BLACKROCK SILVER CORP.

Notes to the Condensed Consolidated Interim Financial Statements
(Unaudited – Expressed in Canadian dollars)
Three and Nine Months Ended July 31, 2024

1) NATURE OF OPERATIONS AND GOING CONCERN

Blackrock Silver Corp. (“our”, “Blackrock” or the “Company”) was incorporated on April 16, 1999 under the laws of the province of British Columbia, Canada, and its principal activity is the acquisition, exploration and development of mineral properties located in Canada and the United States (“US”). The Company’s shares trade on the TSX Venture Exchange (“TSX-V”) under the symbol “BRC.V” and also trade on the OTCQB under the symbol “BKRRF”.

The head office, registered address, principal address and records office of the Company are located at 2710 – 200 Granville Street, Vancouver, British Columbia, Canada V6C 1S4.

As the Company is in the exploration stage, the recoverability of amounts shown for exploration and evaluation assets and the Company’s ability to continue as a going concern is dependent upon the discovery of economically recoverable reserves, continuation of the Company’s interest in the underlying resource claims, the ability of the Company to obtain necessary financing to complete their development and upon future profitable production or proceeds from the disposition thereof. The amounts shown as exploration and evaluation assets represent net costs to date, less amounts amortized and/or written off, and do not necessarily represent present, future values or amounts invested in the assets. The Company has chosen an accounting policy of expensing exploration expenditures on the properties and only capitalizing direct acquisition and holding costs.

The Company has incurred losses since inception and has an accumulated operating deficit of \$74,185,367 at July 31, 2024 (October 31, 2023 - \$69,652,656). For the nine months ended July 31, 2024, the Company had a net loss of \$4,532,711 (2023 - \$4,803,094) and had current assets exceeding current liabilities of \$9,554,822 (October 31, 2023 - \$798,958). The Company expects to incur future losses in the exploration of its mineral properties.

To fund the Company’s exploration activity for at least the next twelve-month period, the Company will be drawing down its current cash, maintaining cost control measures and raising additional proceeds either by way of private placements or exercise of share purchase options, warrants and finders’ warrants. To support the Company’s financing requirements, the Company filed a base shelf prospectus (the “Prospectus”) on August 4, 2023. The Prospectus allows the Company to raise up to \$50,000,000, for a period of 25 months, at a price at, or above, the market price at the time of the financing. The Company has completed two financings under the Prospectus. One was completed in January 2024 for gross proceeds of \$5,750,000 and one in May 2024 for gross proceeds of \$10,350,000. Subsequent to period end, the Company completed a non-brokered financing for gross proceeds of \$5,000,000.

While these condensed consolidated interim financial statements (“financial statements”) have been prepared with the assumption that the Company will be able to meet its obligations and continue its operations for its next fiscal year, the aforementioned conditions indicate the existence of material uncertainties, which may cast significant doubt on the Company’s ability to continue as a going concern, and therefore may not be able to discharge its liabilities in the normal course of business. Realization values may be substantially different from carrying values as shown and these financial statements do not give effect to adjustments that would be necessary if the Company were not to continue as a going concern.

2) BASIS OF PRESENTATION

These financial statements were authorized for issue on September 27, 2024 by the directors of the Company.

Statement of compliance to International Financial Reporting Standards

These financial statements of the Company have been prepared in accordance with International Financial Reporting Standards (“IFRS”), as issued by the International Accounting Standards Board (“IASB”), and interpretations of the International Financial Reporting Interpretations Committee. These financial statements comply with International Accounting Standard (“IAS”) 34 *Interim Financial Reporting*.

Basis of preparation

These financial statements have been prepared on a historical cost basis, except for financial instruments classified as fair value through profit or loss (“FVTPL”) that have been measured at fair value. In addition, these financial statements have been prepared using the accrual basis of accounting.

These financial statements, including comparatives, have been prepared on the basis of IFRS standards that are published at the time of preparation and that are effective or available for adoption on November 1, 2023, commencing the day of the Company’s annual reporting date.

Basis of consolidation

The financial statements of the Company include the following subsidiary:

Name of subsidiary	Place of incorporation	Percentage ownership
Blackrock Gold Corp.	USA	100%

Blackrock Gold Corp. (“Blackrock US”) was incorporated on May 9, 2018. The Company consolidates the subsidiary for the period ended July 31, 2024, on the basis that it controls the subsidiary. Control exists when the Company is exposed to or has the rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. Blackrock US has a December 31 year-end, differing from the Company’s year-end of October 31 for tax purposes.

All intercompany transactions and balances are eliminated on consolidation.

Accounting estimates and judgments

The preparation of these financial statements requires management to make estimates and judgments and form assumptions that affect the reported amounts and other disclosures in these financial statements. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making judgments about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions and conditions.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only that period or in the period of the revision and further periods if the review affects both current and future periods.

Critical accounting estimates are estimates and assumptions made by management that may result in material adjustments to the carrying amounts of assets and liabilities within the next financial year.

2) BASIS OF PRESENTATION – Continued

Determining whether to test for impairment of mineral exploration properties and deferred exploration assets requires management's judgment regarding the following factors, among others: the year for which the entity has the right to explore in the specific area has expired or will expire in the near future, and is not expected to be renewed; substantive expenditure on further exploration and evaluation of mineral resources in a specific area is neither budgeted nor planned; exploration for and evaluation of mineral resources in a specific area have not led to the discovery of commercially viable quantities of mineral resources and the entity has decided to discontinue such activities in the specific area; or sufficient data exists to indicate that, although a development in a specific area is likely to proceed, the carrying amounts of the exploration assets are unlikely to be recovered in full from successful development or by sale.

Foreign currencies

The Company assesses functional currency on an entity-by-entity basis based on the related fact pattern and only when events and conditions of the underlying transactions have changed; however, the presentation currency used in these financial statements is determined at management's discretion.

The functional currency of the parent company, and the presentation currency applicable to these financial statements, is the Canadian dollar. The functional currency of the Company's wholly owned subsidiary is the US dollar for the period ended July 31, 2024.

Transactions in currencies other than the functional currency are recorded at the rates of exchange prevailing on dates of transactions. At each condensed consolidated interim statement of financial position reporting date, monetary assets and liabilities that are denominated in foreign currencies are translated at the rates prevailing at each reporting date. Non-monetary items denominated in foreign currencies that are measured at fair value are retranslated to the functional currency at the exchange rate at the date the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated. Foreign currency translation differences are recognized as a foreign currency translation adjustment in other comprehensive income (loss) and accumulated in equity.

Future accounting standards and interpretations

Accounting standards or amendments to existing accounting standards that have been issued but have future effective dates are either not applicable or are not expected to have a significant impact on the Company's financial statements.

3) MATERIAL ACCOUNTING POLICY INFORMATION

These financial statements have been prepared in accordance with IFRS, as issued by the IASB, on a basis consistent with those followed in the Company's most recent annual consolidated financial statements for the year ended October 31, 2023.

These unaudited condensed consolidated interim financial statements do not include all note disclosures required by IFRS for annual consolidated financial statements, and therefore should be read in conjunction with the annual consolidated financial statements as at October 31, 2023 and for the year then ended. In the opinion of management, all adjustments considered necessary for fair presentation of the Company's financial position, results of operations and cash flows have been included. Operating results for the three and nine months ended July 31, 2024 are not necessarily indicative of the results that may be expected for the year to end October 31, 2024.

New Accounting Policies

IFRS 16 *Leases* provides a single lessee accounting model, requiring lessees to recognize assets and liabilities for all leases unless the lease term is 12 months or less or the underlying asset has a low value.

At inception of a contract, the Company assesses whether the contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

Leases of right-of-use assets are recognized at the lease commencement date at the present value of the aggregate lease payments that are not paid at that date. The lease payments are discounted using the interest rate implicit in the lease, if that rate can be readily determined, and otherwise at the Company's incremental borrowing rate. At the commencement date, a right-of-use asset is measured at cost, which is comprised of the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any decommissioning and restoration costs, less any lease incentives received.

Each lease payment is allocated between repayment of the lease principal and interest. Interest on the lease liability in each period during the lease term is allocated to produce a constant periodic rate of interest on the remaining balance of the lease liability. Except where the costs are included in the carrying amount of another asset, the Company recognizes in profit or loss (a) the interest on a lease liability and (b) variable lease payments not included in the measurement of a lease liability in the period in which the event or condition that triggers those payments occurs. The Company subsequently measures a right-of-use asset at cost less any accumulated depreciation and any accumulated impairment losses; and adjusted for any remeasurement of the lease liability. Right-of-use assets are depreciated over the shorter of the asset's useful life and the lease term, except where the lease contains a bargain purchase option a right-of-use asset is depreciated over the asset's useful life.

4) PREPAID EXPENSES AND DEPOSITS

6) EXPLORATION AND EVALUATION ASSETS

Title disclaimer

As at July 31, 2024 all of the Company's exploration and evaluation assets are located in Nevada, United States. Title to mining properties involves certain inherent risks due to the difficulties of determining the validity of certain claims, as well as the potential for problems arising from the frequently ambiguous conveyancing history characteristic of many mining properties. The Company has investigated title to its mineral properties, and, to the best of its knowledge, its properties are in good standing.

Silver Cloud Project

On October 27, 2017, the Company entered into a Lease Agreement (the “Lease”) with Pescio Exploration, LLC (“Pescio” or the “Lessor”) with respect to 552 unpatented lode mining claims situated in Elko County, Nevada, and known as the Silver Cloud Project (the “Property”). The Lease affords Blackrock all rights and privileges incidental to ownership, including rights to explore, develop and mine the Property. The term of the Lease is 10 years from October 27, 2017 (the “Effective Date”), and so long thereafter as: a) exploration and/or development is taking place on the Property, and/or b) the Property is held by Blackrock or its successors and assigns, unless earlier terminated in accordance with the terms of the Lease.

In June 2019, the Company completed negotiations to amend the Lease terms and conditions with the underlying owner. The amended Lease provides for lower upfront payments, a reduction of the net smelter return royalty through a buyout, and a purchase option for the Property. The agreement was further amended on October 27, 2023.

Pursuant to the original, and first amendment, Lease, to acquire and maintain the Lease in good standing, Blackrock:

- a) Reimbursed the Lessor US\$92,308 (\$120,296) for the 2017 Bureau of Land Management (“BLM”) fees;
- b) Paid US\$100,000 (\$130,320) and issued 1,000,000 common shares of the Company to the Lessor at a price of \$0.13 per share;
- c) Paid US\$100,000 (\$131,810) in lease payments to the Lessor as follows:
 - a. 1st anniversary of the Effective Date, October 27, 2018, US\$100,000 (\$131,810) (paid);
 - b. 2nd anniversary of the Effective Date, October 27, 2019, US\$75,000 (\$98,731) (paid);
 - c. 3rd anniversary of the Effective Date, October 27, 2020, US\$100,000 (\$131,640) (paid);
 - d. 4th anniversary of the Effective Date, October 27, 2021, US\$150,000 (\$188,565) (paid);
 - e. 5th anniversary of the Effective Date, October 27, 2022, US\$200,000 (\$266,020) (paid);
- d) Must perform a minimum total of 25,000 feet (completed) of drilling on the Property during the first five years of the term of the Lease;
- e) Must pay all BLM permit costs. The Company paid BLM fees of US\$91,080 (\$121,546) in 2023 and US\$91,080 (\$111,910) in 2022; and
- f) Must make additional payments to the Lessor of US\$500,000 in year 6, US\$750,000 in year 7 and US\$1,500,000 per year starting in year 8.

Pursuant to the amending agreement:

- (i) The Company must make the following cash payments:
 - a. January 27, 2024, payment of US\$75,000 (\$100,868) (paid);
 - b. 7th anniversary of the Effective Date, October 27, 2024, US\$100,000;
 - c. 8th anniversary of the Effective Date, October 27, 2025, US\$125,000;
 - d. 9th anniversary of the Effective Date, October 27, 2026, US\$125,000;
 - e. 10th anniversary of the Effective Date, October 27, 2027 to 15th anniversary of the Effective Date, October 27, 2031, US\$150,000 per year; and
 - f. 16th anniversary of the Effective Date and all subsequent anniversaries the Lease is in effect, US\$175,000 per year (subject to annual adjustment for inflation).
- (ii) the Company shall have the right, exercisable any time within 10 years of the date of the Amendment, to buy down the 3.5% royalty payable to the Owner to 2% by way of cash payment to the Owner of US\$4,500,000;

Silver Cloud Project – Continued

- (iii) in substitution of the previous drilling commitment on Silver Cloud provided for in the Lease, the Company is now required to incur work expenditures on Silver Cloud in a minimum amount of: (A) US\$500,000 on or before October 27, 2030; and (B) a further US\$500,000 on or before October 27, 2033, representing a cumulative total work commitment of \$1,000,000;
- (iv) the Company's option to purchase 100% of Silver Cloud (the "Purchase Option") has been amended to provide for a purchase price of: (A) US\$5,000,000 if the Purchase Option is exercised on or before October 27, 2029; and (B) US\$7,000,000 (subject to annual inflationary increases) if the Purchase Option is exercised after October 27, 2029; and
- (v) the Company has agreed to pay to the Owner a one-time cash payment of US\$75,000 in the event that the Company sells all or the majority of its interest in the mining claims comprising Silver Cloud or enters into or forms a joint venture on Silver Cloud wherein another party may earn an interest in at least fifty-percent (50%) of Silver Cloud.

On July 11, 2019, the Company, through its subsidiary, Blackrock US, entered into a purchase agreement for 20 unpatented mining claims located immediately adjacent to the western boundary of the Property. These unpatented lode mining claims, collectively known as the West Silver Cloud property, extend the Property westward from the Northwest Canyon target. The Company:

- (i) paid US\$5,000 (\$6,546) upon closing of the transaction;
- (ii) issued 150,000 common shares of the Company with a fair value of \$16,500; and
- (iii) issued 50,000 common share purchase warrants exercisable for a period of 3 years with an exercise price of \$0.20 per common share, fair valued at \$3,780.

The Property is subject to a production royalty equal to 0.5% of the net smelter returns. The Company has the right to purchase the royalty at any time for US\$500,000.

Tonopah West Project

On February 24, 2020, the Company, through its subsidiary, Blackrock US, entered into the Blackrock Gold Corp. Option Agreement (the "OA") with Nevada Select Royalty, Inc. ("Nevada Select"), a wholly owned subsidiary of Ely Gold Royalties Inc., with respect to 17 unpatented mining claims and 23 patented mining claims (the "Tonopah Claims"), 2 unpatented mining claims and 74 patented mining claims (the "Cliff ZZ Claims"), collectively known as the Nevada Select Claims, situated in Esmeralda and Nye counties, Nevada, and known as the Tonopah West Project (the "Project"). The OA gives and grants Blackrock US the sole and exclusive right and option to purchase 100% of Nevada Select's right, title and interest in and to the Project, including the existing data (as defined) possessed by Nevada Select and any additional data, information and records regarding the Project acquired by Nevada Select during the option period. The term of the OA is until the first to occur of (i) the option closing; (ii) the termination of the OA; or (iii) four years from April 1, 2020 (the "Initial Closing Date"). Until all option payments have been made and the option is exercised and closed, Blackrock US must pay all claim maintenance and rental fees for the Nevada Select Claims.

Pursuant to the OA, the total purchase price of US\$3,000,000 will be paid by the following option payments:

- (i) On the Initial Closing Date, US\$325,000 (\$464,815) (paid);
- (ii) 1st anniversary of the Initial Closing Date, US\$325,000 (\$409,695) (paid);
- (iii) 2nd anniversary of the Initial Closing Date, US\$650,000 (\$812,630) (paid);
- (iv) 3rd anniversary of the Initial Closing Date, US\$700,000 (\$957,740) (paid); and
- (v) 4th anniversary of the Initial Closing Date, US\$1,000,000 (\$1,349,900) (paid).

Tonopah West Project – Continued

On March 13, 2024, the Company exercised its option to acquire a 100% interest in the Tonopah West project pursuant to an option agreement dated February 24, 2020 between the Company's wholly owned Nevada subsidiary, Blackrock US, and Nevada Select Royalty, Inc., a wholly owned subsidiary of Gold Royalty Corp. The Company made a payment of US\$1,000,000 (\$1,347,200). Tonopah West consists of 101 patented and 19 unpatented lode mining claims covering mineral rights on approximately 1,380 acres (558.5 hectares) located within the historic Tonopah silver district in the Walker Lane Trend of western Nevada.

Upon the option exercise, Blackrock US will grant Nevada Select a 3% net smelter returns mineral production royalty in respect of all products (as defined) produced from the Nevada Select Claims.

During the option period and following the option exercise, if the option closing occurs and unless otherwise agreed to by the parties, if either party or its affiliate acquires, directly or indirectly, any additional mining claims, located wholly or partly within the area of interest (as defined), the after-acquired interest will be included in and form part of the Nevada Select Claims and will be subject to the OA. If any unpatented or patented claims or other property are or become subject to any third-party royalty obligations that existed prior to initial closing, the royalty will be reduced so that the total royalty percentage on each of the mining claims or real property interests comprising the Project does not exceed 3%.

Blackrock US can terminate the OA without further liability at any time by giving written notice of termination to Nevada Select, and Nevada Select will retain all payments made prior to termination.

On April 6, 2021, the Company announced that it had acquired three strategic patented mining claims covering the centre portion of the project area. Blackrock acquired the three claims through a land swap with local land owners. The Company acquired surface and mineral rights to 14.3 hectares in exchange for surface rights covering 19.8 hectares. The Company retains the mineral rights beneath the 19.8 hectares. After completion of the transaction, the Company controls mineral rights on 19 unpatented lode mining claims and 100 patented lode claims (fee lands) totalling 566.5 hectares (1,400 acres).

In addition, on July 19, 2021, the Company increased its land position to the north and west of the existing patented lands. The Company has staked an additional 260 unpatented lode mining claims covering approximately 21 square kilometres, more than tripling its land position within this prolific mining camp.

The Company's wholly owned Nevada subsidiary, Blackrock US, entered into an option agreement (the "Option Agreement") with Tearlach Resources Limited (TSX-V: TEA) and its wholly owned Nevada subsidiary, Pan Am Lithium (Nevada) Corp. (collectively, "Tearlach") pursuant to which Tearlach has been granted the option to acquire, in two stages, up to a 70% interest in the lithium minerals in certain unpatented mining claims forming a portion of the Company's Tonopah North project (the "Tonopah North Project") in Esmeralda County and Nye County, Nevada, upon incurring cumulative exploration expenditures of US\$15,000,000 and the completion of a feasibility study within five years.

Under the terms of the Option Agreement, Tearlach has the right to explore for, and the exclusive option (the "First Option") to earn a 51% interest in, the lithium minerals from the topographical surface to 650 feet below the surface of a portion of the Tonopah North Project (the "Optioned Zone") by incurring expenditures for exploration and development work on the Tonopah North Project ("Expenditures") in the aggregative amount of at least US\$5,000,000 consisting of: (i) at least US\$500,000 in Expenditures on or before January 9, 2024 (completed); and (ii) at least US\$4,500,000 in Expenditures on or before January 9, 2026 (collectively, the "Initial Earn-In").

Tonopah West Project – Continued

Subject to Tearlach completing the Initial Earn-In, under the terms of the Option Agreement, Tearlach shall have the option (the “Second Option”) to elect within thirty days of completing the Initial Earn-In to earn an additional 19% interest in lithium minerals in the Optioned Zone for an aggregate interest of 70% by: (i) expending an additional US\$10,000,000 in Expenditures; and (ii) by bearing the costs of preparation of a National Instrument 43-101-compliant bankable feasibility study for the development and construction of a lithium mine on the Tonopah North Project (collectively, the “Additional Earn-In”), with such Second Option terminating if not exercised by Tearlach by January 9, 2028.

In addition, pursuant to the Option Agreement, Tearlach agreed to pay an initial US\$50,000 (\$68,435) (paid) for exclusive negotiating rights for the Tonopah North Project and has agreed to pay an additional option payment of US\$100,000, in cash, on or before April 30, 2024, failing which the Company shall have the right to terminate the Option Agreement.

The exploration and development rights conferred to Tearlach under the Option Agreement in respect of the Tonopah North Project are exclusive to lithium minerals in the Optioned Zone. Subject to the terms of the Option Agreement, Blackrock retains and reserves the rights to explore for, develop and mine all minerals (including gold and silver) other than lithium on the entire Tonopah North Project, including the Optioned Zone.

Upon Tearlach completing the Initial Earn-In and exercising the First Option, Tearlach and Blackrock US shall enter into a definitive mining joint venture agreement (the “Joint Venture Agreement”) in respect of the management and ownership of the Optioned Zone of the Tonopah North Project (the “Joint Venture”). After completion of the Additional Earn-In, Tearlach may elect to exercise the Second Option, upon which its participation interest in the Joint Venture shall increase by an additional 19% to a total of 70%. The parties to the Joint Venture shall contribute to future Expenditures in accordance with their respective participating interests, as prescribed in the Joint Venture Agreement.

Pursuant to the Joint Venture Agreement, if at any time a party’s participating interest in the Joint Venture is diluted to below 5%, the diluted party shall be deemed to have withdrawn from the Joint Venture and its participating interest in the Joint Venture shall be converted to a non-administrative, non-executive and non-working mineral production royalty of 2% of the gross revenues from the sale of lithium minerals and lithium mineral products produced from the Tonopah North Project.

Subject to the terms of the Joint Venture Agreement, Tearlach shall be the initial manager of the Joint Venture and shall have control of the activities and operations of the Joint Venture.

On May 15, 2024, the Company announced it had terminated the option agreement entered into with Tearlach on January 9, 2023. Tearlach failed to make its US\$100,000 option payment on April 30, 2024 and was unable to make the payment during the 10-day cure period, subsequent to April 30, 2024.

7) SHARE CAPITAL

a) Authorized

The authorized share capital of the Company consists of unlimited common shares without par value.

b) Issued

During the period ended July 31, 2024, the Company issued the following common shares:

- (i) On May 29, 2024, the Company closed a brokered private placement offering for gross proceeds of \$10,350,000 consisting of 32,343,750 units of the Company at a price of \$0.32 per unit. Each unit is comprised of one common share of the Company and one-half of one common share purchase warrant of the Company. Each whole warrant entitles the holder thereof to acquire one common share at a price of \$0.48 until May 29, 2026. Based on the residual value method, no value was attributed to the warrants.

In connection with the financing, the Company paid a cash commission of \$618,177 and granted finders' warrants totalling 1,931,805 to purchase common shares of the Company at an exercise price of \$0.32 per common share, expiring May 29, 2026. The warrants were fair valued at \$261,373.

Each option entitles the recipient to purchase one common share of the Company at an exercise price of \$0.275 and will vest as to one-third on each of the first, second and third anniversaries of the date of grant and will expire on March 25, 2029.

Each PSU entitles the recipient to receive one common share, or a cash payment equal to the fair market value (as defined in the Plan) of the common shares on the vesting date, or a combination of common shares and cash, as determined at the sole discretion of the Compensation Committee of the Board of Directors of the Company. The PSUs awarded will vest as to one-third on each of the first, second and third anniversaries of the date of grant, subject to the achievement of certain corporate and individual performance criteria.

Each DSU entitles the recipient to receive one common share upon settlement of the DSU. The DSUs awarded will fully vest on the first anniversary of the date of grant date, being March 25, 2025, and will settle on the termination of service.

- (ii) On January 26, 2024, the Company closed a brokered private placement offering for gross proceeds of \$5,750,000 consisting of 28,750,000 units of the Company at a price of \$0.20 per unit. Each unit is comprised of one common share of the Company and one-half of one common share purchase warrant of the Company. Each whole warrant entitles the holder thereof to acquire one common share at a price of \$0.30 until January 26, 2027. Based on the residual value method, no value was attributed to the warrants.

In connection with the financing, the Company paid a cash commission of \$336,000 and granted finders' warrants totalling 1,680,000 to purchase common shares of the Company at an exercise price of \$0.30 per common share, expiring January 26, 2027. The warrants were fair valued at \$166,320.

- (iii) A total of 1,345,000 common shares were issued upon exercise of share purchase options for gross proceeds of \$163,700. A total of \$118,091 was transferred to share capital, from reserves, upon exercise representing the fair value of the share purchase options on date of grant.

c) Omnibus Equity Incentive Plan

On December 9, 2022, shareholders of the Company approved a new Omnibus Equity Incentive Plan (the “Plan”), replacing the Company’s previous approved stock option plan and RSU plan. Under the newly adopted Plan, the Company is permitted to grant of share purchase options, RSUs, deferred share units (“DSUs”), performance share units (“PSUs”) and other share-based awards.

The Plan is a “rolling up to 10% and fixed up to 10%” security-based compensation plan, as defined in Policy 4.4 *Security Based Compensation* of the TSX-V. The Plan is a: (a) “rolling” plan pursuant to which the number of shares that are issuable pursuant to the exercise of share purchase options granted hereunder shall not exceed 10% of the issued shares of the Company as at the date of any share option grant, and (b) “fixed” plan under which the number of shares of the Company that are issuable pursuant to all awards other than share options granted hereunder and under any other security based compensation plan of the Company, in aggregate is a maximum of 17,870,922 shares. Any RSUs, DSUs, Performance Units or other share-based awards granted under the Plan will reduce the corresponding number of share options available for grant under the Plan.

d) Share purchase options

Pursuant to the Company’s Plan, which provides that the number of shares issuable under the Plan may not exceed 10% of the issued and outstanding common shares of the Company. Options granted under the Plan may have a maximum term of 10 years. The exercise price of options granted under the Plan may not be less than the discounted market price of the shares on grant date, or such other price as may be agreed to by the Company and accepted by the TSX-V.

The continuity of share purchase options for the period ended July 31, 2024 and year ended October 31, 2023 is as follows:

f) Restricted share units

On July 20, 2020, the Company adopted its RSU plan for the purpose of securing for the Company and its shareholders the benefits of incentive inherent in share ownership by the employees, officers and directors of the Company and its affiliates who, in the judgment of the Board of Directors (the “Board”) and the Compensation Committee, will be largely responsible for the Company’s future growth and success. Subject to the specific provisions of the RSU plan, eligibility, vesting period, terms of the RSUs and the number of RSUs granted are to be determined by the Board or the Compensation Committee at the time of the grant. Each award granted entitles the participant to receive one RSU. Within two business days of the award grant, the participant must send a written settlement election to the Company choosing whether it wishes the awards to be subject to cash or share settlement procedures. The RSUs vest over a three-year period with one-third vesting on the first anniversary date, one-third on the second anniversary date and the final one-third on the third anniversary date.

The continuity of restricted share units for the period ended July 31, 2024 and year ended October 31, 2023 as follows:

	Nine Months Ended July 31, 2024	Year Ended October 31, 2023

g) Performance share units

Pursuant to the Company’s Plan, the Company granted its officers and employees PSUs during the period. Each PSU entitles the recipient to receive one common share, or a cash payment equal to the fair market value (as defined in the Plan) of the common shares on the vesting date, or a combination of common shares and cash, as determined at the sole discretion of the Compensation Committee of the Board of Directors of the Company. The PSUs awarded will vest as to one-third on each of the first, second and third anniversaries of the date of grant, subject to the achievement of certain corporate and individual performance criteria.

g) Performance share units – Continued

The cost of the PSUs is measured at fair value on the date of grant based on the market price of the Company's common shares and recognized as a share-based payment expense, over the period which the PSUs vest, with a corresponding increase in reserves. The cost of PSUs is recognized as an equity instrument, in accordance with IFRS 2 *Share-based Payments*, in the Company's consolidated statement of financial position.

The continuity of PSUs for the period ended July 31, 2024 and year ended October 31, 2023 as follows:

h) Share compensation liability – RSUs and PSUs

The Company has recognized the RSUs and PSUs in accordance with IFRS 2 *Share-based Payments*. The Company, where there is an option to settle the payment in cash, recognizes the services received and a liability to pay for those services. Until the liability is settled, the Company remeasures the fair value of the liability at the end of each reporting period and at date of settlement, with any changes in fair value recognized in profit and loss for the period.

i) Deferred share units

On April 20, 2023, the Company granted 197,180 DSU's to the independent directors of the Company. The Company further issued a total of 150,944 to its independent directors. The DSUs have a vesting period of 12 months. In accordance with the Plan, the DSU's are to be credited to the holder's DSU account upon vesting. Once vested, the DSU's would remain unsettled until such time as the holder ceases to be in their role with the Company.

The following table summarizes the status of the Company's outstanding DSUs as at July 31, 2024 and October 31, 2023:

9) CAPITAL MANAGEMENT

The Company's objective when managing capital is to safeguard the Company's ability to continue as a going concern in order to pursue the development of its projects. In the management of capital, the Company includes the components of shareholders' equity and cash. There are no external restrictions on the use of the Company's capital.

The Company manages its capital structure and makes adjustments to it in light of changes in economic conditions and the risk characteristics of the underlying assets. To maintain or adjust the capital structure, the Company may issue new shares, issue debt, acquire or dispose of assets, or adjust the amount of cash.

The Company is dependent on the capital markets as its sole source of operating capital and the Company's capital resources are largely determined by the strength of the junior resource markets, by the status of the Company's projects in relation to these markets and its ability to compete for investment or support of its projects.

10) FINANCIAL INSTRUMENTS AND FINANCIAL RISK FACTORS

Financial instruments

Financial instruments must be classified at one of three levels within a fair value hierarchy according to the relative reliability of the inputs used to estimate their values. The three levels of the hierarchy are as follows:

Level 1: Unadjusted quoted prices in active markets for identical assets or liabilities;

Level 2: Inputs other than quoted prices that are observable for the asset or liability either directly or indirectly; and

Level 3: Inputs that are not based on observable market data.

Cash and share compensation liability are measured using Level 1. The Company does not have any financial instruments that are measured using Level 2 and 3 inputs. During the period, there were no transfers between Level 1, Level 2 and Level 3 classified assets and liabilities.

Three and Nine Months Ended July 31, 2024

10) FINANCIAL INSTRUMENTS AND FINANCIAL RISK FACTORS – Continued

The Company's financial instruments are exposed to certain financial risks, including the following:

Financial risk factors

Credit risk

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss. The Company's primary exposure to credit risk is on its cash held in bank accounts. The majority of cash is deposited in bank accounts held with two major banks in Canada. As most of the Company's cash is held by two banks, there is a concentration of credit risk. This risk is managed by using major banks that are high credit quality financial institutions, as determined by rating agencies.

Liquidity risk

Liquidity risk is the risk that an entity will encounter difficulty in raising funds to meet commitments associated with financial instruments. The Company attempts to manage liquidity risk by maintaining a sufficient cash balance. Liquidity requirements are managed based on expected cash flows to ensure that there is sufficient capital in order to meet short-term obligations. As at July 31, 2024, the Company had cash of \$10,522,486 (October 31, 2023 - \$656,181) to settle current liabilities of \$1,261,948 (October 31, 2023 - \$339,869).

Foreign currency risk

The Company's functional currency is the Canadian dollar; however, there are expenses, assets and liabilities in US dollars. The Company is exposed to financial risk arising from fluctuations in foreign exchange rates and the degree of volatility in these rates. As at July 31, 2024, the Company had cash balances of US\$7,566,072 (October 31, 2023 - US\$237,361) and accounts payable, accrued liabilities and due to related parties of US\$801,174 (October 31, 2023 - US\$107,863). Should the Canadian exchange rate against the US dollar change by 1%, the potential impact on the Company's net income (loss) would be approximately \$115,500. The Company does not use derivative instruments to reduce its exposure to foreign currency risk.

11) COMMITMENTS AND CONTINGENCIES

Commitments related to the Company's properties are disclosed in Note 6 and the Company's lease liability is disclosed in Note 13. The Company has no other commitments that extend more than 12 months into the future.

The Company has corporate credit cards with limits totalling \$33,000. The guaranteed investment certificate ("GIC") is being held as security for the credit cards by the bank. The GIC matured on October 21, 2023 with an interest rate of 1%. The GIC was extended for an additional 12 months with the same terms. As part of the agreement for the credit cards, the Company is required to extend for an additional 12 months upon maturity.

13) LEASE LIABILITY

On April 1, 2024, the Company entered into an office lease agreement with a 36-month term and monthly payments of \$2,673. At the date of recognition, the lease liability was measured at the present value of the lease payments that were not paid at that date. The lease payments are discounted using an incremental borrowing rate of 9.20%.

Upon initial recognition, the Company recognized a lease liability, and a corresponding right of use asset, of \$84,464, with \$27,581 of the balance being the current portion of the lease liability and \$56,883 being the long-term portion of the lease liability.

	Nine Months Ended July 31, 2024	Year Ended October 31, 2023

The short-term component of the lease liability is a \$26,993 and the long-term portion is 49,274.

The expected timing of the undiscounted lease payments as at July 31, 2024 is as follows:

(i) Less than one year	\$32,080
(ii) One to three years	\$53,466

14) SUBSEQUENT EVENTS

The following transactions, not disclosed elsewhere in the financial statements, occurred subsequent to the period-end:

- i) On September 20, 2024, the Company closed a non-brokered private placement of 15,625,000 common of the Company at a price of \$0.32 per share for gross proceeds of \$5,000,000.

The common shares to be issued under the private placement will have a hold period of four months and one day from the closing date. The net proceeds of the financing will be used by the Company to fund expansion drilling on the Company's Tonopah West property, and for general working capital.

The Company paid a finder's fee of 3% of the proceeds, \$150,000, of the financing in cash.

- ii) A total of 470,000 share purchase warrants were exercised for total proceeds of \$141,000.
- iii) A total of 125,000 share purchase options were exercised for total proceeds of \$38,750.
