

This is the semi-annual Management Report of Fund Performance (MRFP) for the period ended May 31, 2020. This MRFP contains financial highlights but does not contain the complete financial statements of the Company. The semi-annual financial statements and accompanying notes are attached to this report.

Investors may also obtain a copy of the Company's proxy voting policies and procedures, proxy voting disclosure record, or quarterly portfolio disclosure by visiting our website at www.canadianbanc.com or by writing to the Company at Investor Relations, 200 Front Street West, Suite 2510, Toronto, Ontario M5V 3K2.

These reports are available to view and download at www.canadianbanc.com or www.sedar.com.

INVESTMENT OBJECTIVES AND STRATEGIES

Investment objectives

Canadian Banc Corp. invests primarily in a portfolio of common shares which will include each of the following Canadian chartered banks:

Bank of Montreal	National Bank of Canada
Bank of Nova Scotia	Royal Bank of Canada
Canadian Imperial Bank of Commerce	Toronto-Dominion Bank

The Company may also invest up to 20% of the net asset value in equity securities of Canadian or foreign financial services corporations other than the core holdings listed above. In order to supplement the dividends received on the portfolio and to reduce risk, the Company will from time to time write covered call options in respect of some or all of the common shares in the portfolio.

The Company offers two types of shares:

Preferred shares

The investment objectives with respect to the Preferred shares are as follows:

1. Preferred shareholders are entitled to receive a cumulative preferential floating rate monthly dividend at an annual rate equivalent to the prevailing Canadian prime rate plus 1.5%, with a minimum annual rate of 5% and a maximum annual rate of 8% based on the \$10 repayment value; and
2. On or about the termination date of December 1, 2023 (subject to further 5 year extensions thereafter) to pay holders the \$10 repayment value of those shares.

Class A shares

The investment objectives with respect to the Class A shares are as follows:

1. To provide holders with monthly cash distributions targeted to be at a rate of 10% annualized based on the volume weighted average market price of the Class A shares for the last 3 trading days of the preceding month. The net asset value per unit must remain above the required \$15 per unit threshold for monthly distributions to be declared; and
2. On the termination date to pay holders the original issue price (\$15) of those shares.

RISK

The risks of investing in the Company remain as discussed in the Annual Information Form dated February 25, 2020. In addition, note 5 of the semi-annual financial statements (“Management of Risk of Financial Instruments”) contains disclosure on specific types of risks related to the financial investments held by the Company. The Company is also exposed to the risk of volatile markets and market disruption risk resulting from a number of circumstances including a global pandemic, as experienced with COVID-19. These risks may affect the performance of the Company and could significantly reduce the value of an investment in shares.

RESULTS OF OPERATIONS

Financial markets experienced a tumultuous period as market participants responded to the unprecedented effects of a global pandemic. The worldwide economic disruptions caused by government mandated shelter in place orders and the shutdown of large parts of the global economy had a severe social and economic impact. Concerns about a global recession and a sudden sharp rise in unemployment put additional downward pressure on equity markets. In response, the U.S. Federal Reserve and the Bank of Canada aggressively reduced interest rates to near zero, bringing rates back to levels last seen during the global financial crisis in 2008 and 2009. Both the U.S. and Canadian governments also announced significant individual consumer and business programs designed to provide necessary support to help individuals and businesses survive through the adverse financial consequences of the pandemic. After reaching an extreme low in late March, equity markets began to rebound thereafter as market participants began to factor in many of the potential promising treatment and vaccine development efforts and the eventual reopening of economies. Different sectors of the economy and the market responded at an uneven pace with the markets initially favouring those companies that were benefitting from the new “stay at home economy”.

The portfolio companies generally followed this pattern with their market prices reaching extreme lows in late March and then recovering a meaningful portion of the declines by the end of May. Despite this improvement towards the end of the period, the market prices of the portfolio companies remained lower at the end of the period than they were at the beginning of the six-month period.

The net assets per unit (consisting of one Preferred share and one Class A share) finished at \$16.39 as at May 31, 2020, after the payment of \$0.63 in combined distributions to both classes of shares at the targeted rates. A combined total of \$23.70 has been paid in distributions since inception.

The Company announced on May 11, 2020 that the TSX accepted its notice of intention to make a Normal Course Issuer Bid (the “NCIB”) to purchase its Preferred shares and Class A shares through the facilities of the TSX. The NCIB commenced on May 13, 2020 and will terminate on May 12, 2021. Pursuant to the NCIB, the Company proposes to purchase, from time to time, if it is considered advisable, up to 1,106,971 Preferred shares and 1,099,482 Class A shares of the Company, representing 10% of the public float of Preferred shares and Class A shares. Subject to TSX temporary blanket relief, the Company will not purchase, in any given 30-day period, in the aggregate, more than 221,845 Preferred shares or more than 221,845 Class A shares, being 2% of the issued and outstanding Preferred shares and Class A shares as of May 1, 2020. There were no Preferred shares nor Class A shares purchased for cancellation during the period ended May 31, 2020.

Net assets of the Company finished the period at \$181.8 million.

The covered call writing program continued to provide additional income and supplemented the dividend income earned in the portfolio.

Class A shares - Distributions

Class A shareholders receive monthly cash distributions targeted to be at a rate of 10% annualized based on the volume weighted average market price of the Class A shares for the last 3 trading days of the preceding month. The net asset value per unit must remain above the required \$15 per unit threshold for monthly distributions to be paid. Total monthly cash distributions per Class A share during the period amounted to \$0.3664.

Preferred shares - Distributions

Preferred shareholders are entitled to receive a cumulative preferential floating rate monthly dividend at an annual rate equivalent to the prevailing Canadian prime rate plus 1.5%, with a minimum annual rate of 5% and a maximum annual rate of 8% based on the \$10 repayment value. Total distributions during the period amounted to \$0.2613 per Preferred share.

15.79

Cumulative total of distributions paid to Class A share since inception

1.12

Special distributions paid since inception

7.91

Cumulative total of distributions paid to Preferred share since inception

RECENT DEVELOPMENTS

Financial markets have experienced significant volatility in response to the COVID-19 pandemic and equity markets in particular have experienced significant declines. The investment portfolio of the Company has been subject to these market fluctuations and may continue to experience significant volatility as the situation evolves.

RELATED PARTY TRANSACTIONS

Quadravest Capital Management Inc. ("Quadravest") as investment manager and Manager earns fees from the Company as described below in the Management Fees section.

FINANCIAL HIGHLIGHTS

The following tables show selected financial information about the Company and are intended to help you understand the Company's financial performance for the past five years. This information is derived from the Company's semi-annual financial statements and previous audited annual financial statements. The information in the following table is presented in accordance with National Instrument ("NI") 81-106 and, as a result, does not act as a continuity of opening and closing net assets per unit.

The Company's net assets per unit

	May 31, 2020	Years ended November 30				
		2019	2018	2017	2016	2015
Net assets per unit, beginning of period ⁽¹⁾	21.36	21.02	23.28	22.78	20.89	24.09
Increase (decrease) from operations

Net assets per Class A share	<u>6.39</u>	<u>11.36</u>	<u>11.02</u>	<u>13.28</u>	<u>12.78</u>	<u>10.89</u>
Net assets per unit at end of period	16.39	21.36	21.02	23.28	22.78	20.89

- (1) Net assets per unit is the difference between the aggregate amount of the Company's assets and the aggregate amount of its liabilities, excluding Preferred shares and net assets attributable to holders of redeemable Class A shares, at the valuation date, divided by the number of units then outstanding.
- (2) Total increase (decrease) from operations is before the payment of Preferred and Class A share distributions and is calculated based on the weighted average number of units outstanding during the period.
- (3) Distributions are to Preferred shares and Class A shares are based on the number of Preferred shares and Class A shares outstanding on the record date for each distribution in the period and were paid in cash. Characterization of distributions is based on the tax treatment that is received by investors.

RATIOS AND SUPPLEMENTAL DATA (BASED ON NET ASSET VALUE)

	May 31, 2020	2019	Years ended November 30			
		2018	2017	2016	2015	
Net asset value (millions) ⁽¹⁾	\$181.8	\$237.0	\$235.0	\$192.4	\$179.4	\$172.2

Management expense ratio including one time secondary offering expenses ⁽³⁾	1.16%	1.35%	2.64%	1.48%	1.41%	2.27%
Management expense ratio per Class A share ⁽⁴⁾	8.88%	7.70%	8.83%	6.65%	7.21%	8.71%
Portfolio turnover rate ⁽⁵⁾	0.03%	2.5%	11.8%	18.8%	5.9%	10.5%
Trading expense ratio ⁽⁶⁾	0.05%	0.02%	0.03%	0.03%	0.02%	0.01%
Closing market price (TSX): Preferred shares	\$10.14	\$10.67	\$10.12	\$10.25	\$10.50	\$10.53
Closing market price (TSX): Class A shares	\$6.28	\$10.59	\$10.99	\$13.60	\$12.00	\$10.10

(1) This information is provided as at May 31 or November 30.

(2) A separate base management expense ratio has been presented to reflect the normal operating expenses of the Company excluding any one time offering expenses. Management expense ratio is based on total expenses for the stated period and is expressed as an annualized percentage of average net asset value during the period.

(3) Share issue expenses, representing all agents' fees and other offering expenses are one time initial expenses connected with the launch of the Company or any subsequent secondary offering. Any expenses incurred with secondary offerings were offset by the accretion to net asset value per unit of such offerings.

(4) Management expense ratio for Class A shares is based on the requirements of NI 81-106. This instrument requires that all split share companies produce an expense ratio which allocates all operating expenses of the Company, all distributions on Preferred shares and all issuance costs to the Class A shares and expresses this as an annualized percentage of net assets applicable only to the Class A shares during the period. The management expense ratio per Class A share should not be interpreted as the required return necessary for the Company or the Class A shares to cover the operating expenses of the Company. This calculation is based only on a portion of the Company's assets whereas the Company utilizes its entire assets to generate investment returns. Management believes that the base management expense ratio per unit disclosed in the table above is the most representative ratio in assessing the ongoing efficiency of the administration of the Company, making comparisons to the expense ratios of single unit mutual funds or determining the minimum investment returns necessary by the Company to achieve growth in net asset value per unit.

(5) The Company's portfolio turnover rate indicates how actively QuadraInvest manages the portfolio investments. A portfolio turnover rate of 100% is equivalent to the Company buying and selling all of the securities in its portfolio once in the course of the period. The Company employs a covered call writing strategy which can cause the portfolio turnover rate to be higher than conventional mutual funds. The higher the Company's portfolio turnover rate in a period, the greater the trading costs payable by the Company in the period and the greater chance of an investor receiving taxable capital gains in the period. There is not necessarily a relationship between a high turnover rate and the performance of the Company.

(6) The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of average net asset value during the period.

MANAGEMENT FEES

Pursuant to the terms of the investment management agreement, QuadraInvest is entitled to a base management fee payable in arrears at an annual rate equal to 0.65% of the net asset value of the Company, which includes the outstanding Preferred shares, calculated as at each month end valuation date. In addition, QuadraInvest is entitled to receive a performance fee subject to the achievement of certain pre-established total return thresholds.

Pursuant to the management agreement, QuadraInvest is entitled to an administration fee payable monthly in arrears at an annual rate equal to 0.20% of the net asset value of the Company, which includes the outstanding Preferred shares, calculated as at each month-end valuation date and an amount equal to the service fee payable to dealers on the Class A shares at a rate of 0.50% per annum. No service fee will be paid in any calendar quarter if regular dividends are not paid to holders of Class A shares in respect of each month in such calendar quarter.

The base management fee was used by QuadraInvest to provide investment analysis, make investment decisions, and make brokerage arrangements for the purchase and sale of securities including the covered call writing program. The administration fee was used to provide or arrange administrative services required by the Company which includes all operational services, financial accounting, shareholder reporting and regulatory reporting.

PAST PERFORMANCE

Year-by-Year Returns

The past performance of 1) the net asset value per unit; 2) the Preferred share on a net asset value basis; and 3) the Class A share on a net asset value basis for each of the last 10 years are presented in the bar charts below. Each bar in the chart reflects the change in percentage terms of how a unit, a Preferred share or a Class A share would have increased or decreased during the applicable year. In respect to the charts displayed below, please note the following:

- The performance information shown assumes that all cash distributions made by the Company during the years shown were reinvested in the applicable additional securities of the Company;
- The performance information does not take into account sales, redemption, distribution or other optional charges that would have reduced returns or performance; and
- Past performance of the Company does not necessarily indicate how it will perform in the future.

⁽¹⁾ The returns per unit and per Class A share for the year ended November 30, 2012 reflect the subdivision of Class A shares on January 17, 2012.
