1) STATUTES OF INCORPORATION AND NATURE OF ACTIVITIES

Val-d'Or Mining Corporation (the "Company"), incorporated on February 18, 2010 under the Business Corporations Act of British Columbia (the "Company") is involved in the process of exploring, evaluating and promoting its mineral properties and other projects. The head office of the Company is located at 152 Chemin de la Mine École, Val d'Or, Québec, J9P 0B9. The Company's registered and records office is located at #530 - 355 Burrard Street, Vancouver, B.C. V6C 2G8. The Company also has exploration offices located at 2864 Chemin Sullivan, Val-d'Or, Quebec, J9P 0B9.

The Company's shares, which are listed on the TSX Venture Exchange, are trading under the symbol MZZ. Effective November 9, 2018, the Company changed its trading symbol to "VZZ".

As at September 30, 2018, Golden Valley Mines Ltd. ("Golden Valley"), a significant shareholder, held a 26.51% interest in the Company.

2) GOING CONCERN

These condensed interim financial statements have been prepared in accordance with International Financing Reporting Standards ("IFRS"), as issued by the International Accounting Standards Board ("IASB"), under International Accounting Standard ("IAS") 34 -Interim Financial Reporting and the basis of the going concern assumption, meaning the Company will be able to realize its assets and discharge its liabilities in the normal course of operations. These interim financial statements were prepared using the same accounting policies, methods of computation and basis of presentation as outlined in Note 3 - Significant Accounting Policies, as described in the Company's annual audited financial statements for the year ended December 31, 2017, except for the changes in accounting policies resulting from the adoption of IFRS 9 Financial Instruments ("IFRS 9") and IFRS 15 "Revenue from Contracts with Customers" ("IFRS 15") as described below. Interim financial statements do not include all the notes required in annual financial statements and, accordingly, should be read in conjunction with the annual financial statements for the year ended December 31, 2017.

The Company's ability to continue as a going concern depends upon its ability to obtain necessary financing to fund its prospection operations, its projects and continued support of suppliers and creditors. The Company's ability to raise enough financing to meet these objectives cannot be determined at this time. The Company's business involves a high degree of risk and there is no assurance that the Company will be successful in discovering economically recoverable deposits on its mineral properties. Furthermore, the Company has not yet generated any income or cash flows from its operations and there is no assurance that the business will be profitable in the future. As at September 30, 2018, the Company has a cumulated deficit of $3,417,064 ($2,957,722 as at December 31, 2017). These material uncertainties cast significant doubts regarding the Company's ability to continue as a going concern. The carrying amounts of assets, liabilities and expenses presented in the financial statements and the classification used in the financial statements have not been adjusted as would be required if the going concern assumption was not appropriate. Those adjustments could be material.

3) SIGNIFICANT ACCOUNTING POLICIES

New accounting standards

IFRS 9 -Financial Instruments

In July 2014, the IASB published IFRS 9 which replaces IAS 39, Financial Instruments: Recognition and Measurement. IFRS 9 introduces improvements which include a logical model for classification and measurement of financial instruments, a single, forward-looking "expected credit loss" impairment model and a substantially-reformed approach to hedge accounting. IFRS 9 is effective for annual reporting periods beginning on or after January 1, 2018. Earlier application is permitted.

As a result of the adoption of IFRS 9, the Company has changed its accounting policy for financial instruments retrospectively, for ones that were recognized at the date of application, which was January 1, 2018. The change did not impact the carrying value of any financial instruments on this date.

Financial instruments

a) Classification

In implementing IFRS 9, the Company updated the financial instruments classification within its accounting policy. The following table shows the original classification under IAS 39 and the new classification under IFRS 9:

Financial Assets/Liabilities	Original classification under IAS 39	New classification under IFRS 9
Cash and cash equivalents	Loans and receivables at amortized costs	Financial asset at amortized costs
Sales taxes recoverable	Loans and receivables at amortized costs	Financial asset at amortized costs
Due from related parties	Loans and receivables at amortized costs	Financial asset at amortized costs
Accounts payable and accrued liabilities	Other financial liabilities at amortized costs	Financial liabilitites at amortized costs

3) SIGNIFICANT ACCOUNTING POLICIES (continued)

The Company determines the classification of financial assets at initial recognition. The classification of its instruments is driven by the Company's business model for managing the financial assets and their contractual cash flow characteristics. Equity instruments that are held for trading (including all equity derivative instruments) are classified as fair value through profit and loss ("FVTPL"). For other equity instruments, on the day of acquisition the Company can make an irrevocable election (on an instrument-by-instrument basis) to designate them at fair value through other comprehensive income ("FVTOCI"). Financial liabilities are measured at amortized cost, unless they are required to be measured at FVTPL (such as instruments held for trading or derivatives) or the Company has opted to measure them at FVTPL.

b) Measurement

Financial assets and liabilities at amortized cost

Financial assets and liabilities at amortized cost are initially recognized at fair value plus or minus transaction costs, respectively, and subsequently carried at amortized cost less any impairment.

Financial assets and liabilities at FVTPL

Financial assets and liabilities carried at FVTPL are initially recorded at fair value and transaction costs are expensed in the statements of net income (loss). Realized and unrealized gains and losses arising from changes in the fair value of the financial assets and liabilities held at FVTPL are included in the statements of net income (loss) in the period in which they arise. Where Company has opted to recognize a financial liability at FVTPL, any changes associated with the Company's own credit risk will be recognized in other comprehensive income (loss).

c) Impairment of financial assets at amortized cost

The Company recognizes a loss allowance for expected credit losses on financial assets that are measured at amortized cost. At each reporting date, the Company measures the loss allowance for the financial asset at an amount equal to the lifetime expected credit losses if the credit risk on the financial asset has increased significantly since initial recognition. If at the reporting date, the financial asset has not increased significantly since initial recognition, the Company measures the loss allowance for the financial asset at an amount equal to twelve month expected credit losses. The Company recognizes in the statements of net income (loss), as an impairment gain or loss, the amount of expected credit losses (or reversal) that is required to adjust the loss allowance at the reporting date to the amount that is required to be recognized.

3) SIGNIFICANT ACCOUNTING POLICIES (continued)

IFRS 2, Share-based Payment

In 2016, the IASB issued the final amendments to IFRS 2 Share-based Payment ("IFRS 2") in relation to the classification and measurement of share-based payment transactions. The amendments are intended to eliminate diversity in practice in three main areas: the effects of vesting conditions on the measurement of cash-settled share-based payments; the classification of a share-based payment transaction with net settlement features for withholding tax obligations; and the accounting where a modification to the terms and conditions of a share-based payment transaction changes its classification from cash-settled to equity-settled. The amendments are effective for annual periods beginning on or after January 1, 2018, with earlier adoption permitted. The amendments are to be applied prospectively. However, retrospective application is permitted if elected for all three amendments and other criteria are met. The Company assessed the impact of adoption of IFRS 2 on its interim condensed financial statements and determined that no significant changes were expected.

IFRS 15 - Revenue from Contracts with Customers

In May 2014, the IASB issued IFRS 15, which is effective for fiscal years beginning on or after January 1, 2018 and is to be applied retrospectively. Early adoption is permitted. The standard contains a single model that applies to contracts with customers and two approaches to recognizing revenue: at a point in time or over time. The model features a contract-based five-step analysis of transactions to determine whether, how much and when revenue is recognized. New estimates and judgmental thresholds have been introduced, which may affect the amount and/or timing of revenue recognized. The new standard applies to contracts with customers. It does not apply to insurance contracts, financial instruments or lease contracts, which fall in the scope of other IFRSs. As of January 1, 2018, the Company has adopted IFRS 15 and has concluded that, based on its current operations, the adoption of IFRS 15 had no significant impact on the Company's financial statements.

Standard issued but not yet effective

IFRS 16 - Leases

In January 2016, the IASB published IFRS 16 –Leases, which will replace IAS 17 –Leases. This IFRS eliminates the classification as an operating lease and requires lessees to recognise a right-of-use asset and a lease liability for all leases with exemptions permitted for short-term leases and leases of low value assets. In addition, IFRS 16 changes the definition of a lease, sets requirements on how to account for the asset and liability, including complexities such as non-lease elements, variable lease payments and options periods, changes the accounting for sale and leaseback arrangements, largely retains IAS 17's approach to lessor accounting and introduces new disclosure requirements. IFRS 16 is effective for annual reporting periods beginning on or after January 1, 2019 with early application permitted in certain circumstances. The Company is currently in the process of assessing the impact of IFRS 16 on its financial statements.

(Expressed in Canadian dollars unless otherwise noted)

4) JUDGMENTS, ESTIMATES AND ASSUMPTIONS

The preparation of these condensed interim financial statements in conformity with IFRS requires management to make judgments, estimates and assumptions that affect the amounts reported in the condensed interim financial statements and accompanying notes. Management believes that the estimates used in the preparation of the condensed interim financial statements are reasonable; however, actual results may differ materially from these estimates. The areas involving significant judgments, estimates and assumptions have been detailed in note 5 to the Company's annual audited financial statements for the year ended December 31, 2017.

Abitibi Greenstone Belt Prospect - Quebec and Ontario

On April 18, 2017, the Company signed a Mining Option Agreement ("Option") with Golden Valley to acquire a 100% interest in 61 grassroots properties in the Abitibi Greenstone Belt Prospect consisting of 484 mining claims. Pursuant to the terms of the Option, the Company must incur $4,000,000 of expenditures with respect to exploration and other mining operations on the properties before December 31, 2021 (with $500,000 to be incurred on or before December 31, 2018, $750,000 to be incurred on or before the December 31, 2019, $1,000,000 to be incurred on or before December 31, 2020, and $1,750,000 to be incurred on or before December 31, 2021).

As consideration for the Option, the Company will issue 16,666,668 common shares to Golden Valley at a deemed price of $0.12 per share for an aggregate deemed value of $2,000,000 (issuable as to 4,166,667 common shares on or before each of December 31, 2018, 2019, 2020 and 2021). In addition, the Company has granted Golden Valley a royalty equal to 1.25% of the net smelter returns ("NSRs") from the 61 properties on the terms set out in the option agreement of which 1% may be bought back by the Company by paying Golden Valley $5,000,000, at the Company option, in cash or shares at a deemed price per share equal to the market price of the Company's shares at the time of such election.

If the Company has issued the common shares and incurred the expenditures provided for in the option agreement, it may exercise the option on or before December 31, 2021.

6) EXPLORATION AND EVALUATION ASSETS (continued)

Boston Bulldog Prospect - Kirkland Lake, Ontario

The Boston Bulldog Prospect is comprised of one mineral claim located in Kirkland Lake, Ontario, which Val-d'Or Mining was granted an option to acquire a 100% interest.

On February 16, 2015, the Company entered into a Mining Option Agreement, amended on March 6, 2015 and March 24, 2017, pursuant to which it has been granted by 2973090 Canada Inc., a Canadian private company wholly-owned and controlled by the president and director of the Company, an option to acquire a 100% interest in the mineral claims comprising the Boston Bulldog Prospect, subject to a 3% NSR royalty. In consideration of the grant of the option, the Company paid 2973090 Canada Inc. a sum of $5,000 in cash to cover the cost of staking the property and issued 300,000 common shares (issued in April 2015). To maintain and exercise the option, the Company must keep the property in good standing and incur minimum mining operations expenditures of $50,000 by April 7, 2019. In accordance with the terms of the option, the Company has the right to reduce the royalty from 3% to 2% of the NSR by paying 2973090 Canada Inc. $1,000,000 at any time on or before February 16, 2022.

In December 2016, the 3 mining claims expired and the Company attempted to re-stake the claims but was met with competition as they were staked by another party. However, the Company was of the opinion that the other party did not follow proper staking procedures on one of the claims. Consequently, the Company re-staked and submitted a claim dispute with the Ministry of Northern Development and Mines ("MNDM"). In September 2017, the Company decided to impair its Boston Bulldog Prospect. However, in November 2017, the Company received confirmation that the dispute filed was decided in favour of the Company and therefore had full title restored. Management believes that no reversal of impairment was required.

Shoot-Out Prospect - Northern Quebec

The Shoot-Out Prospect is the combination of two properties, Shoot-Out East and Shoot-Out West, and consists of 154 claims located in the Raglan Belt of northern Quebec. The Company has a 100% ownership interest in this property that is subject to a 3% NSR in favor of the original vendors, one of which is a director and officer of the Company. This prospect was impaired in the year ended December 31, 2017. The Company is not planning any work in the near future.

Marymac Prospect - Labrador Trough, Quebec

The Marymac Prospect located in the Labrador Trough of Quebec, consists of 22 Map Designated Units (each an "MDU"). The Company holds a 100% interest in the Marymac Prospect that is subject to a 2% net smelter royalty ("NSR") interest in favour of Capex Group Inc. (formerly 862539 Alberta Ltd.), which was granted pursuant to an agreement dated March 1, 2001. This prospect was impaired in the year ended December 31, 2016.

(Expressed in Canadian dollars unless otherwise noted)

6) EXPLORATION AND EVALUATION ASSETS (continued)

Fortin Prospect - Abitibi, Quebec

The Fortin Prospect is located in the central part of Ducros Township, approximatively 80 kilometres northeast of the City of Val-d'Or, Quebec, and consists of 5 contiguous mining claims. The Company holds a 100% interest in this property that is subject to a 1.5% NSR in favour of the original vendors. The Company retains the right to buyback the NSR at anytime; 0.5% buyback for $500,000 and 1% buyback for $1,000,000. This prospect was impaired in the year ended December 31, 2013.

2018 transactions on share capital

Settlement of debt

On October 1, 2010, the Company entered into a Management and Administrative Services Agreement (the "Management Agreement") with Golden Valley, pursuant to which Golden Valley will provide certain administrative, management and financial services such as office space, administrative support, including the use of Golden Valley's in house legal counsel for day to day general enquiries, services of a consultant and investors relations services to the Company in consideration of $96,000 per year from each company, payable on a monthly basis, plus applicable taxes. However, Golden Valley suspended the management fees to Val-d'Or Mining in 2012 to enable the Company to conserve cash for operations. On January 1, 2018, the Company entered into a Termination Agreement with Golden Valley under which the Company agreed to terminate the Management Agreement, in exchange of a settlement fee of $60,000 payable by the Company as consideration for its failure to pay the management fees since the date of suspensions of the respective Management Agreement.

On April 6, 2018, the Company announced that, subject to acceptance by the TSX Venture Exchange ("Exchange") and with the intent of preserving its cash resources for operations, it proposed issuing approximately 857,142 common shares at a deemed per share price of $0.105 in settlement of an aggregate of $90,000 in accrued debt owing to the Company. Of the debt to Golden Valley, $30,000 is an outstanding loan and $60,000 relates to consideration payable under the terms of a termination agreement entered into effective January 1, 2018. On April 30, 2018, the Exchange accepted the shares for debt submission.

Incentive stock option

On March 15, 2018, a total of 15,000 stock options were exercised at a price of $0.065 per share for total proceeds of $975.

7) EQUITY (continued)

2017 transactions on share capital

On February 3, 2017, a total of 890,000 warrants were exercised at a price of $0.12 per share for total proceeds of $106,800.

On March 30, 2017, the Company closed a non-brokered private placement pursuant to which it has issued 4,353,461 units at a price of $0.065 per unit for gross proceeds of $282,975. Each unit consists of one common share in the capital of the Company and one non-transferable share purchase warrant, entitling the purchase of one common share at a per share price of $0.085 until March 30, 2019. The fair value of the 4,353,461 warrants was estimated at $0.025 using the Black-Scholes valuation model with the following assumptions: an expected volatility of 127.7%, a risk-free interest rate of 0.79%, an expected unit life of 2 years, no expected dividend yield and a share price at date of grant of $0.08. As a result, the warrants were valued at $108,837 and recorded as an increase of issuance costs, deducted from share capital, and recorded as an increase of Warrants in the statement of changes in equity.

In connection with the financing, the Company issued an aggregate 225,200 common shares at a deemed per share price of $0.04 for $9,008 representing 8% of the purchase proceeds received from subscribers introduced to the Company by the finders and issued 225,200 non-transferable finders warrants entitling the purchase of an aggregate 225,200 common shares of the Company at a per share price of $0.085 until March 30, 2019, representing 8% of the number of units placed with the assistance of the finders. When granted, the fair value of the 225,200 non-transferable finders warrants of $5,630, issued as compensation warrants to settle finder's fees, was established based on the value of the service received and recorded as an increase of issuance costs, deducted from share capital, and as an increase of Warrants in the statement of changes in equity. The Company also incurred regulatory fees in relation with the private placement of $2,238.

8) WARRANTS

The following table shows the changes in warrants:

	September 30, 2018			December 31, 2017		
	Number of warrants		Weighted average exercise price	Number of warrants		Weighted average exercise price
Outstanding, beginning of period	**13,358,661**	**$**	**0.12**	1,291,250	$	0.12
Issued	-		-	13,358,661		0.12
Exercised	-		-	(890,000)		0.12
Expired warrants	-		-	(401,250)		0.12
Outstanding, end of period	**13,358,661**	**$**	**0.12**	13,358,661	$	0.12

(Expressed in Canadian dollars unless otherwise noted)

8) WARRANTS (continued)

The number of outstanding warrants that could be exercised for an equal number of common shares is as follows:

	September 30, 2018			December 31, 2017		
	Number of warrants outstanding		Exercise Price	Number of warrants outstanding		Exercise Price
March 30, 2019	**4,578,661**	**$**	**0.085**	4,578,661	$	0.085
November 30, 2020	**1,380,000**		**0.100**	1,380,000		0.100

9) SHARE-BASED PAYMENTS

Stock option plan

The Company has adopted an incentive stock option plan pursuant to which directors, officers, employees and consultants are eligible to receive incentive stock options. Under the terms of this plan, the aggregate number of shares issuable upon the exercise of all options granted thereunder may not exceed 10% of the Company's common shares issued and outstanding at the time of grant. The exercise price of each option is fixed by the Board of Directors, but shall not be less than the closing price of the Company's share on the trading day immediately prior to the date of grant less any discount permitted by the Exchange; if no sales were reported, it shall be the sales closing price on the last trading day immediately prior to the date of grant on which sales were reported. The vesting period of the options shall be determined by the Board of Directors, in accordance with the rules and regulations of the TSX Venture Exchange. All share-based payments will be settled in equity. The Company has no legal constructive obligation to repurchase or settle the options in cash.

(Expressed in Canadian dollars unless otherwise noted)

9) SHARE-BASED PAYMENTS (continued)

A summary of changes in the number of incentive stock options for the nine months ended September 30, 2018 and 2017 is presented as follows:

	September 30, 2018			December 31, 2017		
	Number of Options		**Weighted average exercise price**	Number of Options		Weighted average exercise price
Outstanding, beginning of period	**565,000**	**$**	**0.070**	565,000	$	0.07
Granted	**2,600,000**		**0.105**			
Exercised	**(15,000)**		**0.065**			
Forfeited	**(30,000)**		**0.070**	-		-
Outstanding, end of period	**3,120,000**	**$**	**0.100**	565,000	$	0.07

The fair value of the 2,600,000 stock options granted at $0.105 per share has been estimated on the date of issue at $256,925, using the Black-Scholes option-pricing model with the following assumptions: share price at date of grant: $0.11; expected dividend yield: nil; expected volatility:166.95%; risk-free interest rate: 2.03%; expected life: 5 years and exercise price at the date of grant: $0.105 per share. For the three and nine months ended September 30, 2018, an amount of $nil and $144,520 has been expensed and of $nil and $112,405 has been capitalized to exploration and evaluation assets, respectively.

The expected volatility used above in the assumptions was determined by reference to historical data of the Company's shares over the expected average life of the stock options. No special features inherent to the stock options granted were incorporated into measurement of fair value.

The number of outstanding stock options that could be exercised for an equal number of common shares is as follow:

Expiry date	Number of Options		Exercise price
April 3, 2019	45,000	$	0.065
November 20, 2019	50,699		0.080
May 16, 2021	424,301		0.065
February 5, 2023	2,600,000		0.105
	3,120,000	$	0.100

(Expressed in Canadian dollars unless otherwise noted)

9) SHARE-BASED PAYMENTS (continued)

Restricted Share Unit Plan

At the annual general and special meeting of shareholders held on June 27, 2016, the shareholders approved the adoption and implementation of a Restricted Share Unit Plan (the "RSU Plan"). The RSU Plan will be adopted and implemented by the Company's Board upon receipt of acceptance by the TSX Venture Exchange. The RSU Plan provides that restricted share units ("Share Units") may be granted by the Company's Compensation and Corporate Governance Committee (the "Committee") to executive officers, directors, employees and consultants (each a "Participant") as a bonus or similar payment in respect of services rendered or otherwise as compensation, including as an incentive for future performance. At the time Share Units are granted to a Participant, the Committee will determine any time-based or other conditions as to the vesting of the Share Units and the expiry date (the "Expiry Date") for such Share Units. The Expiry Date of a Share Unit will be decided at the grant date. The aggregate number of common shares issuable pursuant to Share Units granted under the RSU Plan will not, at any given time, exceed 1,288,199 common shares. The Company's RSU Plan was approved by the TSX Venture Exchange.

No restricted shares units were issued for the three and nine months ended September 30, 2018.

10) LOSS PER SHARE

Loss per share has been calculated using the weighted average number of common shares outstanding for the three and nine months ended September 30, 2018 and 2017 as follows:

	Three months ended September 30,		Nine months ended September 30,	
	2018	**2017**	**2018**	**2017**
Net loss for the period	$ **107,162**	$ 99,929	$ **459,342**	$ 170,940
Weighted average number of common shares - Basic	**34,022,797**	18,350,655	**33,572,892**	16,750,396
Dilutive effect of stock options	**-**	-	**-**	-
Weighted average number of common shares - Diluted	**34,022,797**	18,350,655	**33,572,892**	16,750,396
Basic loss per share	$ **0.003**	$ 0.005	$ **0.014**	$ 0.010
Diluted loss per share	$ **0.003**	$ 0.005	$ **0.014**	$ 0.010

For the three and nine months ended September 30, 2018, potential dilutive common shares from incentive stock options have not been included in the earnings (loss) per share calculation as they would result in a reduction of the loss per share.

(Expressed in Canadian dollars unless otherwise noted)
