INDEPENDENT AUDITORS' REPORT

To the Shareholders of Clear Blue Technologies International Inc. (formerly Dagobah Ventures Ltd.)

We have audited the accompanying financial statements of Clear Blue Technologies International Inc. (formerly Dagobah Ventures Ltd.), which comprise the statements of financial position as at April 30, 2018 and 2017 and the statements of operations and comprehensive loss, changes in shareholders' equity and cash flows for the years then ended, and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with International Financial Reporting Standards, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with Canadian generally accepted auditing standards. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the company's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, these financial statements present fairly, in all material respects, the financial position of Clear Blue Technologies International Inc. (formerly Dagobah Ventures Ltd.) as at April 30, 2018 and 2017, and its financial performance and cash flows for the years then ended in accordance with International Financial Reporting Standards.

Emphasis of Matters

Without qualifying our opinion, we draw attention to Note 1 in the financial statements which indicates that the Company has incurred losses to date and its continuance as a going concern is dependent upon its ability to raise additional capital or evaluate strategic alternatives. These conditions as set forth in Note 1, indicates the existence of a material uncertainty that may cast significant doubt about the Company's ability to continue as a going concern.

Notes to the Financial Statements

For the Year Ended April 30, 2018 and 2017

(Expressed in Canadian dollars)

1. NATURE AND CONTINUANCE OF OPERATIONS

Clear Blue Technologies International Inc. (formerly Dagobah Ventures Ltd, Satica Sciences Inc, and 1018747 B.C. Ltd., respectively) (the “Company”) was incorporated as a wholly-owned subsidiary of reporting issuer UWO Consulting Ltd. (“UWO”) on November 11, 2014 under the laws of British Columbia, Canada, pursuant to a plan of arrangement between the Company, UWO, 1018746 B.C. Ltd., 1018765 B.C. Ltd., 1018759 B.C. Ltd., 1018760 B.C. Ltd., 1018761 B.C. Ltd., 1018763 B.C. Ltd., 1018764 B.C. Ltd., 1018758 B.C. Ltd., and 1018766 B.C. Ltd. The Company is in the business of consulting on capital markets deal structuring, venture capital and corporate advisory. Its head office and registered office is located at 7-30 Lesmill Road, Toronto, ON, M3B 2T6, Canada.

These financial statements have been prepared on the basis of accounting principles applicable to a going concern which assumes the Company will be able to realize its assets and discharge its liabilities in the normal course of business rather than through a process of forced liquidation. The Company’s continuing operations, as intended, and its financial success may be dependent upon the extent to which it can successfully develop its business consulting on capital markets deal structuring, venture capital and corporate advisory.

The development of its business may take many years to be in successful and the amount of resulting income, if any, is difficult to determine with any certainty. On April 30, 2018, the Company had not yet achieved profitable operations, had a net loss of \$148,678 (April 30, 2017 – \$2,000), a deficit of \$150,678 (April 30, 2017 - \$2,000 deficit) and working capital of \$213,322 (April 30, 2017 - \$1,999 deficit), and expects to incur losses in the development of its business, all of which casts material uncertainty about the Company’s ability to continue as a going concern.

The financial statements were approved by the Board of Directors on October 10, 2018.

2. BASIS OF PRESENTATION

These financial statements have been prepared in accordance with International Financial Reporting Standards (“IFRS”), as issued by the International Accounting Standards Board (“IASB”) and interpretations issued by the International Financial Reporting Standards Interpretations Committee (“IFRIC”). These financial statements have been prepared on the basis of IFRS that are effective for the Company’s reporting year ended.

The financial statements are presented in Canadian dollars, which is the functional currency of the Company.

The financial statements have been prepared on a historical cost basis, except for financial instruments classified as financial instruments at fair value through profit or loss or available for sale, if applicable, which are stated at their fair value. In addition, these financial statements have been prepared using the accrual basis of accounting except for cash flow information.

Clear Blue Technologies International Inc.
(formerly Dagobah Ventures Ltd.)

Notes to the Financial Statements

For the Year Ended April 30, 2018 and 2017

(Expressed in Canadian dollars)

3. SIGNIFICANT ACCOUNTING POLICIES

These financial statements are presented in Canadian dollars, which is the Company's functional and reporting currency. These financial statements are prepared on a historical cost basis except for financial instruments classified as fair value through profit or loss ("FVTPL"), which are stated at their fair value.

a. Significant accounting judgments and estimates

The preparation of these financial statements requires management to make judgments and estimates that affect the reported amounts of assets and liabilities at the date of the financial statements and reported amounts of expenses during the reporting period. Actual outcomes could differ from these judgments and estimates. The financial statements include judgments and estimates which, by their nature, are uncertain. The impacts of such judgments and estimates are pervasive throughout the financial statements, and may require accounting adjustments based on future occurrences. Revisions to accounting estimates are recognized in the period in which the estimate is revised and the revision affects both current and future periods. Accounts which require management to make material estimates and significant assumptions in determining amounts recorded include valuation of share-based transactions and provision for deferred income tax.

Critical judgments exercised in applying accounting policies that have the most significant effect on the amounts recognized in the financial statements are as follows:

Deferred income tax

The assessment of the probability of future taxable income in which deferred tax assets can be utilized is based on the Company's estimates of future profits or losses adjusted for significant non-taxable income and expenses and specific limits to the use of any unused tax loss or credit. The tax rules in the jurisdictions in which the Company operates are also carefully taken into consideration. If a positive forecast of taxable income indicates the probable use of a deferred tax asset, especially when it can be utilized without a time limit, that deferred tax asset is usually recognized in full. The recognition of deferred tax assets that are subject to certain legal or economic limits or uncertainties is assessed individually by management based on the specific facts and circumstances.

Going concern

The assumption that the Company is a going concern and will continue into the foreseeable future. The factors considered by management are disclosed in Note 1.

b. Cash and cash equivalents

The Company considers cash to include amounts held in banks. The Company places its cash with major financial institutions in Canada.

Clear Blue Technologies International Inc.

(formerly Dagobah Ventures Ltd.)

Notes to the Financial Statements

For the Year Ended April 30, 2018 and 2017

(Expressed in Canadian dollars)

c. Shared-based payments

The fair value of any options granted is measured at grant date, using the Black-Scholes option pricing model, and is recognized over the period that the employees earn the options. The fair value is recognized as an expense with a corresponding increase in equity. The amount recognized as expense is adjusted to reflect the number of share options expected to vest. The Company has never granted share-based payments to date.

d. Deferred income taxes

Deferred income tax assets and liabilities are recognized for deferred income tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases. Deferred income tax assets and liabilities are measured using the enacted or substantively enacted tax rates expected to apply when the asset is realized or the liability settled. The effect on deferred income tax assets and liabilities of a change in tax rates is recognized in income in the period that substantive enactment occurs. To the extent that the Company does not consider it more likely than not that a deferred income tax asset will be recovered, the deferred income tax assets is reduced. Deferred income tax assets and liabilities are offset only if a legally enforceable right exists to offset current tax assets against liabilities and the deferred tax assets and liabilities relate to income taxes levied by the same taxation authority on the same taxable entity.

e. Financial instruments

The Company classifies financial instruments in the following categories: at fair value through profit or loss ("FVTPL"), loans and receivables, held-to-maturity investments, available-for-sale and financial liabilities. The classification depends on the purpose for which the financial instruments were acquired or issued. Management determines the classification of its financial instruments at initial recognition.

Financial assets are classified at fair value through profit or loss when they are either held for trading for the purpose of short-term profit taking, derivatives not held for hedging purposes, or when they are designated as such to avoid an accounting mismatch or to enable performance evaluation where a group of financial assets is managed by key management personnel on a fair value basis in accordance with a documented risk management or investment strategy. Such assets are subsequently measured at fair value with changes in carrying value being included in profit or loss.

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market and are subsequently measured at amortized cost. They would be included in current assets, except for maturities greater than 12 months after the end of the reporting period. These would be classified as non-current assets. The Company has classified cash and amounts receivable as loans and receivables

Clear Blue Technologies International Inc.

(formerly Dagobah Ventures Ltd.)

Notes to the Financial Statements

For the Year Ended April 30, 2018 and 2017

(Expressed in Canadian dollars)

Held-to-maturity investments are non-derivative financial assets that have fixed maturities and fixed or determinable payments, and it is the Company's intention to hold these investments to maturity. They are subsequently measured at amortized cost. Held-to-maturity investments would be included in non-current assets, except for those which are expected to mature within 12 months after the end of the reporting period. The Company has no held-to-maturity investments.

Available-for-sale financial assets are non-derivative financial assets that are designated as available-for-sale or are not suitable to be classified as financial assets at fair value through profit or loss, loans and receivables or held-to maturity investments and are subsequently measured at fair value. These are included in current assets to the extent they are expected to be realized within 12 months after the end of the reporting period. Unrealized gains and losses are recognized in other comprehensive income, except for impairment losses and foreign exchange gains and losses on monetary financial assets.

Financial assets are derecognized when the rights to receive cash flows from the investments have expired or have been transferred and the Company has transferred substantially all risks and rewards of ownership. At each reporting date, the Company assesses whether there is objective evidence that a financial instrument has been impaired. In the case of available-for-sale financial instruments, a significant and prolonged decline in the value of the instrument is considered to determine whether impairment has arisen.

Accounts payable and accrued liabilities, loans and due to related parties are classified as other liabilities at amortized cost. The Company initially recognizes debt securities issued and subordinated liabilities on the date that they are originated. All other financial liabilities are recognized initially on the trade date at which the Company becomes a party to the contractual provisions of the instruments.

The Company derecognizes a financial liability when its contractual obligations are discharged, cancelled or expired. Non-derivative financial liabilities (excluding financial guarantees) are subsequently measured at amortized cost.

Financial assets and liabilities are offset and the net amount is presented in the statement of financial position when, and only when, the Company has a legal right to offset the amounts and intends to either settle on a net basis or to realize the assets and settle the liability simultaneously.

The Company does not have any material derivative financial assets and liabilities.

The fair value of the Company's financial assets and liabilities approximates the carrying amount.

Financial instruments measured at fair value are classified into one of three levels in the fair value hierarchy according to the relative reliability of the inputs used to estimate the fair values. The three levels of the fair value hierarchy are:

- Level 1 – Unadjusted quoted prices in active markets for identical assets or liabilities;
- Level 2 – Inputs other than quoted prices that are observable for the asset or liability either directly or indirectly; and
- Level 3 – Inputs that are not based on observable market data.

Clear Blue Technologies International Inc.
(formerly Dagobah Ventures Ltd.)

Notes to the Financial Statements

For the Year Ended April 30, 2018 and 2017

(Expressed in Canadian dollars)

f. Comprehensive income (loss)

Comprehensive income (loss) is the change in the Company's net assets that results from transactions, events and circumstances from sources other than the Company's shareholders and includes items that are not included in net profit. Other comprehensive income (loss) consists of changes to unrealized gain and losses on available for sale financial assets, changes to unrealized

gains and losses on the effective portion of cash flow hedges and changes to foreign currency translation adjustments of self-sustaining foreign operations during the period. Comprehensive income (loss) measures net earnings for the period plus other comprehensive income (loss). Amounts reported as other comprehensive income (loss) are accumulated in a separate component of shareholders' equity as Accumulated Other Comprehensive Income (Loss). The Company has not had other comprehensive income (loss) since inception and accordingly, a statement of comprehensive income (loss) has not been presented.

g. Earnings (loss) per share

Basic earnings (loss) per share is computed by dividing the net earnings (loss) available to common shareholders by the weighted average number of shares outstanding during the reporting period. Diluted earnings (loss) per share is computed similar to basic earnings (loss) per share except that the weighted average share outstanding are increased to include additional shares for the assumed exercise of stock options and warrants, if dilutive. The number of additional shares is calculated by assuming that outstanding stock options and warrants were exercised and that the proceeds from such exercises were used to acquire common stock at the average market price during the reporting periods.

h. Provisions

Provisions are recorded when a present legal or constructive obligation exists as a result of past events where it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and a reliable estimate of the amount of the obligation can be made.

The amount recognized as a provision is the best estimate of the consideration required to settle the present obligation at statement of financial position date, taking into account the risks and uncertainties surrounding the obligation. Where a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows. The increase in the obligation due to the passage of time is recognized as finance expense. When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, the receivable is recognized as an asset if it is virtually certain that reimbursement will be received and the amount receivable can be measured reliably.

Clear Blue Technologies International Inc.
(formerly Dagobah Ventures Ltd.)

Notes to the Financial Statements

For the Year Ended April 30, 2018 and 2017

(Expressed in Canadian dollars)

i. Future changes in accounting policies

Certain pronouncements were issued by the IASB or the IFRIC that are mandatory for accounting periods after January 1, 2018 or later periods. Many are not applicable or do not have a significant impact to the Company and have been excluded from the summary below. The company has not yet begun the process of assessing the impact that the new and amended standards will have on its financial statements or whether to early adopt any of the new requirements.

IFRS 9, Financial Instruments, replaces the current standard IAS 39, Financial Instruments: Recognition and Measurement, replacing the current classification and measurement criteria for financial assets and liabilities with only two classification categories: amortized cost and fair value. IFRS 9 is mandatory for annual periods beginning on or after January 1, 2018.

IFRS 15 Revenue from Contracts with Customers provides a single principle-based framework to be applied to all contracts with customers. IFRS 15 replaces the previous revenue standard IAS 18, Revenue, and the related Interpretations on revenue recognition. The standard scopes out contracts that are considered to be lease contracts, insurance contracts and financial instruments. The new standard is a control-based model as compared to the existing revenue standard which is primarily focused on risks and rewards. Under the new standard, revenue is recognized when a customer obtains control of a good or service. Transfer of control occurs when the customer has the ability to direct the use of and obtain the benefits of the good or service. This standard is effective for reporting periods beginning on or after January 1, 2018.

IFRS 16 Lease replaces IAS 17 – Leases and requires lessees to account for leases on the statement of financial position by recognizing a right to use asset and lease liability. The standard is effect for annual reports beginning on or after January 1, 2019, with earlier adoption permitted.

4. REVERSE TAKE-OVER TRANSACTION WITH CLEAR BLUE TECHNOLOGIES INC.

Subsequent to the year-end on July 13, 2018, the Company completed a business combination with Clear Blue Technologies Inc. (“Clear Blue”) pursuant to the terms of an amalgamation agreement dated April 25, 2018 (“Transaction”). Pursuant to the terms of the Transaction, Clear Blue and 2621388 Ontario Ltd. (wholly-owned subsidiary of the Company formed subsequent to the year-end), amalgamated to create a new private company named Clear Blue Technologies Inc., which continued as a wholly owned subsidiary of Clear Blue Technologies International Inc. (formerly Dagobah Ventures Ltd.). As a result of the Transaction, 30,289,802 common shares of the Company were issued to the former shareholders of Clear Blue.

In connection with this transaction, the Company lent Clear Blue \$280,000 as a loan receivable during the year. This loan is unsecured, non-interest bearing and is due upon demand. During the year ended April 30, 2018, Clear Blue repaid \$40,000. The loan receivable balance is \$240,000 (April 30, 2017 – \$Nil) as at April 30, 2018.

Clear Blue Technologies International Inc.
(formerly Dagobah Ventures Ltd.)

Notes to the Financial Statements

For the Year Ended April 30, 2018 and 2017

(Expressed in Canadian dollars)

5. SHARE CAPITAL AND RESERVES

- a. Authorized: unlimited Class A Common shares without par value; and unlimited Class B Preferred shares without par value.

- b. Issued and Outstanding:

On November 22, 2017, the Company closed a non-brokered private placement of 3,550,000 common shares at a price of \$0.10 per share for gross proceeds of \$355,000. In connection with this offering, the Company received \$8,000 as a share subscription received.

On May 25, 2017 the Plan of Arrangement as between the Company and UWO Consulting Ltd. completed, pursuant to which 1,010,549 shares of were issued to the UWO Consulting Ltd. shareholders in exchange of \$1,000 transferred to the Company.

One common share was issued by the Company at \$1.00 per common share on November 11, 2014 to the incorporator (UWO). This share was cancelled during the year ended April 30, 2018.

6. CAPITAL DISCLOSURES

The Company's objectives when managing capital are to safeguard its ability to continue as a going concern, so that it can provide returns for shareholders and benefits for other stakeholders. The Company considers the items included in shareholders' equity and cash as capital. The Company manages the capital structure and makes adjustments to it in response to changes in economic conditions and the risk characteristics of the underlying assets. The Company's primary objective with respect to its capital management is to ensure that it has sufficient cash resources to fund the commercialization of the licensed proprietary asset. To secure the additional capital necessary to pursue these plans, the Company intends to raise additional funds through the equity or debt financing. The Company is not subject to any capital requirements imposed by a regulator.

7. FINANCIAL INSTRUMENTS AND CAPITAL RISK MANAGEMENT

	Ref.	April 30, 2018	April 30, 2017
		\$	\$
Other financial assets	a	240,800	1
Other financial liabilities	b	27,478	2,000

- a. Comprises cash and short-term loan receivable.
b. Comprises accounts payable.

The fair value of cash is determined based on Level 1 inputs which consist of quoted prices in active markets for identical assets. As at April 30, 2018, the Company believes that the carrying values of the loan receivable and accounts payable approximate the fair values because of their nature and relatively short maturity dates or durations.

Clear Blue Technologies International Inc.

(formerly Dagobah Ventures Ltd.)

Notes to the Financial Statements

For the Year Ended April 30, 2018 and 2017

(Expressed in Canadian dollars)

Management of Industry and Financial Risk

The Company is in the business of consulting on capital markets, deal structuring, venture capital and corporate advisory. The Company's financial instruments are exposed to certain financial risks, which include the following:

Credit risk

Credit risk is the risk of loss due to the counterparty's inability to meet its obligations. The Company's exposure to credit risk is on its cash and other receivables. Risk associated with cash is managed through the use of major banks which are high credit quality financial institutions as determined by rating agencies. Other receivables comprise sales tax refunds from the Canadian federal government.

Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulties in meeting obligations when they become due. The Company ensures that there is sufficient capital in order to meet short-term operating requirements, after taking into account the Company's holdings of cash. The Company's cash are held in corporate bank accounts available on demand. Liquidity risk has been assessed as being high.

Market Risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: currency risk, interest rate risk and price risk.

Currency Risk

The Company is subject to normal market risks including fluctuations in foreign exchange rates and interest rate. While the Company manages its operations in order to minimize exposure to these risks, the Company has not entered into any derivatives or contracts to hedge or otherwise mitigate this exposure.

Interest Rate Risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates.

Price Risk

The Company is exposed to price risk with respect to equity prices. Price risk as it relates to the Company is defined as the potential adverse impact on the Company's ability to raise financing due to movements in individual equity prices or general movements in the level of the stock market. The Company closely monitors individual equity movements and the stock market to determine the appropriate course of action to be taken by the Company.

Capital management

The Company's policy is to maintain a strong capital base so as to maintain investor and creditor confidence and to sustain future development of the business. The capital structure of the Company consists of components of shareholders' equity. There were no changes in the Company's approach to capital management during the year. The Company is not subject to any externally imposed capital requirements.

Clear Blue Technologies International Inc.**(formerly Dagobah Ventures Ltd.)**

Notes to the Financial Statements

For the Year Ended April 30, 2018 and 2017

(Expressed in Canadian dollars)

8. RELATED PARTY TRANSACTIONS

Compensation paid or payable to the directors, the Chief Executive Officer and the Chief Financial Officer for services provided during the years ended April 30, 2018 and 2017 was as follows:

	April 30, 2018	April 30, 2017
	\$	\$
Consulting fees	43,103	-
Professional fees	1,050	-
	44,153	-

As at April 30, 2018, accounts payable and accrued liabilities include an amount of \$6,300 (April 30, 2017 – \$Nil) due to officers of the Company and/or companies controlled by officers of the Company.

9. INCOME TAXES

A reconciliation of income taxes at statutory tax rates is as follows:

	April 30, 2018	April 30, 2017
Loss for the year	\$ (148,678)	\$ (2,000)
Statutory tax rate	26.00%	26.00%
Expected recovery of income taxes	(38,656)	(520)
Change in benefit not recognized	38,656	520
Deferred income tax recovery	\$ -	\$ -

The significant components of the Company's temporary differences, unused tax credits and unused tax losses that have not been included on the statements of financial position are as follows:

	April 30, 2018	April 30, 2017
Non-capital losses	\$ 39,176	\$ 520

Losses in Canada that reduce future income for tax purposes expire as follows:

2037	\$ 2,000
2038	148,678
	\$ 150,678
