## **INVESTMENT OBJECTIVES AND STRATEGIES**

### **Investment objectives**

Canadian Banc Corp. invests primarily in a portfolio of common shares which will include each of the following Canadian chartered banks:

Bank of Montreal	National Bank of Canada
Bank of Nova Scotia	Royal Bank of Canada
Canadian Imperial Bank of Commerce	Toronto-Dominion Bank

The Company may also invest up to 20% of the net asset value in equity securities of Canadian or foreign financial services corporations other than the core holdings listed above. In order to supplement the dividends received on the portfolio and to reduce risk, the Company will from time to time write covered call options in respect of some or all of the common shares in the portfolio.

The Company offers two types of shares:

### **Preferred Shares**

The investment objectives with respect to the Preferred shares are as follows:

1. To provide holders with cumulative preferential floating rate monthly cash dividends at a rate per annum equal to the prevailing Canadian prime rate plus 0.75%, with a minimum annual rate of 5.0% and a maximum annual rate of 7% based on original issue price; and
2. On or about the termination date of December 1, 2018 (subject to further 5 year extensions thereafter) to pay holders the original issue price (\$10) of those shares.

## **Class A Shares**

The investment objectives with respect to the Class A shares are as follows:

1. To provide holders with monthly cash distributions targeted to be at a rate of 10% annualized based on the volume weighted average market price of the Class A shares for the last 3 trading days of the preceding month; and
  2. On the termination date to pay holders the original issue price (\$15) of those shares.
- 

## **RISK**

The risks of investing in the Company remain as discussed in the Annual Information Form dated February 22, 2017. In addition, note 5 of the semi-annual financial statements (“Management of Risk of Financial Instruments”) contains disclosure on specific types of risks related to the financial investments held by the Company.

---

## **RESULTS OF OPERATIONS**

The six month period ended May 31, 2017 reflected a mixed period for the six Canadian banks held in the portfolio.

Canadian banks responded in tandem with U.S. bank stocks as U.S. election results lead to significant post-election market gains which generally peaked in the February/March period. All six of the Canadian banks held in the portfolio reached all-time highs during February or March as longer term interest rates rose significantly as growth and inflation expectations increased during this period. Increasing net interest rate margins as a result of a more positively sloped interest rate curve was a significant catalyst during this period. However, increasing uncertainties about the timing and configuration of the new U.S. administration’s stimulative policy proposals and a flattening interest rate yield curve in Canada weighed on the market performance of the Canadian banks stocks during the March to May period.

The Canadian banks have generally continued to top profit expectations and raise their annual dividends reflecting the ongoing strength of their businesses. The current dividend yields on the Canadian banks held in the portfolio continue to make them very attractive on a relative basis within the current low interest rate environment.

The net assets per unit (consisting of one Preferred share and one Class A share) finished at \$21.68 as at May 31, 2017, after the payment of \$0.88 in combined distributions to both classes of shares at the targeted rates and \$1.12 in special capital gains distributions to Class A shares.

On December 19, 2016, the Company declared a special capital gains cash dividend of \$0.50 per Class A share and a special capital gains stock dividend of 0.05 of a Class A share for each Class A share outstanding. On January 9, 2017, a total of \$3.9 million was paid to shareholders on record as of January 5, 2017 and 393,602 Class A shares were issued at a reinvestment price of \$12.48 per Class A share, representing the net asset value attributable to Class A shareholders per share on December 31, 2016.

In connection with these special dividends and pursuant to a secondary offering, the Company also issued an additional 393,602 Preferred shares for net proceeds of \$3.9 million (gross proceeds of \$4.1 million).

Net assets of the Company finished the period at \$179.2 million.

The covered call writing program continued to provide additional income and supplemented the dividend income earned in the portfolio.

### Class A shares - Distributions

Class A shareholders receive monthly cash distributions targeted to be at a rate of 10% annualized based on the volume weighted average market price of the Class A shares for the last 3 trading days of the preceding month. Total regular monthly cash distributions per Class A share during the period amounted to \$0.63 at the target rate. During the period, Class A shareholders also received a special capital gains dividend of \$0.50 per Class A share and a special capital gains stock dividend of 0.05 of a Class A share for each Class A share outstanding (\$0.62 based on the net asset value attributable to Class A shareholders per share on December 31, 2016 of \$12.48). In total, Class A shareholders received \$1.75 in distributions during the period.

### Cumulative Distributions since inception

The Company has paid a total of \$12.43 in dividends for each Class A Share.

### Preferred shares - Distributions

Preferred shareholders are entitled to receive regular monthly cash dividends targeted to yield a floating rate based on the prime rate in Canada plus 0.75% per annum with a minimum annual rate of 5.0% and a maximum annual rate of 7.0% based on the original issue price. Distributions during the period were at the minimum annual rate for a total \$0.25 per Preferred share.

### Cumulative Distributions since inception

The Company has paid a total of \$6.36 in dividends for each Preferred Share.

## RECENT DEVELOPMENTS

There were no developments during the period.

## RELATED PARTY TRANSACTIONS

Quadravest Capital Management Inc. (“Quadravest”) as Investment Manager and Manager earns fees from the Company as described below in the Management Fees section.

## FINANCIAL HIGHLIGHTS

The following tables show selected financial information about the Company and are intended to help you understand the Company’s financial performance for the past five years. This information is derived from the Company’s semi-annual financial statements and previous audited annual financial statements. The information in the following table is presented in accordance with National Instrument (“NI”) 81-106 and, as a result, does not act as a continuity of opening and closing net assets per unit.

### The Company’s net assets per unit

	May 31, 2017	2016	2015	2014	2013	2012
Net assets per unit, beginning of period <sup>(1)</sup>	22.78	20.89	24.09	22.34	19.93	20.17
Increase (decrease) from operations						
Total revenue	0.41	0.88	0.84	0.82	0.78	0.76
Total expenses	(0.16)	(0.30)	(0.30)	(0.35)	(0.30)	(0.26)
Realized gains for the period	0.73	0.55	0.47	1.05	1.54	1.31
Unrealized gains (losses) for the period	(0.12)	2.24	(2.34)	2.14	1.51	0.74
Total increase (decrease) from operations <sup>(2)</sup>	0.86	3.37	(1.33)	3.66	3.53	2.55
Distributions <sup>(3)</sup>						
Canadian dividends	(0.53)	(0.94)	(1.07)	(1.18)	(0.80)	(1.15)
Capital gains dividends	(1.47)	(0.57)	(0.67)	(0.62)	(0.44)	-
Total annual distributions	(2.00)	(1.51)	(1.74)	(1.80)	(1.24)	(1.15)
Net assets per unit at end of period	21.68	22.78	20.89	24.09	22.33	19.93
Net assets per Preferred share	10.00	10.00	10.00	10.00	10.00	10.00
Net assets per Class A share	11.68	12.78	10.89	14.09	12.33	9.93
Net assets per unit at end of period	21.68	22.78	20.89	24.09	22.33	19.93

- (1) Net assets per unit is the difference between the aggregate amount of the Company’s assets and the aggregate amount of its liabilities, excluding Preferred shares and net assets attributable to holders of redeemable Class A shares, at the valuation date, divided by the number of units then outstanding.
- (2) Total increase (decrease) from operations is before the payment of Preferred and Class A share distributions and is calculated based on the weighted average number of units outstanding during the period.
- (3) Distributions are to Preferred shares and Class A shares are based on the number of Preferred shares and Class A shares outstanding on the record date for each distribution in the period and were paid in cash. Characterization of distributions is based on the tax treatment that is received by investors.
- (4) Per unit figures presented for 2014 and onwards are derived from the Company’s semi-annual financial statements and audited annual financial statements which were prepared in accordance with International Financial Reporting Standards (“IFRS”). Per unit figures presented for periods prior to 2014 were derived from the Company’s audited financial statements which were prepared in accordance with Canadian Generally Accepted Accounting Principles (“GAAP”) as defined in Part V of the CPA Handbook.

## RATIOS AND SUPPLEMENTAL DATA (BASED ON NET ASSET VALUE)

	May 31, 2017	2016	Years ended November 30			
		2016	2015	2014	2013	2012
Net asset value (millions) <sup>(1)</sup>	\$179.2	\$179.4	\$172.2	\$166.8	\$134.0	\$129.5
Number of units outstanding	8,265,657	7,872,055	8,243,855	6,923,855	5,997,136	6,456,865
Base Management expense ratio <sup>(2)</sup>	1.57%	1.41%	1.41%	1.48%	1.43%	1.36%
Management expense ratio including one time secondary offering expenses <sup>(3)</sup>	1.64%	1.41%	2.27%	2.20%	1.43%	1.36%
Management expense ratio per Class A share <sup>(4)</sup>	6.93%	7.21%	8.71%	7.72%	7.45%	8.06%
Portfolio turnover rate <sup>(5)</sup>	11.9%	5.9%	10.5%	33.8%	66.6%	50.2%
Trading expense ratio <sup>(6)</sup>	0.03%	0.02%	0.01%	0.02%	0.05%	0.04%
Closing market price (TSX): Preferred shares	\$10.25	\$10.50	\$10.53	\$10.37	\$10.29	\$10.38
Closing market price (TSX): Class A shares	\$11.81	\$12.00	\$10.10	\$14.78	\$11.80	\$8.95

- (1) This information is provided as at May 31 or November 30.
- (2) A separate base management expense ratio has been presented to reflect the normal operating expenses of the Company excluding any one time offering expenses. Management expense ratio is based on total expenses for the stated period and is expressed as an annualized percentage of average net asset value during the period.
- (3) Share issue expenses, representing all Agents' fees and other offering expenses are one time initial expenses connected with the launch of the Company or any subsequent secondary offering. Any expenses incurred with secondary offerings were offset by the accretion to net assets per unit of such offerings.
- (4) Management expense ratio for Class A shares is based on the requirements of NI 81-106. This instrument requires that all split share companies produce an expense ratio which allocates all operating expenses of the Company, all distributions on Preferred shares and all issuance costs to the Class A shares and expresses this as an annualized percentage of net assets applicable only to the Class A shares during the period. The management expense ratio per Class A share should not be interpreted as the required return necessary for the Company or the Class A shares to cover the operating expenses of the Company. This calculation is based only on a portion of the Company's assets whereas the Company utilizes its entire assets to generate investment returns. Management believes that the base management expense ratio per unit disclosed in the table above is the most representative ratio in assessing the ongoing efficiency of the administration of the Company, making comparisons to the expense ratios of single unit mutual funds or determining the minimum investment returns necessary by the Company to achieve growth in net asset value per unit.
- (5) The Company's portfolio turnover rate indicates how actively Quadravest manages the portfolio investments. A portfolio turnover rate of 100% is equivalent to the Company buying and selling all of the securities in its portfolio once in the course of the period. The Company employs a covered call writing strategy which can cause the portfolio turnover rate to be higher than conventional mutual funds. The higher the Company's portfolio turnover rate in a period, the greater the trading costs payable by the Company in the period and the greater chance of an investor receiving taxable capital gains in the period. There is not necessarily a relationship between a high turnover rate and the performance of the Company.
- (6) The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of average net asset value during the period.

## MANAGEMENT FEES

Pursuant to the terms of the investment management agreement, Quadravest is entitled to a base management fee payable in arrears at an annual rate equal to 0.65% of the transactional net assets of the Company, which include the outstanding Preferred shares, calculated as at each month end valuation date. In addition, Quadravest is entitled to receive a performance fee subject to the achievement of certain pre-established total return thresholds.

Pursuant to the management agreement, Quadravest is entitled to an administration fee payable monthly in arrears at an annual rate equal to 0.20% of the transactional net assets of the Company, which includes the outstanding Preferred shares, calculated as at each month-end valuation date and an amount equal to the service fee payable to dealers on the Class A shares at a rate of 0.50% per annum. No service fee will be paid in any calendar quarter if regular dividends are not paid to holders of Class A shares in respect of each month in such calendar quarter.

The base management fee was used by Quadravest to provide investment analysis, make investment decisions, and make brokerage arrangements for the purchase and sale of securities including the covered call writing program. The administration fee was used to provide or arrange administrative services required by the Company which includes all operational services, financial accounting, shareholder reporting and regulatory reporting.

## PAST PERFORMANCE

### Year-by-Year Returns

The past performance of 1) the net asset value per unit; 2) the Preferred share on a net asset value basis; and 3) the Class A share on a net asset value basis for each of the last 10 years are presented in the bar charts below. Each bar in the chart reflects the change in percentage terms of how a unit, a Preferred share or a Class A share would have increased or decreased during the applicable year. In respect to the charts displayed below, please note the following:

- The performance information shown assumes that all cash distributions made by the Company during the years shown were reinvested in the applicable additional securities of the Company;
- The performance information does not take into account sales, redemption, distribution or other optional charges that would have reduced returns or performance; and
- Past performance of the Company does not necessarily indicate how it will perform in the future.
