## Notes to the Interim Condensed Financial Statements

September 30, 2025 and 2024 (Unaudited - in Canadian dollars)

### 1 NATURE OF OPERATIONS AND GOING CONCERN

SRQ Resources Inc. ("SRQ" or the "Corporation") is a Canadian base metals Corporation exploring for nickel, copper and platinum in the province of Québec. The Corporation was incorporated on June 2, 2021, under the Canada Business Corporations Act. The Corporation's head office is located at #132 – 1320 Graham Blvd., Mont-Royal, Quebec, Canada, H3P 3C8. The Corporation's common shares are listed on the TSX Venture Exchange (the "TSX-V") under the trading symbol "SRQ.V".

Based on the information available to date, the Corporation has not yet determined whether its mineral properties contain economically recoverable reserves. The recoverability of the amounts shown for exploration and evaluation assets is dependent upon the discovery of economically recoverable reserves, the ability of the Corporation to obtain necessary financing to successfully complete exploration and development programs and, ultimately, upon future profitable production.

These unaudited interim financial statements have been prepared on a going concern basis, which presumes the Corporation will continue its operations for the foreseeable future and will be able to realize its assets and discharge its liabilities and commitments in the ordinary course of business for the foreseeable future. The use of these principles may not be appropriate. The Corporation is in its early stages, and as is common with similar companies, it raises financing for its exploration and evaluation activities. As at September 30 2025, the Corporation has a working capital of \$988,925 (December 31, 2024 – \$393,922), including cash of \$593,225 (December 31, 2024 – \$407,905).

The Corporation's ability to continue future operations and fund its operations is dependent on management's ability to secure additional financing in the future, which may be completed in a number of ways including, but not limited to, the issuance of equity instruments, expenditure reductions, or a combination of strategic partnerships, joint venture arrangements, royalty financing and other capital market alternatives. If management is unable to obtain new funding, the Corporation may be unable to continue its operations, and amounts realized for assets might be less than amounts reflected in these consolidated financial statements. Such adjustments could be material.

### 2 MATERIAL ACCOUNTING POLICIES

#### Basis of presentation

The Corporation's interim financial statements have been prepared in accordance with International Financial Reporting Standards, as issued by the International Accounting Standards Board ("IFRS Accounting Standards") applicable to the preparation of interim statements, including IAS 34, *Interim Financial Reporting*.

The accounting policies followed in these interim condensed financial statements are consistent with those applied in the Corporation's annual financial statements for the year ended December 31, 2024. These interim financial statements should be read in conjunction with the Corporation's annual financial statements for the year ended December 31, 2024 which have been prepared according to IFRS Accounting Standards.

These interim condensed consolidated financial statements were authorized for publication by the Audit Committee, as delegated by the Board of Directors, on November 19, 2025.

The fair value of the 15,091,892 warrants was estimated at \$1,375,347 using the Black-Scholes valuation model with the following assumptions: expected dividend yield 0%, expected volatility 149.31%, risk-free rate of return 3.06%, share price of \$0.13 and expected maturity of 2 years. The finders’ fees were paid to certain arm’s-length finders, representing up to 7% of the gross proceeds received by the Corporation from subscribers that were introduced to the Corporation by such finders. From the total issue cost of \$92,905, \$7,796 was allocated to the flow-through liability and the remaining \$85,109 was attributed to share capital.

### 8 FINANCIAL INSTRUMENTS AND FINANCIAL RISK FACTORS

#### Classification

The Corporation's financial instruments as at September 30, 2025 and December 31, 2024 consist of cash and cash equivalents, accounts payable and accrued liabilities.

The classification of financial instruments is summarized as follows:

<b>Financial Assets</b>	<b>Classification</b>	<b>September 30, 2025</b>	<b>December 31, 2024</b>
		<b>\$</b>	<b>\$</b>
Cash and cash equivalents (Guaranteed investment certificates)	Financial assets at amortized cost	<b>518,673</b>	292,979
		<b>518,673</b>	292,979

<b>Financial Assets</b>	<b>Classification</b>	<b>September 30, 2025</b>	<b>December 31, 2024</b>
		<b>\$</b>	<b>\$</b>
Cash equivalents (Other than guaranteed investment certificates)	Fair value through profit & loss	<b>74,552</b>	114,926
		<b>74,552</b>	114,926

<b>Financial Liabilities</b>	<b>Classification</b>	<b>September 30, 2025</b>	<b>December 31, 2024</b>
		<b>\$</b>	<b>\$</b>
Accounts payable and accrued liabilities	Financial liabilities at amortized cost	<b>68,998</b>	87,552
		<b>68,998</b>	87,552

The Corporation's risk exposures and the impact of these exposures on the Corporation's financial instruments are summarized below:

#### Credit risk

Credit risk is the risk of financial loss to the Corporation if a counterparty to a financial instrument fails to meet its contractual obligations. The Corporation is also exposed to credit concentration risk by holding cash and guaranteed investment certificates. This risk is minimized by holding cash and guaranteed investment certificates with a large Canadian financial institution.

#### Liquidity risk

The Corporation manages its liquidity risk by using budgets that enable it to determine the amounts required to fund its E&E programs. The Corporation also ensures that it has sufficient working capital available to meet its day-to-day commitments.

As at September 30, 2025, the Corporation had cash and cash equivalents of \$593,225 to settle liabilities of \$68,998.

## Notes to the Interim Condensed Financial Statements

September 30, 2025 and 2024 (Unaudited - in Canadian dollars)

---

Any funding shortfall may be met in the future in a number of ways including, but not limited to, the issuance of new equity instruments, issuance of debts, issuance of convertible debentures, issuance of streams, sale of royalties, further expenditure reductions, or other measure.

### **Fair value**

Fair value estimates are made at the statement of financial position date based on relevant market information and other information about financial instruments.

The Corporation's financial instruments recorded at amortized costs at September 30, 2025 consist of cash and guaranteed investment certificates, accounts receivable and accounts payables and accrued liabilities. The Corporation's financial assets and liabilities approximate their fair values due to their relatively short periods to maturity.

### **Interest rate risk**

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in prevailing market interest rates.

Except for the fixed interest recognized on the guaranteed investment certificates, all of the Corporation's assets and liabilities are non-interest-bearing and, as such, are not subject to a significant amount of risk arising from fluctuations in interest rates.

### **Market risk**

#### Commodity price risk

Commodity price risk is the risk that the fair value or expected future cash flows will fluctuate as a result of changes in commodity prices. Commodity prices for minerals are impacted by world economic events that dictate the levels of supply and demand as well as the relationship between the Canadian and other currencies. As the Corporation has not yet developed commercial mineral interests, its exposure to commodity price risk at this time is limited. However, the Corporation is indirectly exposed to commodity price risk as it impacts the Corporation's access to capital and funding.

## **9 RELATED PARTIES**

### **Transaction with related parties**
