Semi-Annual Report 2019

Letter to Shareholders

We are pleased to present the 2019 semi-annual report containing the management report of fund performance and the unaudited financial statements for World Financial Split Corp. (The “Fund”).

Stock markets around the world advanced in the first half of 2019 recouping losses from the volatile markets at the end of 2018. The S&P 500 Index rose to new all-time highs as investors looked past the potential consequences of a global trade war and focused on the pivot in central bank policy from tighter conditions to anticipating looser monetary policy in the future. For the first six months of 2019, the S&P 500 Index and S&P/TSX Composite Index advanced 18.5 percent and 16.2 percent, respectively. Global markets followed the positive tone set by U.S. stocks with the MSCI EAFE Index up 14.5 percent and the MSCI Emerging Markets Index up 10.7 percent. The Federal Reserve Open Market Committee (“FOMC”), which appeared to be on the most aggressive path of tightening after raising the overnight interest rate four times in 2018, paused in the first six months of 2019 leaving the target rate at 2.5 percent. The short-end of the yield curve in the United States reacted by pricing in the probability of several rate cuts by the FOMC as 2-year yields plummeted from 2.49 percent at year end to 1.75 percent at the end of June 2019. Long-term interest rates also reacted ending the second quarter at 2.00 percent versus 2.68 percent to start the year. This dynamic has caused the yield curve (10-2 Year) to steepen slightly but remains just 25 basis points from being inverted, a condition often associated with an imminent recession. Oil prices recovered in the first half of 2019 with the Bloomberg WTI Cushing Crude Oil Spot price rising to US\$58.47 per barrel on June 28, 2019, up 28.8 percent from US\$45.41 at the end of 2018. Meanwhile, other commodities did not fare as well with copper prices rising 2.1 percent, aluminum down 12.3 percent and natural gas off 24.1 percent year-to-date. Volatility, as measured by the Chicago Board Options Exchange Volatility Index (“VIX”), declined in the first half of 2019 falling from 25.4 at the end of 2018 to 15.1 at the end of June. Given the uncertainty surrounding the global political landscape, trade war rhetoric, The United States-Mexico-Canada Agreement renegotiations, declining economic data, along with the Federal Reserve continuing to pivot monetary policy, we remain cautiously optimistic on global stock markets with the view that volatility is likely to remain elevated compared to the low levels witnessed over the past few years.

During the six months ended June 30, 2019, the Fund paid cash distributions of \$0.26 per Preferred share though no distributions were paid on the Class A shares in accordance with the terms of the prospectus as the net asset value per Unit was less than \$15.00. The Fund’s total return per Unit and per Class A share, including reinvestment of distributions, was 3.8 percent and 7.9 percent respectively for the period. The net asset value increased 1.7 percent from \$12.72 per Unit at December 31, 2018 to \$12.93 per Unit at June 30, 2019. The net realized gain on options attributable to Strathbridge Selective Overwriting strategy (see “The Fund”) amounted to \$0.19 per Unit during the period. For a more detailed review of the operations of the Fund, please see the Results of Operations and the Portfolio Manager Report sections.

We thank all shareholders for their continued support and encourage shareholders to review the detailed information contained within the semi-annual report.

John P. Mulvihill
Chairman & CEO
Strathbridge Asset Management Inc.

The Fund

The Fund is a split share corporation designed to provide Preferred shareholders with fixed cumulative preferential quarterly distributions and the Class A shareholders with attractive quarterly distributions and the return of the original issue price on the termination date of the Fund. The shares are listed on the Toronto Stock Exchange under the ticker symbols WFS.PR.A for the Preferred shares and WFS for the Class A shares. A Unit of the Fund consists of one Preferred share and one Class A share.

To accomplish its objectives, the Fund invests in a portfolio which includes common equity securities selected from the ten largest financial services or real estate companies by market capitalization in each of Canada, the United States and the Rest of the World (the "Portfolio Universe"). The issuers of securities in the Portfolio Universe, other than Canadian issuers, must have a minimum credit rating of "A" from Standard & Poor's Rating Services or a comparable rating from an equivalent rating agency. In addition, up to 25 percent of the net asset value of the Fund may be invested in common equity securities of financial services or real estate companies not included in the Portfolio Universe as long as such companies have a market capitalization at the time of investment of at least US\$10 billion and for non-Canadian issuers, a minimum credit rating of "A—" from Standard & Poor's Rating Services or a comparable rating from an equivalent rating agency. The Fund may also invest in public investment funds including exchange-traded funds or other Strathbridge Funds (provided that no more than 15 percent of the net asset value of the Fund may be invested in securities of other Strathbridge Funds) that provide exposure to such securities.

The Fund employs a proprietary investment strategy, Strathbridge Selective Overwriting ("SSO"), to enhance the income generated by the portfolio and to reduce volatility. In addition, the Fund may write cash covered put options in respect of securities in which it is permitted to invest.

The SSO strategy is a quantitative, technical based methodology that identifies appropriate times to write and/or close out option positions compared to writing continuously and rolling options every thirty days. This proprietary process has been developed over many years through various market cycles. The Manager believes the primary benefit to investors is to maximize the total return of the particular portfolio while reducing the level of volatility of the portfolio, thereby increasing the risk-adjusted return.

Recent Developments

There were no recent developments pertaining to the Fund during the six months ended June 30, 2019.

Related Party Transactions

Strathbridge Asset Management Inc. (“Strathbridge”), as the Investment Manager of the Fund, manages the investment portfolio in a manner consistent with the investment objectives, strategy and criteria of the Fund pursuant to an Investment Management Agreement made between the Fund and Strathbridge dated January 27, 2004 and amended as of November 6, 2009.

Strathbridge is the Manager of the Fund pursuant to a Management Agreement made between the Fund and Strathbridge dated January 27, 2004. As such, Strathbridge is responsible for providing or arranging for required administrative services to the Fund.

Strathbridge is paid the fees described under the Management Fees section of this report.

During the period, no recommendations or approvals were required to be sought from the Independent Review Committee (“IRC”) concerning related party transactions.

Independent Review Committee

National Instrument 81-107 – Independent Review Committee for Investment Funds (“NI 81-107”) requires all publicly offered investment funds to establish an IRC to whom the Manager must refer conflict of interest matters for review or approval. NI 81-107 also imposes obligations upon the Manager to establish written policies and procedures for dealing with conflict of interest matters, maintaining records in respect of these matters and providing assistance to the IRC in carrying out its functions. The Chief Compliance Officer, designated by the Manager, is in charge of facilitating the fulfillment of these obligations.

The IRC will prepare, for each financial year, a report to securityholders that describes the IRC and its activities during such financial year and includes, if known, a description of each instance when the Manager acted in a conflict of interest matter for which the IRC did not give a positive recommendation or for which a condition, imposed by the IRC, was not met in its recommendation or approval. Members of the IRC are Robert W. Korthals, Michael M. Koerner and Robert G. Bertram.

\$	2.07	\$	4.30	\$	3.76	\$	3.05	\$	3.45

- (2) Portfolio turnover rate is calculated based on the lesser of purchases or sales of investments, excluding short-term investments, divided by the average value of the portfolio securities. The Fund employs an option overlay strategy which can result in higher portfolio turnover by virtue of option exercises, when compared to a conventional equity mutual fund.
- (3) Trading expense ratio represents total commissions expressed as a percentage of the daily average net asset value during the period.
- (4) Annualized.
- (5) Net Asset Value per Unit is the difference between the aggregate value of the assets including the valuation of securities at closing prices and the aggregate value of the liabilities excluding the Redeemable Preferred Share liability, divided by the number of Units then outstanding.

Management Fees

Strathbridge, as the Investment Manager of the Fund, is entitled to fees under the Investment Management Agreement calculated monthly as 1/12 of 1.00 percent of the net asset value of the Fund at each month end. Services received under the Investment Management Agreement include the making of all investment decisions and writing of covered call options in accordance with the investment objectives, strategy and criteria of the Fund. Strathbridge also makes all decisions as to the purchase and sale of securities in the Fund's portfolio and as to the execution of all portfolio and other transactions.

Strathbridge, as the Manager of the Fund, is entitled to fees under the Management Agreement calculated monthly as 1/12 of 0.10 percent of the net asset value of the Fund at each month end. Services received under the Management Agreement include providing or arranging for required administrative services to the Fund.

Past Performance

The following chart sets out the Fund's year-by-year past performance. It is important to note that the:

- 1) information shown assumes that all distributions made by the Fund during these periods were reinvested in Units of the Fund,
- 2) information does not take into account sales, redemptions, distributions or other optional charges that would have reduced returns, and
- 3) past performance of the Fund does not necessarily indicate how it will perform in the future.

Year-By-Year Returns

The following bar chart illustrates how the Fund's total return varied from year to year for each of the past ten years and for the six months ended June 30, 2019. The chart also shows, in percentage terms, how much an investment made on January 1 in each year would have increased or decreased by the end of the fiscal year or June 30, 2019 for the six months ended.

Portfolio Manager Report

Stock markets around the world advanced in the first half of 2019 recouping losses from the volatile markets at the end of 2018. The S&P 500 Index rose to new all-time highs as investors looked past the potential consequences of a global trade war and focused on the pivot in central bank policy from tighter conditions to anticipating looser monetary policy in the future. For the first six months of 2019, the S&P 500 Index and S&P/TSX Composite Index advanced 18.5 percent and 16.2 percent, respectively. Global markets followed the positive tone set by U.S. stocks with the MSCI EAFE Index up 14.5 percent and the MSCI Emerging Markets Index up 10.7 percent. The Federal Reserve Open Market Committee ("FOMC"), which appeared to be on the most aggressive path of tightening after raising the overnight interest rate four times in 2018, paused in the first six months of 2019 leaving the target rate at 2.5 percent. The short-end of the yield curve in the United States reacted by pricing in the probability of several rate cuts by the FOMC as 2-year yields plummeted from 2.49 percent at year end to 1.75 percent at the end of June 2019. Long-term interest rates also reacted ending the second quarter at 2.00 percent versus 2.68 percent to start the year. This dynamic has caused the yield curve (10-2 Year) to steepen slightly but remains just 25 basis points from being inverted, a condition often associated with an imminent recession. Oil prices recovered in the first half of 2019 with the Bloomberg WTI Cushing Crude Oil Spot price rising to US\$58.47 per barrel on June 28, 2019, up 28.8 percent from US\$45.41 at the end of 2018. Meanwhile, other commodities did not fare as well with copper prices rising 2.1 percent, aluminum down 12.3 percent and natural gas off 24.1 percent year-to-date. Volatility, as measured by the Chicago Board Options Exchange Volatility Index ("VIX"), declined in the first half of 2019 falling from 25.4 at the end of 2018 to 15.1 at the end of June. Given the uncertainty surrounding the global political landscape, trade war rhetoric, The United States-Mexico-Canada Agreement renegotiations, declining economic data, along with the Federal Reserve continuing to pivot monetary policy, we remain cautiously optimistic on global stock markets with the view that volatility is likely to remain elevated compared to the low levels witnessed over the past few years.

For the six months ended June 30, 2019, the net asset value ("NAV") of the Fund was \$12.93 per Unit compared to \$12.72 per Unit at December 31, 2018. Preferred shareholders received cash distributions of \$0.26 per share during the period, while the distribution for the Class A share remains suspended in accordance with the terms of the prospectus as the net asset value per Unit was less than \$15.00. The Fund's Preferred shares, listed on the Toronto Stock Exchange as WFS.PR.A, closed on June 28, 2019 with a bid price of \$9.90 per share, while the Class A shares, listed as WFS, closed at a price of \$2.41 per share. When combined, the closing prices represent a 4.8 percent discount to the NAV per Unit.

The total return of the Fund, including reinvestment of distributions, for the six months ended June 30, 2019 was 3.8 percent per Unit and 7.9 percent per Class A share. The best performing stock within the portfolio was insurance brokerage AON PLC, up 27.7 percent during the period. At the other end of the spectrum, The Charles Schwab Corporation, was the worst performing stock in the portfolio, down 13.9 percent while held in the Fund.

Volatility levels for Global Financial Services companies were generally lower in the first half of 2019, after starting the year at an elevated level. The Fund ended June 30, 2019 with 19.9 percent of the Fund subject to covered calls. The Fund maintained an average cash position of 11.0 percent during the period but ended with a cash position of 3.2 percent. The U.S. dollar exposure was actively hedged back into Canadian dollars throughout the period and ended June with approximately 50 percent of the U.S. dollar exposure hedge.

Notes to Condensed Financial Statements

June 30, 2019 (Unaudited)

1. Basis of Presentation

The condensed semi-annual financial statements for World Financial Split Share Corp. (the “Fund”) have been prepared in compliance with International Financial Reporting Standards (“IFRS”), specifically the International Accounting Standard (“IAS”) 34 Interim Financial Reporting. However, not all disclosures required by IFRS for annual financial statements have been presented and, accordingly, these condensed semi-annual financial statements should be read in conjunction with the most recently prepared annual financial statements for the year ended December 31, 2018.

These condensed semi-annual financial statements follow the same accounting policies and method of application as the most recent audited financial statements for the year ended December 31, 2018.

These condensed financial statements were approved by the Board of Directors on August 7, 2019.

2. Risks Associated with Financial Instruments

The various types of risks associated with its investment strategies, financial instruments and markets in which the Fund invests remain unchanged from the prior year and are described in Note 6 of the audited financial statements for the year ended December 31, 2018.

Credit Risk

As at June 30, 2019 and December 31, 2018, the counterparties to the Fund’s derivative financial instruments had a credit rating of A-1 or higher from Standard & Poor’s Ratings Services.

Market Risk

(a) Currency Risk

The table below indicates the foreign currencies to which the Fund had significant exposure to as at June 30, 2019 and December 31, 2018 in Canadian dollar terms, and the notional amounts of forward exchange contracts. The table also illustrates the potential impact on the net assets attributable to holders of Class A shares and Redeemable Preferred shares if the Canadian dollar had strengthened or weakened by 5 percent in relation to each of the other currencies, with all other variables held constant.

	As at June 30, 2019

Notes to Condensed Financial Statements

June 30, 2019 (Unaudited)

(b) Price Risk

Approximately 98 percent (December 31, 2018 – 76 percent) of the Fund's net assets attributable to holders of Class A shares, excluding the Redeemable Preferred Share liability, held at June 30, 2019 were publicly traded equities. If equity prices on the exchange increased or decreased by 5 percent as at June 30, 2019, the net assets attributable to holders of Class A shares, excluding the Redeemable Preferred Share liability, would have increased or decreased by \$0.7 million (December 31, 2018 – \$0.6 million) respectively or 4.9 percent (December 31, 2018 – 3.8 percent) of the net assets attributable to holders of Class A shares, excluding the Redeemable Preferred Share liability, all other factors remaining constant. In practice, actual trading results may differ and the difference could be material.

Concentration Risk

Concentration risk arises as a result of the concentration of exposures with the same category, whether it is geographical location, product type, industry sector or counterparty type. The following is a summary of the Fund's concentration risk:

	June 30, 2019	Dec. 31, 2018
United States	49.1%	51.0%
Canada	44.2%	36.8%
Rest of World	6.7%	12.2%
	100.0%	100.0%
