Notes:

(1) Each Option is exercisable for one common share in the capital of the Corporation. Options vest 25% semi-annually over two years since date of grant.

As at June 30, 2023, the Corporation did not have any share-based award plans for its NEOs.

During the fiscal year ended June 30, 2023, no incentive stock options granted to directors and NEOs were re-priced, cancelled and replaced, had their terms extended, or otherwise been materially modified, in the most recently completed financial year.

EXERCISE OF OPTION-BASED AWARDS BY DIRECTORS AND NEOS

During the fiscal year ended June 30, 2023, no incentive stock options were exercised.

STOCK OPTION PLANS AND OTHER INCENTIVE PLANS

Option Plan

The Corporation has a share option plan (the "**Option Plan**") which permits the granting of options ("**Options**") to purchase common shares of Aldebaran ("**Aldebaran Shares**") to directors, officers, employees, consultants and other service providers ("**Optionees**") of the Corporation and its subsidiaries. The Option Plan is intended to afford persons who provide services to Aldebaran an opportunity to obtain an increased proprietary interest in Aldebaran by permitting them to Aldebaran Shares and to aid in attracting as well as retaining and encouraging the continued involvement of such persons with Aldebaran. The Option Plan is administered by the compensation, nomination and corporate governance committee (the "**Compensation Committee**") of the Aldebaran Board (the "**Aldebaran Board**").

The Option Plan currently limits the number of Aldebaran Shares that may be issued on exercise of Options and pursuant to all other security based compensation arrangements of the Corporation to a number not exceeding 10% of the number of Aldebaran Shares which are outstanding from time to time. Options that are cancelled, terminated or expired prior to exercise of all or a portion thereof shall result in the Aldebaran Shares that were reserved for issuance thereunder being available for a subsequent grant of Options pursuant to the Option Plan. As the Option Plan is a "rolling" plan, the issuance of additional Aldebaran Shares by the Corporation or the exercise of Options will also give rise to additional availability under the Option Plan.

The number of Aldebaran Shares reserved for issuance pursuant to Options granted under the Option Plan and pursuant to any other security-based compensation arrangements of Aldebaran: (i) to any one Optionee in any 12 month period may not exceed 5% of the outstanding Aldebaran Shares; (ii) to insiders (as a group) at any time shall not exceed 10% of the issued and outstanding Aldebaran Shares; (iii) to insiders (as a group) within any 12 month period may not exceed 10% of the outstanding Aldebaran Shares; (iv) to any one consultant in any 12 month period may not exceed 2% of the outstanding Aldebaran Shares; and (v) issuable to persons providing investor relations services to the Corporation in any 12 month period shall not exceed 2% of the outstanding Aldebaran Shares. In addition, the number of Aldebaran Shares issuable at any time pursuant to Options to directors of Aldebaran that are not officers or employees of Aldebaran shall be limited to 1% of the issued and outstanding Aldebaran Shares. Options granted under the Option Plan are not assignable or transferable other than in the case of death of the Optionee.

Options granted pursuant to the Option Plan have a term not exceeding five years from the date of grant and vest in such manner as determined by the Aldebaran Board, provided that Options shall not vest on more favourable terms than one-third of the total number of Options granted on the date of grant and on each of the first and second anniversaries of the date of grant. In the absence of any specific determination to the contrary by the Aldebaran Board, Options will vest and be exercisable as to one third on each of the first, second and third anniversaries of the date of grant.

The exercise price of the Options granted pursuant to the Option Plan is determined by the Aldebaran Board at the time of grant, provided that the exercise price shall not be less than the closing trading price of the Aldebaran Shares on the TSX Venture Exchange (or such stock exchange on which the Aldebaran Shares may be listed) on the last trading day immediately preceding the date of grant.

In the event that an Optionee ceases to be a director, officer employee of or service provider to Aldebaran or a subsidiary of Aldebaran for any reason, including without limitation, resignation, dismissal or otherwise but excluding death or termination for cause, the Optionee may, prior to the expiry date of the Options and within 90 days from the date of ceasing to be a director, officer employee or service provider, exercise any Options which are vested within such period, after which time any outstanding Options shall terminate. In the event of death of the Optionee, any outstanding Options shall vest immediately and shall terminate on the date that is 90 days following the Optionee's death. Upon termination of an Optionee for cause, the Option shall terminate immediately upon such termination for cause.

Without the prior approval of the shareholders of Aldebaran (the "**Aldebaran Shareholders**") or, if applicable, disinterested Aldebaran Shareholder approval and prior acceptance of the TSX Venture Exchange, the Aldebaran Board may not: (i) make any amendment to the Option Plan to increase the percentage of Aldebaran Shares issuable on exercise of outstanding Options at any time; (ii) reduce the exercise price or extend the term of any outstanding

Options held by Insiders (as such term is defined in the Option Plan); (iii) extend the term of any outstanding Options beyond the original expiry date of such Option; (iv) make any amendment to increase the maximum limit on the number of securities that may be issued to Insiders; (v) make any amendment to increase the maximum number of Common Shares issuable on exercise of Options to directors who are not officers or employees of the Corporation; (vi) make any amendment to the Option Plan that would permit an Optionee to transfer or assign Options to a new beneficial Optionee other than in the case of death of the Optionee; or (vii) amend the amendment provisions set out in the Option Plan. Subject to restrictions set out above, the Aldebaran Board may amend or discontinue the Option Plan and Options granted thereunder at any time, without Aldebaran Shareholder approval, provided that any amendment to the Option Plan that requires approval of any stock exchange on which the Aldebaran Shares are listed for trading may not be made without approval of such stock exchange. In addition, no amendment to the Option Plan or Options granted pursuant to the Option Plan may be made without the consent of the Optionee if it adversely alters or impairs any Option previously granted to such Optionee.

The policies of the TSX-V require that the Option Plan be approved every year by Aldebaran Shareholders. The Option Plan was most recently approved by the Aldebaran Shareholders on March 21, 2023.

EMPLOYMENT, CONSULTING AND MANAGEMENT AGREEMENTS, INCLUDING TERMINATION AND CHANGE OF CONTROL BENEFITS

The Corporation has entered into consulting agreements with each of its Named Executive Officers, being John Black, Mark Wayne and Kevin B. Heather (the "**Consulting Agreements**").

The Consulting Agreements continue on a month-to-month basis until terminated by the applicable consultant or the Corporation. The consultants are entitled to participate in the Option Plan and also agree to keep the Corporation's information confidential during the term of the Consulting Agreements and indefinitely after the Consulting Agreements are terminated so long as such information remains confidential.

The Consulting Agreements entered into with Messrs Black, Wayne and Heather may be terminated by Aldebaran at any time upon 12 months payment, and may also be terminated by the applicable consultant at any time if Aldebaran fails to perform its obligations as described in the applicable Consulting Agreement. Additionally, following a Change of Control (as defined in the applicable Consulting Agreement), the applicable consultant has the right to voluntarily terminate its services under the applicable Consulting Agreement for any reason within 60 days following the effective date of a Change of Control and will be entitled to a lump sum payment calculated by multiplying the Consulting Fee (as defined in the applicable Consulting Agreement) by 24.

In addition, any stock options granted to the Consultant will accelerate and vest on the Consultant's voluntary termination date following the Change of Control. If any of the Consulting Agreements are terminated for any reason other than a Change of Control, there is no automatic resulting acceleration of, or any other benefit relating to, any Options held by the executive officer.

If the Consulting Agreements were terminated by Aldebaran at June 30, 2023 without cause, the termination payment payable thereunder to Messrs. Black, Wayne and Dr. Heather would have been US\$100,000, \$75,000, and US\$125,000 respectively. If the Consulting Agreements were terminated by Aldebaran at June 30, 2023 following a Change of Control, the termination payment payable thereunder to Messrs. Black, Wayne and Dr. Heather would have been US\$200,000, \$150,000, and US\$250,000, respectively.

DIRECTOR COMPENSATION

James McDonald, Fernando Pickmann and John Sibley were the directors of the Corporation who are not also Named Executive Officers during the year ended June 30, 2023. The Aldebaran Board intends to review directors' compensation from time to time as considered appropriate having regard to current trends in directors' compensation and compensation data for directors of issuers of comparative size to Aldebaran. Aldebaran does not currently pay any cash compensation to its directors. Members of the Aldebaran Board are entitled to Options granted pursuant to the Option Plan. The Corporation reimburses directors for all reasonable expenses incurred in order to attend meetings.

OVERSIGHT AND DESCRIPTION OF DIRECTOR AND NAMED EXECUTIVE OFFICER COMPENSATION

Role and Composition of the Compensation Committee

Aldebaran's executive compensation program is administered by the Compensation Committee of the Aldebaran Board. At June 30, 2023, the Compensation Committee was comprised of John Sibley (Chair), Mark Wayne and James McDonald. Each of Messrs. Sibley and McDonald are "independent" for the purposes of National Instrument 58-201 – *Corporate Governance Guidelines*. Mr. Wayne is not considered to be "independent" for the purposes of National Instrument 58-201 – *Corporate Governance Guidelines* as he is currently the CFO of the Corporation. The following table sets forth the relevant education and experience of each member of the Compensation Committee that enables such member to make decisions on the suitability of Aldebaran's compensation policies and practice:

Name and municipality of residence	Relevant Education and Experience
John M. Sibley West Vancouver, British Columbia, Canada	Managing Director of Stillwater Canada since July 2017; Previously, Chairman of Lotus Resources Limited (ASX) (June 2020 – March 2021), Qtrade Canada Inc. (2000 to 2018), and Minkabu, Inc.(2016 to 2017) and prior to 2016, Executive Vice President, General Counsel and Secretary of Uranium One Inc. LL.B and ICD.D (Institute of Corporate Directors).
Mark Wayne Calgary, Alberta, Canada	Chief Financial Officer of the Corporation since incorporation and Chief Financial Officer of Regulus Resources Inc. (“Regulus”) since December 2010. Investment Advisor with iA Private Wealth Inc. since January 2005. Chartered Financial Analyst and LL.B. Director, officer and audit committee member of junior public companies for a number of years.
James McDonald Rocky Mountain House, Alberta	President and Chief Executive Officer of Kootenay Silver Inc. since March 2005, President of Makwa Exploration Ltd., a private geological consulting company; and former Director of Northern Vertex Mining Corp since January 2013. Former audit committee member of Alamos Gold Inc. and Northern Vertex Mining Corp. for a number of years.

Compensation Committee Mandate

The Compensation Committee's mandate includes reviewing and making recommendations to the Aldebaran Board in respect of compensation matters relating to our executive officers, employees and directors, including the "named executive officers". Without limiting the generality of the foregoing, the Compensation Committee has the following duties:

- (a) to review the compensation philosophy and remuneration policy for employees of Aldebaran and to recommend to the Aldebaran Board changes to improve Aldebaran's ability to recruit, retain and motivate employees;
- (b) to consider the implications and the risks associated with Aldebaran's compensation policies and practices;
- (c) to review and recommend to the Aldebaran Board the retainer and fees (if any) to be paid to members of the Aldebaran Board, members of committees of the Aldebaran Board, and chairs of the various committees of the Aldebaran Board;
- (d) to review and approve corporate goals and objectives relevant to the compensation of the CEO, evaluate the CEO's performance in light of those corporate goals and objectives, and determine (or

make recommendations to the Board with respect to) the CEO's compensation level based on such evaluation;

- (e) to recommend to the Aldebaran Board with respect to non-CEO officer compensation including to review management's recommendations for proposed stock option and other incentive compensation plans and equity based plans for non-CEO officer compensation and make recommendations in respect thereof to the Board;
- (f) to administer the Option Plan and, if applicable, other incentive plans approved by the Board in accordance with its terms including recommending to the Aldebaran Board (and if delegated authority thereunder, approve) the grant of stock options in accordance with the terms of the Option Plan;
- (g) to determine and recommend for approval of the Aldebaran Board bonuses to be paid to officers and employees of Aldebaran and its subsidiaries, as applicable, and to establish targets or criteria for the payment of such bonuses, if appropriate; and
- (h) review the disclosure as to compensation matters included in the information circular and proxy statement of Aldebaran as mandated by applicable securities laws including, without limitation, this Statement of Executive Compensation, prior to Aldebaran publicly disclosing the same.

The Compensation Committee is required to be comprised of at least three directors, or such greater number as the Aldebaran Board may determine from time to time. The majority of the members of the Compensation Committee are required to be independent; as such term is defined for this purpose under applicable securities requirements. Pursuant to the mandate and terms of reference of the Compensation Committee, meetings of the Compensation Committee are to take place at least one time per year and at such other times as the Chair of the Compensation Committee may determine.

Compensation Consultant or Advisor

At no time in the previous two completed financial years of Aldebaran has a compensation consultant or advisor been formally retained by Aldebaran to assist the Board or the Compensation Committee to determine the compensation of the directors or executive officers of Aldebaran.

Risk Implications Associated with Compensation Policies and Practices

The Compensation Committee has considered the implications of the risks associated with Aldebaran's compensation policies and practices and has determined that there are no significant areas of risk because of the discretionary nature of such policies and practices. This determination was based on a number of factors, including, without limitation: that Aldebaran's compensation policies and practices are generally uniform throughout the organization and there are no significant differences in compensation structure among the senior executives; Aldebaran attempts to achieve a balance between cash and equity compensation which are based both on individual and corporate performance, both financial and non-financial; and stock options, which make up a significant portion of a Named Executive Officer's total compensation, generally vest over a period of two years, which acts to mitigate against the potential for inappropriate short-term risk taking. However, as elements of the discretionary compensation of the executive officers, such as the bonus plan, may be based, at least partially, on the performance of Aldebaran over the short term such policies may cause executive officers to make decisions favouring the short term results of Aldebaran rather than making decisions based on the best interests of Aldebaran over the long-term. The ability of the Compensation Committee to consider other factors such as personal contributions to corporate performance and non-financial based elements of corporate performance allows the Compensation Committee to consider whether executive officers have attempted to bolster short-term results at the expense of the long-term success of Aldebaran in determining executive compensation.

Short Sales, Puts, Calls and Options

Pursuant to the Corporation's Disclosure, Confidentiality and Trading Policy, directors, officers and employees of Aldebaran, shall not knowingly sell, directly or indirectly, a security of Aldebaran if such person selling such security does not own or has not fully paid for the security to be sold. Without prior approval of the disinterested directors, directors, officers and employees of Aldebaran shall not, directly or indirectly, buy or sell a call or put in respect of a security of Aldebaran. Notwithstanding these prohibitions, directors, officers and employees of Aldebaran may sell a Common Share which such person does not own if such person owns another security convertible into Common Shares or an option or right to acquire Common Shares sold and, within 10 days after the sale, such person: (i) exercises the conversion privilege, option or right and delivers the Common Shares so associated to the purchaser; or (ii) transfers the convertible security, option or right, if transferable to the purchaser.

Compensation Discussion and Analysis

Executive Compensation Principles

Our compensation program is based on a "pay-for-performance" philosophy which supports the Corporation's commitment to delivering performance for the Aldebaran Shareholders. Our compensation policies are founded on the principle that compensation should be aligned with Aldebaran Shareholders' interests, while also recognizing that Aldebaran's corporate performance is dependent upon the retainment of highly trained, experienced and committed executive officers, employees and directors who have the necessary skill sets, education, experience and personal qualities required to manage our business. Our program also recognizes that the various components thereof must be sufficiently flexible to adapt to unexpected developments in the mineral exploration industry and the impact of internal and market-related occurrences from time to time.

Our executive compensation program is comprised of the following principal components: (a) base salary; (b) short-term incentive compensation comprised of discretionary cash bonuses; and (c) long-term incentive compensation comprised of share options. See "*Elements of our Executive Compensation Program*" below. Together, these components support our long-term growth strategy and are designed to address the following key objectives of our compensation program:

- align executive compensation with Aldebaran Shareholders' interests;
- attract and retain highly qualified management; and
- focus performance by linking incentive compensation to the achievement of business objectives and financial and operational results.

The aggregate value of these principal components and related benefits, is used as a basis for assessing the overall competitiveness of the Corporation's executive compensation package. When determining executive compensation, including the assessment of the competitiveness of the Corporation's compensation program, management and the Compensation Committee reviews the compensation practices of companies in its selected peer group. These companies compete with Aldebaran for executive talent, operate in a similar business environment and are of similar size, scope and complexity.

The Corporation's peer group for these purposes is comprised of similar companies that are exploring and/or developing mining projects, primarily in foreign jurisdictions, and that have market capitalizations roughly similar to that of the Corporation.

The Corporation's compensation program is primarily designed to reward performance and, accordingly, the performance of both the Corporation, as well as the individual performance of executive officers during the year in question, are examined by the Compensation Committee in conjunction with setting executive compensation packages. The Compensation Committee does not set specific performance objectives in assessing the performance of the CEO and other executive officers; rather the Compensation Committee uses its experience and judgment in determining an overall compensation package for the CEO and other executive officers. Some of the factors looked at by the Compensation Committee in assessing the performance of the Corporation and its executive officers are as follows: (a) exploration successes; (b) additions to mineral resources; (c) ability to raise capital as required; (d) compliance with legal and regulatory requirements; and (e) ability to raise the profile of the Corporation within the

investment community. The Corporation weighs and reviews its performance for all of the above relative to its goals and objectives and in relation to the performance of its industry peer group.

Elements of our Executive Compensation Program

Each element of the Corporation's executive compensation program is described in more detail below.

Base Salaries

The base salary component is intended to provide a fixed level of competitive pay that reflects each executive officer's primary duties and responsibilities. It also provides a foundation upon which performance-based incentive compensation elements are assessed and established. The Corporation intends to pay base salaries to its executive officers, including the CEO, that are in the range of those for similar positions within our selected peer group. For our executive officers, base salaries are currently below the average of our comparison peer group but are considered to be high enough to accomplish the intended objectives. Salaries of the executive officers, including that of the CEO, are reviewed annually by the Compensation Committee.

Short Term Incentive Compensation – Discretionary Cash Bonuses

In addition to base salaries, the Corporation has a discretionary bonus plan pursuant to which the Aldebaran Board, upon recommendation of the Compensation Committee, may award annual cash bonuses to executive officers. The annual cash bonus element of the executive compensation program is designed to reward both corporate and individual performance during the Corporation's last completed financial year. It is the Compensation Committee's philosophy that an individual bonus should be tied primarily to that individual's contribution to corporate performance. In addition, the discretionary bonus plan is intended to help ensure that overall executive cash compensation (i.e. salary and bonus) is comparable to the average cash compensation of executives at peer surveyed companies during the year in question. The amount of the bonus paid is not set in relation to any formula or specific criteria but is the result of a subjective determination of the Corporation's and the individual's performance. The Compensation Committee has not established strict predetermined quantitative performance criteria linked to the payment of bonuses.

Long Term Incentive Compensation – Stock Options

Executive officers, along with all of Aldebaran's officers, directors, employees, contractors and other service providers, are eligible to participate in the Option Plan. The Option Plan and the Aldebaran Shares reserved thereunder have been approved by the Aldebaran Shareholders. The Option Plan promotes an ownership perspective among executives, encourages the retention of key executives and provides an incentive to enhance shareholder value by furthering the Corporation's success. As with most companies in the Corporation's peer group, options form an integral component of the total compensation package provided to the Corporation's executive officers. Participation in the Option Plan rewards overall corporate performance, as measured through the price of the Aldebaran Shares. In addition, the Option Plan enables executives to develop and maintain a significant ownership position in the Corporation.

Options to purchase Aldebaran Shares are normally awarded by the Aldebaran Board upon the commencement of an individual's employment with the Corporation based on the level of responsibility within the Corporation. Additional grants may be made periodically to ensure that the number of Options granted to any particular individual is commensurate with the individual's level of ongoing responsibility within the Corporation. In considering additional grants, we evaluate the number of Options an individual has been granted, the exercise price and value of the Options and the term remaining on those Options.

PENSION PLAN BENEFITS

The Corporation does not have in place any pension plan or similar benefit program that provides for payments or benefits at, following or in connection with retirement
