SIENNA RESOURCES INC.

NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS

(Expressed in Canadian Dollars)

September 30, 2017 – Page 1

1. NATURE AND CONTINUANCE OF OPERATIONS

Sienna Resources Inc. (the “Company”) was incorporated on March 11, 1983, under the British Columbia Company Act. The Company is an exploration stage public company and is listed on the TSX Venture Exchange. The Company’s principal business activities include acquiring and exploring exploration and evaluation assets. At September 30, 2017, the Company had exploration and evaluation assets located in Canada and the USA.

The Company’s head office and principal business address is Suite 1470, 701 West Georgia Street, Vancouver, British Columbia, V7Y 1C6. The Company’s registered and records office is located at 800 – 885 West Georgia Street, Vancouver, British Columbia, V6C 3H1.

These condensed consolidated interim financial statements have been prepared on a going concern basis, which contemplates continuity of normal business activities and the realization of assets and discharge of liabilities in the normal course of business. At September 30, 2017, the Company had a working capital deficiency of \$1,637,703, had not yet achieved profitable operations and has an accumulated deficit of \$21,012,692 since its inception. The Company expects to incur further losses in the development of its business, all of which cast substantial doubt on the Company’s ability to continue as a going concern. The Company will require additional financing in order to conduct its planned work programs on exploration and evaluation assets, meet its ongoing levels of corporate overhead and discharge its liabilities as they come due. While the Company has been successful in securing financings in the past, there is no assurance that it will be able to do so in the future. Accordingly, these condensed consolidated interim financial statements do not give effect to adjustments, if any, that would be necessary should the Company be unable to continue as a going concern. If the going concern assumption was not used then the adjustments required to report the Company’s assets and liabilities on a liquidation basis could be material to these condensed consolidated interim financial statements.

2. BASIS OF PREPARATION

a) Statement of Compliance

These condensed consolidated interim financial statements of the Company have been prepared in accordance with International Accounting Standard 34 *Interim Financial Reporting* (“IAS34”) as issued by the International Accounting Standards Board (“IASB”). Therefore, these condensed consolidated interim financial statements do not include all of the information required for full annual financial statements, and should be read in conjunction with the Company’s most recently issued audited financial statements for the year ended December 31, 2016, which includes information necessary or useful to understanding the Company’s business and financial statement presentation. In particular, the Company’s significant accounting policies, use of judgements and estimates were presented in Note 2 and Note 3 of these audited financial statements, and have been consistently applied in the preparation of these condensed consolidated interim financial statements.

These condensed consolidated interim financial statements were authorized for issue by the Board of Directors on November 29, 2017.

2. BASIS OF PREPARATION (continued)

b) Basis of Consolidation

These condensed consolidated interim financial statements include the accounts of the Company and its wholly-owned subsidiary.

All inter-company transactions, income and expenses have been eliminated upon consolidation.

c) Subsidiaries

Subsidiaries are entities controlled by the Company. Control exists when the Company has power over an investee, when the Company is exposed, or has rights, to variable returns from the investee and when the Company has the ability to affect those returns through its power over the investee. Subsidiaries are included in the consolidated financial results of the Company from the effective date of acquisition up to the effective date of disposition or loss of control. Where necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with those used by the Company.

3. ACCOUNTING POLICIES ISSUED BUT NOT YET EFFECTIVE

These condensed consolidated interim financial statements are presented in Canadian dollars, which is also the Company's functional currency.

The Company has reviewed new and revised accounting pronouncements that have been issued but are not yet effective. The Company has not early adopted any new standards and is currently evaluating the impact, if any, that the following new standard might have on its condensed consolidated interim financial statements.

IFRS 9 – Financial Instruments (“IFRS 9”)

In November 2009, the IASB issued IFRS 9 Financial Instruments as the first step in its project to replace IAS 39 Financial Instruments: Recognition and Measurement. IFRS 9 retains but simplifies the mixed measurement model and establishes two primary measurement categories for financial assets: amortized cost and fair value. The basis of classification depends on an entity's business model and the contractual cash flow of the financial asset. Classification is made at the time the financial asset is initially recognized, namely when the entity becomes a party to the contractual provisions of the instrument.

IFRS 9 amends some of the requirements of IFRS 7 Financial Instruments: Disclosures, including added disclosures about investments in equity instruments measured at fair value in other comprehensive income, and guidance on financial liabilities and derecognition of financial instruments. The amended standard is effective for annual periods beginning on or after January 1, 2018.

4. RECEIVABLES

The Company's receivables comprise of goods and services tax (“GST”) receivable due from Canadian government taxation authorities, and reimbursements from a public company that shares rent and office expenses.

4. RECEIVABLES (continued)

	September 30, <u>2017</u>	December 31, <u>2016</u>

GST recoverable	2,520	2,640
Total receivables	<u>\$ 17,729</u>	<u>\$ 16,086</u>

All amounts are short-term and the net carrying value of receivables is considered a reasonable approximation of fair value. The Company anticipates full recovery of these amounts and therefore no impairment has been recorded against receivables. The Company's receivables are all considered current and are not past due or impaired. The Company does not possess any collateral related to these assets.

5. INVESTMENTS

The Company's investments consist primarily of an investment in 700,000 common shares of Andora Energy Corporation ("Andora"), a private company in the oil and gas industry in Alberta, Canada. These shares were acquired for consideration of \$413,000 and account for 0.7% of Andora's outstanding common shares as of September 30, 2017 and December 31, 2016. The Company's available-for-sale investments are measured at cost which is representative of the fair value of the unlisted Andora common shares.

Title to Mineral Property Interests

Title to exploration and evaluation asset interests involve certain inherent risks due to the difficulties of determining the validity of certain claims as well as the potential for problems arising from the frequently ambiguous conveyancing history characteristic of many exploration and evaluation assets. The Company has investigated title to all of its exploration and evaluation assets and, to the best of its knowledge, title to all of its interests are in good standing. However, this should not be construed as a guarantee of title. The concessions may be subject to prior claims, agreements or transfers, and rights of ownership may be affected by undetected defects.
