As agent, the Agent will not engage in any transactions to stabilize or maintain the price of the Preferred Shares or Class A Shares. No Agent, or underwriter of the at-the-market distribution, and no person or company acting jointly or in concert with such Agent or underwriter may, in connection with the distribution, enter into any transaction that is intended to stabilize or maintain the market price of the Preferred Shares or Class A Shares or securities of the same class as the Preferred Shares and/or Class A Shares distributed under this Prospectus Supplement, including selling an aggregate number or principal amount of Preferred Shares and/or Class A Shares that would result in the Agent or underwriter creating an over-allocation position in the Preferred Shares and/or Class A Shares. See “*Plan of Distribution*”.

An investment in the Preferred Shares or the Class A Shares involves a degree of risk. It is important for prospective purchasers to consider the risk factors under “*Additional Information – Risk Factors*” in the Current AIF (as defined herein). **The earnings coverage ratio for the Company is less than 1:1. See “Earnings Coverage Ratios”.**

IMPORTANT NOTICE ABOUT INFORMATION IN THIS PROSPECTUS SUPPLEMENT AND THE ACCOMPANYING SHORT FORM BASE SHELF PROSPECTUS

This document is in two parts. The first part is the Prospectus Supplement, which describes certain terms of the Preferred Shares and Class A Shares that the Company is offering and also adds to and updates certain information contained in the Shelf Prospectus and the documents incorporated by reference herein and therein. The second part is the Shelf Prospectus, which provides more general information.

If the description of the Preferred Shares and Class A Shares varies between this Prospectus Supplement and the Shelf Prospectus, you should rely on the information in this Prospectus Supplement.

ELIGIBILITY FOR INVESTMENT

In the opinion of Blake, Cassels & Graydon LLP, counsel to the Company, and Osler, Hoskin & Harcourt LLP, counsel to the Agent, the Preferred Shares and the Class A Shares, if issued on the date hereof, would each be a qualified investment under the *Income Tax Act* (Canada) and the regulations thereunder (the “**Tax Act**”) for trusts governed by registered retirement savings plans (“**RRSP**”), registered education savings plans (“**RESP**”), registered retirement income funds (“**RRIF**”), deferred profit sharing plans, registered disability savings plans (“**RDSP**”) and tax-free savings accounts (“**TFSA**”) (collectively, “**Registered Plans**”).

Notwithstanding the foregoing, if the Preferred Shares or Class A Shares are a “prohibited investment” for the purposes of a TFSA, RRSP, RRIF, RDSP or RESP, the holder of such TFSA or RDSP, the annuitant of such RRSP or RRIF or the subscriber of such RESP, as the case may be, will be subject to a penalty tax as set out in the Tax Act. The Preferred Shares and the Class A Shares will not be a prohibited investment for a TFSA, RRSP, RRIF, RDSP or RESP provided the holder, annuitant or subscriber thereof, as the case may be, (i) deals at arm’s length with the Company for purposes of the Tax Act, and (ii) does not have a “significant interest” (as defined in the Tax Act) in the Company. Generally, a holder, annuitant or subscriber will have a significant interest in the Company if the holder, annuitant or subscriber and/or persons or partnerships not dealing at arm’s length with the holder, annuitant or subscriber own directly or indirectly 10% or more of the issued shares of any class of the capital stock of the Company or any corporation related to the Company within the meaning of the Tax Act. In addition, Preferred Shares and Class A Shares, as the case may be, will not be a “prohibited investment” if such Shares are “excluded property” (as defined in the Tax Act) for trusts governed by a TFSA, RRSP, RRIF, RDSP or RESP. Prospective purchasers who intend to hold Preferred Shares or Class A Shares in a TFSA, RRSP, RRIF, RDSP or RESP are advised to consult their personal tax advisors.

Bill C-32, *An Act to implement certain provisions of the fall economic statement tabled in Parliament on November 3, 2022 and certain provisions of the budget tabled in Parliament on April 7, 2022*, which underwent second reading in the House of Commons on November 22, 2022 contains proposed amendments to implement tax measures applicable for first home savings accounts (referred to as “**FHSAs**”) first proposed by the 2022 Federal Budget (Canada), FHSAs would be subject to the rules described above for Registered Plans for purposes of the Tax Act (such amendments are referred to as the “**FHSA Amendments**”). In particular, pursuant to the FHSA Amendments, it is expected that the Preferred Shares and Class A Shares will be qualified investments for an FHSA provided the conditions discussed above in relation to Registered Plans are satisfied. In addition, the rules in respect of “prohibited investments” are also proposed to apply to FHSAs and the holders thereof. The FHSA Amendments are proposed to come into force on April 1, 2023.

Although the forward-looking statements contained in this Prospectus are based upon assumptions that the Company and Quadravest believe to be reasonable, neither the Company nor Quadravest can assure investors that actual results will be consistent with these forward-looking statements. The forward-looking statements contained herein were prepared for the purpose of providing investors with information about the Company and may not be appropriate for other purposes. The making of a modifying or superseding statement shall not be deemed an admission for any purposes that the modified or superseded statement, when made, constituted a misrepresentation, an untrue statement of a material fact or an omission to state a material fact that is required to be stated or that is necessary to make a statement not misleading in light of the circumstances in which it was made. Any statement so modified or superseded shall not constitute a part of this Prospectus Supplement or the Shelf Prospectus except as so modified or superseded.

DETAILS OF THE OFFERING

This Prospectus qualifies for distribution Preferred Shares having an aggregate market value of up to \$70,000,000 and Class A Shares having an aggregate market value of up to \$70,000,000 (the “**Offering**”). Preferred Shares and Class A Shares are issued only on the basis that an equal number of Preferred Shares and Class A Shares (referred to as a “**Unit**”) will be issued and outstanding at all material times. A Unit consists of one Preferred Share with a termination value of \$10.00 (the “**Preferred Share Repayment Amount**”) and one Class A Share. The Preferred Shares and Class A Shares are listed on the TSX under the symbols “BK.PR.A” and “BK”, respectively. Preferred Shares and Class A Shares trade separately in the market based on supply and demand considering factors such as term, interest rates, asset coverage, leverage, volatility, and credit quality among other considerations. The attributes of the Shares are described under “*Description of the Shares of the Company*” in the Shelf Prospectus.

Sales of Preferred Shares and Class A Shares, if any, under this Prospectus are anticipated to be made in transactions that are deemed to be “at-the-market distributions” as defined in NI 44-102, including sales made directly on the TSX or on any other existing trading market for the Preferred Shares or Class A Shares, as applicable, in Canada. The Preferred Shares and Class A Shares will be distributed at the market prices prevailing at the time of the sale. As a result, prices at which Preferred Shares and Class A Shares are sold may vary as between purchasers and during the period of any distribution.

Based on the most recently calculated Net Asset Value per Unit of \$21.37, the asset coverage ratio based on the Preferred Share Repayment Amount of \$10.00 is 214% and the Downside Protection is 53.2%.

“**Downside Protection**” refers to the percentage that the Portfolio would have to decline in value before holders of the Preferred Shares would be in a first-dollar loss position.

Rating

The Preferred Shares have been rated Pfd-3 by DBRS as of November 30, 2022. Each of the rating categories used by DBRS for preferred shares is denoted by the subcategories “high” and “low”. The absence of either a “high” or “low” designation indicates the rating is in the middle of the category. According to DBRS, preferred shares rated Pfd-3 are of adequate credit quality. While protection of dividends and principal is still considered acceptable, the issuing entity is more susceptible to adverse changes in financial and economic conditions, and there may be other adverse conditions present which detract from debt protection. Pfd-3 ratings generally correspond with companies whose senior bonds are rated in the higher end of the BBB category. Credit ratings are intended to provide investors with an independent assessment of the credit quality of an issue or issuer of securities and do not speak to the suitability of particular securities for any particular investor. A security rating is not a recommendation to buy, sell or hold securities and may be subject to revision or withdrawal at any time by DBRS. There is no assurance that any rating will remain in effect for any given period of time or that any rating will not be withdrawn or revised entirely by a rating agency at any time if in its judgment circumstances so warrant. Customary fee payments were made, and may reasonably be made, by the Company to DBRS in connection with the rating assigned to the Preferred Shares, including the confirmation of such rating as of November 30, 2022. The Company did not make any payments to DBRS in respect of any other service provided to the Company by DBRS during the last two years.

Since inception, the Company has paid a total of \$19.39 in dividends for each Class A Share. PLAN OF DISTRIBUTION

The Company has entered into the Distribution Agreement with the Agent under which the Company may issue and sell from time to time Preferred Shares having an aggregate market value of up to \$70,000,000 and Class A Shares having an aggregate market value of up to \$70,000,000 in each of the provinces of Canada. Sales of Preferred Shares and Class A Shares, if any, will be made in transactions that are deemed to be “at-the-market distributions” as defined in NI 44-102, including sales made by the Agent directly on the TSX or on any other existing trading market for the Preferred Shares or Class A Shares, as applicable, in Canada. Subject to the pricing parameters in a placement notice, the Preferred Shares and Class A Shares will be distributed at the market prices prevailing at the time of the sale. As a result, the price may vary as between purchasers and during the period of distribution. The Company cannot predict the number of Preferred Shares or Class A Shares that the Company may sell under the Distribution Agreement on the TSX or any other existing trading market for the Preferred Shares or Class A Shares, as applicable, in Canada, or if any Preferred Shares or Class A Shares will be sold.

The Agent will offer the Preferred Shares and Class A Shares subject to the terms and conditions of the Distribution Agreement on a daily basis or as otherwise agreed upon by the Company and the Agent. The Company will designate the maximum number of Preferred Shares and Class A Shares to be sold pursuant to any single placement notice to the Agent. In accordance with paragraph 9.3(2)(a) of National Instrument 81-102 *Investment Funds* (“**NI 81-102**”), the issue price of the Preferred Shares and/or Class A Shares will not (a), as far as reasonably practicable, be a price that causes dilution of the Net Asset Value of the Company’s other outstanding securities at the time of issue and (b) be a price that is less than 100% of the most recently calculated Net Asset Value per Unit. Subject to the terms and conditions of the Distribution Agreement, the Agent will use its commercially reasonable efforts to sell, on the Company’s behalf, all of the Preferred Shares and Class A Shares requested to be sold by the Company in a placement notice delivered to the Agent. The Company may instruct the Agent not to sell Preferred Shares or Class A Shares if the sales cannot be achieved at or above the price designated by the Company in a particular placement notice.

Either the Company or the Agent may suspend the Offering upon proper notice to the other party. The Company and the Agent each have the right, by giving written notice as specified in the Distribution Agreement, to terminate the Distribution Agreement in each party’s sole discretion at any time. Pursuant to the Distribution Agreement, the Offering will terminate upon the earlier of: (i) July 23, 2023; (ii) the issuance and sale of all of the Preferred Shares and Class A Shares subject to the Distribution Agreement; and (iii) the termination of the Distribution Agreement as permitted therein.

The Company will pay the Agent the Commission for its services in acting as agent in connection with the sale of Preferred Shares and Class A Shares pursuant to the Distribution Agreement. The amount of the Commission will be up to 2.5% of the gross sales price per Preferred Share sold and up to 2.5% of the gross sales price per Class A Share sold.

The Agent will provide written confirmation to the Company no later than 2:00 p.m. (Toronto time) on the trading day immediately following the trading day on which it has made sales of the Preferred Shares or Class A Shares under the Distribution Agreement. Each confirmation will include the number of Preferred Shares or Class A Shares, as applicable, sold on such day, the average price of the Preferred Shares or Class A Shares, as applicable, sold on such day, the gross proceeds, the Commission payable by the Company to the Agent with respect to such sales and the net proceeds payable to the Company. The Agent will also assist the Company with such other periodic reporting as may be reasonably requested by the Company with respect to the sales of Preferred Shares and Class A Shares.

The Company will disclose the number and average price of the Preferred Shares and Class A Shares sold under this Prospectus Supplement, as well as the gross proceeds, Commission and net proceeds from sales hereunder in the Company's annual and semi-annual financial statements and management report of fund performance filed on SEDAR, for any periods in which sales of Preferred Shares or Class A Shares occur.

Settlement for sales of Preferred Shares and Class A Shares will occur, unless the parties agree otherwise, on the second trading day on the applicable exchange following the date on which any sales were made in return for payment of the net proceeds to the Company. There is no arrangement for funds to be received in an escrow, trust or similar arrangement. Sales of Preferred Shares and Class A Shares will be settled through the facilities of CDS Clearing and Depository Services Inc. or by such other means as the Company and the Agent may agree.

The Company has agreed in the Distribution Agreement to provide indemnification and contribution to the Agent against certain liabilities. In addition, the Company has agreed to pay the reasonable expenses of the Agent in connection with the Offering, pursuant to the terms of the Distribution Agreement. The Agent and its affiliates will not engage in any prohibited transactions to stabilize or maintain the price of the Company's Preferred Shares or Class A Shares in connection with any offer or sales of Preferred Shares or Class A Shares pursuant to the Distribution Agreement. No Agent, or underwriter of the at-the-market distribution, and no person or company acting jointly or in concert with such Agent or underwriter may, in connection with the distribution, enter into any transaction that is intended to stabilize or maintain the market price of the Preferred Shares or Class A Shares or securities of the same class as the Preferred Shares and/or Class A Shares distributed under this Prospectus Supplement, including selling an aggregate number or principal amount of Preferred Shares and/or Class A Shares that would result in the Agent or underwriter creating an over-allocation position in the Preferred Shares and/or Class A Shares.

This Prospectus qualifies the distribution of the Preferred Shares and Class A Shares offered hereunder in each of the provinces of Canada.

The total expenses related to the commencement of the Offering to be paid by the Company excluding the Commission payable to the Agent under the Distribution Agreement, are estimated to be approximately \$85,000.

The TSX has conditionally approved the listing of the Preferred Shares and Class A Shares offered under this Prospectus on the TSX. Listing will be subject to the Company fulfilling all of the listing requirements of the TSX.

The Preferred Shares and the Class A Shares have not been and will not be registered under the United States Securities Act of 1933, as amended or any state securities laws and, subject to certain exemptions, may not be offered or sold within the United States or to U.S. persons. The distribution of this Prospectus and the offering and sale of the Preferred Shares and the Class A Shares are also subject to certain restrictions under the laws of certain jurisdictions outside of Canada. The Agent has agreed that it will not offer for sale or sell or deliver the Preferred Shares or the Class A Shares in any such jurisdiction except in accordance with the laws thereof.

CANADIAN FEDERAL INCOME TAX CONSIDERATIONS

In the opinion of Blake, Cassels & Graydon LLP, counsel to the Company, and Osler, Hoskin & Harcourt LLP, counsel to the Agent, the following is a summary of the principal Canadian federal income tax considerations generally relevant to investors who acquire Preferred Shares or Class A Shares in the Offering and who, at all relevant times and for purposes of the Tax Act, are resident in Canada, deal at arm's length with the Company and the Agent and are not affiliated with the Company or the Agent, and hold their Preferred Shares and Class A Shares as capital property. Certain investors who might not otherwise be considered to hold their Preferred Shares or Class A Shares as capital property may, in certain circumstances, be entitled to make an irrevocable election pursuant to subsection 39(4) of the Tax Act, the effect of which is to deem such Preferred Shares or Class A Shares and any other "Canadian security", as defined in the Tax Act, owned by such investor in the taxation year in which the election is made and in all subsequent taxation years, to be capital property.

This summary is based upon the facts set out in this Prospectus and the Current AIF, the provisions of the Tax Act in force as of the date hereof and counsel's understanding of the current administrative policies and assessing practices of the Canada Revenue Agency ("CRA") made publicly available in writing prior to the date hereof, and relies as to certain factual matters on certificates of an officer of the Company, QuadraVest and National Bank Financial.

This summary also takes into account specific proposals to amend the Tax Act announced prior to the date hereof by or on behalf of the Minister of Finance (Canada) (the "**Proposed Amendments**") and assumes that the Proposed Amendments will be enacted as proposed. No assurances can be given that the Proposed Amendments will become law.

This summary is based on the assumptions that:

- (a) the Preferred Shares and the Class A Shares will at all times be listed on a designated stock exchange in Canada (which currently includes the TSX);
- (b) the Company was not established and will not be maintained primarily for the benefit of non-residents of Canada;
- (c) the issuers of the securities held in the Portfolio will not be foreign affiliates of the Company or any holder of shares in the capital of the Company ("**Shareholder**");
- (d) the investment objectives and restrictions applicable to the Company will at all relevant times be as set out in this Prospectus and the Current AIF and that the Company will at all times comply with such investment objectives and restrictions; and
- (e) the Company does not and will not invest in or hold (i) a share of, an interest in, or a debt of a non-resident entity, an interest in or a right or option to acquire such a share, interest or debt or an interest in a partnership which holds such a share, option or right, interest or

debt that would cause the Company (or partnership) to include amounts in income under section 94.1 of the Tax Act, (ii) securities of a non-resident trust other than an “exempt foreign trust” as defined in subsection 94(1) of the Tax Act, or (iii) an interest in a trust that would require the Company to report income in connection with such interest pursuant to the rules in section 94.2 of the Tax Act.

This summary is not exhaustive of all possible federal income tax considerations and does not take into account or anticipate any changes in law, administrative policy or assessing practice, whether by legislative, governmental or judicial action, other than the Proposed Amendments. This summary does not deal with foreign, provincial or territorial income tax considerations, which may differ from the federal income tax considerations discussed herein. This summary does not address the deductibility of interest on any funds borrowed by an investor to purchase Preferred Shares or Class A Shares.

This summary does not apply to an investor (i) that is a “financial institution” as defined in section 142.2 of the Tax Act, (ii) an interest in which is a “tax shelter investment” as defined in subsection 143.2(1) of the Tax Act, (iii) which makes or has made a functional currency reporting election pursuant to section 261 of the Tax Act, or (iv) which enters into a “derivative forward agreement” (a “DFA”), as such term is defined in the Tax Act, with respect to the purchase or sale of Preferred Shares or Class A Shares.

This summary is of a general nature only and does not constitute legal or tax advice to any particular investor. Investors are advised to consult their own tax advisors with respect to their individual circumstances.

Status of the Company

The Company qualifies, and intends at all relevant times to qualify, as a “mutual fund corporation” as defined in the Tax Act.

Tax Treatment of the Company

As a mutual fund corporation, the Company is entitled in certain circumstances to a refund of tax paid by it in respect of its net realized capital gains. The amount of the available refund to the Company in any taxation year is determined by a formula which is based in part on (i) the amount of the capital gains dividends (described below) paid by the Company to Shareholders, and (ii) the amount of the Company’s “capital gains redemptions” (as defined in the Tax Act) for the year, which amount is determined in part by reference to the amount paid by the Company to Shareholders on the redemption of its Shares. As a mutual fund corporation, the Company maintains a capital gains dividend account in respect of capital gains realized by the Company and from which it may elect to pay dividends (“**capital gains dividends**”) which are treated as capital gains in the hands of Shareholders (see “*Canadian Federal Income Tax Considerations — Tax Treatment of Shareholders*”). In certain circumstances where the Company has recognized a capital gain in a taxation year on which tax would be payable by the Company, it may elect not to pay capital gains dividends in that taxation year in respect thereof and may instead pay refundable capital gains tax, which may in the future be fully or partially refundable upon the payment of sufficient capital gains dividends and/or capital gains redemptions.

The Company will be required to include in computing its income for a taxation year all dividends received in the year. In computing its taxable income, the Company will generally be entitled to deduct all taxable dividends received on shares of taxable Canadian corporations (which include the Portfolio Companies).

Dividends received by the Company on other shares will, however, be included in computing the income of the Company, and will not be deductible in computing its taxable income.

The Company is a “financial intermediary corporation” (as defined in the Tax Act) and, as such, is not subject to tax under Part IV.1 of the Tax Act on dividends received by the Company nor is it generally liable to tax under Part VI.1 of the Tax Act on dividends paid by the Company on “taxable preferred shares” (as defined in the Tax Act). As a mutual fund corporation (which is not an “investment corporation” as defined in the Tax Act), the Company will generally be subject to a refundable tax of 38 1/3% under Part IV of the Tax Act on taxable dividends received during the year to the extent such dividends are deductible in computing the taxable income of the Company for the taxation year. This tax is fully refundable upon payment of sufficient dividends other than capital gains dividends (“**Ordinary Dividends**”) by the Company.

The Company has purchased and will purchase shares in the Portfolio with the objective of earning dividends thereon over the life of the Company, and intends to treat and report transactions undertaken in respect of such shares on capital account. Generally, the Company will be considered to hold such shares on capital account unless the Company is considered to be trading or dealing in securities or otherwise carrying on a business of buying and selling securities or the Company has acquired the securities in a transaction or transactions considered to be an adventure or concern in the nature of trade. The Company has advised counsel that it has elected in accordance with the Tax Act to have each of its “Canadian securities” (as defined in subsection 39(6) of the Tax Act) treated as capital property.

In computing the adjusted cost base of any particular security held by the Company, the Company will generally be required to average the cost of that security with the adjusted cost base of all other identical securities owned by the Company and held as capital property.

A loss realized by the Company on a disposition of capital property will be a suspended loss for purposes of the Tax Act if the Company, or a person “affiliated” with the Company (within the meaning of the Tax Act), acquires a property (a “**substituted property**”) that is the same or identical to the property disposed of, within 30 days before and 30 days after the disposition and the Company, or a person affiliated with the Company, owns the substituted property 30 days after the original disposition. If a loss is suspended, the Company cannot deduct the loss from the Company’s capital gains until the substituted property is sold and is not reacquired by the Company, or a person affiliated with the Company, within 30 days before and after the sale.

The Company will write covered call options with the objective of increasing the yield on the Portfolio beyond the dividends received on the common shares in the Portfolio. In accordance with the CRA’s published administrative practice, a transaction undertaken by the Company in respect of such options will be treated and reported for purposes of the Tax Act on capital account, unless such transaction is considered to be a DFA. In general, the writing of a covered call option by the Company in the manner described in the Shelf Prospectus under the heading “*The Company – Investment Objectives and Strategy*” is not expected to constitute a DFA. It is not clear whether the writing of covered calls, if coupled with certain other transactions, could be considered to be DFAs.

Quadravest and the Company have advised counsel that the Company will not enter into a DFA the effect of which would be to materially increase the income tax payable by the Company (taking into account all DFAs entered into).

Premiums received on call options written by the Company (to the extent such call options relate to securities actually owned by the Company at the time the option is written and such securities are held on capital account as discussed above) will constitute capital gains of the Company in the year received, and

gains or losses realized upon dispositions of securities owned by the Company (whether upon the exercise of call options written by the Company or otherwise) will generally constitute capital gains or capital losses of the Company in the year realized. Where a call option is exercised the premium received by the Company for the option will be included in the proceeds of disposition of the securities sold pursuant to the option and the premium will not give rise to a capital gain at the time the option is written.

If the Company sells a security under a DFA, the amount by which the proceeds of disposition exceed (or are less than) the fair market value of the security at the time the DFA is entered into will generally be recognized as ordinary income (or loss) realized upon the disposition of the security. The deductibility of any loss realized on the disposition of a security under a DFA may be restricted depending upon the particular circumstances. The adjusted cost base to the Company of any such security will be increased (or decreased) by the amount of income recognized (or loss that is deductible) because of the DFA, and the Company's capital gain (or capital loss) will be adjusted accordingly.

Generally, the Company will include gains and deduct losses on income account in connection with investments made through derivative securities (except where such derivatives are used to hedge Portfolio securities held on capital account and provided there is sufficient linkage), and will recognize such gains or losses for tax purposes at the time they are realized by the Company. The Company may also use derivative instruments for hedging purposes. Gains or losses realized on such derivatives hedging Portfolio securities held on capital account will be treated and reported for tax purposes on capital account (subject to adjustment for any ordinary income or loss recognized from the disposition of property pursuant to a derivative that constitutes a DFA), provided there is sufficient linkage.

To the extent that the Company earns net income (other than taxable dividends from taxable Canadian corporations and taxable capital gains) such as interest, dividends from corporations other than taxable Canadian corporations or certain gains from the disposition of a security under a DFA, the Company will be subject to income tax on such income and no refund will be available in respect thereof.

Tax Treatment of Shareholders

Shareholders must include in income Ordinary Dividends received from the Company. For individual Shareholders, Ordinary Dividends will be subject to the usual gross-up and dividend tax credit rules with respect to taxable dividends paid by taxable Canadian corporations under the Tax Act. An enhanced gross-up and dividend tax credit is available on "eligible dividends" received or deemed to be received from a taxable Canadian corporation which are so designated by the corporation. Ordinary Dividends received by a corporation other than a "specified financial institution" (as defined in the Tax Act) will generally be deductible in computing its taxable income. In certain circumstances, subsection 55(2) of the Tax Act will treat a taxable dividend received by a Shareholder that is a corporation as a capital gain. Shareholders that are corporations should consult their own tax advisors having regard to their own circumstances.

In the case of a Shareholder that is a specified financial institution, Ordinary Dividends received on a particular class of Shares will be deductible in computing its taxable income only if either (a) the specified financial institution did not acquire the Shares in the ordinary course of its business; or (b) at the time of the receipt of the dividends by the specified financial institution the Shares of that class are listed on a designated stock exchange in Canada, and dividends are received by (i) the specified financial institution, or (ii) the specified financial institution and persons with whom it does not deal at arm's length (within the meaning of the Tax Act), in respect of not more than 10% of the issued and outstanding Shares of that class. For purposes of the exception in (b), a beneficiary of a trust will be deemed to receive the amount of any dividend received by the trust and designated to that beneficiary, effective at the time the dividend was received by the trust, and a member of a partnership will be deemed to have received that partner's share of a dividend received by the partnership, effective at the time the dividend was received by the partnership.

Ordinary Dividends on Preferred Shares will generally be subject to a 10% tax under Part IV.1 of the Tax Act when such dividends are received by a corporation (other than a “private corporation” or a “financial intermediary corporation”, as defined in the Tax Act) to the extent that such dividends are deductible in computing the corporation’s taxable income. Such corporations should consult their own tax advisors with respect to whether Ordinary Dividends on the Class A Shares are subject to Part IV.1 tax when received by such corporations.

A Shareholder which is a private corporation for purposes of the Tax Act, or any other corporation controlled directly or indirectly by or for the benefit of an individual (other than a trust) or a related group of individuals (other than trusts) may be liable to pay a 38 1/3% refundable tax under Part IV of the Tax Act on Ordinary Dividends received on Class A Shares or Preferred Shares, to the extent that such dividends are deductible in computing the corporation’s taxable income. Where Part IV.1 tax also applies to an Ordinary Dividend received by a particular corporation, the Part IV tax payable by such corporation on such dividend is reduced by 10% of the dividend. The tax payable by a Shareholder under Part IV of the Tax Act may be refunded in certain circumstances to the extent the Shareholder pays sufficient taxable dividends.

The amount of any capital gains dividend received by a Shareholder from the Company will be considered to be a capital gain of the Shareholder from the disposition of capital property in the taxation year of the Shareholder in which the capital gains dividend is received.

The current policy of the Company is to pay monthly distributions and, in addition, to pay a special year-end dividend to holders of Class A Shares if any amounts remain available for the payment of dividends (provided that no special year-end dividends will be paid if after payment of such a dividend the Net Asset Value per Unit would be less than \$25.00). Therefore, a person acquiring Shares may become taxable on distributions derived from income and capital gains of the Company that accrued before such person acquired such Shares and on realized capital gains that have not been distributed before such time.

The Company may make returns of capital in respect of the Class A Shares. A return of capital in respect of a Class A Share will not be included in the income of the holder of the Class A Share, but will reduce the adjusted cost base of such Class A Share. To the extent that the adjusted cost base of a Class A Share would otherwise be less than zero, the negative amount will be deemed to be a capital gain realized by the Shareholder from the disposition of the Class A Share and the adjusted cost base will be increased by the amount of such deemed capital gain.

Upon the redemption, retraction or other disposition of a Share, a capital gain (or a capital loss) will be realized by the Shareholder to the extent that the proceeds of disposition of the Share exceed (or are less than) the aggregate of the adjusted cost base of the Share and any reasonable costs of disposition. If the Shareholder is a corporation, any capital loss arising on the disposition of a Share may in certain circumstances be reduced by the amount of any Ordinary Dividends received on the Share. Analogous rules apply to a partnership or trust of which a corporation, partnership or trust is a member or beneficiary. For purposes of computing the adjusted cost base of each Share of a particular class, a Shareholder must average the cost of such Share with the adjusted cost base of any Shares of that class already held as capital property.

One-half of a capital gain is included in computing a Shareholder’s income as a taxable capital gain and one-half of a capital loss must generally be deducted against taxable capital gains to the extent and under the circumstances prescribed in the Tax Act. A Shareholder that is a Canadian-controlled private corporation will be subject to an additional refundable tax on its “aggregate investment income” (as defined in the Tax Act), which includes an amount in respect of taxable capital gains. The additional tax is refundable in certain circumstances to the extent the Shareholder pays sufficient taxable dividends.

Proposed Amendments released on August 9, 2022, are intended to extend this additional tax and refund mechanism in respect of “aggregate investment income” to “substantive CCPCs” as defined in such Proposed Amendments. Shareholders are advised to consult their own tax advisors regarding the possible implications of these Proposed Amendments in their particular circumstances.

Individuals (other than certain trusts) realizing net capital gains or receiving dividends may be subject to an alternative minimum tax under the Tax Act.

Taxation of Registered Plans

Registered Plans (and FHSAs, once the FHSA Amendments come into force), as holders of Shares, generally will be exempt from tax on any dividend or other income derived from such Shares and on any capital gain realized upon the sale, redemption or other disposition of such Shares. If and when cash or securities are withdrawn from a Registered Plan, other than from a TFSA (or in certain circumstances from an RDSP or RESP, or a FHSA, once the FHSA Amendments come into force), the holder of the Registered Plan generally will be liable to pay income tax based on the amount of cash or the fair market value of the securities withdrawn, unless the cash or securities are transferred to another Registered Plan in accordance with the Tax Act.

INTERNATIONAL INFORMATION REPORTING

Pursuant to the Canada-United States Enhanced Tax Information Exchange Agreement entered into between Canada and the United States on February 5, 2014 (the “IGA”) and related Canadian legislation in the Tax Act, the dealers through which Shareholders hold their Shares are required to report certain financial information (e.g. account balances) with respect to Shareholders, or their controlling persons, who are U.S. residents and U.S. citizens (including U.S. citizens who are residents and/or citizens of Canada), certain other “U.S. Persons”, as defined under the IGA, or who do not provide the requested information and indicia of U.S. or non-Canadian status are present, to the CRA (excluding “Registered Plans”, as defined under “*Eligibility for Investment*”; however, the FHSA Amendments do not address whether FHSAs would be treated in the same way as Registered Plans for these purposes). The CRA provides the information to the U.S. Internal Revenue Service.

Canada has also implemented the OECD Multilateral Competent Authority Agreement and Common Reporting Standard which provides for the automatic exchange of certain tax information between the tax authorities of participating jurisdictions. Affected investors are required to provide certain information including their tax identification numbers for the purpose of such information exchange.

RISK FACTORS

Shareholders should be aware of and carefully consider the risks and other considerations relating to an investment in Preferred Shares and Class A Shares set out in the Shelf Prospectus.

INTEREST OF EXPERTS

Certain legal matters in connection with this distribution have been passed upon on behalf of the Company by Blake, Cassels & Graydon LLP and on behalf of the Agent by Osler, Hoskin & Harcourt LLP. As of the date of this Prospectus Supplement, the partners and associates of Blake, Cassels & Graydon LLP as a group and the partners and associates of Osler, Hoskin & Harcourt LLP as a group beneficially own, directly or indirectly, less than 1% of the outstanding securities of the Company.

STATUTORY RIGHTS OF WITHDRAWAL AND RESCISSION

The following is a description of a purchaser's statutory rights in connection with any purchase of Preferred Shares or Class A Shares pursuant to the Offering, which supersedes and replaces the statement of purchasers' rights included in the Shelf Prospectus. A purchaser's rights and remedies under applicable securities legislation against the Agent will not be affected by the Agent's decision to effect the distribution directly or through a selling agent.

Securities legislation in some provinces and territories of Canada provides purchasers of securities with the right to withdraw from an agreement to purchase securities and with remedies for rescission or, in some jurisdictions, revisions of the price, or damages if the prospectus, prospectus supplement, and any amendment relating to securities purchased by a purchaser are not sent or delivered to the purchaser. However, purchasers of Preferred Shares or Class A Shares distributed under an at-the-market distribution by the Company do not have the right to withdraw from an agreement to purchase Preferred Shares or Class A Shares and do not have remedies of rescission or, in some jurisdictions, revisions of the price, or damages for non-delivery of the prospectus, prospectus supplement, and any amendment relating to Preferred Shares or Class A Shares purchased by such purchaser because the prospectus, prospectus supplement, and any amendment relating to Preferred Shares or Class A Shares purchased by such purchaser will not be sent or delivered, as permitted under Part 9 of National Instrument 44-102 *Shelf Distributions*.

Securities legislation in some provinces and territories of Canada further provides purchasers with remedies for rescission or, in some jurisdictions, revisions of the price or damages if the prospectus, prospectus supplement, and any amendment relating to securities purchased by a purchaser contains a misrepresentation. Those remedies must be exercised by the purchaser within the time limit prescribed by securities legislation. Any remedies under securities legislation that a purchaser of Preferred Shares or Class A Shares distributed under an at-the-market distribution by the Company may have against the Company or the Agent for rescission or, in some jurisdictions, revisions of the price, or damages if the prospectus, prospectus supplement, and any amendment relating to securities purchased by a purchaser contain a misrepresentation will remain unaffected by the non-delivery of the prospectus referred to above.

A purchaser should refer to applicable securities legislation for the particulars of these rights and should consult a legal adviser.
