MANAGEMENT DISCUSSION OF FUND PERFORMANCE

Investment Objective and Strategies

The Fund's objective is to increase the value of your investment over the long term by investing in equities of well-established U.S. companies that may be undervalued by the marketplace.

The sub-advisor examines the financial statistics of each potential investment by looking for attractive prices, consistent earnings, and evidence that the company's management believes in the company's future. The sub-advisor ranks the potential investments and the highest-ranked securities are included in the portfolio. The sub-advisor also uses a responsible investment approach in the security selection process.

Risk

The risks associated with an investment in the Fund remain as disclosed in the Fund's most recent simplified prospectus or any amendments thereto and fund facts. During the Period, there were no changes to the Fund that materially affected the overall risk level associated with an investment in the Fund. The Manager reviewed the Fund using the standardized investment risk classification methodology prescribed by National Instrument 81-102 *Investment Funds* and determined on May 26, 2021 that the risk rating of the Fund had not changed. The Manager reviews the Fund's investment risk level and reference index, if any, at least annually.

Results of Operations

During the Period, the Fund's total net asset value changed from approximately \$1,158 million to approximately \$1,222 million. Series A units of the Fund returned 23.79%. Please see the *Past Performance* section for information on the performance returns of the Fund's other series.

During the Period, despite a number of geopolitical issues and the ongoing COVID-19 pandemic, U.S. equities delivered strong results. The S&P 500 Total Return Index (C\$) returned 23.7% and the S&P 500 Total Return Index (C\$ hedged) returned 29.4% over the Period. Positive momentum was initially sparked in November 2020 as investors responded to encouraging news on vaccines. This mostly supported cyclical sectors, including Energy and Financials, as investors gained confidence that a vaccine could lead to a full reopening of the economy. Traditionally defensive sectors, such as Utilities and Consumer Staples, lagged.

While mega-capitalization growth stocks led the market for most of 2020, the fourth quarter of 2020 was the catalyst for a notable rotation from growth to value stocks. Riskier deep-value companies led the charge during the rotation, which coincided with a significant momentum correction. More recently, equities experienced a reversal in leadership that was largely influenced by easing concerns over inflation and declining bond yields. This supported higher-risk growth companies at the expense of more reasonably priced cyclical stocks.

BMO U.S. Equity Fund

The Fund's bias towards companies with attractive valuations was a significant contributor to performance, as more reasonably priced securities led during the market's rebound in November 2020. The top individual contributors to the Fund's performance included holdings in Alphabet Inc., Morgan Stanley and Align Technology Inc.

The Fund's emphasis on companies with strong fundamentals and growing investor interest detracted from performance. The largest individual detractors from the Fund's performance included holdings in Merck & Co. Inc., Walmart Inc. and Baxter International Inc.

New positions added to the Fund in the third quarter of 2021 included Waste Management Inc., CBRE Group, Inc. and Broadcom Inc., based on improving model scores. Conversely, the sub-advisor exited the Fund's positions in PTC Inc., Intuit Inc. and Sensata Technologies BV, based on deteriorating model scores.

For information on the Fund's performance and composition, please refer to the Past Performance section and Summary of Investment Portfolio section of this report.

Recent Developments

After more than a year of a massive recovery in equities led by the least profitable, lowest-quality and highest-risk stocks, the sub-advisor believes that companies with strong profitability and high-quality profiles are now the most attractively valued they've been since 2000, reinforcing the potential for high returns by emphasizing fundamental strength. While valuation spreads have reverted from near all-time highs last year, they are still significantly wider than normal, yielding a strong positive prediction for the Fund's focus on company valuations. Meanwhile, market leadership has broadened substantially since the depths of the COVID-19 decline in early 2020, signaling above-average return potential for companies with positive momentum and favourable investor sentiment.

RELATED PARTY TRANSACTIONS

BMO Investments Inc., an indirect, wholly-owned subsidiary of Bank of Montreal ("BMO"), is the Manager of the Fund. The Manager is paid a management fee by the Fund as compensation for its services, which is described in the "Management Fees" section later in this document.

From time to time, the Manager may, on behalf of the Fund, enter into transactions or arrangements with or involving other members of BMO Financial Group, or certain other persons or companies that are related or connected to the Manager (each a "Related Party"). The purpose of this section is to provide a brief description of any transaction involving the Fund and a Related Party.

Portfolio Manager

The Fund's portfolio manager is BMO Asset Management Inc. ("BMOAM"), an affiliate of the Manager and BMO Asset Management Corp., also an affiliate of the Manager, is a sub-advisor to BMOAM. BMOAM provides portfolio management services to the Fund. BMOAM receives from the Manager a management fee based on assets under management, calculated daily and payable monthly.

On or about December 16, 2021, Columbia Management Investment Advisers, LLC will replace BMO Asset Management Inc. as portfolio manager of the Fund, and BMO Asset Management Corp. will cease to act as sub-advisor of the Fund.

Administration Fee and Operating Expenses

The Fund pays a fixed administration fee to the Manager in respect of each series other than Series I. The Manager in return pays the operating expenses of these series of the Fund, other than certain specified expenses that are paid directly by the Fund ("Fund Expenses"). Fund Expenses, include expenses incurred in respect of preparing and distributing fund facts, interest or other borrowing expenses, all reasonable costs and expenses incurred in relation to compliance with National Instrument 81-107 *Independent Review Committee for Investment Funds*, including compensation and expenses payable to the Fund's independent review committee ("IRC") members, taxes to which the Fund is or might be subject, and costs associated with compliance with any new governmental or regulatory requirement introduced after December 1, 2007. Fund Expenses are allocated proportionately among the relevant series. If the Fund Expenses are specific to a series, the Fund Expenses are allocated to that series. The fixed administration fee is calculated as a fixed annual percentage of the net asset value of each relevant series of the Fund. Separate fees and expenses are negotiated and paid directly by each Series I investor. Further details about the fixed administration fee and/or Fund Expenses can be found in the Fund's most recent simplified prospectus at www.bmo.com/mutualfunds and www.bmo.com/gam/ca or www.sedar.com.

BMO U.S. Equity Fund

Buying and Selling Securities

During the Period, the Fund relied on standing instructions provided by the IRC for any of the following related party transactions that may have occurred in the Fund:

- (a) investments in securities issued by BMO, an affiliate of the Manager, or any other issuer related to the Manager;
- (b) investments in a class of non-government debt securities and/or equity securities of an issuer during the period of distribution of those securities to the public and/or the 60-day period following the distribution period where BMO Nesbitt Burns Inc., an affiliate of the Manager, or any other affiliate of the Manager acted as an underwriter in the distribution;
- (c) trades in debt securities in the secondary market with BMO Nesbitt Burns Inc., an affiliate of the Manager, that is trading with the Fund as principal; and
- (d) inter-fund trades

(each, a “Related Party Transaction”).

In accordance with the IRC’s standing instructions, in making a decision to cause the Fund to enter into a Related Party Transaction, the Manager and the portfolio manager of the Fund are required to comply with the Manager’s written policies and procedures governing the Related Party Transaction and report periodically to the IRC, describing each instance that the Manager relied on the standing instructions and its compliance or non-compliance with the governing policies and procedures. The governing policies and procedures are designed to ensure that each Related Party Transaction (i) is made free from any influence of BMO, BMO Nesbitt Burns Inc. or an associate or affiliate of BMO and/or BMO Nesbitt Burns Inc., and without taking into account any considerations relevant to BMO, BMO Nesbitt Burns Inc. or an associate or affiliate of BMO and/or BMO Nesbitt Burns Inc.; (ii) represents the business judgment of the Manager, uninfluenced by considerations other than the best interests of the Fund; and (iii) achieves a fair and reasonable result for the Fund.

Distribution Services

The Manager markets and distributes the Fund through BMO branches and/or (depending on the series) through registered dealers and brokers, including BMO InvestorLine Inc. and BMO Nesbitt Burns Inc., both affiliates of the Manager. The Manager pays to these affiliates a service fee called a “trailing commission” based on the average daily value of the units and/or shares that are held in investor accounts. This service fee is paid monthly or quarterly and varies by purchase option and by series.

⁽¹⁾ This information is derived from the Fund's audited annual financial statements.

⁽²⁾ Includes commissions and other portfolio transaction costs and withholding taxes.

⁽³⁾ Net assets and distributions are based on the actual number of units outstanding at the relevant time. The increase/decrease from operations is based on the weighted average number of units outstanding over the financial period. This table is not intended to be a reconciliation of beginning to ending net assets per unit.

⁽⁴⁾ Distributions were either paid in cash or reinvested in additional units of the Fund, or both. The allocation of the distributions from each of income, dividends, capital gains and return of capital is based on the Manager's estimate as at September 30 of the period shown, as applicable, which is the Fund's financial year-end. However, the actual allocation of distributions is determined as at December 15, the Fund's tax year-end. Accordingly, the actual allocation among income, dividends, capital gains and return of capital may differ from these estimates.

+ Operating expenses are paid by BMOII and management fees are paid directly to BMOII as negotiated with the investor.

⁽¹⁾ This information is provided as at September 30 of the period shown.

⁽²⁾ Management expense ratio is based on total expenses (excluding commissions and other portfolio transaction costs) for the stated period and is expressed as an annualized percentage of daily average net asset value during the period.

⁽³⁾ The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average net asset value during the period.

⁽⁴⁾ The Fund's portfolio turnover rate indicates how actively the Fund's portfolio manager manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year. The higher a fund's portfolio turnover rate in a year, the greater the trading costs payable by the fund in the year, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of a fund.

BMO U.S. Equity Fund

Management Fees

The Manager is responsible for the day-to-day management of the business and operations of the Fund. The Manager monitors and evaluates the Fund's performance, pays for the investment advice provided by the Fund's portfolio manager and provides certain administrative services required by the Fund. As compensation for its services, the Manager is entitled to receive a management fee payable monthly, calculated based on the daily net asset value of each series of the Fund at the annual rate set out in the table below.

	Annual Management Fee Rate* %	As a Percentage of Management Fees	
		Dealer Compensation %	General Administration, Investment Advice and Profit %
Series A Units	2.00	50	50
Series A Units (Hedged)	2.00	50	50
Advisor Series Units	2.00	48	52
Advisor Series Units (Hedged)	2.00	39	61
Series F Units	0.50	0	100
Series F Units (Hedged)	0.50	0	100
Series D Units	0.85	29	71
Series I Units	—	—	—
Series N Units	—	—	—

* For Series I Units, separate Series I fees are negotiated and paid directly by each Series I investor. The combined management and administration fees for Series I Units will not exceed the management fee charged for Advisor Series or Series A Units.

* Series N investors pay a separate fee directly to their dealer, a portion of which is paid to the Manager. Such portion will not exceed the management fee rate charged for Series F Units.

PAST PERFORMANCE

The Fund's performance information assumes that all distributions made by the Fund in the periods shown were used to purchase additional securities of the Fund and is based on the net asset value of the Fund. The reinvestment of distributions increases returns. The performance information does not take into account sales, redemption, distribution, other optional charges or income taxes payable that, if applicable, would have reduced returns or performance. Please remember that how the Fund has performed in the past does not indicate how it will perform in the future.

The returns of each series may differ from one another for a number of reasons, including if the series was not issued and outstanding for the entire reporting period and because of the different levels of management fees and expenses allocated and payable by each series.

On June 22, 2012, BMO U.S. Growth Fund merged into the Fund.

On December 15, 2013, BMO Nesbitt Burns U.S. Stock Selection Fund merged into the Fund.

On August 31, 2016, BMO Asset Management Inc. became the portfolio manager of the Fund and BMO Asset Management Corp. became the sub-advisor of the Fund.

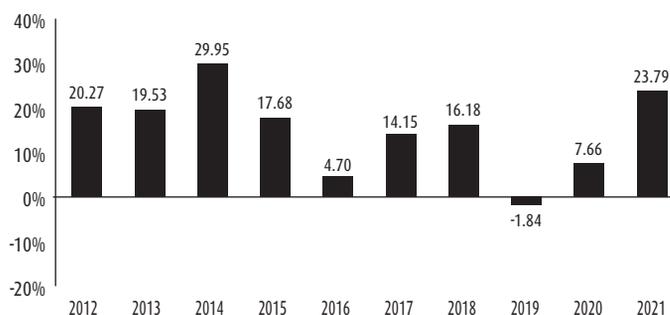

On February 1, 2017, the management fee on Series F and Series F (Hedged) units was lowered from 0.60% to 0.50%.

These changes could have affected the performance of the Fund had they been in effect throughout the performance measurement periods presented.

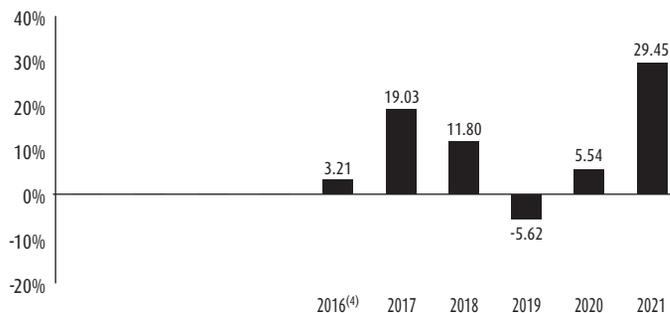

Year-by-Year Returns

The following bar charts show the performance of each series of the Fund for each of the financial years shown, and illustrate how the Fund's performance has changed from year to year. The charts show in percentage terms how an investment made on the first day of each financial year would have increased or decreased by the last day of each financial year.

Annual Compound Returns

This table compares the historical annual compound returns of the Fund with its benchmark, the S&P 500 Total Return Index (“S&P 500”) (C\$) and the S&P 500 (C\$ hedged) for the hedged series. The S&P 500 is a broad-based index.

The S&P 500 is a market capitalization-weighted index of the 500 largest U.S. publicly traded companies. The S&P 500 (C\$) is reported in Canadian dollars. For the S&P 500 (C\$ hedged), the U.S. dollar exposure is hedged to the Canadian dollar.
