## **1. NATURE OF OPERATIONS AND GOING CONCERN**

Red Pine Exploration Inc. (the "Company" or "Red Pine") was founded in 1936 under the laws of Ontario, Canada for the acquisition, exploration, and development of mining properties. The Company's head office and primary location of its registered records is 145 Wellington Street West, Suite 1001, Toronto, Ontario, M5J 1H8. The Company is currently in the exploration stage and has not commenced any commercial operations.

The accompanying Condensed Interim Consolidated Financial Statements for the three months ended October 31, 2022 and 2021 (the "Financial Statements") have been prepared on the basis of a going concern, which contemplates the realization of assets and liquidation of liabilities in the normal course of business.

As at October 31, 2022, the Company had cash and cash equivalents of \$4,591,509 (July 31, 2022: \$2,824,620) and an accumulated deficit of \$99,363,490 (July 31, 2022: \$96,476,107) and for the three months ended October 31, 2022 had net cash used in operating activities of \$2,941,446 (three months ended October 31, 2021: \$787,133). Cash increased in the year primarily due to proceeds from the bought deal financing on September 29, 2022, which will be invested in the drilling campaign and corporate activities in 2022.

In assessing whether the going concern assumption is appropriate, management considers all available information about the future, which is at least, but not limited to, twelve months from the end of the reporting period. The Company's ability to continue operations and fund its mining interest expenditures is dependent on management's ability to secure additional financing. Management is actively pursuing such additional sources of financing, and while it has been successful in doing so in the past, there can be no assurance it will be able to do so in the future. The Company is currently in the exploration stage and has not identified economically recoverable minerals. These conditions indicate that a material uncertainty exists that may cast significant doubt about the Company's ability to continue as a going concern.

Although the Company has taken steps to verify title to the properties on which it is conducting exploration and in which it has an interest, in accordance with industry standards for the current stage of operations of such properties, these procedures do not guarantee the Company's title. Property title may be subject to government licensing requirements or regulations, unregistered prior agreements, unregistered claims, indigenous claims, and non-compliance with regulatory, environmental and social licensing requirements. The Company's assets may also be subject to increases in taxes and royalties and renegotiation of contracts.

These consolidated financial statements do not reflect the adjustments to the carrying values of assets and liabilities and the reported expenses and consolidated statement of financial position classifications that may be necessary were the going concern assumption inappropriate, and these adjustments could be material.

The Company may experience business interruptions, expenses and delays relating to COVID-19, which could have a material adverse impact on the Company's business, operating results, financial condition and the market for its securities. As at the date of these financial statements, the duration of potential business disruptions and related financial impact of COVID-19 cannot be reasonably estimated.

Going forward, the Company presently expects fewer COVID-19 related operating issues compared to the years ended July 31, 2022 and 2021.

## **2. BASIS OF PREPARATION**

### ***(a) Statement of Compliance***

These Financial Statements have been prepared in accordance and comply with IAS 34, Interim Financial Reporting using accounting policies consistent with International Financial Reporting Standards (“IFRS”) as issued by the International Accounting Standards Board (“IASB”) and interpretations issued by the IFRS Interpretations Committee (“IFRIC”). They do not include all information required for annual financial statements and should be read in conjunction with the consolidated financial statements of the Company as at and for the year ended July 31, 2021. Selected explanatory notes are included to explain events and transactions that are significant to an understanding of the changes to the Company’s financial position and performance since the last audited annual consolidated financial statements.

The Financial Statements were approved by the Board of Directors on December 15, 2022.

### ***(b) Basis of Measurement***

These Financial Statements have been prepared on a historical cost basis, using the accrual basis of accounting, except for certain financial instruments that have been measured at fair value at the end of each reporting period as explained in the accounting policies.

### ***(c) Basis of Consolidation***

These Financial Statements include the accounts of the Company and its wholly owned subsidiaries, Augustine Ventures Inc. and Wawa GP Inc. All intercompany balances and transactions have been eliminated in full on consolidation.

### ***(d) Critical Accounting Estimates and Judgments***

The preparation of financial statements in conformity with IFRS requires that management make judgements, estimates and assumptions about future events that affect the amounts reported in the financial statements and related notes to the financial statements. Although these estimates are based on management’s best knowledge of the amount, event or actions, actual results may differ from those estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected. The Company makes estimates and assumptions about the future that affect the reported amounts of assets and liabilities, profits and expenses. Estimates and judgments are continually evaluated based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. The effect of a change in an accounting estimate is recognized prospectively by including it in income in the period of the change, if the change affects that period only, or in the period of the change and future periods, if the change affects both.

Interim results are not necessarily indicative of the results expected for the financial year. Actual annual results may differ from interim estimates. The accounting policies, including significant judgements made by management applied in the preparation of the Financial Statements, are consistent with those applied and disclosed in the Company’s audited consolidated financial statements for the year ended July 31, 2022, except for the change in accounting policy related to flow-through shares described below. For a description of the Company’s accounting policies, critical accounting estimates and assumptions, please refer to the Company’s audited consolidated financial statements and related notes for the year ended July 31, 2022.

**2. BASIS OF PREPARATION** (continued)

**Change in Accounting Policy - Flow-Through Shares**

The accounting policy related to Deferred Flow-Through Premium and Flow-Through Provision estimates was changed in the year ended July 31, 2022.

Upon the issuance of flow-through shares (“FT Shares”), the Company records the initial proceeds to share capital, net of tax liability, if any. The flow-through share premium liability on the consolidated statement of financial position represents the premium of the financing price in excess of the market share price on the date of the flow-through share financing. As the Company incurs eligible Canadian Exploration Expenditure (“CEE”) to meet flow-through requirements, a corresponding flow-through share premium recovery is recognized in the consolidated statement of comprehensive loss. In prior consolidated financial statements, the Company deferred the recognition of the flow-through share premium until the CEE was renounced and after the CEE was incurred.

The retrospective change in accounting policy for the three months ending October 31, 2021 increased the flow-through share premium earned by \$330,380 for the period. The policy change impact on the results for the comparative period of follow:

	<b>Previously Reported 3 Months Ended October 31, 2021</b>	<b>Policy Change Impact</b>	<b>Adjusted 3 Months Ended October 31, 2021</b>
<b>Consolidated Statement of Loss and Comprehensive Loss</b>	<b>\$</b>	<b>\$</b>	<b>\$</b>
Change in flow-through premium	-	330,380	333,380
Loss and comprehensive Loss	(1,120,574)	330,380	(790,194)

	<b>Previously Reported 3 Months Ended October 31, 2021</b>	<b>Policy Change Impact</b>	<b>Adjusted 3 Months Ended October 31, 2021</b>
<b>Consolidated Statement of Cash Flow</b>	<b>\$</b>	<b>\$</b>	<b>\$</b>
Loss and comprehensive loss	(1,120,574)	330,380	(790,194)
Change in flow-through premium	-	330,380	330,380
Net cash used in operating activities	(787,133)	-	(787,133)

Significant assumptions about the future and other sources of estimation uncertainty that management has made at the end of the reporting period, that could have an effect on the amounts recognized in the Financial Statements relate to the following:

**Going Concern**

The preparation of the Consolidated Financial Statements requires management to make judgments regarding the going concern of the Company. (Note 1)

## **2. BASIS OF PREPARATION (continued)**

### **Share-based payment transactions:**

The Company measures the cost of equity-settled transactions with employees and applicable nonemployees by reference to the fair value of the equity instruments at the date at which they are vested. Estimating fair value for share-based payment transactions requires determining the most appropriate valuation model, which is dependent on the terms and conditions of the grant. This estimate also requires determining the most appropriate inputs to the valuation model including the expected life of the share option, risk-free interest rates, volatility and dividend yield and making assumptions about them. Expected volatility is generally based on the historical volatility of comparable companies. The assumptions and models used for estimating fair value for share-based payment transactions are disclosed in Note 8.

### **Deferred Taxes**

The estimation of income taxes includes evaluating the recoverability of deferred tax assets based on an assessment of the Company's ability to utilize the underlying future tax deductions against future taxable income prior to expiry of those deductions. Management assesses whether it is probable that some or all of the deferred tax assets will not be realized. The ultimate realization of deferred tax assets is dependent upon the generation of future taxable income, which in turn is dependent upon the successful discovery, extraction, development and commercialization of mineral reserves. To the extent that management's assessment of the Company's ability to utilize future tax deductions changes, the Company would be required to recognize more or fewer deferred tax assets, and deferred tax provisions or recoveries could be affected.

## **3. ACCOUNTS RECEIVABLE**

	<b>As at October 31, 2022</b>	<b>As at July 31, 2022</b>
Harmonized sales tax receivable	<b>346,528</b>	\$ 641,389
Amounts receivable	<b>54,638</b>	42,496
<b>Balance at period end</b>	<b>\$ 401,166</b>	\$683,885

Included in amounts receivable is \$54,638 (July 31, 2022, \$42,996) related to rent, exploration and administrative charges from a company with a shared director.

## **4. RESTRICTED CASH**

The Company is required to provide an environmental bond to the Ontario Government for the Wawa Gold Project.

**6. RIGHT OF USE ASSET AND LEASE LIABILITY (continued)**

On December 12, 2016, the Company signed an office space lease agreement for office space located at 145 Wellington Street West for seven (7) years from January 1, 2017 to December 31, 2023. The Company has future lease payments of \$85,543 and a prepaid rent deposit of \$41,579, which is included in the right of use asset and amortized over the term of the lease.

**7. MINERAL PROPERTIES**

The Company has ownership interests in several exploration projects. The Wawa Gold Project is the primary focus of exploration.

The following table summarizes the cumulative exploration and evaluation expenditures the Company has incurred on its mineral properties. The Wawa Gold Project expenditures includes all amounts incurred prior to any prorated recovery from the previous joint-venture partner.

## **7. MINERAL PROPERTIES (continued)**

During the three months ended October 31, 2022, the Company incurred total exploration and evaluation expenditures, of \$2,371,543, (three months ended October 31, 2021: \$1,704,717).

On August 20, 2021, the Company sold its Algoma-Talisman property located in Northern Ontario to Newton Gold Corp. (“Newton”) for \$1,050,000 in cash, which was payable in two installments. A \$550,000 installment was received in August 2021 and the balance was received on October 28, 2021. In addition, Newton granted a net smelter royalty of 1.5% (the “Royalty”) from mineral production on the Property to Red Pine, which can be repurchased by Newton for CAD \$500,000.

In May 2022, the Company completed the acquisition of the surface rights for properties, whereby on June 1, 2017 the Company had acquired the mineral rights (the “2017 Agreement”) and entered into a royalty agreement and road access agreement with the same vendor. The properties are identified with Property Identifier Numbers SSM4479, SSM4478, SSM4480 and SSM4481 and are located west of the Surluga Deposit within the Wawa Gold Project. The cash purchase price for the properties, including the cancellation of the royalty agreement and the road access agreement was \$266,000.

### **Wawa Gold Project**

The Wawa Gold Project covers over 7,132 hectares, including 308 claims covering 4,950 ha.; 17 leases covering 790 ha; and 102 patents covering 1,392 ha. The Wawa Gold Project hosts several former smaller scale mining operations and is located approximately 2 kilometers east of the Town of Wawa in northern Ontario.

On March 30, 2021, the Company completed the consolidation of the Wawa Gold Project. As a result, Red Pine now holds a 100% ownership interest in the Wawa Gold Project.

As part of the 100% consolidation of the Wawa Gold Project, the Company’s previous joint venture partner retained a 2% net smelter return royalty on production from the Wawa Gold Project, of which 1.5% of the 2% NSR is subject to a buyback for a total cost of \$1.75 million. The Company also had to put in place an environmental bond of \$315,000 which was previously provided by Citabar L.P. The environmental bond is recorded as restricted cash.

### **Other Properties**

The Company owns four other properties including 102 claims and 1 lease covering 1,783 ha. in Northern Ontario.

#### **Cayenne Property**

The Cayenne property consists of 4 cell claims covering 70.1 ha and 1 lease covering 62.67 ha (total 133 ha) in Genoa Township located approximately 110 kilometers southwest of Timmins, Ontario. The Company owns 100% of the property.

## 11. CAPITAL MANAGEMENT

The Company defines capital management as the manner in which it manages its shareholders' equity. As at October 31, 2022, the Company's shareholders' equity was \$4,306,136 (July 31, 2022 - \$2,738,334). There were no changes in the Company's approach to capital management during the three months ended October 31, 2022 and the Company is not subject to any externally imposed capital requirements.

The Company's objective in managing capital is to maintain the entity's ability to continue as a going concern, support the Company's normal operating requirements and to continue the exploration and evaluation of its mineral properties. The Board of Directors does not establish a quantitative return on capital criteria for management but rather relies on the expertise of the Company's management to sustain future development of the business.

The Company regularly monitors and reviews the amount of capital in proportion to risk and future development and exploration opportunities. The Company manages the capital structure and makes adjustments to it in the light of changes in economic conditions and the risk characteristics of the
