MANAGEMENT DISCUSSION OF FUND PERFORMANCE

Results of Operations

During the Period, the Fund's total net asset value changed from approximately \$1,158 million to approximately \$1,161 million. Series A units of the Fund returned 12.68%. Please see the *Past Performance* section for information on the performance returns of the Fund's other series.

During the Period, U.S. stocks delivered strong results across market capitalizations in the first quarter of 2021, as investors remained in risk-on mode for the Period overall. Investor sentiment was buoyed by the vaccine rollout, fiscal stimulus and expectations that cash-rich consumers will drive strong economic growth later this year alongside a wider reopening of the U.S. economy. At the sector level, Energy and Financials led the way as oil prices rose and investors responded to a spike in bond yields, despite assurances from the U.S. Federal Reserve Board ("Fed") Chairman Jerome Powell that the Fed will stick to its plan and let inflation continue to rise before increasing interest rates. The traditionally defensive Health Care and Utilities sectors lagged along with Information Technology, as investors favoured cyclical sectors and focused more on valuations. Value continued its recent run of outperformance, beating growth by a large margin across market capitalizations. Consistent with a risk-on market environment, lower-quality companies outperformed higher-quality companies, while the rotation into smaller companies continued.

Overall, stock selection contributed to the Fund's relative performance during the Period. Stock selection in the Financials and Information Technology sectors contributed to relative performance, while stock selection in the Consumer Staples and Industrials sectors detracted from performance. At the individual contributor level, Citigroup Inc. and Quanta Services Inc. contributed to the Fund's performance, while Walmart Inc. and Merck & Co. Inc. detracted.

Overall, sector allocation detracted from performance during the Period. An overweight position in the Financials sector and an underweight position in the Consumer Discretionary sector contributed to the relative performance of the Fund. An underweight position in the Energy sector and an overweight position in the Health Care sector detracted from performance.

The sub-advisor exited the Fund's position in Discovery Inc., a multi-national mass media factual television company, following the stock's appreciation related, in part, to the company's new streaming services and the belief that the stock was trading well in excess of intrinsic value.

For information on the Fund's performance and composition, please refer to the Past Performance section and Summary of Investment Portfolio section of this report.

BMO U.S. Equity Fund

Recent Developments

Looking ahead, the potential for heightened market volatility exists as investors navigate the ongoing economic recovery and expectations of inflation. While the value rotation continued during the first quarter of 2021, there is still a meaningful return gap that could support continued gains for attractively valued companies, particularly as it relates to relative value.

A dislocation in the valuation of higher-quality companies with attractive levels of profitability presents an opportunity to generate excess returns by owning attractively valued companies with strong fundamentals. At the same time, the sub-advisor continues to emphasize risk management during periods of heightened market volatility.

RELATED PARTY TRANSACTIONS

BMO Investments Inc., an indirect, wholly-owned subsidiary of Bank of Montreal (“BMO”), is the Manager of the Fund. From time to time, the Manager may, on behalf of the Fund, enter into transactions or arrangements with or involving other members of BMO Financial Group, or certain other persons or companies that are related or connected to the Manager (each a “Related Party”). The purpose of this section is to provide a brief description of any transaction involving the Fund and a Related Party.

Portfolio Manager

The Fund’s portfolio manager is BMO Asset Management Inc. (“BMOAM”), an affiliate of the Manager and BMO Asset Management Corp., also an affiliate of the Manager, is a sub-advisor to BMOAM. BMOAM provides portfolio management services to the Fund. BMOAM receives from the Manager a management fee based on assets under management, calculated daily and payable monthly.

On April 12, 2021, BMO Financial Group announced that it had reached a definitive agreement to sell the entities that represent its EMEA Asset Management business to Ameriprise Financial, Inc. The transaction is expected to close in the fourth quarter of 2021, subject to regulatory approval and other customary closing conditions. Separately, in the U.S. the transaction includes the transfer to Columbia Threadneedle Investments (“CTI”), Ameriprise Financial’s global asset management business, of certain asset management clients of BMO Asset Management Corp., subject to client consent. An evaluation is currently underway between BMO Asset Management Corp. and CTI in relation to the Fund’s sub-advisory arrangements with BMO Asset Management Corp.

Administration Fee and Operating Expenses

The Fund pays a fixed administration fee to the Manager in respect of each series other than Series I. The Manager in return pays the operating expenses of these series of the Fund, other than certain specified expenses that are paid directly by the Fund (“Fund Expenses”). Fund Expenses, include expenses incurred in respect of preparing and distributing fund facts, interest or other borrowing expenses, all reasonable costs and expenses incurred in relation to compliance with National Instrument 81-107 *Independent Review Committee for Investment Funds*, including compensation and expenses payable to the Fund’s independent review committee (“IRC”) members, taxes to which the Fund is or might be subject, and costs associated with compliance with any new governmental or regulatory requirement introduced after December 1, 2007. Fund Expenses are allocated proportionately among the relevant series. If the Fund Expenses are specific to a series, the Fund Expenses are allocated to that series. The fixed administration fee is calculated as a fixed annual percentage of the average net asset value of each relevant series of the Fund. Separate fees and expenses are negotiated and paid directly by each Series I investor. Further details about the fixed administration fee and/or Fund Expenses can be found in the Fund’s most recent simplified prospectus at www.bmo.com/mutualfunds and www.bmo.com/gam/ca or www.sedar.com.

Buying and Selling Securities

During the Period, the Fund relied on standing instructions provided by the IRC for any of the following related party transactions that may have occurred in the Fund:

- (a) investments in securities issued by BMO, an affiliate of the Manager, or any other issuer related to the Manager;
 - (b) investments in a class of non-government debt securities and/or equity securities of an issuer during the period of distribution of those securities to the public and/or the 60-day period following the distribution period where BMO Nesbitt Burns Inc., an affiliate of the Manager, or any other affiliate of the Manager acted as an underwriter in the distribution;
 - (c) trades in debt securities in the secondary market with BMO Nesbitt Burns Inc., an affiliate of the Manager, that is trading with the Fund as principal; and
 - (d) inter-fund trades
- (each, a “Related Party Transaction”).

BMO U.S. Equity Fund

In accordance with the IRC's standing instructions, in making a decision to cause the Fund to enter into a Related Party Transaction, the Manager and the portfolio manager of the Fund are required to comply with the Manager's written policies and procedures governing the Related Party Transaction and report periodically to the IRC, describing each instance that the Manager relied on the standing instructions and its compliance or non-compliance with the governing policies and procedures. The governing policies and procedures are designed to ensure that each Related Party Transaction (i) is made free from any influence of BMO, BMO Nesbitt Burns Inc. or an associate or affiliate of BMO and/or BMO Nesbitt Burns Inc., and without taking into account any considerations relevant to BMO, BMO Nesbitt Burns Inc. or an associate or affiliate of BMO and/or BMO Nesbitt Burns Inc.; (ii) represents the business judgment of the Manager, uninfluenced by considerations other than the best interests of the Fund; and (iii) achieves a fair and reasonable result for the Fund.

Distribution Services

The Manager markets and distributes the Fund through BMO branches and/or (depending on the series) through registered dealers and brokers, including BMO InvestorLine Inc. and BMO Nesbitt Burns Inc., both affiliates of the Manager. The Manager pays to these affiliates a service fee called a "trailing commission" based on the average daily value of the units and/or shares that are held in investor accounts. This service fee is paid monthly or quarterly and varies by purchase option and by series.

* Initial net assets.

⁽¹⁾ This information is derived from the Fund's unaudited semi-annual and audited annual financial statements.

⁽²⁾ Includes commissions and other portfolio transaction costs and withholding taxes.

⁽³⁾ Net assets and distributions are based on the actual number of units outstanding at the relevant time. The increase/decrease from operations is based on the weighted average number of units outstanding over the financial period. This table is not intended to be a reconciliation of beginning to ending net assets per unit.

⁽⁴⁾ Distributions were either paid in cash or reinvested in additional units of the Fund, or both. The allocation of the distributions from each of income, dividends, capital gains and return of capital is based on the Manager's estimate as at March 31 or September 30 of the period shown, as applicable, which is the Fund's financial year-end. However, the actual allocation of distributions is determined as at December 15, the Fund's tax year-end. Accordingly, the actual allocation among income, dividends, capital gains and return of capital may differ from these estimates.

⁽⁵⁾ The information shown in this column is for the period beginning April 19, 2016 (the series' inception date) and ending September 30, 2016.

+ Operating expenses are paid by BMOII and management fees are paid directly to BMOII as negotiated with the investor.

⁽¹⁾ This information is provided as at March 31 or September 30 of the period shown, as applicable.

⁽²⁾ Management expense ratio is based on total expenses (excluding commissions and other portfolio transaction costs) for the stated period and is expressed as an annualized percentage of daily average net asset value during the period.

⁽³⁾ The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average net asset value during the period.

⁽⁴⁾ The Fund's portfolio turnover rate indicates how actively the Fund's portfolio manager manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year. The higher a fund's portfolio turnover rate in a year, the greater the trading costs payable by the fund in the year, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of a fund.

⁽⁵⁾ The information shown in this column is for the period beginning April 19, 2016 (the series' inception date) and ending September 30, 2016.

BMO U.S. Equity Fund

Management Fees

The Manager is responsible for the day-to-day management of the business and operations of the Fund. The Manager monitors and evaluates the Fund's performance, pays for the investment advice provided by the Fund's portfolio manager and provides certain administrative services required by the Fund. As compensation for its services, the Manager is entitled to receive a management fee payable monthly, calculated based on the daily net asset value of each series of the Fund at the annual rate set out in the table below.

	Annual Management Fee Rate* %	As a Percentage of Management Fees	
		Dealer Compensation %	General Administration, Investment Advice and Profit %
Series A Units	2.00	50	50
Series A Units (Hedged)	2.00	50	50
Advisor Series Units	2.00	47	53
Advisor Series Units (Hedged)	2.00	39	61
Series F Units	0.50	0	100
Series F Units (Hedged)	0.50	0	100
Series D Units	0.85	29	71
Series I Units	—	—	—
Series N Units	—	—	—

* For Series I Units, separate Series I fees are negotiated and paid directly by each Series I investor. The combined management and administration fees for Series I Units will not exceed the management fee charged for Advisor Series or Series A Units.

* Series N investors pay a separate fee directly to their dealer, a portion of which is paid to the Manager. Such portion will not exceed the management fee rate charged for Series F Units.

PAST PERFORMANCE

The Fund's performance information assumes that all distributions made by the Fund in the periods shown were used to purchase additional securities of the Fund and is based on the net asset value of the Fund. The reinvestment of distributions increases returns. The performance information does not take into account sales, redemption, distribution, other optional charges or income taxes payable that, if applicable, would have reduced returns or performance. Please remember that how the Fund has performed in the past does not indicate how it will perform in the future.

The returns of each series may differ from one another for a number of reasons, including if the series was not issued and outstanding for the entire reporting period and because of the different levels of management fees and expenses allocated and payable by each series.

On June 22, 2012, BMO U.S. Growth Fund merged into the Fund.

On December 15, 2013, BMO Nesbitt Burns U.S. Stock Selection Fund merged into the Fund.

On August 31, 2016, BMO Asset Management Inc. became the portfolio manager of the Fund and BMO Asset Management Corp. became the sub-advisor of the Fund.

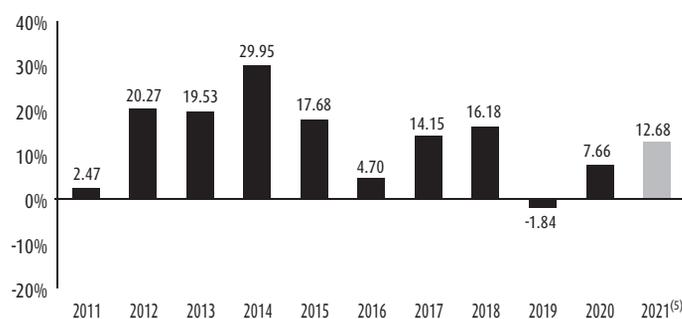

On February 1, 2017, the management fee on Series F and Series F (Hedged) units was lowered from 0.60% to 0.50%.

These changes could have affected the performance of the Fund had they been in effect throughout the performance measurement periods presented.

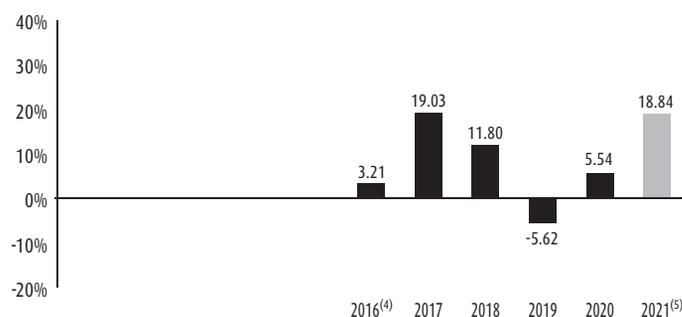

Year-by-Year Returns

The following bar charts show the performance of each series of the Fund for each of the financial years shown and for the six-month period ended March 31, 2021. The charts show in percentage terms how an investment made on the first day of each financial year would have increased or decreased by the last day of each financial year.
