

# BeWhere Holdings Inc., Astreon and Gurtam Announce Partnership

Toronto, Ontario--(Newsfile Corp. - December 3, 2019) - [BeWhere](#) (TSXV: BEW) (OTCQB: BEWFF) ("**BeWhere**" or the "**Company**"), a leading provider of Mobile Internet of Things (M-IoT) technology, is pleased to announce it has partnered with Astreon, a partner of Gurtam. Astreon and Gurtam offer a one-in-a-kind, one-stop solution to integrate and distribute BeWhere's Mobile IoT products.

[Astreon](#), an IoT aggregator and service provider, implements and distributes electronic monitoring and tracking systems which offer many flexible options for all businesses in all vertical markets. Astreon is a VAR focused business with partners all over the world; and enables businesses to easily distribute and support white labelled or Astreon branded turnkey IoT solutions. Astreon is a partner of [Gurtam](#). With over 2.3 million devices connected today, Gurtam is a worldwide IoT and satellite monitoring platform providing services for various industries such as fleet management, mobile and stationary asset tracking, staff monitoring, and more.

"Integrating with one the world's largest IoT solution providers is yet another validation of our technology", says Owen Moore, CEO of BeWhere. "Through their partner relationship, Astreon platform gives us a unique access to Gurtam's customers worldwide and bring our low-cost sophisticated products as a new solution for existing needs".

"Astreon strives to pull together best in class B2B IoT products to provide to our channel partners through turnkey IoT Solutions", says Andrew Singer, Executive Vice President of Astreon. "BeWhere has developed some of the industry's best M-IoT devices, providing excellent value and high quality. Gurtam delivers the IoT platform that meets the needs of 99% of all business consumers worldwide. We are honored to have partners such as these."

## About BeWhere

[BeWhere](#) (TSXV: BEW) (OTCQB: BEWFF) is a Mobile Internet of Things ("M-IOT") solutions company that designs and sells hardware with sensors and software applications to track real-time information on non-powered fixed and movable assets, as well as monitor environmental conditions. The company develops mobile applications, middle-ware and cloud-based solutions that stand-alone or that can be readily integrated with existing software. BeWhere' solutions are cutting edge, using the latest available cellular technologies (LTE-M and NB-IoT) and offering customers low-cost sophisticated technology to implement a new level of visibility to their businesses.
