehabilitation

An obligation to incur restoration, rehabilitation and environmental costs arises when environmental disturbance is caused by the exploration, development or ongoing production of a mineral property interest. Such costs arising from the decommissioning of plant and other site preparation work, discounted to their net present value, are provided and capitalized at the start of each project to the carrying amount of the asset, as soon as the obligation to incur such costs arises. Discount rates using a pre-tax rate that reflect the time value of money are used to calculate the net present value. These costs are charged against profit or loss over the economic life of the related asset, through amortization using either the unit-of-production or straight line method. The related liability is adjusted for each period for the unwinding of the discount rate and for changes to the current market-based discount rate, amount or timing of the underlying cash flows needed to settle the obligation.

Costs for restoration of subsequent site damage which is created on an ongoing basis during production are provided for at their net present values and charged against profits as extraction progresses.

The Company has no restoration, rehabilitation and environmental costs as the disturbance to date is minimal.

k) Provisions

Provisions are recognized when present legal or constructive obligations exist as a result of a past event where it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and a reliable estimate of the amount of the obligation can be made. The amount recognized as a provision is the best estimate of the consideration required to settle the present obligation at the statement of financial position date, taking into account the risks and uncertainties surrounding the obligation.

l) Financial instruments

Financial instruments are defined as any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

The Company recognizes financial assets and financial liabilities when it becomes a party to the contractual provisions of the instrument.

HAWKEYE GOLD & DIAMOND INC.

Notes to Consolidated Financial Statements

August 31, 2018

(Expressed in Canadian dollars)

4. Significant Accounting Policies (continued)

l) Financial instruments (continued)

Financial assets are classified into the following categories at their initial recognition:

- Financial assets at fair value through profit or loss;
- Held-to-maturity investments;
- Loans and receivables;
- Or available-for-sale investments.

Financial liabilities are classified into the following categories at their initial recognition:

- Financial liabilities at fair value through profit or loss;
- Financial liabilities at amortized cost

Financial assets and liabilities are initially measured at fair value, plus, in the case of a financial asset or liability not at fair value through profit or loss, transactions costs directly attributable to the acquisition or issuance of the financial asset or liability. In a purchase or sale of financial assets recognition and de-recognition occurs using trade date accounting.

Financial assets are subsequently measured after initial recognition at fair value, except for financial assets classified as held-to-maturity investments or loans and receivables, which are subsequently measured at amortized cost using the effective interest method.

Financial liabilities at fair value through profit or loss are subsequently measured after recognition at fair value. All other financial liabilities are subsequently measured at amortized cost using the effective interest method.

Financial assets are derecognized when:

- The contractual rights to the cash flows from the financial asset expire;
- The contractual rights to the cash flows from the financial asset are retained, but a contractual obligation to pay the cash flows to another party without material delay is assumed by the Company;
- Or when the Company transfers substantially all the risks and rewards of ownership of the financial asset.

Financial liabilities are derecognized when the obligations are discharged, cancelled or expire.

Financial assets are assessed for indicators of impairment at the end of each reporting period. Financial assets are impaired when there is objective evidence that, as a result of one or more events that occurred after the initial recognition of the financial assets, the estimated future cash flows of the investments have been negatively impacted. Evidence of impairment could include: significant financial difficulty of the issuer or counterparty; or default or delinquency in interest or principal payments; or likelihood that the borrower will enter bankruptcy or financial reorganization.

HAWKEYE GOLD & DIAMOND INC.

Notes to Consolidated Financial Statements

August 31, 2018

(Expressed in Canadian dollars)

4. Significant Accounting Policies (continued)

l) Financial instruments (continued)

The carrying amount of financial assets is reduced by impairment loss directly for all financial assets with the exception of financial assets classified as loans and receivables, where the carrying amount is reduced through the use of an allowance account. When these assets are considered uncollectible, they are written off against the allowance account. Subsequent recoveries of amounts previously written off are credited against the allowance account. Changes in the carrying amount of the allowance account are recognized in profit or loss.

If, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognized, the previously recognized impairment loss is reversed through profit or loss to the extent that the carrying amount of the investment at the date the impairment is reversed does not exceed what the amortized cost would have been had the impairment loss been recognized.

Financial instruments recorded at fair value on the statement of financial position are classified using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels: Level 1 – valuation based on quoted prices (unadjusted) in active markets for identical assets or liabilities; Level 2 – valuation techniques based on inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices); and Level 3 – valuation techniques using inputs for the asset or liability that are not based on observable market data (unobservable inputs).

At the end of each reporting period, the Company reviews the carrying amounts of its non-financial assets to determine whether there is any indication that those assets have suffered an impairment loss. Where such an indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss. The recoverable amount is the higher of an asset's fair value less cost to sell and its value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset.

If the recoverable amount of an asset is estimated to be less than its carrying amount of the asset is reduced to its recoverable amount. An impairment loss is recognized immediately in the statement of loss and comprehensive loss.

The Company has made the following classifications:

- Cash is classified as fair value through profit or loss.
- GST receivable is classified as loans and receivables.
- Accounts payable and accrued liabilities, due to related parties, and loans payable have been classified as liabilities at amortized cost.

HAWKEYE GOLD & DIAMOND INC.

Notes to Consolidated Financial Statements

August 31, 2018

(Expressed in Canadian dollars)

4. Significant Accounting Policies (continued)

m) Critical Accounting Estimates and Judgements

The Company makes estimates and assumptions about the future that affect the reported amounts of assets and liabilities. Estimates and judgments are continually evaluated based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. Actual experience may differ from these estimates and assumptions.

The effect of a change in accounting estimate is recognized prospectively by including it in comprehensive income in the period of the change, if the change affects that period only, or in the period of the change and future periods, if the change affects both.

Information about critical accounting estimates and judgments in applying accounting policies that have the most significant risk of causing material adjustment to the carrying amounts of assets and liabilities recognized in the consolidated financial statements are discussed below:

Judgements

Exploration and evaluation expenditures

The application of the Company's accounting policy for exploration and evaluation expenditure requires judgment in determining whether it is likely that future economic benefits will flow to the Company, which may be based on assumptions about future events or circumstances. Estimates and assumptions may change if new information becomes available. If, after expenditure is capitalized, information becomes available suggesting that the recovery of the expenditure is unlikely, the amount capitalized is written off in the profit or loss in the period the new information becomes available.

Title to mineral property interests

Although the Company has taken steps to verify title to mineral properties in which it has an interest, these procedures do not guarantee the Company's title. Such properties may be subject to prior agreements or transfers and title may be affected by undetected defects.

Going concern

The assumption that the Company is a going concern and will continue in operation for the foreseeable future requires judgement. The factors considered by management are disclosed in Note 1.

Estimates

Share-based payment transactions

The Company measures the cost of equity-settled transactions with employees by reference to the fair value of the equity instruments at the date at which they are granted. Estimating fair value for share-based payment transactions requires determining the most appropriate valuation model, which is dependent on the terms and conditions of the grant. This estimate also requires determining the most appropriate inputs to the valuation model including the expected life of the share option, volatility and dividend yield and making assumptions about them.

HAWKEYE GOLD & DIAMOND INC.

Notes to Consolidated Financial Statements

August 31, 2018

(Expressed in Canadian dollars)

5. Application of New and Revised International Financial Reporting Standards

Standards, amendments and interpretations not yet effective

Certain pronouncements were issued by the IASB or the IFRS Interpretations Committee that are mandatory for current or future account periods. None of these are expected to have a significant effect on the consolidated financial statements, except for the following:

a) IFRS 9 – Financial Instruments

IFRS 9 Financial Instruments is part of the IASB's wider project to replace IAS 39 Financial Instruments: Recognition and Measurement. IFRS 9 retains but simplifies the mixed measurement model and establishes two primary measurement categories for financial assets: amortized cost and fair value. The basis of classification depends on the entity's business model and the contractual cash flow characteristics of the financial asset. The standard is effective for annual periods beginning on or after January 1, 2018. Implementation of IFRS 9 is not expected to have a material impact on the Company's consolidated financial statements.

b) IFRS 16 – Leases

IFRS 16 Leases specifies how a reporter will recognise, measure, present and disclose leases. The standard provides a single lessee accounting model, requiring lessees to recognize assets and liabilities for all leases unless the lease term is 12 months or less or the underlying asset has a low value. Lessors continue to classify leases as operating or finance, with IFRS 16's approach to lessor accounting substantially unchanged from its predecessor, IAS 17. IFRS 16 applies to annual reporting periods on or after January 1, 2019. Implementation of IFRS 9 is not expected to have a material impact on the Company's consolidated financial statements.

7. Exploration and Evaluation Asset (see Schedules 1 and 2)

a) Bonanza Project

On January 16, 2017, the Company entered into a purchase and sale agreement to acquire a 100% interest in the Bonanza Property located on the northern end of Vancouver Island. The terms call for cash payments totaling \$5,000 (\$5,000 paid) and issuing 250,000 shares in the capital of the Company (250,000 issued with a value of \$0.06 per share). The first 100,000 shares have a four (4) month hold period and the balance of 150,000 shares will be subjected to a twelve (12) month hold period. The Property is subject to a two percent (2%) net smelter return (NSR) in favour of the Vendor for all minerals other than magnetite. The Company will pay the Vendor \$2.00 per tonne from the production of magnetite from the property. The Company may repurchase 1.5 percent (1.5%) of the NSR for \$1.5 million. The remaining 0.5 percent (0.5%) held by the Vendor will be subject to a right of first refusal by the Company for a period of five years.

The Company issued 29,454 shares with a value of \$0.065 per share as a finder's fee. The shares have a four (4) month hold period.

The Company announced TSX Venture Exchange acceptance of the agreement on May 9, 2017.

During the period ended August 31, 2018, the Company incurred \$nil (2017: \$nil) in acquisition costs and incurred \$733 (2017: \$625) in exploration expenditures.

b) 2-Aces Project

The Company entered into a Sales and Purchase Agreement with the Vendor of the 2-Aces Project on June 8, 2017 to acquire a 100% interest in the property. The terms call for payment of \$12,000 cash and issuance of 50,000 shares of the Company, plus an additional 250,000 shares of the Company if it proceeds to a pre-feasibility study. The acquisition is not subjected to a NSR. The Company received TSX approval on October 4, 2017. As of August 31, 2018, the Company has not made any cash payments or issued any shares.

During the period ended August 31, 2018, the Company incurred \$nil (2017: \$nil) in acquisition costs and incurred \$1,119 (2017: \$nil) in exploration expenditures.

c) Keithley Creek Project

The Company entered into a Sales and Purchase Agreement with the Vendor of the Keithley Creek Project on June 26, 2017 to acquire a 100% interest in the property. The terms call for payment of \$7,000 cash and issuance of 50,000 shares of the Company, plus an additional 250,000 shares of the Company if it proceeds to a pre-feasibility study. The acquisition is not subjected to a NSR. The Company received TSX approval on October 5, 2017. As of August 31, 2018, the Company has not made any cash payments or issued any shares.

During the period ended August 31, 2018, the Company incurred \$nil (2017: \$nil) in acquisition costs and incurred \$1,119 (2017: \$nil) in exploration expenditures.

7. Exploration and Evaluation Asset (see Schedules 1 and 2) (cont'd)

d) Cariboo Valley Project

The Company entered into a Sales and Purchase Agreement with the Vendor of the Cariboo Valley Project on July 4, 2017 to acquire a 100% interest in the property. The terms call for payment of \$5,000 cash and issuance of 50,000 shares of the Company, plus an additional 250,000 shares of the Company if it proceeds to a pre-feasibility study. The acquisition is not subjected to a NSR. The Company received TSX approval on October 6, 2017. As of August 31, 2018, the Company has not made any cash payments or issued any shares.

During the period ended August 31, 2018, the Company incurred \$nil (2017: \$nil) in acquisition costs and incurred \$1,119 (2017: \$nil) in exploration expenditures.

e) Seller Creek Project

The Company entered into a Sales and Purchase Agreement with the Vendor of the Seller Creek Project on August 23, 2017 to acquire a 100% interest in the property. The terms call for payment of \$15,000 cash and issuance of 50,000 shares of the Company, plus an additional 250,000 shares of the Company if it proceeds to a pre-feasibility study. The acquisition is not subjected to a NSR. The Company received TSX approval on October 17, 2017. As of August 31, 2018, the Company has not made any cash payments or issued any shares.

During the period ended August 31, 2018, the Company incurred \$nil (2017: \$nil) in acquisition costs and incurred \$1,119 (2017: \$nil) in exploration expenditures.

f) McBride Project

The Company entered into a Sales and Purchase Agreement with the Vendor of the McBride Project on September 13, 2017 to acquire a 100% interest in the property. The terms call for payment of \$8,000 cash and issuance 100,000 shares of the Company, plus an additional 250,000 shares of the Company if it proceeds to a pre-feasibility study. The acquisition is not subjected to a NSR. The Company received TSX approval on October 25, 2017. As of August 31, 2018, the Company has not made any cash payments or issued any shares.

During the period ended August 31, 2018, the Company incurred \$nil (2017: \$nil) in acquisition costs and incurred \$29,339 (2017: \$nil) in exploration expenditures.

g) Todagin Project

The Company entered into a Sales and Purchase Agreement with the Vendor of the Todagin Project on September 19, 2017 to acquire a 100% interest in the property. The terms call for payment of \$7,000 cash and issuance of 100,000 shares of the Company, plus an additional 250,000 shares of the Company if it proceeds to a pre-feasibility study. The acquisition is not subjected to a NSR. The Company received TSX approval on October 27, 2017. As of August 31, 2018, the Company has not made any cash payments or issued any shares.

During the period ended August 31, 2018, the Company incurred \$nil (2017: \$nil) in acquisition costs and incurred \$18,344 (2017: \$nil) in exploration expenditures.

10. Stock Options

On May 16, 2017, the Company received TSX Venture Exchange approval for its current stock option plan, reserving a maximum of 10% of the issued shares of the Company for issuance under its Rolling Stock Option Plan. Shareholders of the Company approved this plan at the Issuer's Annual General Meeting held on December 29, 2016.

Stock options issued and outstanding are as follows:

	August 31, 2018		May 31, 2018	
	Number of Options	Weighted Average Exercise Price	Number of Options	Weighted Average Exercise Price
Options outstanding, beginning of period	1,601,165	\$ 0.11	1,601,165	\$ 0.11
Expired or cancelled	-	-	-	-
Granted	-	-	-	-
Options outstanding and exercisable, end of period	1,601,165	\$ 0.11	1,601,165	\$ 0.11

The 1,601,165 stock options outstanding as at August 31, 2018 are as follows:

Number of Shares	Price per Share	Expiry Date
145,000	\$ 0.10	July 9, 2022
861,165	0.10	April 25, 2026
170,000	0.12	September 9, 2026
425,000	0.12	January 25, 2027

- For the period ended August 31, 2018, no options were granted, expired or cancelled.
- For the period ended August 31, 2017, no options were granted, expired or cancelled.
- The weighted average remaining contractual life of granted and outstanding stock options at August 31, 2018 is 7.55 years (2017: 8.56 years).

HAWKEYE GOLD & DIAMOND INC.

Notes to Consolidated Financial Statements

August 31, 2018

(Expressed in Canadian dollars)

11. Non-Cash Financing Activities

Non-cash activities for the period ended August 31, 2018 are as follows:

- a) The Company did not have any non-cash financing activities for the period.

Non-cash activities for the period ended August 31, 2017 are as follows:

- a) The Company did not have any non-cash financing activities for the period.

12. Financial Instruments

		August 31, 2018	May 31, 2018
		\$	\$
FVTPL financial assets	a	186	-
Loans and receivables	b	4,255	548
Liabilities at amortized cost	c	1,854,981	1,790,146

a. Comprises cash.

b. Comprises GST receivable

c. Comprises accounts payable and accrued liabilities, due to related parties, and loans payable.

The Company has determined the estimated fair values of its financial instruments based on appropriate valuation methodologies; however, considerable judgment is required to develop these estimates. Cash and cash equivalents are carried at fair value using a level 1 fair value measurement. The fair values of GST receivable, accounts payable, accrued liabilities, due to related parties and loans payable approximate their carrying values due to the short-term nature of these instruments.

Management of Industry and Financial Risk

The Company is engaged primarily in mineral exploration and manages related industry risk issues directly. The Company may be at risk for environmental issues and fluctuations in commodity pricing. Management is not aware of and does not anticipate any significant environmental remediation costs or liabilities in respect of its current operations.

The Company's financial instruments are exposed to certain financial risks, which include the following:

Credit risk

Credit risk is the risk of loss due to the counterparty's inability to meet its obligations. The Company's exposure to credit risk is on its cash and GST recoverable. Risk associated with cash is managed through the use of major Canadian bank. The Company's GST recoverable is due from the Government of Canada; therefore, the credit risk exposure is low.

Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulties in meeting obligations when they become due. The Company ensures that there is sufficient capital in order to meet short-term operating requirements, after taking into account the Company's cash. The Company's cash is held in corporate bank accounts available on demand.

HAWKEYE GOLD & DIAMOND INC.

Notes to Consolidated Financial Statements

August 31, 2018

(Expressed in Canadian dollars)

12. Financial Instruments (continued)

Management of Industry and Financial Risk (continued)

Market Risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: currency risk, interest rate risk and price risk.

Currency Risk

The Company's functional currency is the Canadian dollar and major purchases are transacted in Canadian dollars; therefore, currency risk is minimal.

Interest Rate Risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company is not exposed to significant interest rate risk.

Price Risk

The Company is exposed to price risk with respect to equity prices. Price risk as it relates to the Company is defined as the potential adverse impact on the Company's ability to finance due to movements in individual equity prices or general movements in the level of the stock market. The Company closely monitors individual equity movements and the stock market to determine the appropriate course of action to be taken by the Company.

13. Capital Management

The Company's primary source of funds comes from the issuance of share capital. The Company defines its capital as all components of shareholders equity. Capital requirements are driven by the Company's planned exploration and evaluation activities and general and administrative expenses. To effectively manage the Company's capital requirements, the Company has a planning and budgeting process in place to ensure that adequate funds are available to meet its strategic goals. The Company monitors actual expenses to budget on all exploration projects and overhead to manage costs, commitments and exploration activities. Although the Company has been successful at raising funds in the past through the issuance of share capital and loans, there can be no assurance that it will continue to be able to do so in the future. There were no changes in the Company's approach to capital management during the period ended August 31, 2018. The Company is not subject to externally imposed capital requirements.

14. Income Taxes

Income tax expense recorded in these consolidated financial statements differs from the amount that would be computed by applying federal and provincial statutory income tax rates to the loss before income taxes.

The unrecognized deferred tax assets reflects the Company's estimate that the tax assets are not likely to be realized.

The Company has non-capital losses totaling approximately \$6,898,122 (2017: \$6,576,717), which are carried forward for tax purposes and are available to reduce taxable income of future years. The non-capital losses balance will begin to expire in 2026. Unused exploration and development expenses can be carried forward indefinitely.

HAWKEYE GOLD & DIAMOND INC.

Notes to Consolidated Financial Statements

(Expressed in Canadian dollars)

15. Related Party Transactions

- a) During the period ended August 31, 2018, \$30,000 (2017: \$30,000) was paid or accrued to Greg Neeld, the President and director of the Company, as management fees.
- b) During the period ended August 31, 2018, \$6,000 (2017: \$6,000) was paid or accrued to Robert Neeld, an individual related to the President of the Company as compensation for services rendered and included in management fees.
- c) As at August 31, 2018, there is a balance of \$699,130 (2017: \$506,058) due to Greg Neeld, the President of the Company included in Due to related parties.
- d) As at August 31, 2018, there is a balance of \$1,743 (2017: \$1,743) due to Hawkeye Power Corp, a company owned by Greg Neeld, the President of the Company included in Due to related parties.
- e) As at August 31, 2018, there is a balance of \$87,575 (2017: \$86,775) due to Robert Neeld, a related party included in Due to related parties.
- f) As at August 31, 2018, there is a balance of \$19,600 (2017: \$19,600) due to Steve Pelletier, a related party included in loans payable.
- g) As at August 31, 2018, there is a balance of \$2,150 (2017: \$2,150) due to Kevin McGladery, a related party included in Due to related parties.
- h) As at August 31, 2018, there is a balance of \$12,900 (2017: \$1,000) due to Maureen Watson, a director of the Company included in Due to related parties.

The above noted transactions have been reported at amounts agreed to by the related parties.

16. Commitment

On February 9 2017, the Company entered into a rental agreement for the use of office premises in Vancouver, BC, Canada until February 9, 2019. The amount of the remaining lease payments committed is \$19,370 at \$3,640 per month (2017: \$60,586 at \$3,500 per month), to be paid over the remaining term ending February 9, 2019.

17. Lawsuit

On May 23, 2018, the Company received a court order due to an action commenced by a vendor to collect an outstanding accounts payable balance in the amount of \$33,903. Judgement was made in favor of the vendor in the amount of \$50,874 which includes the above payable plus \$16,971 in legal fees and interest. On September 24, 2018 the Company paid the amount in full to the vendor. As at August 31, 2018, the full \$50,874 has been included in accounts payable and accrued liabilities.

HAWKEYE GOLD & DIAMOND INC.

Notes to Consolidated Financial Statements

August 31, 2018

(Expressed in Canadian dollars)

18. Events After the Reporting Period

- a) On September 14, 2018 the Company made cash payments of \$25,000 and issued 300,000 common shares to acquire a 100% interest in the Boomerang, McBride and Todagin properties.
- b) On September 18, 2018 the Company closed the first tranche of the private placement announced on June 27, 2018. The private placement consisted of flow-through and non-flow-through or common units, both priced at \$0.05 per unit. A total of 12,000,000 flow-through and 5,000,000 common units were subscribed for gross proceeds of \$850,000.

The Company paid cash finders' fees of \$46,000 and issued 920,000 finders' warrants. Of the finders' warrants 824,000 relate to the flow-through units and 96,000 relate to the non-flow-through or common units. The finders' warrants have the same terms as their underlying units.

On October 22, 2018, the Company closed the second tranche of the private placement announced on June 27, 2018. A total of 1,300,000 common units were subscribed for gross proceeds of \$65,000. No flow-through units were subscribed and no finders' fee will be paid in connection with the closing of the second tranche.

The flow-through units consists of one (1) flow-through common share of the Company and one (1) half flow-through warrant. Each full flow-through warrant will entitle the holder to purchase one (1) non-flow-through common share at \$0.10 per share for a period of twelve (12) months from the closing date.

The non-flow-through or common units consists of one (1) common share of the Company and one (1) full common warrant. Each full common warrant will entitle the holder to purchase one (1) common share at \$0.10 per share for a period of twenty-four (24) months from the closing date.

If at any time after the closing date, the Company's shares have a closing price of \$0.20 or more for ten (10) consecutive trading days, the Company shall be entitled to give notice to the holders of the warrants that the warrants will expire thirty (30) days from the date of mailing such notice or news release of such notice.

All the shares issued pursuant to the private placement will be subject to a four-month plus one-day hold period from the closing date.

- c) On October 11, 2018, the Company announced that it had entered into a Sale and Purchase Agreement (SPA) with the vendor of the Klappan Project to acquire a 100% interest in the property. The terms of the agreement requires a \$3,000 cash payment and the issuance of 100,000 shares of the Company, plus an additional 250,000 shares of the Company if it proceeds to a Preliminary Economic Assessment. The acquisition is not subject to any Net Smelter Royalty. The SPA is subject to TSX approval.
