Management's Report

The accompanying interim unaudited condensed consolidated financial statements of **Oceanus Resources Corporation** (the "Company") are the responsibility of management and have been approved by the Board of Directors. The consolidated financial statements have been prepared by management in accordance with International Financial Reporting Standards ("IFRS"). The consolidated financial statements include certain amounts and assumptions that are based on management's best estimates and have been derived with careful judgment.

In fulfilling its responsibilities, management has developed and maintains a system of internal accounting controls. These controls are designed to provide reasonable assurance that the financial records are reliable for preparation of the consolidated financial statements. The Audit Committee of the Board of Directors reviewed and approved the Company's consolidated financial statements and recommended their approval by the Board of Directors.

These consolidated financial statements have not been reviewed by the external auditors of the Company.

Notes to the Unaudited Interim Consolidated Financial Statements For the period ended September 30, 2019

1 Nature of operations and going concern

Nature of operations

Oceanus Resources Corporation (the "Company") was incorporated under the Canada Business Corporations Act on June 14, 2010 and its common shares are listed on the TSX Venture Exchange (the "Exchange") under the trading symbol OCN. The Company's registered office is located at Suite 2108, 1969 Upper Water Street, Halifax, Nova Scotia. The Company has one reportable and one geographic segment, is a mineral exploration company engaged in locating and acquiring high quality projects and exploring for gold and base metals and has not yet determined whether its exploration property interests contain mineral reserves that are economically recoverable.

Going concern

These consolidated financial statements have been prepared using International Financial Reporting Standards ("IFRS") applicable to a going concern, which assumes the realization of assets and settlement of liabilities in the normal course of business as they come due. As at September 30, 2019, the Company had an accumulated deficit of \$19.4 million and a working capital deficiency of \$2.4 million (March 31, 2019 - \$19.2 million and \$2.4 million respectively). The Company has no income or cash flow from operations. In addition to its working capital requirements, the Company must secure sufficient funding to maintain legal title to its resource properties, to fund its exploration and development activities and to fund its general and administrative costs. Such circumstances cause material uncertainties that may cast significant doubt as to the ability of the Company to meet its obligations as they come due and, accordingly, the appropriateness of the use of accounting principles applicable to a going concern. Management completed a private placement financing during the period ended September 30, 2019 in the amount of \$750,000 as described in Note 8, and is evaluating alternatives to secure additional financing so that the Company can continue to operate as a going concern. Nevertheless, there is no assurance that these initiatives will be successful or sufficient.

The Company's ability to continue as a going concern is dependent upon its ability to fund its working capital and exploration requirements and eventually to generate positive cash flows, either from operations or sale of properties. These consolidated financial statements do not reflect the adjustments to the carrying value of assets and liabilities and the reported expenses and consolidated statements of financial position classifications that would be necessary were the going concern assumption inappropriate, and these adjustments could be material.

2 Basis of presentation

a) Statement of compliance

The consolidated financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") applicable to the preparation of financial statements as set out in the Chartered Professional Accountants of Canada Handbook – Accounting – Part 1 ("CPA Canada Handbook").

Notes to the Unaudited Interim Consolidated Financial Statements
For the period ended September 30, 2019

2 Basis of presentation (continued)

a) Statement of compliance (continued)

These financial statements are in compliance with International Accounting Standard 34, Interim Financial Reporting (“IAS 34”). Accordingly, certain information normally included in annual financial statements prepared in accordance with IFRS, as issued by the IASB, have been omitted or condensed. The preparation of financial statements in accordance with IAS 34 requires the use of certain critical accounting estimates. It also requires management to exercise judgement in applying the Company’s accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements have been set out in note 2 of the Company’s financial statements for the year ended March 31, 2019. These financial statements should be read in conjunction with the Company financial statements for the year ended March 31, 2019.

These financial statements include all adjustments, composed of normal recurring adjustments, considered necessary by management to fairly state the Company’s results of operations, financial position and cash flows. The operating results for interim periods are not necessarily indicative of results that may be expected for any other interim period or for the full year.

The Board of Directors approved the consolidated financial statements for issue on November 27, 2019.

b) Basis of measurement

These consolidated financial statements have been prepared under a historical cost basis.

3 Significant accounting policies

These financial statements have been prepared using the same accounting policies and methods of computation as the annual financial statements of the Company for the year ended March 31, 2019. Refer to note 3 – Significant Accounting Policies and note 4 – New and Revised IFRS Accounting Pronouncements, of the Company’s annual consolidated financial statements for the year ended March 31, 2019, for information on accounting policies and new accounting standards not yet effective.

4 Capital management

The Company manages its capital structure and makes adjustments to it, based on the funds available to the Company. The Company considers capital to be total equity, which at September 30, 2019 totaled \$16,051,900 (March 31, 2019 - \$15,562,398). The Board of Directors does not establish quantitative return on capital criteria for management, but rather relies on the expertise of the Company’s management to sustain future development of the business. The Company is not subject to externally imposed capital requirements.

i) Capital stock (continued)

During the six month period ended September 30, 2019, the Company completed a non-brokered private placement financing and issued 12,500,000 common shares at a price of \$0.06 per unit, for aggregate gross proceeds of \$750,000. At September 30, 2019, the transfer of subscription proceeds aggregating \$10,000 remained outstanding. The 166,667 common shares relating to this subscription were held in trust at September 30, 2019 and for accounting purposes these shares were excluded from the issued number of shares. Subsequent to September 30, 2019, the Company received subscription proceeds aggregating \$10,000 and the 166,667 shares were released from trust. The capital stock value of the common shares issued as at September 30, 2019 is net of share issue costs of \$5,000.

During the six month period ended September 30, 2018, the Company completed a non-brokered private placement financing and issued 5,769,227 units at a price of \$0.13 per unit, for aggregate gross proceeds of \$750,000. Each unit consists of one common share and one-half of one common share purchase warrant. Each whole share purchase warrant entitles the holder to acquire one common share of the Company for \$0.17 for a period of 24 months from the closing date of the offering. The closing date of the private placement was September 18, 2018 and at September 30, 2018, the transfer of subscription proceeds aggregating \$352,000 from subscribers' registered accounts remained outstanding. The 2,707,692 units relating to these subscriptions were held in trust at September 30, 2017 and for accounting purposes the shares relating to these units were excluded from the issued number of shares. Subsequent to September 30, 2018, the Company received subscription proceeds aggregating \$352,000 and 2,707,692 units (2,707,692 shares and 1,353,846 warrants) were released from trust. The capital stock value of the common shares issued as at September 30, 2018 is net of share issue costs of \$5,271.

ii) Stock options

The Company has a common share purchase option plan (the "Plan") for directors, officers, employees and consultants. The total number of options issued and outstanding at any time cannot exceed 10% of the issued and outstanding common shares of the Company unless shareholder and regulatory approvals are obtained. Options granted under the Plan have a ten-year term. Options are granted at a price no lower than the market price of the common shares less any discounts allowed by the Exchange at the time of the grant. In determining the stock-based compensation expense, the fair value of options issued is estimated using the Black-Scholes option pricing model. Expected volatility is based on actual volatility of similar companies.

The following weighted average assumptions were used in the Black-Scholes option pricing model for the periods ended September 30, 2019 and September 30, 2018:

	2019	2018
Risk-free interest rate	2.25%	2.0%

Balance – March 31, 2019 and September 30, 2019	Sept 17, 2020	0.17	<u>2,884,612</u>	<u>–</u>

The fair value of the 2,884,612 warrants issued pursuant to the September 2018 private placement financing have an estimated value of \$nil at the issue date using the residual method of valuation.

v) Deferred share units

The Company has a deferred share unit plan (the "DSU Plan") whereby Participants may elect to receive all or a portion of their annual compensation or bonus compensation, if any, in deferred share units ("DSU's"). The election, if it is made, must be for a minimum of 10%, or a multiple thereof, of such compensation in DSU's. The number of DSU's received is equal to the amount of compensation elected to be received in DSU's, divided by the volume-weighted average trading price of the Common Shares on the TSX for the 5 trading days immediately prior to the payment date. DSU's awarded under the DSU Plan in lieu of annual or bonus compensation will vest immediately.

In addition, the Board of Directors has the authority to make discretionary awards of DSU's to Participants under the DSU Plan. DSU's granted pursuant to discretionary awards will vest in accordance with the vesting schedule determined by the Board of Directors. Generally, DSU's will vest equally over three years, with one-third of the awarded DSU's vesting on each of the first, second and third anniversaries of the date of the award.

All unvested DSU's will vest immediately in the case of a change of control of the Company. In addition, in the event of the death or termination without cause of a Participant that received DSUs, the Participant's DSU's will vest immediately. The Board of Directors may at any time shorten the vesting period of any or all DSU's.

Notes to the Unaudited Interim Consolidated Financial Statements
For the period ended September 30, 2019

8 Shareholders' equity (continued)

v) **Deferred share units** (continued)

The maximum number of common shares issuable under the DSU Plan is 7,500,000. Each DSU held by a Participant must be redeemed by the company within 10 years of grant for DSU Plan shares issued from treasury. Each vested DSU held by a Participant who ceases to be an eligible employee, director or officer shall be redeemed by the Company effective as of the separation date for DSU Plan shares issued from treasury.

In determining the stock-based compensation expense, the fair value of options issued is estimated using the Black-Scholes option pricing model. Expected volatility is based on actual volatility of similar companies.

The following weighted average assumptions were used in the Black-Scholes option pricing model for the periods ended September 30, 2019 and September 30, 2018:

	2019	2018
Risk-free interest rate	2.25%	2.0%
Expected volatility	105%	95%
Expected dividend yield	-	-
Expected life	10 years	10 years

On January 4, 2019, the Board of Directors approved the issuance of 900,000 DSU's to officers of the Company. This was the initial grant of DSU's under the DSU Plan. The 900,000 DSU's are priced at \$0.10 per common share and vest over a period of three years. The fair value per DSU granted was \$0.09.

9 Supplemental cash flow information

At September 30, 2019, the Company's accounts payable included expenditures on resource properties of \$2,139,688 (March 31, 2019 - \$1,867,308).

10 Financial instruments and other

Credit risk

The Company manages credit risk by holding its cash and cash equivalents with high quality financial institutions in Canada, where management believes the risk of loss to be low. The Company also has approximately \$750,000 of Mexican VAT receivable at September 30, 2019 (March 31, 2019 - \$746,000). The Company has recorded the VAT to resource properties. While the Company is still pursuing collection, with the delay in processing and collection, management determined that it was appropriate to reclassify this amount to the resource property to which the VAT paid related. The timing and amount of the VAT ultimately collectible could be materially different from the amount recorded in the consolidated financial statements.

10 Financial instruments and other (continued)

Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company’s approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions. The Company does not have sufficient working capital to carry out all budgeted programs in fiscal 2020 and must obtain financing during fiscal 2020 to avoid disruption in planned expenditures (see note 1).

Market Risk

Market risk is the risk of loss that may arise from changes in market factors such as interest rates, foreign exchange rates, and commodity and equity prices.

a) Interest rate risk

The Company has no interest-bearing debt and is not exposed to any significant interest rate risk.

b) Foreign currency risk

The Company operates in Mexico, giving rise to foreign currency risk. To limit the Company’s exposure to this risk, cash is primarily held with high quality financial institutions in Canada.

As at September 30, 2019, the Company held the following financial instruments in foreign currencies:

	US\$	Pesos
Cash	10,594	10,822
Accounts payable and accrued liabilities	182,864	29,488,904

c) Price risk

The Company is not exposed to any direct price risk other than that associated with commodities and how fluctuations impact companies in the mineral exploration and mining industries as the Company has no significant revenues.
