

FORM 51-101F1  
STATEMENT OF RESERVES DATA  
AND OTHER OIL AND GAS INFORMATION  
METALORE RESOURCES LIMITED

This reserves and cash flow evaluation of Metalore Resources Limited was prepared on April 22, 2022 using production and revenue data up to and including March 31, 2022 in a report entitled Metalore Resources Limited Reserves and Present Value Estimate as of March 31, 2022 prepared by Jim McIntosh Petroleum Engineering Ltd. The results of this report are summarized in the tables below.

All of Metalore Resources Limited natural gas assets are located onshore in south-western Ontario, Canada. The company has 100% working interests in 83 producing Silurian-aged Thorold/Grimsby sandstone gas wells in the Charlotteville Township area of Norfolk County and 100% working interests in 4 shut-in Silurian-aged Thorold/Grimsby sandstone gas wells in Houghton Township, Norfolk County. In addition to the producing wells, Metalore has undeveloped but highly prospective acreage in both areas.

Metalore has received very strong natural gas prices from Enbridge Gas over the past year. The higher gas price at the end of Metalore's 2022 Fiscal Year (\$7.34/Mcf) resulted in a large improvement in the 10% Discounted Net Present Value using constant prices and operating costs reflected in the table above. However, the forecast commodity prices indicate that the gas prices are expected to be in the \$5.19/Mcf range by 2024. This improved forecast gas price outlook compared to the 2021 report resulted in increased remaining recoverable reserves as indicated in the reconciliation table above. Metalore can maximize the higher natural gas prices by continuing to sell as much gas as possible to the Enbridge Field Line customers. This continued premium paid for Field Line customer gas consumption by Enbridge Gas increased the remaining recoverable reserves and value of Metalore's remaining Proved reserves.

**FORM 51-101F2**  
**REPORT ON RESERVES DATA**  
**By INDEPENDENT QUALIFIED EVALUATOR**

To the board of directors of Metalore Resources Limited (the “Company”)

1. I have evaluated the Company’s reserves data as at March 31, 2022. The reserves data are estimates of proved reserves and probable reserves and related future net revenue as at March 31, 2022, estimated using forecast prices and costs.
2. The reserves data are the responsibility of the Company’s management. My responsibility is to express an opinion on the reserves data based on my evaluation.

I carried out my evaluation in accordance with standards set out in the Canadian Oil and Gas Evaluation Handbook (the “COGE Handbook”) prepared jointly by the Society of Petroleum Evaluation Engineers (Calgary Chapter) and the Canadian Institute of Mining, Metallurgy & Petroleum (Petroleum Society).

3. Those standards require that I plan and perform an evaluation to obtain reasonable assurance as to whether the reserves data are free of material misstatement. An evaluation also includes assessing whether the reserves data are in accordance with principles and definitions presented in the COGE Handbook.
4. The following table sets forth the estimated future net revenue (before deduction of income taxes) attributable to proved plus probable reserves, estimated using forecast prices and costs and calculated using a discount rate of 10 percent, included in the reserves data of the Company evaluated by me for the year ended March 31, 2022, and identifies the respective portions thereof that I have evaluated and reported on to the Company’s management:

Independent Evaluator	Report Date	Reserves Location	Audited (M\$)	Evaluated (M\$)	Reviewed (M\$)	Total (M\$)
Jim McIntosh Petr Eng	22-Apr-22	Ontario		\$5,221.1		\$5,221.1
Total				\$5,221.1		\$5,221.1

5. In my opinion, the reserves data respectively evaluated by me have, in all material respects, been determined and are in accordance with the COGE Handbook. I express no opinion on the reserves data that I reviewed but did not audit or evaluate.
6. I have no responsibility to update my reports referred to in paragraph 4 for events and circumstances occurring after their respective preparation dates.

7. Because the reserves data are based on judgments regarding future events, actual results will vary and the variations may be material. However, any variations should be consistent with the fact that reserves are categorized according to the probability of their recovery.

Executed as to my report referred to above:

Jim McIntosh Petroleum Engineering Ltd

FORM 51-101F3  
REPORT OF MANAGEMENT  
ON OIL AND GAS DISCLOSURE

This is the form referred to in item 3 of section 5.1 of National Instrument 51-101 *Standards of Disclosure for Oil and Gas Activities ("NI-101")*

1. Terms to which a meaning is ascribed in *NI 51-101* have the same meaning in this form .
2. The report referred to in item 3 of section 5.1 of *NI 51-101* shall in all material respects be as follows:

**Report on Reserves Data and other Information:**

Management of Metalore Resources Limited (the "Company") are responsible for the preparation and disclosure of information with respect to the Company's oil and gas activities in accordance with securities regulatory requirements. Such information includes Reserves Data, which are:

- (a) (i) proved and probable oil and gas reserves estimated as at March 31, 2022, using forecast prices and costs; and  
(ii) the related estimated future net revenue; and
- (b) (i) proved oil and gas reserve quantities, estimated as at March 31, 2022, using constant prices and costs; and  
(ii) the related standardized measure of discounted future net cash flows from oil and gas reserve quantities.

An independent qualified evaluator has evaluated and reviewed the Company's Reserves Data. The report of the independent qualified evaluator will be filed with SEDAR concurrently with this report.

The AUDIT Committee of the board of directors has reviewed the Company's procedures for assembling and reporting other information associated with oil and gas activities and has reviewed that information with management. The board of directors has approved the content and filing of the Reserves Data and other oil and gas information, the filing of the report of the independent qualified evaluator on the Reserves Data and the content and filing of this report.

Because the Reserves Data are based on judgements regarding future events, actual results will vary and the variations may be material.

Armen Chilian, P.Geol,  
President, CEO, and Director
